Victory

NO Pesticide Ban In Regina

The City of Regina has DROPPED the proposal for Anti-Pesticide PROHIBITION.

Earlier in 2012, the city's Environment Advisory Committee has considered calling for PROHIBITION.

The committee says it heard from business owners worried about how the ban might affect the local Professional Lawn Care Industry.

Others argued that Anti-Pesticide PROHIBITION would be TOO DIFFICULT TO ENFORCE, or would be AN INFRINGEMENT ON PEOPLE'S PERSONAL CHOICE.

According to Regina's Environment Advisory Committee —

In light of the information, the presentations, and strong public and stakeholder feeling, the committee does not feel it appropriate to recommend that the city adopt a by-law restricting the cosmetic or non-essential use of pesticides.

Regina is the capital city of the Canadian Province of Saskatchewan with a population of less than 200,000.

It is the second-largest city in the province (after Saskatoon), as well as a cultural and commercial centre for Southern Saskatchewan.

Regina has an abundance of parks and recreational spaces — all of its trees — some 300,000 — as well as shrubs and other plants, were hand-planted.

Prohibition **REFUSED** by Regina

Instead of a city-wide PROHIBITION, the committee wants the City of Regina to adopt a policy of AVOIDING the use of pest control products on its own lands.

It says the city should « *encourage* » residents not to use pest control products on their own lawns.

Nonetheless, PROHIBITION is NOT SUPPORTED by health and policy experts, and is NOT SUPPORTED by local residents.

Moreover, in jurisdictions outside of Regina, PROHIBITION DESTROYED public and residential green spaces by turning them into GARBAGE DUMPS.

Because of non-expert lunatics, Reginans would have lost their green spaces by living in the 9|11 Era of Anti-Pesticide Terrorism !

Selected and Adapted Excerpts

Victory

Pesticide Ban STOPPED

Anti-Pesticide Activists FALSELY ALLEGE that pest control products are somehow harmful to the environment and have been linked to cancer.

For twelve years, Canadian Cancer Society has been CONSPIRING to PROHIBIT pest control products in the Urban Landscape.

This CONSPIRACY has cost Canadian Cancer Society up to 5,000,000 DOLLARS.

This is despite the fact that pest control products are HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, SCIENTIFICALLY-SAFE, PRACTICALLY-NON-TOXIC, and CAUSE NO HARM.

HIRED-GUN LOBBYIST Sanela Begic expressed MOCK-INDIGNATION —

I'm not sure what's taking so long in this province to move on this issue. [?!?!]

Canadian Cancer Society says although there is NO DIRECT PROOF PESTICIDES CAUSE CANCER, the evidence linking the two is growing.

It is COMMON KNOWLEDGE that there are NO pest control products that are known or probable carcinogens.

Health Care Observers have expressed outrage over the MISAPPROPRIATION of donation money by Canadian Cancer Society.

In total, Canadian Cancer Society has spent between 2,500,000 to 5,000,000 DOLLARS on Anti-Pesticide CONSPIRACIES.

Canadian Cancer Society claims it fundraises for only one reason — to raise critical funds for its mission of eradicating cancer and improving the quality of life for those living with it.

Health Care Observers are concerned that the society is not living up to its mission, and the campaign money could have otherwise been used to save lives, prevent cancer, and help those who are living with the disease.

According to Dr. Len Ritter, the nation's leading expert in the field of toxicology and pesticide safety, pesticides do not cause cancer, and there is no increase in cancer deaths in Canada when you consider that the population is aging and increasing.

Victory

Pesticide Ban STOPPED

Nevertheless, Begic resorts to BASELESS FEAR-MONGERING in a clear attempt to NEEDLESSLY ALARM the public —

I'm afraid to see our cancer stats in 20 or 30 years when people start getting diagnosed with these illnesses. That's when we'll pay the price. [?!?!]

Begic is a LUNATIC-LIAR !

WHO NEEDS THIS #@!!% NONSENSE ?!?!]

