

# Sod Quality. With 'Rush'!

**Economical II**

½–¾ inch mowing

'Rush' resists annual bluegrass invasion better than all other Kentucky bluegrasses, and it ranks among the best varieties that are drought tolerant. This blend of improved varieties of Kentucky bluegrass will also provide a dark green to very dark green colour, a medium to very fine leaf texture, and a high to medium density turf. Economical II can be used for the following locations :

• Areas with no irrigation. • Cemeteries. • Golf course fairways (¾-inch). • Golf course primary rough. • Golf course secondary deep rough. • High-use parks. • Leisure green spaces. • Moderately-shaded areas. • Residential home lawns. • Sod farms. • Sports fields.
