You can't have healthy people without a healthy environment. We know that pollution and environmental degradation can cause a range of health problems, from mild stomach ailments to BIRTH DEFECTS, CANCER, and DEATH. This creates strain on the health–care system and ends up costing us all.

> **COMMENTARY FROM AN INDEPENDENT PERSPECTIVE — FEAR–MONGERING BY SPREADING PARANOIA AND TERROR WITH STATEMENTS THAT CONTAIN THE WORDS « *BIRTH DEFECTS* », « *CANCER* », AND « *DEATH* ».**

Part 1

According to some estimates, adverse environmental exposures in Canada are associated with up to 25,000 DEATHS, 194,000 HOSPITALIZATIONS, 1.8 million restricted activity days for ASTHMA sufferers, and 24,000 new cases of CANCER each year, with costs as high as $9.1 billion a year.

> **COMMENTARY FROM AN INDEPENDENT PERSPECTIVE — IT IS TRULY AMAZING HOW ENVIRO–MANIACS DEFEND THEIR ARGUMENTS AND DECEIVE THE PUBLIC BY BLURTING OUT TERMS LIKE « *ASTHMA* » AND « *CANCER* » AND « *DEATHS* » AND « *HOSPITALIZATION* » !**

Globally, the **World Health Organization** [**WHO**] estimates that environmental risk factors play a role in more than **80 per cent** of the diseases reported by the organization and that one quarter of all diseases and deaths — one third for CHILDREN — are directly related to environmental causes.

> **COMMENTARY FROM AN INDEPENDENT PERSPECTIVE — ENVIRO–TERROR ORGANIZATIONS SEEK TO INCREASE THE MILLIONS OF DOLLARS ALREADY RECEIVED IN MEMBERSHIPS AND DONATIONS BY DECEIVING THE PUBLIC INTO BELIEVING THAT THEIR CHILDREN ARE IN SOME NON–EXISTENT DANGER.**

The **WHO** also found that disease related to environmental factors is much higher overall in the developing world than in developed countries but that the per capita rate of some non–communicable diseases, such as cardiovascular diseases and cancers, is higher in developed countries.

The health sector itself, which contributes about 10 per cent of Canada's gross domestic product and employs close to 1.7 million people, creates considerable waste and pollution and consumes a lot of energy. Recognizing the connection between healthy people and a healthy environment, leading health–professional organizations have joined together to call for an environmentally responsible health sector in Canada.

> **COMMENTARY FROM AN INDEPENDENT PERSPECTIVE — HEALTH CARE WORKERS ARE NOT SCIENTISTS OR RESEARCHERS WITH CREDENTIALS IN THE FIELD OF PEST CONTROL PRODUCTS. SO FAR, NOT A SINGLE ENVIRO–MANIAC HEALTH CARE WORKER HAS ANY RECOGNIZED EXPERTISE, TRAINING, OR BACKGROUND, IN MATTERS CONCERNING PEST CONTROL PRODUCTS ! EVERYBODY MUST STOP GETTING MEDICAL ADVICE AND TREATMENT FROM HEALTH CARE WORKERS THAT ARE MEMBERS OF KNOWN ENVIRONMENTAL TERROR ORGANIZATIONS !**

The **Canadian Medical Association**, **Canadian Nurses' Association**, **Canadian Dental Association**, **Canadian Pharmacists' Association**, and more, with help from the **David Suzuki Foundation**, recently voiced a commitment to make the sector greener and to get governments to consider the links between health and the environment when making policy decisions.

Beyond cleaning up its own act and trying to get the government to pay more attention to the environment, the sector hopes to set an example for others to follow. And, as health–care providers, they hope to encourage all Canadians to become more environmentally aware and thus healthier.

> **COMMENTARY FROM AN INDEPENDENT PERSPECTIVE — ENVIRO–MANIAC HEALTH CARE WORKERS HAVE NO RECOGNIZED EXPERTISE, TRAINING, OR BACKGROUND, TO IMPLEMENT THIS MANDATE.**

The National Annihilation of the Modern Green Space Industry ! Part 1

Leadership from this sector is much needed and welcomed. A recent poll shows that health professionals are among the most trusted community leaders. And we all rely at times on our health–care institutions and facilities. Many people in the health–care sector are also guided by a principle to " *DO NO HARM* ". One thing this suggests is that institutions devoted to healing should not be significant consumers of resources and sources of environmental harm through air and wastewater emissions, hazardous– and solid–waste generation, greenhouse gas emissions, and toxic chemical usage. Thus, being green has a symbolic and practical significance for health–care institutions.