In fact, it is INDISPUTABLE that pest control products are SCIENTIFICALLY SAFE, and NO HARM WILL OCCUR when they are used according to label directions.

Even Begic's organization, Canadian Cancer Society, states on several of its web-sites that scientific research does NOT provide a conclusive link between pest control products and cancer.

Nevertheless, HIRED-GUN LOBBYIST Sanela Begic CONSPIRES to IMPOSE a PROHIBITION against the use of pest control products under the PRETEXT of MOCK-CONCERNS regarding cancer.

Again ... Begic is a LUNATIC-LIAR !

PROHIBITION makes HIRED-GUNS like Sanela Begic become RICH !

Canadian Cancer Society actually has PAY-OFF PROGRAMS to REWARD those who CONSPIRE to PROHIBIT pest control products.

Anti-Pesticide HIRED-GUNS like Begic receive PAY-OFFS for CONSPIRING to PROHIBIT pest control products.

They receive PAY-OFFS in the form of an INCENTIVE OF 2,000 DOLLARS by Canadian Cancer Society for the ORGANIZATION OF EVERY ANTI-PESTICIDE FORUM.

Anti-Pesticide HIRED-GUNS receive PAY-OFFS in the form of a BONUS OF 1,000 DOLLARS by Canadian Cancer Society FOR EVERY PRESENTATION MADE TO EACH MUNICIPAL TOWN COUNCIL.

Anti-Pesticide HIRED-GUNS like Begic are also paid to make presentations to Government Officials, and are given a BOUNTY OF 5,000 DOLLARS by Canadian Cancer Society upon SUCCESSFUL PROHIBITION LEGISLATION within a community.

Victory

NO Pesticide Ban In Regina

There is NOT ONE KNOWN CANCER DEATH from the proper use of pest control products used in the Urban Landscape.

In fact, according to American Cancer Society, cancer rates and deaths are actually DROPPING.

Moreover, Canadian Cancer Society has NOT SPENT A SINGLE PENNY to research pest control products.

Begic and her buddies NEVER conducted ANY serious scientific study ... evidently because they are NOT COMPETENT OR MOTIVATED TO DO SO.

Neither Begic, nor anyone else at Canadian Cancer Society, COULD EVEN BE BOTHERED TO HAVE USED THE EXTENSIVE TOXICOLOGY DATABASE THAT IS AVAILABLE FROM HEALTH CANADA.

They are not only SCIENTIFICALLY IGNORANT, but also LAZY AND OBTUSE.

Nigel Bowles, Manager of the Saskatchewan Nursery Landscape Association, says there is NO LINK between cancer and pest control products, and all products have been evaluated as « *safe for use* » by Health Canada.

And overall, Anti-Pesticide HIRED-GUNS like Begic are PAID a BASE SALARY of OVER 40,000 DOLLARS PER YEAR, plus expenses, by Canadian Cancer Society, to COERCE, INTIMIDATE, and ALARM GOVERNMENT OFFICIALS.

Since 2005, OVER 30 HIRED-GUNS have been paid by Canadian Cancer Society to CONSPIRE TO PROHIBIT pest control products used in the Urban Landscape.

Observers estimate that these PAY-OFFS for Anti-Pesticide HIRED-GUNS have cost OVER 1,500,000 DOLLARS.

These Anti-Pesticide HIRED-GUNS will say ANYTHING in order to get their AWARDS and PAY-OFFS.

WHO NEEDS THIS #@!!% NONSENSE !?!?

Victory

Pesticide Ban STOPPED

According to Bowles ... « We have 350 scientists at the Pest Management Regulatory Agency whose sole job is to ENSURE HUMAN AND ENVIRONMENT SAFETY. That's their job. »

Begic is also DESPICABLE in her use of CHILDREN as WEAPONS OF COERCION AND ULTIMATE TERROR in order to promote Anti-Pesticide PROHIBITION —

Especially childhood cancers and also pet cancers. Kids crawl on our lawns. They put their fingers in their mouths. We need to do something to protect the kids in this province. [?!?!]

Again ... Begic is WRONG !

