

Sod Quality. With 'Award'!

'Award' is the component with the darkest green colour of all Kentucky bluegrass varieties. This blend of improved varieties of Kentucky bluegrass will provide a very dark green to dark green colour, a fine to medium leaf texture, and a high density turf. Super Select II can be used for the following locations :

- Areas with no irrigation.
- Cemeteries.
- Golf course fairways and tees.
- Golf course primary rough.
- Golf course secondary deep rough.
- High-use parks.
- Leisure green spaces.
- Moderately-shaded areas.
- Residential home lawns.
- Sod farms.
- Sports fields.
