Prostituting For Enviro- PROFIT By Exploiting Schools And Children

Enviro-PROFIT is TAX-EXEMPT FINANCING of Anti-Pesticide and Environmental Terrorist Organizations in Canada, such as David Suzuki Foundation.

Suzuki is a FUND-RAISING, PROFIT-SEEKING, and LOBBYING organization, but it is NOT a science, research, or health organization.

Suzuki's donation money DOES NOT GO INTO RESEARCH, but goes to paying for Enviro-Lunatic Hired-Guns or Lobbyists, and clerical employees.

Suzuki exists for one reason, and one reason only ... and that is TO MAKE MONEY.

David Suzuki Foundation is operated by Enviro-Lunatics who SOLICIT for Enviro-PROFIT by SENDING UNSOLICITED PROPAGANDA PACKAGES TO SCHOOLS AND CHILDREN.

Suzuki DESPICABLY PROSTITUTES FOR Enviro-PROFIT BY EXPLOITING SCHOOLS AND CHILDREN AS WEAPONS OF COERCION AND ULTIMATE TERROR in order to obtain financing through donations.

PROFIT AND POWER-HUNGRY organizations like David Suzuki Foundation need more money for LYING AND TERRORIZING !

And Suzuki is, yet again, INTERFERING IN PARTISAN POLITICS, this time FEDERALLY, with statements like « *There are serious questions about the federal capacity to safeguard Canada's environment* » and « *We are putting all of this [THE ENVIRONMENT] at risk* ».

Suzuki's PROPAGANDA PACKAGES TO SCHOOLS AND CHILDREN are part of the usual CAMPAIGN OF MIS-INFORMATION, FALSE ALLEGATIONS, TOTALLY FALSE RUBBISH, and are UNTRUE MIS-REPRESENTATIONS designed to ALARM AND ENRAGE THE PUBLIC and enhance the CASH-FLOW and ENVIRO-PROFIT of David Suzuki Foundation.

Suzuki IS NOT A CREDIBLE SOURCE OF INFORMATION upon which political decisions are made — Suzuki LIES and LIES and LIES.

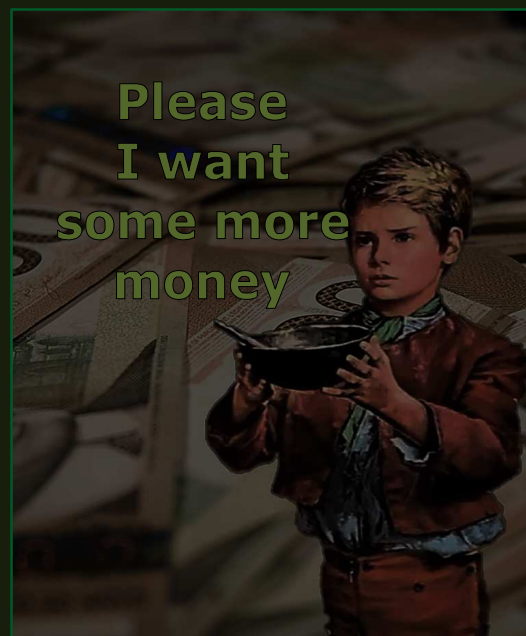

There is NOT A SINGLE Suzuki-Lunatic-Activist with ANY credible expertise in matters concerning the environment and pest control products.

NON-EXPERT Suzuki-Lunatics COMPENSATE for their INCOMPETENCE by becoming COMPULSIVE LIARS, and by RELYING UPON FEAR, INTIMIDATION, COERCION, and TERROR in order to SOLICIT Enviro-PROFIT.

According to Suzuki's PROPAGANDA PACKAGES TO SCHOOLS AND CHILDREN ... If you don't accept the beliefs of Suzuki, and if you don't send money to finance Suzuki, then you don't care about the environment.

Suzuki continuously acts like Oliver Twist, who tremblingly comes forward, bowl in hand, and makes the famous request —

Please, sir, I want some more money

Suzuki's Propaganda Packages Sent To Schools And Children

A practising teacher acquaintance of mine stopped by this morning with a FUND-RAISING LETTER and POST CARD from David Suzuki Foundation.

Yes, that's right.

