VICTORY AGAINST TERRORISTS — •

Durango City Council Unanimously Rejects Anti-Pesticide PROHIBITION In 5-0 Vote

The City of Durango is located in the State of Colorado, with a population of almost 17,000.

Minutes before midnight on August 21st, 2012, the Durango City Council VOTED UNANIMOUSLY 5-0 TO REJECT A PETITION-DRIVEN ORDINANCE TO LIMIT THE USE OF SYNTHETIC PESTICIDES AND CHEMICAL FERTILIZERS on city parks and property.

City Council said the ordinance (a.k.a. Anti-Pesticide PROHIBITION) was TOO AMBIGUOUS AND UNWORKABLE as written.

City Councillors and City Staff URGED THE LUNATICS TO CONSIDER A MORE COLLABORATIVE APPROACH IN DRAFTING ANOTHER ORDINANCE with various stakeholders, such as representatives for the Hillcrest Golf Course and Professional Lawn Care companies.

Unless withdrawn by the Anti-Pesticide Terrorist Organization called Organically Managed Parks Team Durango, the proposal to IMPOSE so-called ORGANIC PESTICIDE-FREE MAINTENANCE for city-owned property will go before the voters in November 2012.

After the meeting, members of the Anti-Pesticide Terrorist Organization said they would have to discuss the issue before making a decision.

Victory

During the meeting, Anti-Pesticide Lunatic Katrina Blair expressed **MOCK-IMPATIENCE** by saying that she was uninterested in waiting two to five years so a consensus can be reached while city properties continued to be sprayed with pest control products.

Councilor Dick White said he was sympathetic to the cause, but said he **COULD NOT SUPPORT ANTI-PESTICIDE PROHIBITION** as it was written.

City Manager Ron LeBlanc said he would not know how to take direction from the **PROPOSED PROHIBITION** because it was **TOO AMBIGUOUS**.

Officials wondered how they would spray for **MOSQUITOES**.

They brought up **LEGAL LIABILITIES** since the city would be **OPEN TO LITIGATION** for failing to enforce regulations.

LeBlanc used the example of a downtown business owner pouring a fertilizer into a city-owned planter on the sidewalk — LeBlanc then questioned whether the city would be liable for the business owner's action.

Mayor Doug Lyon **REJECTED THE PROPOSED PROHIBITION FOR LACK OF MERIT**.

Mayor Lyon **REJECTED THE FEARS OF PEST CONTROL PRODUCTS** as threats to the public health and the environment by publicly reading aloud from web-sites for the Environmental Protection Agency and Health Canada that have approved pest control products for public use.

Lyon acknowledged that pest control products are one of those issues in which **NEITHER SIDE WILL EVER BE ABLE TO CONVINCE THE OTHER SIDE**

Selected and Adapted Excerpts

Concerns About Cost, Liability, and Doubts About Effectiveness

On August 21st, 2012, Durango City Councilors listened to a three-hour debate involving science and calls for decisive action to save the environment to persuade them to IMPOSE Anti-Pesticide PROHIBITION against the use of pest control products in the Urban Landscape.

Anti-Pesticide Lunatic Katrina Blair ATTEMPTED TO DECEIVE CITY COUNCLLORS BY ALLEGING THAT OTHER JURISDICTIONS HAVE SUCCESSFULLY ADOPTED SIMILAR ORDINANCES, such as Boulder, Colorado.

Cathy Metz, the city's Director of Parks and Recreation, noted the ABUNDANCE OF WEEDS in Boulder parks when relying on so-called ORGANIC PESTICIDE-FREE MAINTENANCE.

According to Metz —

I don't think Boulder is the example we want to follow.

They get COMPLAINTS every year about dandelions.

A broad COALITION representing the San Juan Basin Health Department, Hillcrest Golf Course, Professional Lawn Care companies, supporters of playing fields and city staff came out AGAINST THE PROPOSED PROHIBITION.

The COALITION cited high costs, legal liabilities of the PROHIBITION, unintended consequences, and doubts about whether so-called ORGANIC PESTICIDE-FREE MAINTENANCE is effective.

Scott Craig of Animas Valley Arborists thought it was wrong to limit city options for treating pests.

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

NORAHG

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FA SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green space under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS!

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizer and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, a workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver Fraser Valley region • with Dr. Peter Deroeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scab as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined in pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
