# Sod Quality. With 'Award'!

'Award' is the component with the darkest green colour of all Kentucky bluegrass varieties. This blend of improved varieties of Kentucky bluegrass will provide a very dark green to dark green colour, a very fine to medium leaf texture, and a high density turf. Super Select I can be used for the following locations : ● Areas with no irrigation. ● Cemeteries. ● Golf course fairways and tees. ● Golf course primary rough. ● Golf course secondary deep rough. ● High-use parks. ● Leisure green spaces. ● Moderately-shaded areas. ● Residential home lawns. ● Sod farms. ● Sports fields.

4 of 11.

- ★ ½ Very dark green.
- ★★ ½ Dark green colour.
- ★★ Very fine texture.
- ★ Fine texture.
- ★ Medium texture.
- ★★★★ High density turf.
- Medium density.
- ★★★★ Less fertilizer needed.
- ★★★ ½ Wear tolerance.
- ★★★★ ½-in mowing height.

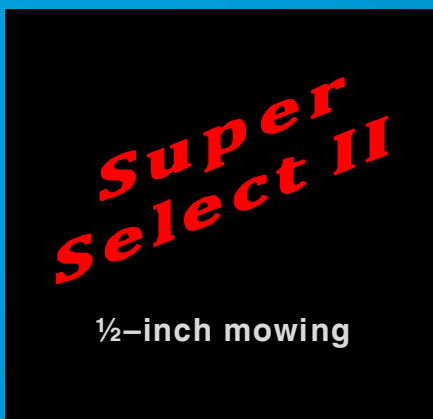

- ★ Quick germination.
- ★★ Quick establishment and/or vigorous seedlings.
- ★★★★ ½ Heat and/or drought.
- ★★★★ Moderate shade tolerance.
- ★★ Powdery Mildew.
- ★★★ Resistance to Leaf Spot.
- ★★★ Resistance to Rust.
- ★★★★ Resistance to Annual Blue.
- ★★★ Sod strength.

# Sod Quality. Quick Germination.

## Select I

½-inch mowing.

Most of the varieties in this blend can provide a quick germination. This blend of improved varieties of Kentucky bluegrass will also provide a very dark green to dark green colour, a very fine to medium leaf texture, and a predominantly high density turf. Select I can be used for the following locations :

- Areas with no irrigation.
- Cemeteries.
- Golf course fairways and tees.
- Golf course primary rough.
- Golf course secondary deep rough.
- High-use parks.
- Leisure green spaces.
- Moderately-shaded areas.
- Residential home lawns.
- Sod farms.
- Sports fields.

# Sod Quality. With 'Rush'!

## Select II

½-inch mowing

'Rush' resists annual bluegrass invasion better than all other Kentucky bluegrasses, and it ranks among the best varieties that are drought tolerant. This blend of improved varieties of Kentucky bluegrass will also provide a dark green to very dark green colour, a medium to very fine leaf texture, and a high density turf. Select II can be used for the following locations : ● Areas with no irrigation. ● Cemeteries. ● Golf course fairways and tees. ● Golf course primary rough. ● Golf course secondary deep rough. ● High-use parks. ● Leisure green spaces. ● Residential home lawns. ● Sod farms. ● Sports fields.
