Overview from an Independent Perspective

Prince Edward Island (PEI or P.E.I.) is a Canadian Atlantic province consisting of an island of the same name, as well as other islands. This maritime province is the smallest in the nation in both land area and population (excluding the territories). The island has a few other names : " *Garden of the Gulf* ", referring to the pastoral scenery and lush agricultural lands throughout the province; and " *Birthplace of Confederation* ", referring to the Charlottetown Conference in 1864. Prince Edward Island has about 122,000 residents. The island was named for Prince Edward, Duke of Kent and Strathearn (1767–1820), the fourth son of King George III and the father of Queen Victoria.

There are three Environmental–Terror–Organizations operating in Prince Edward Island : Canadian Cancer Society, Green Party, and Sierra Club.

Environmental–Terrorism is being stopped elsewhere in Canada. In January 2010, the Green Space Industry outlined the list of charges against the Government of Ontario and Enviro–Maniac–Government–Officials working in the Ministry of the Environment. Additionally, individual Enviro–Maniac–Members of known Environmental–Terror–Organizations are also facing charges of FRAUD under the Criminal Code.

Additionally, Dow AgroSciences has gone ahead with a threatened suit against the federal government under the North American Free Trade Agreement (N.A.F.T.A.), seeking a repeal of Quebec's prohibition of **FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE** conventional pest control products containing 2,4–D, and demanding at least **TWO MILLION DOLLARS IN DAMAGES**.

Atlantic Canada Conspiracy to Prohibit Pest Control Products

P.E.I. PESTICIDE BAN

March 22nd, 2010

CBC News

P.E.I.'s pesticide ban — which comes into effect April 1 — differs from legislation proposed in [the nearby Province of] Nova Scotia, meaning a different set of lawn care products could be sold on either side of the Northumberland Strait.

P.E.I.'s banned list includes more than 240 products, many of which contain the chemical 2,4-D. It also includes any pesticide sold in concentrated or granular form.

The legislation mirrors a similar ban in [the adjoining Province of] New Brunswick.

<< *The list is a good start, but it's too short,* >> said Tony Reddin, P.E.I. spokesman for the Sierra Club of Canada.

BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE — Sierra Club of Canada is the militant shield organization for Green Party of Canada. Sierra's headquarters is in Ottawa, and it appears to be run mostly by students. Sierra Club of Canada was established in 1989 by Elizabeth May, the current leader of Green Party of Canada. When you vote for Green, you vote for Sierra. Miss May is also an Honourary Director of Prevent Cancer Now, another militant Environmental-Terror-Organization.

Prince Edward Island

Part 2

Atlantic Canada Conspiracy to Prohibit Pest Control Products

Sierra, along with Canadian Association of Physicians for the Environment (C.A.P.E.), Canadian Cancer Society (C.C.S.), Federation of Canadian Municipalities, Nature-Action Quebec, and World Wildlife Fund (W.W.F.), were among the prominent supporters of the prohibition of so-called cosmetic pesticides in the Province of Quebec. NOT A SINGLE PERSON at Sierra has ANY recognized expertise, training or background in matters concerning pest control products !

Reddin wants to know when the P.E.I. government will ban more chemicals or, he said, << *We think the better choice would be to base the restrictions on a list of substances that would be allowed. That would be much easier to keep track of, instead of trying to continually add to a list.* >>

The province has held public consultations based on a plan similar to the pesticide bylaw in Halifax [a city in the Province of Nova Scotia]. This includes a relatively short list of organic ingredients that are allowed, including corn gluten and insecticidal soaps. Everything else is banned.

BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE — Prohibition has SEVERELY HARMED the Modern Professional Lawn Care Industry in the City of Halifax, located in the Province of Nova Scotia ! Because of the prohibition, REVENUES PLUMMETED BY FORTY PER CENT with most of the Professional Lawn Care companies, and it has taken them five years to « *recover* » from the hardship and losses ! Because of the prohibition, CUSTOMERS HAVE DISINTEGRATED BY FIFTY PER CENT, even after a so-called « *recovery* » period of several years !

The needless prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE conventional pest control products appear to favour some questionable alternative products. A MAJORITY of these BOGUS Green Alternatives have negatives ranging from almost TOTAL INEFFECTIVENESS except under very specific circumstances, to a question about their TOXICITY.

Prince Edward Island

Part 2

Atlantic Canada Conspiracy to Prohibit Pest Control Products

<< *As companies create new products, the onus is on them to prove that they're safe and it prevents new innovations and chemicals that could be dangerous from automatically being okayed,* >>
said Chris Benjamin, spokesman for the Ecology Action Centre in Nova Scotia.

BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE — Chris Benjamin is an Enviro-Maniac-Activist who writes on behalf of Pesticide Free Nova Scotia, which is a club with a mere four dozen individuals that conspire to ANNIHILATE the entire Modern Green Space Industry with the NEEDLESS, SENSELESS, and MALICIOUS prohibitionist policies leading to LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting TERROR, DESPAIR, and DESTITUTION on THOUSANDS of hapless victims throughout the Green Space Industry. Benjamin has absolutely NO recognized expertise, training or background in matters concerning pest control products ! Consequently, his opinions on this subject are VALUELESS and WORTHLESS.

Enviro-Maniac-Activists are frequently ONLY able to provide information based upon JUNK SCIENCE instead of SOUND SCIENCE ! Conventional pest control products are SCIENTIFICALLY SAFE ! Overall, when they are used properly, there are NO harmful irreversible effects to health and the environment !

Some of the organic products approved by the City of Halifax are on P.E.I.'s list of banned substances because they're sold in concentrated or granular form. P.E.I.'s environment minister Richard Brown [...] has said in the past he wanted **all three** Maritime provinces to bring in similar bans.

BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE — The Maritime provinces, also called the Maritimes or the Canadian Maritimes, is a region of Eastern Canada consisting of three provinces : New Brunswick, Nova Scotia, and Prince Edward Island. On the Atlantic coast, the Maritimes are a sub-region of Atlantic Canada.

A man with a distressed expression, wearing a striped shirt, stands in a field. In the background, a train is visible on a track, emitting dark smoke into the sky.

*... You P.E.I.
people are just
dummer than a
bag of hammers !*

The following prediction is based upon the fact that Health Canada has declared that those pest control products used by the Green Space Industry are legal, safe, and effective.

**Prince Edward Island and
Enviro-Maniac-Members of known
Environmental-Terror-Organizations
will now be liable
for damages worth**

tens of millions of dollars !

Background Information from an Independent Perspective

THE BEGINNING OF THE END OF THE GOLF INDUSTRY'S TOTAL EXCEPTION STATUS ACROSS CANADA

The Government of Prince Edward Island (P.E.I.) stopped short of proposing a TOTAL prohibition of pest control products. So-called controversial ingredients, such as 2,4-D, would still be allowed for use by the Golf Industry, but Prince Edward Island has indicated that the Golf Industry Exception Status will eventually be REVOKED .

Here is what the Government of Prince Edward Island said —

<< We're allowing it on golf courses because it's a major industry for P.E.I. and we're working towards getting off it. >>

<< What we're basically saying is you [the Golf Industry] better find a way to get off it over the next couple of years. >>

Prince Edward Island

Part 2

Atlantic Canada Conspiracy to Prohibit Pest Control Products

Prohibitionist-Enviro-Maniac-Government-Officials in many jurisdictions across Canada want to SPECIFICALLY ENSURE that the Golf Industry NO LONGER benefits from ANY exceptions to any legislation prohibiting pest control products.

Prohibitionist-Enviro-Maniac-Government-Officials understand full well that THERE IS NO UNITY within the Green Space Industry.

Soon after the taste of victory with the obliteration the Professional Lawn Care Industry in many jurisdictions across Canada, it was just a matter of time before the HATED Golf Industry was specifically targeted in the next round of attacks. Now, the Golf Industry is totally alone, and devoid of any allies to help defend itself.

When prohibition was imposed in the Province of Ontario, the leadership of the Golf Industry, because of its attitude of denial and protectionism and mock-dismay at any form of criticism, refused to join forces with the Professional Lawn Care Industry, and litigate against the forces of Environmental-Terror.

Prohibitionist-Enviro-Maniac-Government-Officials are NO LONGER intimidated by the obviously WEAK and IMPOTENT Golf Industry, which is now beginning to LOSE its TOTAL exception status in the Province of Prince Edward Island.

Across Canada, it is now assured that the Golf Industry will have its exception status TOTALLY REVOKED within less than two to four years.

Prince Edward Island

Part 2

Atlantic Canada Conspiracy to Prohibit Pest Control Products

Observers are particularly disappointed with Canadian Golf Superintendents Association (C.G.S.A.). This trade association has yet again failed its members. Instead, it prefers to Wag The Dog by generating pointless policy papers, and by addressing irrelevant issues such as « *saving* » quintozene.

The fault is not just with C.G.S.A.

Here are examples of all those who have FAILED the Golf Industry so far ...

- x **FAILURE** : Canadian Golf Superintendents Association (C.G.S.A.)
- x **FAILURE** : National Golf Course Owners Association Canada (N.G.C.O.A.)
- x **FAILURE** : Royal Canadian Golf Association (R.C.G.A.)

◆ R.C.G.A. FINANCES TERROR :

The highest grade of « *failure* » must be given to Royal Canadian Golf Association for its programs that provide financial support to Environmental-Terror-Organizations, such as those that are influencing events in Prince Edward Island.