Greening their own operations is a great start for health–care institutions, but health professionals have been demonstrating ENVIRONMENTAL LEADERSHIP in the wider community as well. For example, the **Ontario College of Family Physicians** and the **Registered Nurses' Association of Ontario** advocated for a recent ban on " *COSMETIC* " or unnecessary lawn and garden pesticides in the province.

COMMENTARY FROM AN INDEPENDENT PERSPECTIVE — ENVIRO–MANIAC HEALTH CARE WORKERS HAVE BEEN DEMONSTRATING « *ENVIRONMENTAL LEADERSHIP* » BY ROUTINELY USING LIES, FEAR–MONGERING, MISCONCEPTIONS, COERCION, THREATS, AND TERROR TO FORCE GOVERNMENT OFFICIALS INTO THE NEEDLESS, SENSELESS, AND MALICIOUS PROHIBITIONS OF FEDERALLY LEGAL, SCIENTIFICALLY SAFE, AND TOTALLY IRREPLACEABLE MODERN CONVENTIONAL AND EFFECTIVE PEST CONTROL PRODUCTS. PROHIBITION CAUSES LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, UNEMPLOYMENT, INFLICTING TERROR, DESPAIR, AND DESTITUTION ON THOUSANDS OF PEOPLE THROUGHOUT THE GREEN SPACE INDUSTRY ! SUZUKI NATIONAL ALLIANCES ARE THE GREATEST THREAT TO THE FUTURE OF THE MODERN GREEN SPACE INDUSTRY !

As we see so often when it comes to measures to protect the environment, it makes GOOD ECONOMIC SENSE to spend money on addressing environmental factors to prevent illness and disease, too. In some cases, those measures are fairly straightforward. Removing lead from gasoline has substantially reduced the incidence of mental retardation caused by lead exposure. And U.S. authorities have estimated that regulations introduced in 2005 requiring American power plants to reduce air pollution will provide between US$85 billion and US$100 billion in annual health benefits by 2015, an amount roughly equal to 25 times the cost of implementation.

> **COMMENTARY FROM AN INDEPENDENT PERSPECTIVE — IT MAKES « *GOOD ECONOMIC SENSE* » FOR ENVIRONMENTAL TERROR ORGANIZATIONS TO CREATE LIES, FEAR–MONGERING, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, AND PARANOID CONSPIRACIES CONCERNING PEST CONTROL PRODUCTS. MANY ENVIRO–MANIACS AND THEIR AVARICIOUS ORGANIZATIONS HAVE BECOME MILLIONAIRES BECAUSE OF THEIR PROHIBITIONIST POLICIES ! THEY HAVE BEEN REWARDED WITH MILLIONS OF DOLLARS FROM GOVERNMENT AND PRIVATE DONATIONS ! THE MORE THEY CONCOCT LIES AND MIS–INFORMATION ABOUT CONVENTIONAL PEST CONTROL PRODUCTS, THE MORE THEY BECOME RICH ! ENVIRO–TERROR ORGANIZATIONS HAVE A RESPONSIBILITY TO THEIR DONORS AND INVESTORS, JUST LIKE ANY OTHER BUSINESS. MILLIONAIRE ENVIRONMENTAL TERROR ORGANIZATIONS THAT ARE MASSIVELY FINANCED BY GOVERNMENT AND PRIVATE SOURCES CAN PROVIDE THEIR MERE DOZENS OF ENVIRO–MANIAC EMPLOYEES SAFE, SECURE, GUARANTEED, AND WELL–PAYING ENVIRO–TERROR–JOBS.**

Some issues are more complicated. Global warming is associated with a wide range of concerns related to health and the environment, from contaminated water supplies to food shortages.

The National Annihilation of the Modern Green Space Industry !

Part 1

The organizations supporting the greening of Canada's health sector recognize this, and are encouraging the use of energy–conserving techniques and products in health facilities, along with reducing waste through reusing, recycling, and finding sources of materials that use less packaging.

We have MANY REASONS to protect the environment. As health professionals have recognized, two big reasons are to protect our health and to save money. We can all follow their example by doing whatever we can to reduce our negative impact on the planet. After all, healthy environments lead to healthy people and healthy economies.

