We are living in the Era of Paranoia and Terror !

Children Are Facing the CARNAGE of Paranoia and Enviro-Lunatic Child Abuse

Municipal Fear of Playground Litigation

American Council on Science and Health Selected and adapted excerpts

William H. Gathercole & NORAHG | force.of.de.nature@gmail.com | Force Of Nature

The City of New York is the most populous city in the United States, with over 8,000,000 people.

New York City exerts a significant impact upon art, education, entertainment, fashion, finance, global commerce, media, research, technology.

And now, New York City is VALIDATING PARANOIA AND TERROR.

ANXIOUS children will NEEDLESSLY FEAR playgrounds and modern technology.

Adults nostalgic for the monkey bars and tall slides of their childhood may have trouble finding them when they take their own children to a nearby playground.

Shorter structures with enclosed platforms, as well as rubber ground covers, are more likely what they'll see.

This is because heightened concerns [i.e. paranoia] over child safety have dramatically changed the landscape of the playground.

Such concerns, coupled with an INCREASINGLY PREVALENT FEAR OF LITIGA-TION, have led to stricter manufacturer safety standards and federal guidelines.

In New York City, for instance, OFFICIALS REMOVED SEE–SAWS, MERRY–GO–ROUNDS, TIRE SWINGS, AND ROPES FROM ALL PUBLIC PLAYGROUNDS.

And this is too bad, say experts in child development.

Children Are Facing the CARNAGE of Paranoia and Enviro-Lunatic Child Abuse

According to Dr. Ellen Sandseter, a professor of psychology at Queen Maud University in Norway —

<< Children need to encounter risks and overcome fears on the playground. >>

Dr. Sandseter and psychologist Leif Kennair at the Norwegian University for Science and Technology explain how important it is for children to encounter thrills and risks through play, which allows them to gradually learn how to navigate such situations and emotions.

<< Risky play mirrors effective cognitive behavioral therapy in anxiety. >>

Sandseter and Kennair write in the Journal of Evolutionary Psychology, emphasizing that this kind of play in childhood actually makes it far less likely that a person will develop anxieties later in life.

Dr. Gilbert Ross, of the American Council on Science and Health, agrees that these effectively « *child-proof* » playgrounds are becoming the norm —

<< It's a shame that FEAR OF BEING SUED DOMINATES DECISIONS ABOUT APPROPRIATE PLAY-TIME ACTIVITIES FOR KIDS TODAY.

The loss to children is immeasurable, and the over-arching desire for absolute safety is seen in the current crusade by activist groups and tort lawyers against any risk from any behavior or substance. >>

According to Dr. Josh Bloom of the American Council on Science and Health -

<< This concept of 100 per cent safety for anything involving children is ABSURD.

For generations, kids have done just fine without safe playgrounds, constant parental contact via cell phones, « chemical-free » shampoos, and organic food.

You got banged around or scraped your knee, and you lived.

WHAT'S NEXT ?

Kevlar vests and night-vision glasses for walking to school ? >>

What's next ?

We are living in the Era of Paranoid Government Officials !

COME SEE the City of New York, with its CHILD-PROOF « *playgrounds* » ... padded rooms that are TOTALLY SAFE

We are living in the 9/11 Era of Environmental Terror !

Municipal Officials Must Also Fear Prohibition Litigation

Children are facing the CARNAGE of Enviro-Lunatic Child Abuse !

Government Officials fear being sued about appropriate playground conditions for kids today.

Then, Government Officials should also fear being sued for PROHIBITING those pest control products required to properly maintain playgrounds.

Enviro–Lunatics CLAIM to have discovered some IMAGINARY DANGER with the use of pest control products.

Enviro-Lunatics know NOTHING about pest control products !

Enviro-Lunatics COERCE, INTIMIDATE, and ALARM Government Officials and the public by SPREADING THE MYTH that we need to get rid of so-called « *unnecessary poisons* » since they pose ALLEGED unnecessary risk to our health, our children's health, and the health of the environment.

In fact, they have NOTHING !

Furthermore, Enviro–Lunatics are willing to COMPROMISE ON THE SAFETY OF CHILDREN who need a cushion of high–quality turf when playing and running and falling.

This is Enviro–Lunatic Child Abuse !

We are living in the 9/11 Era of Environmental Terror !

Without pest control products, playing surfaces become thin, and yellow, and loaded with weeds, infested with insects, and TOTALLY DISMAL.

Without pest control products, playing surfaces become GARBAGE DUMPS, and are a DANGER for children to play on.

Enviro-Lunatics COULD NOT CARE LESS ABOUT CHILDREN who use these DANGEROUS PLAYING SURFACES.

In every jurisdiction where PROHIBITION has been IMPOSED, parks and sports fields look like GAR-BAGE DUMPS, and they have become DANGER-OUS playing surfaces — ESPECIALLY FOR CHILDREN !

Without conventional pest control products, public green spaces and playing surfaces become WEED–INFESTED and INSECT–INFESTED.

Without conventional pest control products, public green spaces and playing surfaces become OVER-RUN by Dandelions and other weed pests, and become DESTROYED by damaging insect pests like European Chafer.

When it rains, DESTROYED and PEST–INFESTED playing surfaces are SLIP-PERY MUD BOGS.

When dry, DESTROYED and PEST–INFESTED playing surfaces are AS HARD AS CONCRETE.

Anti–Pesticide PROHIBITION will lead to GARBAGE DUMPS, creating potentially DANGEROUS PLAYING SURFACES, and HURT CHILDREN.

The PROHIBITION of pest control products ensures CHILDREN will be playing on DANGEROUS playing surfaces maintained like GARBAGE DUMPS.

Government Officials should fear being sued for PROHIBITING those pest control products required to properly maintain playgrounds, and KEEP CHILDREN SAFE.

We are living in the 9/11 Era of Environmental Terror !

The legacy of Enviro–Lunatic–Activists is ...

ANXIOUS children FEARING
playgrounds and modern technology

• DANGEROUS playing surfaces maintained like GARBAGE DUMPS

- DESTROYED economies
- LOST JOBS and HARDSHIP for people
- WEAKENED communities

Enviro-Lunatics, devoid of any sound science, have been WRONG For Over 50 Years I

FORCE OF NATURE presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG).

HUJE are LAWN HATERS, and particularly DESPISE the Golf Industry. Many HUJE operate Environmental Terrorist Organizations that CONSPIRE to PROHIBIT pest control products, despite the fact that these products are GOVERNMENT APPROVED, FEDERALLY LEGAL, and SCIENTIFICALLY SAFE.

It is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and NON-PROFIT. Don't thank us. It's a public service. And we are glad to do it. FORCE OF NATURE provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

All information, excerpts, and pictures contained in FORCE OF NATURE were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

FORCE OF NATURE, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and environmental terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of thr and mamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver/Fraser Valley region • with Dr. Peter Demoeden, confirmed the presence of Take–All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South–Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to the prohibition of pest control products • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness who intervened in the development of prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT e-newsletters

Notable award — man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against activism in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined environmental activists to provide peace for the entire modern green space industry across Canada • orchestrated legal action against activists in the town of Hudson, Quebec • launched the largest early professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT e-newsletters.

The Force Of Nature Library of Reports contains all FON Reports, as well as PESTICIDE TRUTHS and OTHER FACTS with Audios, Educational Material, History, Links, News, and Videos.

It is a LINK DATABASE created to support efforts to fight and exterminate the Environmental–Lunatic–Vermin with reports developed for the education and entertainment of the reader.
