### SPEAKING OUT

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG)

Anti-Pesticide PROHIBITION has made it IMPOSSIBLE TO NURSE DAMAGED NATURAL GRASS SPORTS FIELDS BACK TO HEALTH.

It's worth pointing out that every pesticide PROHIBITED by the Ontario Provincial Government was previously approved by scientists at the Federal Government's Pest Management Regulatory Agency.

With NO WAY TO SAVE NATURAL GRASS SPORTS FIELDS THAT BECOME INFESTED WITH WEEDS, the sensible solution has been to SWITCH TO PLASTIC TURF.

NATURAL GRASS SPORTS FIELDS are on the PATH TO EXTINCTION.

ARTIFICIAL/SYNTHETIC GRASS costs more to install, but delivers substantially more playing time.

The risk of picking up a STAPH INFECTION while playing on ARTIFICIAL/SYNTHETIC GRASS is quite RE-MOTE ... about as REMOTE, in fact, as the risk posed by REGULATED PESTICIDES when properly and responsibly used.

Nonetheless, observers expect many more fields to go FROM REAL GRASS TO FAKE in the years to come.

### **Natural Grass Sports** Fields Are On The Path To Extinction

### **Natural Grass Sports Fields Are** On The Path To Extinction

Dalton McGuinty Killed My Shrub.

OK, so maybe the premier didn't have a direct hand in the death of the euonymus bush on my front yard.

An infestation of dreaded EUONYMUS SCALE took care of that.

But Dalton McGuinty did PREVENT ME FROM TAKING ACTION to save that shrub, which I had lovingly trimmed over the years into something resembling a piano.

His was a crime of omission.

According to my local nursery expert ( who spoke on condition of anonymity ), SEVERAL FEDERALLY APPROVED REMEDIES COULD HAVE SAVED MY SHRUB.

#### **Background Information**

### Natural Grass Sports Fields Are On The Path To Extinction

But while folks elsewhere can make use of them, not me — thanks to McGuinty's 2009 PROHIBITION against cosmetic pesticides.

IT'S WORTH POINTING OUT THAT EVERY PESTICIDE PROHIBITED BY THE ONTARIO PROVINCIAL GOVERNMENT WAS PREVIOUSLY APPROVED BY SCIENTISTS AT THE FEDERAL GOVERNMENT'S PEST MANAGEMENT REGULATORY AGENCY.

The PROHIBITION was motivated by the « precautionary principle » that stirs up fear of minuscule or unknown risks in the absence of scientific evidence.

In defending his PROHIBITION, McGuinty frequently mentioned the need to PROTECT CHIL-DREN from such risks.

But what of the unintended consequences?

Judging from the shape of every other euonymus bush in my neighbourhood, the shrub may be on its way to complete extinction.

EUONYMUS SCALE has arrived and there's now no way to cure it.

( As an aside, the nursery recommended I burn the infected bush to stop the infestation from spreading, but of course I'm not allowed to do that either. )

#### **Background Information** (continued)

The actions of the McGuinty
Government are viewed as a
form of TERROR against Ontario
society, and specifically against
the Professional Lawn Care Industry.

On April 22<sup>nd</sup>, 2009 — a date which will live in the period of ENVIRONMENTAL INFAMY — the full force of the Ontario Cosmetic Pesticides Ban Act came into effect, and DESTROYED the Professional Lawn Care Industry

The DEVASTATION of the Professional Lawn Care Industry was EXTENSIVE because there were NO valid economical alternatives to replace the prohibited products.

VIRTUALLY ALL Green Alternative Pesticides were almost TO-TALLY INEFFECTIVE, except under very specific circumstances

The Green Alternative Pesticides were BOGUS and DISMAL FAILURES

Consequently, Professional Lawn Care Companies were UNABLE to provide adequate weed and insect control, and were UNABLE to keep their customers satisfied.

### **Natural Grass Sports Fields Are** On The Path To Extinction

Unfortunately, euonymus bushes are probably NOT THE ONLY THING LIKELY TO DISAPPEAR in the wake of McGuinty's Anti-Pesticide PROHIBITION.

What else is on the PATH TO EXTINCTION?

How about NATURAL GRASS SPORTS FIELDS.

As little as a decade ago, you could count the number of ARTIFI-CIAL/SYNTHETIC SPORTS FIELDS owned by Ontario municipalities or school boards on one hand.

This year, according to industry sources, there will be OVER 100 in opera-

Such a phenomenon is highly visible in our region.