COMMENTARY FROM AN INDEPENDENT PERSPECTIVE —

√ **FACT : THE PROHIBITION OF FEDERALLY LEGAL, SCIENTIFICALLY SAFE, AND TOTALLY IRREPLACEABLE MODERN CONVENTIONAL AND EFFECTIVE PEST CONTROL PRODUCTS HARMS AND DESTROYS BUSINESSES IN THE GREEN SPACE INDUSTRY !**

WARNING : THANKS TO THE HANDIWORK OF ENVIRONMENTAL TERRORISTS AGAINST THE GREEN SPACE INDUSTRY, THOUSANDS OF PEOPLE CAN EXPECT LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, UNEMPLOYMENT, LEADING TO DESPAIR AND DESTITUTION THROUGHOUT THE GREEN SPACE INDUSTRY.

√ **FACT : IN JURISDICTIONS WHERE PROHIBITION HAS BEEN IMPOSED, PROHIBITING PEST CONTROL PRODUCTS HAS ALREADY SEVERELY HARMED THE GREEN SPACE INDUSTRY !**

WARNING : IN JURISDICTIONS WHERE PROHIBITION HAS BEEN IMPOSED, VAST NUMBERS OF LAWN CARE COMPANIES ARE NOT EXPECTING TO SEE THE LIGHT OF SPRING ! IN OTHER WORDS, THEY ARE BEING ANNIHILATED !

DAVID SUZUKI FOUNDATION

David Suzuki Foundation

Suzuki is arguably the largest MULTI–MILLION DOLLAR MONEY–MAKING MACHINE within the ENVIRONMENTAL MOVEMENT. The David Suzuki Foundation itself employs fifty Suzuki Enviro–Maniacs.

David Suzuki Foundation was co–founded in 1991 by broadcaster and celebrity David Takayoshi Suzuki.

David Suzuki Foundation and its Enviro–Maniacs obviously actively support the prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE modern conventional and effective pest control products. Furthermore, it has also publicly stated that it DOES NOT want any prohibition exceptions for the GOLF INDUSTRY.

David Suzuki himself has said the following in 2008 — (the underlined emphasis is our own). —

The National Annihilation of the Modern Green Space Industry !

Part 1

> ***<< [The new prohibition legislation in Ontario] allows golf courses to continue using pesticides and gives power to the Ontario minister of the environment to allow other exceptions, a potentially dangerous loophole. >>***

On its web site, David Suzuki Foundation has also made the following statement about golf exceptions on October 15th, 2008. —

> ***<< If provincial prohibitions exempt golf courses, as proposed in the discussion paper, municipalities need clear authority to restrict pesticide use on golf courses within their boundaries to better protect public health and the environment. >>***

SUZUKI AND ITS ENVIRO–MANIACS : THEIR EXPERTISE, OR LACK THEREOF !

Suzuki and its Enviro–Maniacs present themselves as a supposed experts in matters concerning PEST CONTROL PRODUCTS.
[Wrong !]

Suzuki and its Enviro–Maniacs even present themselves as supposed experts in matters concerning TURFGRASS and ORNAMENTAL PLANT MANAGEMENT. [Wrong !]

Suzuki and its Enviro–Maniacs merely represent their own interests only, and often seek to impose their CLOWNISH LIFE–STYLE CHOICES on everyone too often through the creation of LIES, FEAR–MONGERING, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES.

NOT A SINGLE PERSON among the Suzuki Enviro–Maniacs has ANY recognized expertise, training, or background, in matters concerning PEST CONTROL PRODUCTS ! This includes even David Suzuki himself.

In order to allow SOUND SCIENCE to be effectively practiced, it would be preferable leave the interpretation of scientific research to those people who are competent to do it. Health Canada.

THE REPERCUSSIONS OF THE SUZUKI ENVIRO–TERROR ALLIANCES!

Federal, provincial, and municipal officials cannot EFFECTIVELY GOVERN THEIR JURISDICTIONS in a country that has Environmental Terror Organizations dictating public policy on matters such as the NEEDLESS, SENSELESS, and MALICIOUS prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE modern conventional and effective pest control products.

If Canada is to become a haven for ENVIRO–TERROR activity, companies and investors will SHUN CANADA, and GO ELSEWHERE ! There are now very clear indications that this is occurring in the pest control product manufacturing industry.

It is obvious that the prohibitionist culprits within the Suzuki Enviro–Terror Alliances must consider the hundreds of qualified scientists of the Pest Management Regulatory Agency of Health Canada to be incompetent and/or incapable of arriving at correct scientific findings concerning conventional pest control products.

