- Steinbach (Manitoba)
- Vernon (British Columbia)

AND NOW ...

- **Saint John's (Newfoundland)**

— VICTORY AGAINST TERRORISTS

Proposed Road-Side Weed Control Prohibition Fizzles-Out

Proposed Road-Side Weed Control Prohibition Fizzles-Out

Saint John's is the capital and largest city in Newfoundland and Labrador, with a population of almost 200,000.

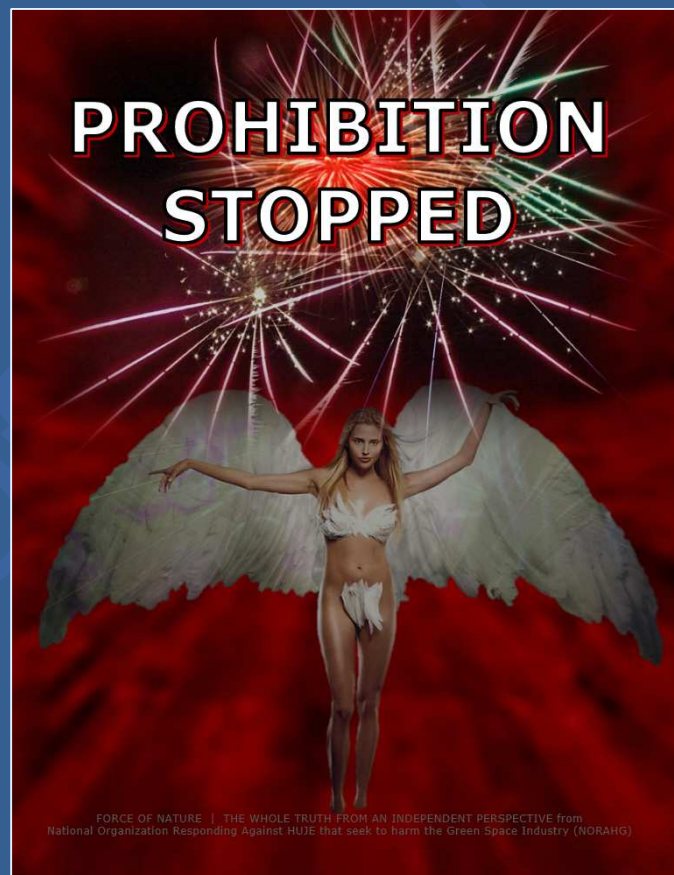

In early August 2012, the issue of pest control products became news over Tordon 101, a herbicide used along provincial road-sides.

Provincial Government Officials said the spraying was vital in order to improve visibility and to help prevent moose-vehicle collisions.