In 2011, Waterloo replaced NATURAL GRASS SOCCER PITCHES at RIM Park with ARTIFICIAL/SYNTHETIC FIELDS.

The University of Guelph recently installed an ARTIFICIAL/SYNTHETIC FOOTBALL FIELD on campus.

And in spring 2012 at Woodside Park, Kitchener unveiled the first two in a series of planned soccer field conversions.

WE CAN EXPECT MANY MORE FIELDS TO GO FROM REAL GRASS TO FAKE IN THE YEARS TO COME.

### **Natural Grass Sports Fields Are** On The Path To Extinction

There are lots of good economic reasons to favour ARTIFICIAL/SYNTHETIC GRASS over the real thing.

As Greg Hummel, Manager of Park Planning, Development and Operations at City of Kitchener explains a NATURAL GRASS FIELD tops out at about 450 HOURS OF SPORTS ACTIVITIES PER YEAR.

« After that, you are basically destroying the turf » he says.

On the other hand, SYNTHETIC GRASS can be programmed for as many as 3,000 HOURS PER YEAR — with a big benefit coming from use during the shoulder seasons of spring and fall, when grass must be left dormant.

Crunching the numbers, SYNTHETIC GRASS COSTS MORE TO INSTALL, BUT DELIVERS SUBSTANTIALLY MORE PLAYING TIME.

But what explains the recent swing to artificial?

One reason that cannot be overlooked is that Anti-Pesticide PROHIBITION has made it IMPOSSIBLE TO NURSE DAMAGED NATURAL GRASS FIELDS BACK TO HEALTH.

According to Greg Hummel at City of Kitchener —

Being able to spray a field was an easy and affordable quick step.

With NO WAY TO SAVE FIELDS THAT BECOME INFESTED WITH WEEDS, the sensible solution has been to SWITCH TO PLASTIC TURF.

### **Natural Grass Sports Fields Are** On The Path To Extinction

And yet we shouldn't necessarily celebrate the disappearance of grass sports fields as part of the inevitable march of progress.

As Hummel acknowledges, almost everyone PREFERS TO PLAY ON THE REAL THING.

Furthermore, NATURAL GRASS offers some IMPORTANT BENEFITS that have been overlooked in the rush to ersatz grass.

REAL TURF is unsurpassed at COLLECTING AND FILTERING RAIN WATER.

It also acts as A NATURAL DIGESTER, consuming any nasty BACTERIA that may be spat, bled or vomited on it.

BACTERIA on ARTIFICIAL FIELDS stay there until washed away.

The presence of BACTERIA has become a major issue in Texas, which boasts a large number of ARTIFICIAL/SYNTHETIC FOOTBALL FIELDS due to its hot, dry climate.

In 2007, for example, Austin, Texas, high school footballer Boone Baker caught the feared methicillin-resistant STAPH INFECTION, Staphylococuccus aureus, after scrapping his knee on his school's ARTIFICIAL/SYNTHETIC TURF and was left temporarily paralyzed.

For this reason, all ARTIFICIAL/SYNTHETIC FIELDS now need to be regularly sprayed with a POWERFUL DISINFECTANT.

It's certainly not my intention to create panic about ARTIFICIAL FIELDS.

### **Natural Grass Sports Fields Are** On The Path To Extinction

The risk of picking up a STAPH INFECTION while playing on ARTIFI-CIAL/SYNTHETIC GRASS is quite REMOTE ...

... about as REMOTE, in fact, as the risk posed by REGULATED PESTICIDES when properly and responsibly used.

Rather, the point to make here is entirely ironic.

Environmentalists who tirelessly advocated for Anti-Pesticide PROHIBITION in order to create a more « natural » environment have instead ushered in a world filled with ARTIFICIAL/SYNTHETIC GRASS THAT MUST BE CLEANED WITH INDUSTRIAL-STRENGTH CLEANSERS.

And in attempting to protect kids from minuscule risks posed by regulated pesticides, we have as a consequence exposed them to different and equally minuscule risks.

Oh, and how do you throw out a football field-sized piece of carpet?

Perhaps the environmental movement should be looking for ways to preserve REAL GRASS FIELDS instead of replacing them all with PLASTIC.

PESTICIDES DO HAVE A USE.

Professor Keith R. Solomon is an INTERNATIONALLY-RESPECTED TOXICOLO-

cles and books.

need to be used at least once per season. »

As a result of Anti-Pesticide PROHIBITION, weeds, primarily DANDELIONS, have become the DOMINANT GROUND COVER for lawns, parks, school yards, and sports fields across the Province of Ontario.

Heaven help the politician who gets the blame for all of the ugly lawns.