Perhaps the services of Health Canada should be terminated, and the Suzuki Enviro–Terror Alliances can run the show themselves. Unfortunately, there is NOT ONE Suzuki Enviro–Maniac competent to do this kind of work, especially in matters pertaining to pest control products.

The National Annihilation of the Modern Green Space Industry !

Part 1

There will be NO END to the demands, threats, and attacks from the Suzuki Enviro-Terror Alliances that seek to ANNIHILATE the entire Green Space Industry because of malicious policies leading to LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting TERROR, DESPAIR, and DESTITUTION on THOUSANDS of people throughout the Green Space Industry.

Once the Suzuki Enviro-Terror Alliances have been successful in annihilating the Professional Lawn Care Industry ...

Enviro-Terror will next spread to FERTILIZERS !

– and then the GOLF INDUSTRY !

– and then NURSERY PRODUCTION !

– and then AGRICULTURE !

– and then NATIONAL PROHIBITION OF ALL PEST CONTROL PRODUCTS !

The National Annihilation of the Modern Green Space Industry !

Part 1

Force of Nature was launched for continuous transmission on the Internet on January 1st, 2009. It is a series of e–newsletters destined for the GREEN SPACE INDUSTRY, the Environmental Terror Movement, government officials, municipalities, and the media, nation–wide across Canada, and parts of the United States and overseas. FORCE OF NATURE is produced in two parts. First. The MEDIA REPORT, itself that reports on the current events affecting the future of the GREEN SPACE INDUSTRY. Second. INDEPENDENT PERSPECTIVE, which is a running commentary, sometimes technical in nature. Force of Nature is the WHOLE TRUTH from an INDEPENDENT PERSPECTIVE ! Force of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry.

FORCE OF NATURE is the brainchild of William H. Gathercole and his entourage. Norah G is actually an acronym for the stable of anonymous producers and writers that contribute to this e–newsletter and have now replaced Mr. Gathercole. They consist of people from the following industries : Distribution, Fertilizer, Golf, Lawn Care, Manufacturing, Municipal, Nursery, Orchard. Many of these people are leaders in their own industries. The opinions expressed in Force of Nature, even though from an INDEPENDENT PERSPECTIVE, may not reflect those of everyone in the GREEN SPACE INDUSTRY, or Mr. Gathercole's many associates. Be warned ! Force of Nature may sometimes be very irreverent and fearless with these e–newsletters. DON'T THANK US, IT'S A PUBLIC SERVICE AND WE ARE GLAD TO DO IT. Mr. Gathercole is now retired from Force of Nature, although his name continues to appear as the founder.

William H. Gathercole is a FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the GREEN SPACE INDUSTRY, including GOLF and PROFESSIONAL LAWN CARE, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised–consulted–programmed–overseen the execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole has followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter–century. His involvement in environmental issues reached a fevered pitch in the 1990s, when he orchestrated, with others, legal action against unethical and excessive municipal regulations restricting the use of pest control products. (i.e. the Town of Hudson, Quebec.) For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of Enviro–Terror for the Entire Green Space Industry across Canada. Although he can be accused of being ANTI–ENVIRONMENT–MOVEMENT, he is, in fact, simply a strong advocate FOR the GREEN SPACE INDUSTRY, from an INDEPENDENT PERSPECTIVE. However, this position has not precluded him from criticizing the Green Space Industry itself. Nonetheless, his vast knowledge of our long journey with environmental issues is UNDENIABLE. (Hopefully !)

All document excerpts and pictures contained in FORCE OF NATURE were found somewhere on the Internet. We believe that they are in the public domain, serving one of the following purposes : archive, education, promotion, publicity, or press release.

We believe that ENVIRONMENTAL TERRORISM can be BEATEN ! Information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader. The events, characters, companies, and organizations depicted in this document are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. The mission of Force of Nature is as a National Organization Responding Against Huje that harm the Green Space Industry with statements and activities seeking to prohibit FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE modern conventional and effective pest control products. Culprits are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each culprit is a mis–guided adversary, each still deserves our respect. The terms culprit or terrorist are not an accusation of any legal wrong–doing. Force of Nature is simply holding culprits accountable for conspiring to change public policies that TERRORIZE and THREATEN the Green Space Industry. Force of Nature believes that the prohibitionist policies of the Environmental Terror Movement will lead to LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, UNEMPLOYMENT, inflicting TERROR, DESPAIR, and DESTITUTION on THOUSANDS of people throughout the Green Space Industry. The actions of culprits in the movement are viewed as a form of TERROR against the Green Space Industry.