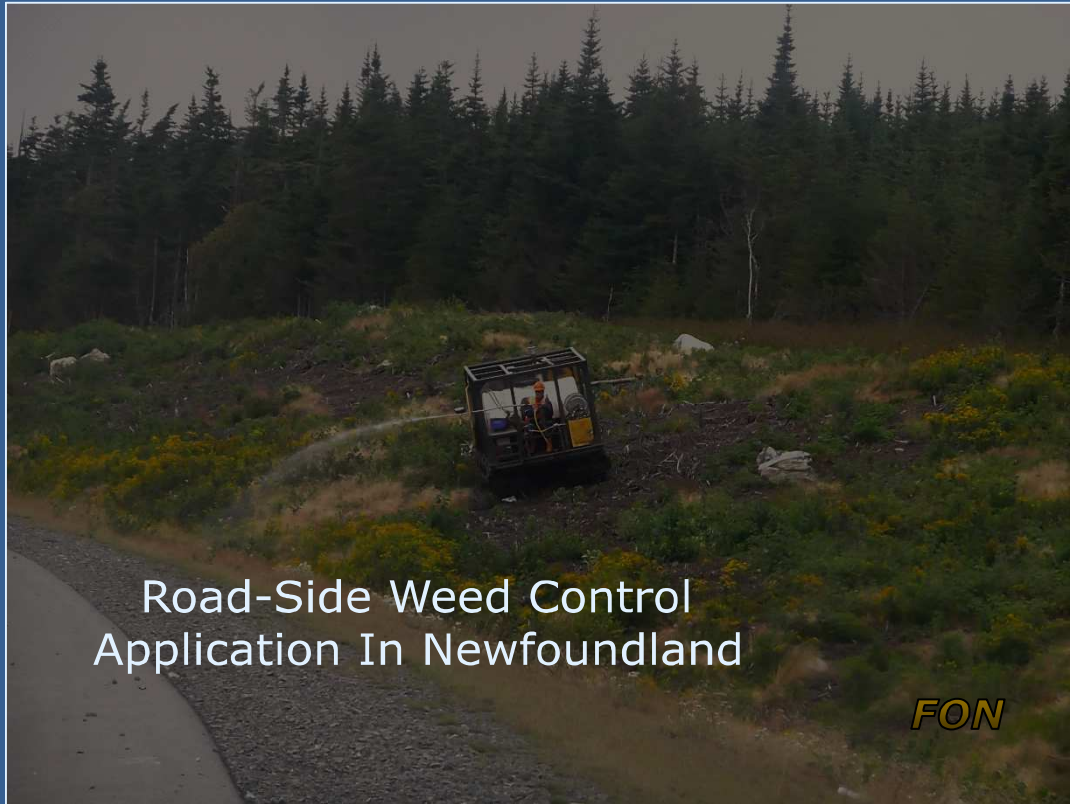

Newfoundland has come under fire from lunatics for suggesting that the chemicals used in spraying programs are **NO MORE DANGEROUS THAN SALT**.

Tordon 101 contains the active ingredient 2,4-D (2,4-dichlorophenoxyacetic acid), one of five pesticides **BANNED** for cosmetic use in the province.

Exceptions have been made for what Provincial Government Officials call non-cosmetic use, including golf courses, agriculture and forestry use, and road-side and infra-structure maintenance.

Proposed Road-Side Weed Control Prohibition Fizzles-Out (continued)

On September 4th, 2012, Saint John's City Councillors narrowly VOTED AGAINST a campaign to PROHIBIT against the all-out use of a chemical spray used to control brush along Newfoundland and Labrador's highways.

Nude-Artist and Anti-Pesticide Lunatic-Councillor Sheilagh O'Leary had proposed a resolution that would call on Municipalities Newfoundland and Labrador (MNL) to urge the province to PROHIBIT against the use of conventional herbicides, like Tordon 101, to kill road-side brush.

« Bring it before MNL so the entire province can have an opportunity to discuss it. And I think as the capital city of our province, of Newfoundland and Labrador, we should be taking leadership on this issue », O'Leary told council during its public meeting on September 4th, 2012.

Proposed Road-Side Weed Control Prohibition Fizzles-Out (continued)

The City of Saint John's does not use Tordon 101 on its own parks and facilities.

The province has, though, defended the use of Tordon 101 to control brush in order to prevent moose-vehicle collisions.

Several councillors DID NOT SHARE O'LEARY'S CONCERN.

After a tie vote, Mayor Dennis O'Keefe VOTED AGAINST THE PROPOSED PROHIBITION, bringing the vote to 5-4.

Councillor Wally Collins believes the dangers of Tordon 101 are being EXAGGERATED.

« *Out our way, we're using pesticides worse than [that]* », said Collins, who represents a largely agricultural part of the city.

« *You just heard Councillor O'Leary say they cause smaller babies [but] look at the farmers in our way, and none of them are too small ... I don't think they're very weak or dying of cancer, anymore than anybody else.* »

September 5th, 2012

CBC News

Selected and Adapted Excerpts

Victory Against Sheilagh O'Leary

The Saint John's decision means VICTORY AGAINST Anti-Pesticide Activists who serve as Elected Government Officials.