Prince Edward Island

Part 2

Atlantic Canada Conspiracy to Prohibit Pest Control Products

◆ WARNING :

Once Prohibitionist–Enviro–Maniac–Government–Officials in Prince Edward Island are successful in TOTALLY REVOKING the Golf Industry Exception ...

... once other Canadian jurisdictions realize that it can easily inflict Environmental–Terror on the Golf Industry with little or no resistance, Enviro–Maniac–Government–Officials will then proceed to ASSAULT and RAPE the Golf Industry on a larger scale.

After the rape and assault of the Golf Industry
in the Province of Prince Edward Island ...

Enviro–Terror against Golf will next spread to ...

- the remaining Atlantic Provinces.
- and then the Province of Ontario.
 - the Province of Quebec.
 - and then British Columbia.
- and then the Prairie Provinces.

Prohibition in Prince Edward Island marks THE BEGINNING OF THE END of the Golf Industry's Total Exception Status across Canada. Enviro–Terror NEVER ends, but neither does the ineptitude of the Golf Industry leadership.

NORAHHG

FORCE OF NATURE was launched for continuous transmission on the Internet on January 1st, 2009. It is a series of newsletters destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events with commentary. The Whole Truth From An Independent Perspective !

Force Of Nature is the brainchild of William H. Gathercole and his entourage. Norah G is actually an acronym for the stable of anonymous producers and writers that contribute to this newsletter and have now replaced Mr. Gathercole. They consist of people from the following industries : Distribution, Fertilizer, Golf, Lawn Care, Manufacturing, Municipal, Nursery, and Orchard. Many of these people are leaders in their own industries. The opinions expressed in Force Of Nature, even though from an INDEPENDENT PERSPECTIVE, may not reflect those of everyone in the Green Space Industry. Force Of Nature may sometimes be very irreverent and fearless with these newsletters. Although Force Of Nature appears to be Anti Environment Movement, it is, in fact, simply a strong advocate FOR the Modern Green Space Industry. However, this position has not precluded Force Of Nature from criticizing the Green Space Industry itself.

William H. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF and PROFESSIONAL LAWN CARE, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority. Mr. Gathercole is now retired from Force Of Nature, although his name continues to appear as the founder.

Mr. Gathercole followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. His involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of Environmental Terror for the entire Modern Green Space Industry across Canada. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status, that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental issues is UNDENIABLE. (Hopefully !)

Force Of Nature is the instrument of National Organization Responding Against Huje that seek to TERRORIZE, HARM, and THREATEN the Green Space Industry (NORAHG) by routinely concocting FEARMONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are designed to SCAM and DECEIVE the public into believing that families are in some NONEXISTENT danger with conventional pest control products. They also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE conventional pest control products. Enviro Maniac Activists are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding alleged culprits accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry. Their pretentious prohibitionist rants has created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterds is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry. Additionally, Force Of Nature inspires people to believe that ENVIRONMENTAL TERRORISM can be STOPPED ! The events, characters, companies, and organizations, depicted in this document are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All document excerpts and pictures contained in Force Of Nature were found somewhere on the Internet. These documents and pictures are in the public domain, serving one of the following purposes : archive, education, promotion, publicity, or press release.

The following Force Of Nature documents are currently available — • A Look At • Alberta Conspiracy • British Columbia Conspiracy • Canadian Association of Physicians for the Environment • Canadian Cancer Society • Canadian Environmental Law Association • Consequences • David Suzuki Foundation • Dating Services for Enviro Maniacs • DDT and Politicized Science • Death and the Environmental Terror Movement • Enviro Money • Environmental Terrorists Unmasked • Fertilizer Terror • June Irwin, the Clown of Junk Science • Kazimiera Jean Cottam • Landscape Trades Capitulate • Lying Sac of Enviro-Maniac Cwap • Needless Hysteria • New Brunswick Conspiracy • Newfoundland Conspiracy • Nova Scotia Conspiracy • Ontario Conspiracy • Organic Fertilizers • Paranoid Theories • Pesticide Free BC • Pets and Lawn Care Chemicals • Positive Waves • Prince Edward Island Conspiracy • Quebec Conspiracy • Rachel Carson, the Queen of Junk Science • Reining a Terrorist Reaction • Salmon Arm BC Conspiracy • The 9/11 Era of the Green Space Industry • The Bin Laden of Enviro Terror, Paul Tukey • The Failure of Integrated Pest Management • The Looming Golf Industry Shipwreck • The Industry Strikes Back • The Misconceptions About Cancer • The National Annihilation of the Modern Green Space Industry • The Wisdom of Bill Bell • The Wisdom of Drysdale • The Wisdom of Health Canada • The Wisdom of Holland • The Wisdom of Lowes • The Wisdom of Mains • The Wisdom of the Solomons • Ask For a Copy of Any Back Issue of Force Of Nature Today.