The safety assessments of pest control products by Pest Management Regulatory Agency of Health Canada (PMRA) and the U.S. Environmental Protection Agency (EPA) **DO** take children into consideration.

These assessments **DO** consider children's physiology, behaviours, and habits while playing on treated grass.

Moreover, there are **NO** valid reports of pest control product problems with children.

federally-approved pesticides*

DRAFT PROPOSED RECOMMENDATIONS REGARDING PESTICIDE USE IN REGINA RECOMMENDATIONS

- (1) The City of Regina adopt a policy of AVOIDING ~~cosmetic or non-essential~~ pesticide use in the management of lands owned or administered by the City.
- (2) The City encourage Wascana Centre Authority to also AVOID ~~cosmetic or non-essential~~ pesticide use in the management of lands under the jurisdiction of Wascana Centre Authority.
- (3) The City encourage residents to MINIMISE ~~cosmetic or non-essential~~ pesticide use on their own lands.
- (4) The City review the effectiveness of its pesticide policies after two years and continue or modify them as appropriate at that time.

Background and Discussion :

Concerns around pesticide use in urban areas centre around issues of possible risk to human health [?!?!], and possible environmental contamination of soil, water and air [?!?!], and to possible damage to biota beyond the pesticide-targeted species. [?!?!]

Victory

NO Anti-Pesticide By-Law

DRAFT PROPOSED RECOMMENDATIONS REGARDING PESTICIDE USE IN REGINA RECOMMENDATIONS (CONTINUED)

An increasing number of jurisdictions within Canada have curtailed the use of various pesticides for ~~non-essential~~ [?!?!] purposes in recent years.

These actions have sometimes taken place at the provincial level (as in Ontario, Quebec and the Atlantic provinces) or at the municipal level.

At present the City of Regina manages three parks on a PESTICIDE-FREE basis, but has no by-law in place with regard to pesticide use.

The City of Regina Environmental Advisory Committee considered whether the City should adopt a by-law eliminating the ~~cosmetic or non-essential~~ use of pesticides in the City.

The draft recommendation for a by-law to that end attracted numerous spirited presentations and submissions.

Those [Anti-Pesticide Lunatics] IN FAVOUR of the draft recommendation were [mock] concerned about ~~possible~~ health impacts of pesticide use in urban areas [?!?!], and with ~~possible~~ negative impacts to the environment of pesticide use [?!?!].

They maintained that the synergistic effects of multiple different pesticides are generally not tested for [?!?!], that the evidence of the negative consequences of ~~non-essential~~ pesticide use is increasing [?!?!], that children were at higher risk [?!?!], and that more and more jurisdictions were moving to restrict ~~non-essential~~ pesticide use.

Those AGAINST the draft recommendation stated that there is a functioning national framework in place for the approval of pesticides for use in Canada (Health Canada's Pest Management Regulatory Agency) and that pesticides approved through that framework are SAFE FOR USE (when used as directed).

Victory

Pesticide Ban STOPPED

DRAFT PROPOSED RECOMMENDATIONS REGARDING PESTICIDE USE IN REGINA RECOMMENDATIONS (CONTINUED)

Those [Anti-Pesticide Lunatics] AGAINST the draft recommendation were also concerned with possible NEGATIVE IMPACTS on local landscape care businesses.

Other concerns were that management of some areas without ~~non-essential~~ pesticides could be TOO COSTLY or IMPRACTICAL; that the by-law could be too difficult to enforce; that it would be an INFRINGEMENT ON PERSONAL CHOICE; and that the issue is better regulated at a federal or provincial level, i.e. not via a by-law.

In light of the information, the presentations, and STRONG PUBLIC AND STAKEHOLDER FEELING [and the threat of litigation], the Committee DOES NOT FEEL IT APPROPRIATE TO RECOMMEND THAT THE CITY ADOPT A BY-LAW RESTRICTING THE ~~cosmetic or non-essential~~ USE OF PESTICIDES.

Businesses and citizens SHOULD BE FREE TO CONTINUE TO USE FEDERALLY-APPROVED PESTICIDES.