SHEILAGH O'LEARY is a Non-Expert Nude-Artist and Anti-Pesticide Lunatic-Councillor of the City of Saint John's.

O'Leary is listed among CANADA'S PROMINENT ANTI-PESTICIDE TERRORISTS.

She has been a PRINCIPAL ARCHITECT in the CONSPIRACY TO PROHIBIT pest control products used in the Urban Landscape.

Her ANTI-PESTICIDE TERRORIST ACTS OF SUBVERSION have EXTENSIVELY DAMAGED the Professional Lawn Care Industry.

O'Leary is DELUDED into believing that she knows better than Health Canada.

As a Nude-Artist, O'Leary is somehow uniquely qualified to rationally discuss pest control products.

She is also a founding member of the RADICAL and SUBVERSIVE Anti-Pesticide Organization called THE TORDON PLAYERS. (See later segment.)

O'Leary believes, and wants the public to believe, that Health Canada's assessment of pest control products is somehow erroneous and unreliable, because its endorsement is based on research it receives from the businesses that produce them.

Non-Expert O'Leary is apparently unfamiliar with the concept of independent third-party verification.

According to Health Canada, the manufacturers of pest control products submit their research data to its Pest Management Regulatory Agency, which then checks it against other research that has been conducted on the substance, to see if the company's safety claims are valid.

The U.S. Environmental Protection Agency and the World Health Organization use the same method.

O'Leary prefers to deal in politics rather than scientific facts.

Moreover, O'Leary has NO competent expertise, recognized training, or background, in matters concerning pest control products.

Nude-Artist &
Anti-Pesticide
Lunatic-Councillor

Victory Against Sheilagh O'Leary (continued)

O'Leary is blatantly and consistently **WRONG** with her opinions and recommendations.

O'Leary's expertise cannot be valid since her educational background is in **FINE ARTS**, and her work background is in **NUDE PHOTOGRAPHY**.