PROHIBITION dictates aesthetics to the public.

PROHIBITION imposed under the pretext of protecting children's health is actually harmful to children.

PROHIBITION ignores the federal regulatory system.

PROHIBITION was entirely political.

There is NO reliable scientific evidence indicating that regulated pest control products pose any threat to human health when used correctly.

### Keeping Ontario Ugly, The Natural Way

DANDELIONS HAVE BECOME THE DOMI-NANT GROUND COVER for lawns, parks, school yards and sports fields

Provincial politicians often promise that their province won't look the same once they're done.

While these are all important issues, they frankly don't have much physical presence in everyday life.

Your street generally looks the same regardless of who's in power.

Not so in Ontario.

Since 2009, PREMIER DALTON MCGUINTY HAS MANAGED TO ALTER THE PHYSICAL APPEARANCE OF HIS PROVINCE.

EVERY FRONT YARD IS NOW UGLIER.

By 2010, it was a year and a month since the McGuinty government introduced legislation PROHIBITING the use of pesticides

As a result WEEDS, PRIMARILY DANDELI-ONS, HAVE BECOME THE DOMINANT GROUND COVER for lawns, parks, school

It took a while for the FULL IMPACT of PROHIBITION to become apparent.

Last year, many lawns seemed to retain vestigial protection against weeds due to previous pesticide treatments.

Now, however, THE WEEDS ARE HERE TO STAY.

FOREVER.

Residential streetscapes have switched from green to yellow.

To white and fluffy.

And back to yellow again.

IT'S IMPORTANT TO REMEMBER THIS EF-FORT WAS ENTIRELY POLITICAL.

THERE IS NO RELIABLE SCIENTIFIC EVI-DENCE THAT REGULATED PESTICIDES, WHEN USED CORRECTLY, POSE ANY THREAT TO HUMAN HEALTH.

Ignoring the work of the federal government's Pest Management Regulatory sweeping PROHIBITION was necessary for « our children's' health ».

### Keeping Ontario Ugly, The Natural Way

NO OTHER jurisdiction in North America went so far in forbidding chemical weed control.

Yet a weed-free lush grass lawn or field has MANY PRACTICAL BENEFITS.

For one, grass acts as a NATURAL CUSH-ION.

It is also an EFFECTIVE SPONGE for rain

A sports field entirely OVER-RUN BY DAN-DELIONS provides NONE of these bene-

a SLIPPERY MUD BOG.

In hot months: [ the sports field be-

sports, but it's DANGEROUS as well.

Falling on hard-baked playground mud is, DIRECT CAUSE OF NUMEROUS SKINNED KNEES AND TWISTED ANKLES.

McGuinty's crusade on behalf of children's health is ACTUALLY HURTING KIDS ON A DAILY BASIS.

It's also the case that many, most likely a green lawn to be a thing of beauty and an object of desire.

From this perspective, PROHIBITION represents an effort to DICTATE AESTHET-

Various propaganda claims there's nothing - everyone should simply learn to ap-

Or put in a rock garden.

But that's a matter of opinion.

ON WHAT BASIS SHOULD THE STATE GIVE ITSELF A MANDATE OVER BEAUTY?

seems to recognize these efforts haven't really convinced home-owners TO LOVE UGLY LAWNS.

weed-free yard without pesticides

- « PLUCK WEEDS BY HAND » it cheerily declares.
- « Get a weeding tool and the job will be faster and easier. »

### Keeping Ontario Ugly, The Natural Way

May 17<sup>th</sup>, 2010 — National Post — Selected and Adapted Excerpts

With more practical options outlawed, this advice appears to have stuck.

In my neighbourhood, it seems every second home-owner is now outside on Saturday afternoons diligently PLUCKING AND PULLING AT AN ENDLESS SUPPLY OF WEEDS.

NO ONE looks very happy; probably because it's an entirely SISYPHEAN TASK.

[ The word SISYPHEAN means endless and unavailing as labour or a task. ]

Curiously, McGuinty has ANOTHER major preoccupation besides PROHIBITING THINGS AND FRETTING ABOUT CHILDREN.

In early 2010, his government released a substantial report on the long-term prospects for the economy.

Chief among its issues was a commitment to improving productivity.

« Encouraging faster productivity growth » was presented as a crucial step to defending the provincial standard of living.

And yet it is difficult to imagine anything more UNPRODUCTIVE than forcing every home-owner in the province to ABANDON

A PERFECTLY SAFE, MODERN, AND EFFI-CIENT MEANS OF WEED CONTROL in favour of a method that can only be described as MEDIEVAL.

PROHIBITION thus represents an ENOR-MOUS DEADWEIGHT LOSS for the province.

Even if we assume time spent handweeding on weekends would otherwise be allocated to yard maintenance, the provincial net worth could be vastly enhanced if everyone was spending those hours painting fences, repairing decks and trimming hedges.

For ELDERLY RESIDENTS, many of whom take great pride in their gardens and yards, hand pulling may not only be unproductive, but PHYSICALLY IMPOSSIBLE.

Denied the use of better, labour-saving methods of weed control, many retirees have simply lost the ability to tend to their own yard.

All of which suggests we haven't heard the last on this issue.

And Heaven help the politician who ends up taking the blame for everyone's UGLY LAWN.

Because of Anti-Pesticide PROHIBITION, Ontario now has a MORE DANGEROUS OUTDOOR ENVIRONMENT, a BLACK MARKET IN PESTICIDES, and a TRAIL OF ECONOMIC DE-STRUCTION WITH HUNDREDS OF SMALL BUSINESSES DE-STROYED and THOUSANDS OF PEOPLE OUT OF WORK.

The Ontario PESTICIDE BAN has TAKEN AWAY THE ABIL-ITY of people to SAFEGUARD THEMSELVES AGAINST NOX-IOUS WEEDS AND DISEASE-CARRYING INSECTS.

On May 31st, 2012, Bill 88 was introduced to AMEND THE BAN ON PESTICIDES, and ALLOW LICENSED PROFES-SIONALS TO APPLY THESE PRODUCTS under strict conditions and in concentrations well within established safety

Bill 88 had the added effect of STRENGTHENING the Professional Lawn Care Industry that has been DEVASTATED by the McGuinty Liberals' ARBITRARY PESTICIDE BAN.

There are LEGITIMATE CONCERNS about NOXIOUS WEEDS, which in extreme cases can contribute to DEATH, and which FORCE MILLIONS TO MEDICATE THEMSELVES or LIVE WITH SEVERE ALLERGIC EFFECTS.

Surely the entirely UNPROVEN CONCERNS of a few PO-LITICALLY-CONNECTED FEAR-MONGERERS should be balanced against the STRICTLY-TESTED, LENGTHY AND SCI-ENTIFICALLY-DOCUMENTED USE OF PESTICIDES applied under controlled conditions to deal with human health insects.

PESTICIDE BANS result in CATASTROPHIC CARNAGE caused by BAN FAILURES, BUSINESS FAILURES, GARBAGE DUMP GREEN SPACES, STUNNINGLY EXORBITANT COSTS, HORRIFIC FINES, and even ILLNESS and DEATH.

PESTICIDE BANS have created a TRAIL OF ECONOMIC DESTRUCTION with THOU-SANDS OF PEOPLE OUT OF WORK.

Summary of CATASTROPHIC CARNAGE Caused by BUSINESS FAILURES in Ontario and Elsewhere —

- Anti-Pesticide PROHIBITIONS DESTROYED the businesses operating in the Professional Lawn Care Industry in several jurisdictions across Canada.
- ONTARIO Because of the 2009 PROVINCIAL PROHIBITION in Ontario, businesses operating in the Professional Lawn Care Industry LOST OVER 500,000,000 DOLLARS, with up to 12,500 UNEMPLOYED.
- ONTARIO In Ontario, ONE-BUSINESS-PER-WEEK DISAPPEARS IN-TO TOTAL OBLIVION, and, by 2012, HALF THE BUSINESSES CLOSED THEIR DOORS.
- BRITISH COLUMBIA Because of the IMMINENT 2012-2013 PRO-VINCIAL PROHIBITION in British Columbia, ALL businesses operating in the Professional Lawn Care Industry have STAGNATED, and, because of LOCAL MUNICIPAL PROHIBITIONS, many businesses have LOST OVER 40 PER CENT OF THEIR CUSTOMERS.
- OUEBEC Because of the 2004-2006 PROVINCIAL PROHIBITION in Quebec, OVER 60 PER CENT of the businesses operating in the Professional Lawn Care Industry were ANNIHILATED, and HUNDREDS OF BUSINESSES DISAPPEARED INTO TOTAL OBLIVION.

- QUEBEC In Quebec, those businesses that survived PROHIBITION, by 2012, LOST OVER 70 PER CENT OF THEIR BUSINESS.
- HALIFAX Because of the 2000 MUNICIPAL PROHIBITION in Halifax Regional Municipality, businesses operating in the Professional Lawn Care Industry LOST OVER 50 PER CENT OF THEIR CUSTOMERS.

