Victories Against Anti-Pesticide Terrorists Demonstrate
The Real Trends AGAINST Pesticide Bans.

Across North America, Government Officials are no longer
readily jumping in favour of Anti-Pesticide PROHIBITION.

Anti-Pesticide Lunatic-Terrorists who seek to IMPOSE
PROHIBITION want to DESTROY Modern Professional Pesti-
cide Applicator and Manufacturer Industries.

There are dozens of jurisdictions that STOPPED or RE-
SCINDED or LIMITED Anti-Pesticide PROHIBITION, or
granted Professional Lawn Care Businesses with an EX-
CEPTION STATUS.

These jurisdiction have KEPT CHILDREN SAFE.

WITH PESTICIDE BANS, children are AT HIGH RISK of SLIPPING AND TRIPPING and becoming SERIOUSLY HURT.

Without conventional pest control products, playing surfaces become THIN AND YELLOW, and OVER-RUN WITH WEEDS and INFESTED WITH INSECTS, resulting in the DISMAL DESTRUCTION OF TURF PLAYING SURFACES.

Pest control products PREVENT SLIPPING AND TRIPPING INJURIES and KEEP CHILDREN SAFE.

CHILDREN NEED TO BE KEPT SAFE WITH REAL TRENDS AGAINST ANTI-PESTICIDE PROHIBITION —

Victory In Winkler, Manitoba

Winkler is a small city with a population of over 10,000 located in Southern Manitoba.

It is Manitoba's sixth-largest city, and the second fastest growing city out of nine in the province.

Winkler's Mayor is making it quite clear he is OPPOSED TO THE IDEA OF A PROVINCE-WIDE PROHIBITION against the use of pest control products in the Urban Landscape.

Provincial Conservation Minister Gord Mackintosh has indicated that PROHIBITION could be in place by early 2013.

WHO CAN AFFORD THIS #@!!% BAN NONSENSE ?!?!

Pesticide Bans Lead To Stunningly Exorbitant Costs Of Maintenance For Municipalities

Mayor Martin Harder says if that type of legislation came into effect, it would essentially mean that the City of Winkler has WASTED TENS OF THOUSANDS OF DOLLARS OVER THE YEARS BEAUTIFYING THE COMMUNITY.

According to Mayor Harder —

WE SPENT A MILLION AND A HALF DOLLARS creating a park that is a park of beauty.

Victory In Winkler, Manitoba (continued)

WE SPEND FIFTY PLUS THOUSANDS DOLLARS a year beautifying the city throughout with the flowers in the spring.

There's HUNDREDS OF HOURS WORTH OF VOLUNTEER TIME that goes into that initiative, and we have a beautiful place.

And to see that GO TO WASTE, the MILLIONS OF DOLLARS THAT WILL GO TO WASTE with this RIDICULOUS BAN on chemical use.

Real Trends AGAINST Pesticide Bans

Across Western Canada, Government Officials are no longer readily jumping in favour of Anti-Pesticide PROHIBITION.

The City of Winkler is one of many jurisdictions in Western Canada that have STOPPED or RESCINDED or LIMITED or OPPOSED Anti-Pesticide PROHIBITION, or granted Professional Lawn Care Businesses with an EXCEPTION STATUS —

Alberta (Province), Altona (Manitoba), Beaumont (Alberta), British Columbia (Province), Calgary (Alberta), Campbell River (British Columbia), Edmonton (Alberta), Kamloops (British Columbia), Kelowna (British Columbia), Merritt (British Columbia), Portage La Prairie (Manitoba), Regina (Saskatchewan), Rossland (British Columbia), Salmon Arm (British Columbia), Steinbach (Manitoba), Vernon (British Columbia).

Victories In Winkler AND Altona, Manitoba (continued)

Pesticide Bans Lead To Garbage Dump Green Spaces

WHO WANTS TO LIVE IN #@!!% PEST-INFESTED GARBAGE DUMPS ?!?!

Mayor Harder has visited communities where bans are in place, and feels they have had a DEVASTATING EFFECT.

According to Mayor Harder —

It just DOESN'T LOOK APPEALING AT ALL.

We have a great opportunity for tourism in Manitoba, but if the beauty of our communities is DESTROYED [by pesticide bans], the community won't get those tourism dollars either.

It's just not right.

Harder feels, if the Manitoba's Anti-Pesticide PROHIBITION is put in place, it would ultimately mean the TENS OF THOUSANDS OF DOLLARS the city has spent over the years beautifying the community WOULD GO TO WASTE.

Town Of Altona Also OPPOSES PROHIBITION

Mayor Harder has spoken with the local Association of Manitoba Municipalities representative Melvin Klassen, Mayor of the Town of Altona.

The Mayor of Altona is also strongly opposed to PROHIBITION against the use of pest control products in the Urban Landscape.

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

NORAHG

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUICIDAL ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, LIES, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green space under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry; they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grass, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of SUICIDE.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemical fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, a workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Sheldar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions