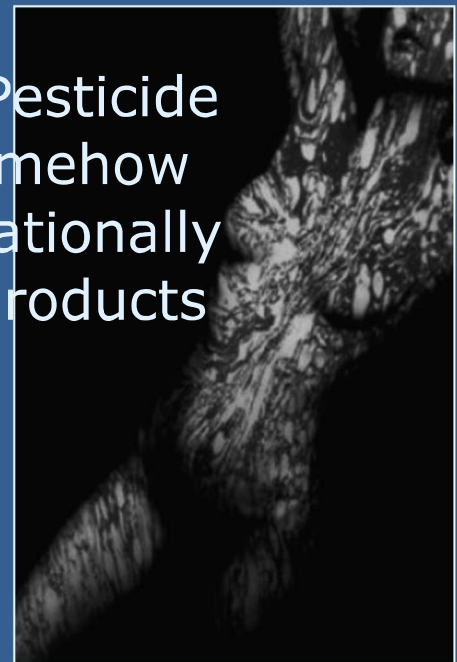

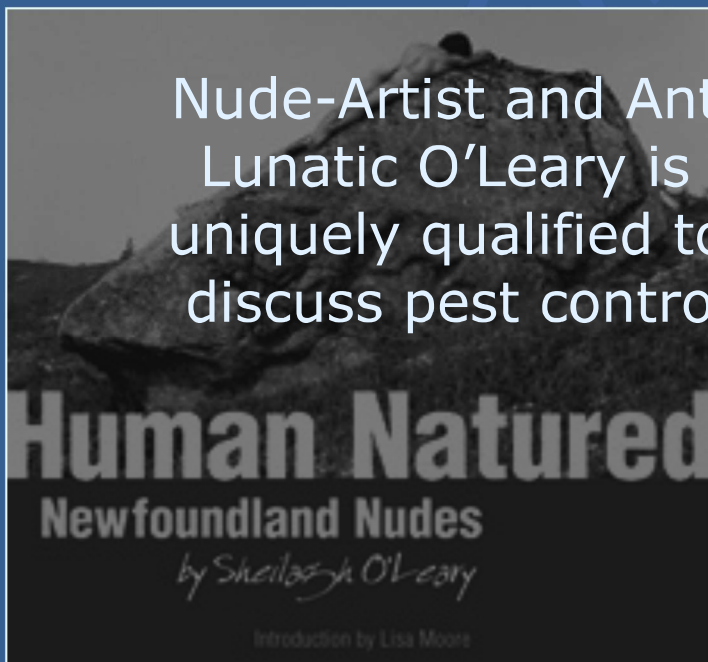

Overall, the opinions of O'Leary are **TOTALLY VALUELESS** and **UTTERLY WORTHLESS** in matters in matters concerning pest control products.

Health Canada, and **NOT** Sheilagh O'Leary, has **THE ESSENTIAL EXPERTISE** on the subject of pest control products.

O'Leary is **RIDICULOUSLY IMPLYING** that her **NON-EXPERT ASSESSMENT** is somehow being withheld from Health Canada and **EVERY** other regulatory agency in the world.

O'Leary is **NOT COMPETENT** to give advice !

According to observers, if you told O'Leary « *Being environmentally conscientious, I like to drink tap water rather than bottled water* », she might reply « *So, you like to drink* ».

Victory Against The Tordon Terrorist Players

The Saint John's decision means VICTORY AGAINST Anti-Pesticide Organizations such as THE TORDON PLAYERS.

The Tordon Players is an Anti-Pesticide and Environmental-Terrorist Organization operating in the Province of Newfoundland.

This organization is listed among CANADA'S PROMINENT ANTI-PESTICIDE AND ENVIRONMENTAL-TERRORIST ORGANIZATIONS.

The Tordon Players are prominent because of DISRUPTIVE, UNLAWFUL, AND SUBVERSIVE PUBLICITY STUNTS.

The SUBVERSIVE AND RADICAL ACTIVITIES of The Tordon Players EPITOMIZES THE IMAGE OF ANTI-PESTICIDE ACTIVISTS AS VIOLENT TERRORISTS AND WHACK-JOBS.

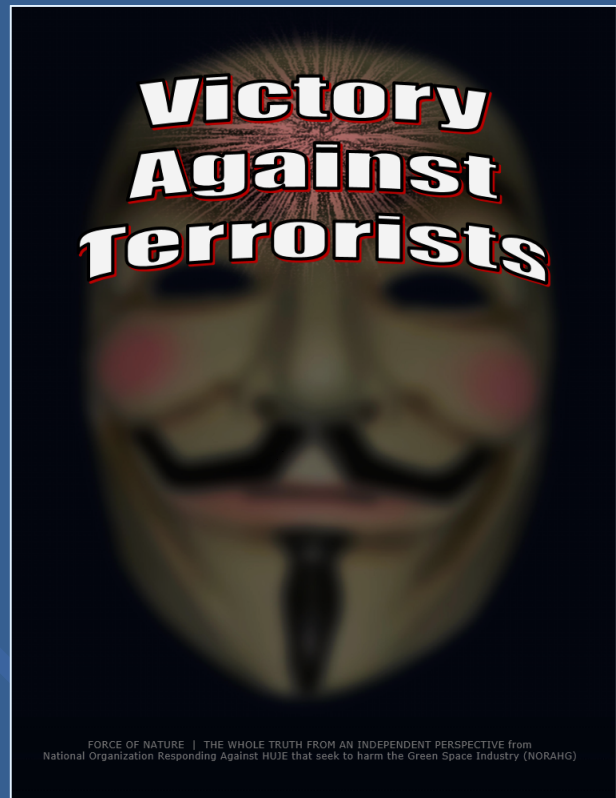

Members of The Tordon Players HIDE BEHIND GUY FAWKES MASKS in order to avoid LEGITIMATE RETALIATORY LITIGATION against them.

They HIDE BEHIND GUY FAWKES MASKS in an attempt to HIDE THEIR TRUE IDENTITIES and their EXTREMIST RADICAL TERRORIST VIEWS.

These COWARDLY AND DEPRAVED Anti-Pesticide Lunatic-Terrorists are SUPPOSEDLY-MODERATE administrators, doctors, elected officials, environmentalists, journalists, nurses, and politicians.

A GUY FAWKES MASK is a stylised depiction of Guy Fawkes, A BRITISH ASSASSIN AND TERRORIST who, in 1605, attempted to BLOW UP THE ENGLISH PALACE OF WESTMINSTER IN LONDON.

The mask portrays a white face with a subtle smile and red cheeks, a wide moustache upturned at both ends, and a thin vertical pointed beard.

Victory Against The Tordon Terrorist Players (continued)

Members of The Tordon Players also WEAR GUY FAWKES MASKS IN ORDER TO SPREAD FEAR AND TERROR.

These Anti-Pesticide Lunatics THIRST FOR BRUTAL REVENGE against their critics.

The Tordon Terrorist Players convey a simple message

| ... AGREE WITH US

| ... OR ELSE ...

The Tordon Terrorist Players will BLOW UP children and adults, and property, just like Guy Fawkes.

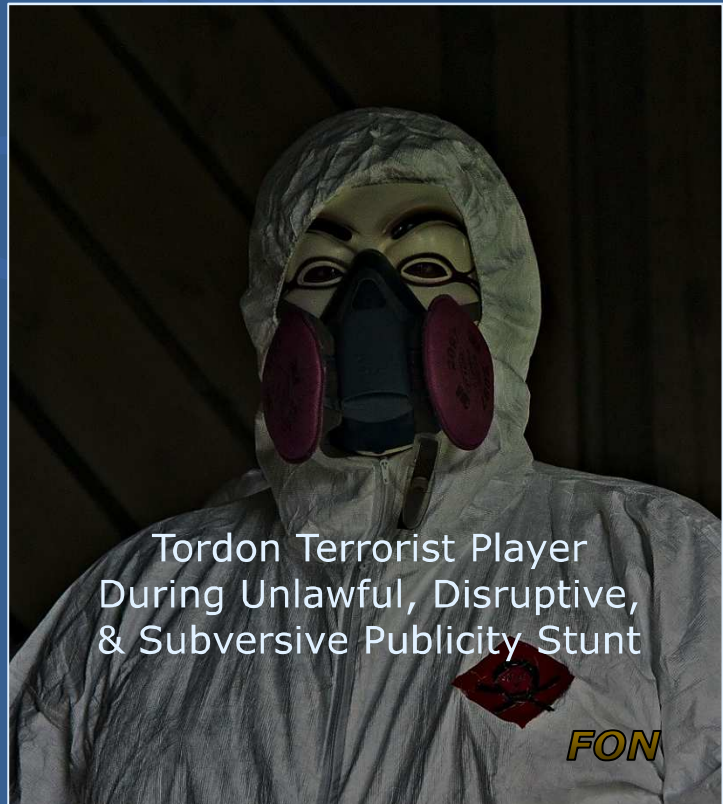

Anti-Pesticide Activists like The Tordon Players IMPOSE their ideas by THREATS OF ASSASSINATION AND DESTRUCTION.

Violent acts show the TRUE NATURE of Anti-Pesticide and Environ-MENTAL-Terrorists like The Tordon Players.

Anti-Pesticide Activists like The Tordon Players IMPOSE their ideas by having their critics TERMINATED FROM EMPLOYMENT.

Anti-Pesticide Activists like The Tordon Players IMPOSE their ideas by having Government Officials REMOVED FROM OFFICE.

Anti-Pesticide Activists like The Tordon Players IMPOSE their ideas by INFLECTING TERROR, DESPAIR, AND DESTITUTION ON THOUSANDS OF HAPLESS VICTIMS THROUGHOUT THE MODERN PROFESSIONAL PESTICIDE APPLICATOR AND CHEMICAL MANUFACTURER INDUSTRIES.