However, the Committee does believe that REDUCTION of pesticide use within the City, so far as practicable, is an important objective, and that the City itself should model best possible practice, and that it can do more than it now does to this end.

Therefore, the Committee recommends that in its own management of City properties, the City should adopt a policy of AVOIDING ~~cosmetic or non-essential~~ pesticide use.

As working guidance on what is or is not cosmetic pesticide use, the City could follow a framework such as the Government of Ontario's Pesticide Classification Guidelines, or some other appropriate model.

Adopting the Committee's recommendations would not require a by-law, and would not infringe on private landholders' or businesses' use of pesticides.

The Committee recommends that after a TWO-YEAR PERIOD the City examine the success of the policy, and continue it or modify it as appropriate at that time.

Background Information from an Independent Perspective

The Government Officials in Regina are no longer as easily coerced into agreeing with ANTI-PESTICIDE CONSPIRACIES, since they have been warned in advance !

Regina Government Officials have seen what has been happening in Eastern Canada !

Regina Government Officials have seen Anti-Pesticide TERRORISM spread to their city and province !

Regina Government Officials are no longer willing to agree with ANTI-PESTICIDE CONSPIRACIES since conventional pest control products are known to be HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, SCIENTIFICALLY-SAFE, and PRACICALLY-NON-TOXIC.

Regina Government Officials also realize that NOT A SINGLE Anti-Pesticide Activists has ANY recognized expertise, training or background in matters concerning pest control products.

Many activists have made themselves VULNERABLE TO OFFICIAL SCRUTINY AND LEGAL ACTION.

Anti-Pesticide Activists CONCOCT IMAGINARY DANGER, MYTHS, DECEPTIONS, FEAR-MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, TERROR, and PARANOID CONSPIRACIES to SCAM Government Officials into agreeing with ANTI-PESTICIDE CONSPIRACIES.

Regina Government Officials have an ONUS OF RESPONSIBILITY to verify the JUNK SCIENCE INFORMATION that has been CONCOCTED by Anti-Pesticide Activists.

In several jurisdictions, local government has FAILED to base its decisions on SOUND SCIENCE.

Consequently, in provinces like Ontario, municipalities have been STRIPPED of their powers to PROHIBIT pest control products.

Regina Government Officials now understand that ANTI-PESTICIDE CONSPIRACIES will INFLICT CATASTROPHIC CARNAGE on local Professional Lawn Care businesses.

Moreover, Regina Government Officials realize that they are clearly NOT knowledgeable enough to legislate in support of ANTI-PESTICIDE CONSPIRACIES.

NORAHG

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FA SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green space under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS!

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The information presented in FORCE OF NATURE has been developed for the education and enterta
ment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in his
ry, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or co
pleteness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damage
lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on iss
such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgr
Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspa
across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO T
EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gath
cole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear
founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain univers
degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental mainten
and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilize
and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, prof
sional lawn care, distribution, environmental compliance, government negotiations, public affairs, a
workplace safety • supervisor, consultant, and, programmer for the successful execution of hundre
of thousands of management operations in the golf and urban landscape, as well as millions of pest co
trol applications • advisor, instructor, and trainer for thousands of turf and ornamental managers a
technicians • pesticide certification instructor for thousands of industry workers • founder of t
modern professional lawn care industry • prolific writer for industry publications and e-newsletters
first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouve
Fraser Valley region • with Dr. Peter Dermoeden, confirmed the presence of Take All Patch as a disea
of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Sc
as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid bei
subjected to anti pesticide prohibition • creator of the signs that are now used for posting after appli
cation • co-founder of annual winter convention for Quebec golf course superintendents • the major
fluence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils
the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec
retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding
Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists
the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined a
pesticide activists to provide peace and prosperity for the entire modern green space industry across Ca
ada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec
launched the largest founding professional lawn care business in Canada • quadrupled the busine
revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATU
and A LOOK AT reports.

The Whole Truth from an Independent Perspective