The DEVASTATION of the Professional Lawn Care Industry was EXTENSIVE because there were NO valid economical alternatives to replace the prohibited products.

Consequently, Professional Lawn Care Companies were INCAPABLE of providing adequate weed and insect control, and were UNABLE to keep their customers satis-

In provinces like Ontario, the PESTICIDE BAN DESTROYED INFLICTED TERROR, DESPAIR, and DESTITUTION on THOUSANDS of hapless victims throughout the Professional Lawn Care Industry.

In provinces like Ontario, the PESTICIDE BAN DESTROYED the Modern Professional Lawn Care Industry.

In provinces like Ontario, the PESTICIDE BAN ALSO DESTROYED ALL GREEN SPAC-ES, which became WEED-INFESTED and INSECT-DESTROYED GARBAGE DUMPS.

PESTICIDE BANS are NEEDLESS, SENSELESS, and MALICIOUS.

PESTICIDE BANS are NOT NECCESSARY since pest control products are HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, SCIENTIFICALLY-SAFE, PRACTICALLY-NON-TOXIC, and CAUSE NO HARM.

The Professional
Lawn Care Industry
Must STOP Being
IN DANGER From
Anti-Pesticide Lunatics

It Must Become
THE DANGER
Against the Lunatics

SUE THEIR BRAINS OUT!

#### COMPLAIN, COMPLAIN, COMPLAIN

Everyone in the Green Space Industry — no matter where they live must meet with their Member of Provincial Parliament (MPP), regardless of party affiliation.

In order to meet and inform the MPP, you must donate the maximum amount to the party, which is 1,240 dollars in Ontario.

The cost of this donation is insignificant when compared to the catastrophic business losses inflicted by anti-pesticide prohibition.

Any business owner in the Green Space Industry who does not bother to meet with the local MPP is a pitiful fool and an idiot, and does not deserve a career, or a business, or any success.

COMPLAIN, COMPLAIN, COMPLAIN.

Anti-Pesticide Terrorists are NOT CREDIBLE SOURCES OF INFORMATION upon which political decisions are made — they LIE and LIE and LIE.

There is NO RECOURSE but OFFICIAL COMPLAINTS as well as LITIGATION against Anti-Pesticide Terrorists.

They DO NOT DESERVE ANY DONATIONS OR SUPPORT.

COMPLAIN, COMPLAIN, COMPLAIN

They DO NOT DESERVE ANY GOVERNMENT GRANTS.

Nor do they deserve TAX-EXEMPT STATUSES.

They DO deserve to FACE THE SPOTLIGHT OF SCRUTINY and THE TERROR OF THE COURTS!

Anti-Pesticide Terrorists in organizations like Canadian Cancer Society are presently UNDER INVESTIGATION FOR CHARITY FRAUD AND CONSPIRACY.

The Government of Canada DOES NOT want its society to continue living in the 9|11 Era of Anti-Pesticide Enviro-Lunatic Profit-Hungry Terrorism!

And neither should anyone in the Green Space Industry.

All names, statements, activities, and affiliations have been ARCHIVED for anyone wishing to lodge an OFFICIAL COMPLAINT or lay CRIMINAL CHARGES against Anti-Pesticide Terrorists.

On The Pesticide Truths Web-Site, NORAHG manages a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti-Pesticide Terrorists.

#### COMPLAIN, COMPLAIN, COMPLAIN

We know who they are, and where they are hiding, and what they have said and done.

When CRIMINAL CHARGES FOR FRAUD AND CONSPIRACY ARE LAID, legal experts say that the NORAHG ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION against Anti-Pesticide Terrorists!

Business owners in the Green Space Industry should talk to their lawyers, members of the legislative assembly, and local media outlets.

Thanks to The Pesticide Truths Web-Site, they have all the DOCUMENTED EVIDENCE that they need.

LET THESE TERRORISTS FACE THE SPOTLIGHT OF SCRUTINY and THE TER-ROR OF THE COURTS!

Anti-Pesticide Terrorists are GOVERNMENT-FINANCED with TAX-FREE MONEY they must not be allowed this money to defend themselves in court.

Demand a REVOCATION of their organizations' REGISTERED CHARITY TAX-**EXEMPT STATUS!** 

SUE THE BASTERDS' BRAINS OUT!

STOP sitting around doing NOTHING against Anti Pesticide Terrorists

We are living in the 9|11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL RE-ALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REF-ERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION!

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti-pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.