Victory Against The Tordon Terrorist Players (continued)

Anti-Pesticide Activists also IMPOSE their ideas by VANDALIZING and DESTROYING property.

No one should feel safe from these LUNATICS !

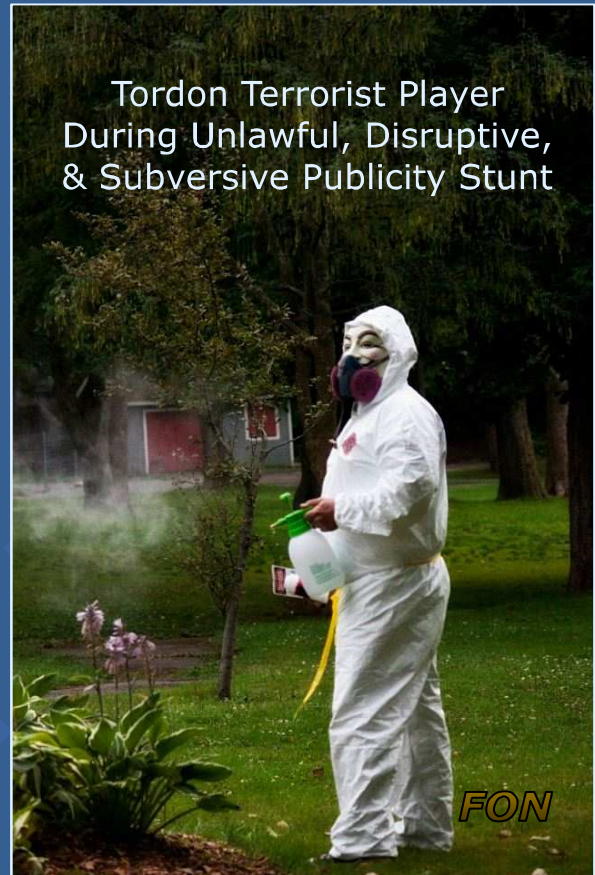

They are the HORROR of society !

Anti-Pesticide Activists like The Tordon Players MUST BE DEFEATED.

These Anti-Pesticide Lunatics CONSPIRE TO PROHIBIT pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, PRACTICALLY-NON-TOXIC, and CAUSE NO HARM.

These Anti-Pesticide Lunatics CONSPIRE TO IMPOSE IDEAS THAT ARE INTELLECTUALLY DECREPIT, DEPRAVED, DESPICABLE, and DEVOID OF ANY SOUND SCIENCE.

Their DEPRAVED INDIFFERENCE is DESPICABLY converting our communities into UNHAPPY, UGLY, UNEMPLOYED, UNENLIGHTENED, and UNHEALTHY ENVIRONMENTS.

THE TORDON PLAYERS ARE MURDEROUS JUST LIKE 10:10

In late September 2010, the Environmental-Terrorist-Organization called 10:10 released a home-made video concerning so-called Global Warming.

The Enviro-Snuff-Video showed what happens when people disagree with Environmental-Terrorists.

The Enviro-Snuff-Video showed a teacher MURDERING students, an administrator SLAUGHTERING employees, and a football player ASSASSINATING someone on a sports field.

Victory Against The Tordon Terrorist Players (continued)

The Enviro-Snuff-Video showed that Environmental-Terrorists have NO TOLERANCE OF ANYONE WHO OPPOSES THEM, and ARE PREPARED TO KILL THEM !

The Enviro-Snuff-Video conveyed a simple message ...

*Disagree with us
and we will hunt you down
and kill you*

Just like 10 : 10, The Tordon Players are LUNATICS who TERRORIZE Modern Professional Pesticide Applicators and Chemical Manufacturers who OPERATE LEGALLY, and are LAW-ABIDING and TAX-PAYING.

They are COMMON UNEDUCATED LYING SUBVERSIVE COWARDLY MURDEROUS THUGS.

Tordon Safety

TORDON 101 IS SCIENTIFICALLY SAFE

Newfoundland and Labrador's Minister of Transportation and Works says that A ROAD-SIDE WEED CONTROL PROGRAM IS NECESSARY TO KEEP HIGHWAYS SAFE, with Tordon 101, which is NO MORE DANGEROUS THAN SALT.

Tordon 101 is a herbicide used along road-sides that contains the active ingredients 2,4-D and picloram.

Tordon 101 is the most effective industrial vegetation management product that provides long term control of both brush and broad-leaved weeds in one application.

The Government of Newfoundland and Labrador is defending its ROAD-SIDE WEED CONTROL PROGRAM, while sparking a RIDICULOUS DEBATE with Non-Expert Anti-Pesticide Lunatics like Sheilagh O'Leary and The Tordon Players.

Tordon 101 is only SLIGHTLY TOXIC, with Oral LD₅₀ of 2598 mg per kg in its concentrated pre-diluted form.

This LD₅₀ value indicates that Tordon, even in its concentrated pre-diluted form, is ALMOST AS SAFE, OR SAFER, THAN TABLE SALT, as well as Tylenol and Aspirin.

In toxicology, the Median Lethal Dose, LD₅₀ (abbreviation for the « *Lethal Dose, 50 per cent* »), is a value that represents the dose that is fatal for 50 per cent of an experimental group of laboratory animals, in most cases rats.

THE HIGHER THE LD₅₀ VALUE, THE LEAST TOXIC THE PRODUCT.

Tordon Safety (continued)

COMPARATIVE EXAMPLES

Relatively Harmless (LD_{50} 15000 +)

29700 — sucrose (table sugar), edible food additive

Practically Non-Toxic (LD_{50} 5000 - 15000)

11900 — ascorbic acid (vitamin C), edible nutrient

7060 — ethyl alcohol (ethanol), edible beverage constituent

5000 + — Killex Turf Herbicide (2,4-D, mecoprop, & dicamba), conventional herbicide product for selective weed control in turf

Slightly Toxic (LD_{50} 500 - 5000)

4220 — sodium bicarbonate (baking, soda), household product

3000 — sodium chloride (table salt), edible food additive

2598 — Tordon 101 (2,4-D & picloram), conventional herbicide product for non-selective road-side vegetation control

1994 — acetaminophen (Tylenol), analgesic

Moderately Toxic (LD_{50} 50 - 500)

200 — acetylsalicylic acid (Aspirin), analgesic

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

NORAHG

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FA SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green space under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS!

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The information presented in FORCE OF NATURE has been developed for the education and enterta
ment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in his
ry, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or co
pleteness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damage
lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on iss
such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgr
Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspa
across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO T
EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gath
cole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear
founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain univers
degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental mainten
and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilize
and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, prof
sional lawn care, distribution, environmental compliance, government negotiations, public affairs, a
workplace safety • supervisor, consultant, and, programmer for the successful execution of hundre
of thousands of management operations in the golf and urban landscape, as well as millions of pest co
trol applications • advisor, instructor, and trainer for thousands of turf and ornamental managers a
technicians • pesticide certification instructor for thousands of industry workers • founder of t
modern professional lawn care industry • prolific writer for industry publications and e-newsletters
first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouve
Fraser Valley region • with Dr. Peter Dermoeden, confirmed the presence of Take All Patch as a disea
of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Sc
as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid bei
subjected to anti pesticide prohibition • creator of the signs that are now used for posting after appli
tion • co-founder of annual winter convention for Quebec golf course superintendents • the major
fluence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils
the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec
retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding
Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists
the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined a
pesticide activists to provide peace and prosperity for the entire modern green space industry across Ca
ada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec
launched the largest founding professional lawn care business in Canada • quadrupled the busine
revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATU
and A LOOK AT reports.