David Suzuki Foundation is sending PROPAGANDA FUND-RAISER LETTERS to schools (and indirectly teachers or educators), to ASK FOR DONATIONS.

They also expect educators to send a pre-printed POST CARD which they (David Suzuki Foundation) will take to Prime Minister Stephen Harper on April 22nd, 2013, Earth Day.

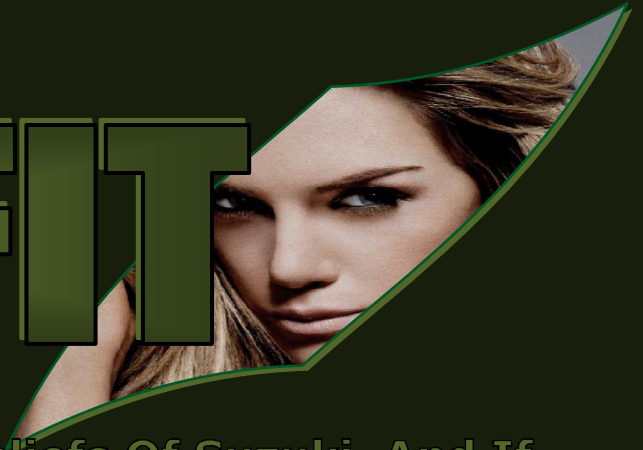

In this case, the FUND-RAISING LETTER and POST CARD were SENT TO A PRIVATE SECONDARY SCHOOL, but a school nonetheless.

Suggesting, it is likely, that teachers and school administrators working in ALL public and private schools were sent the same package.

Anyway, whatever Suzuki's rationale for sending the PROPAGANDA PACKAGE to a school, it was INAPPROPRIATE because Suzuki assumes that anyone not in favour of a carbon tax and oil sands resource development DOES NOT CARE FOR THE ENVIRONMENT.

enviro

PROFIT

**If You Don't Accept The Beliefs Of Suzuki, And If
You Don't Send Money To Finance His Organization,
Then You Don't Care About The Environment**

It also assumes that anyone who questions that carbon emissions are responsible for climate change DOES NOT CARE FOR THE ENVIRONMENT.

In other words, IF YOU DON'T ACCEPT THE PRECISE BELIEFS held by David Suzuki and Foundation that bears his name, THEN YOU ARE ANTI-ENVIRONMENT.

WHAT ABSOLUTE RUBBISH !

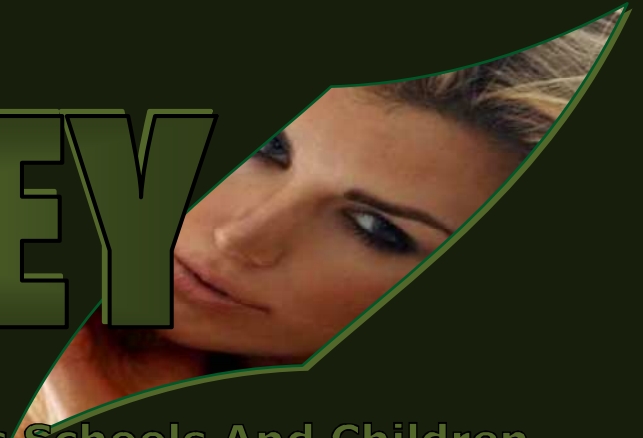

Lots of people are very environmentally conscious but are simply waiting for further proof that the Earth is warming due to man-caused carbon emissions, particularly since there are many different scientific opinions on the topic.

For example, the Earth has had many periods of warming and cooling over millions of years and some academics see global warming periods as positive — per this article written by Thomas Gale Moore of the Hoover Institution in 1995 — well before the present-day climate change hysteria norm.

Anyway, I am posting this information as a public service because this kind of political correctness and dogma is not only anti-democratic, it also SEEKS TO MANIPULATE CHILDREN indirectly through their teacher librarian or instructional resource teacher (who usually get mail the school office doesn't know what to do with).

Suzuki's Propaganda Package Sent To Schools And Children

The Post Card — Side 1

On one side of the POST CARD, there is a mountain and green forest image and the following text —

In February, Canada's Commissioner Of The Environment And Sustainable Development released a report criticizing HOW LITTLE THE GOVERNMENT IS DOING TO ADDRESS SERIOUS ENVIRONMENTAL RISKS.

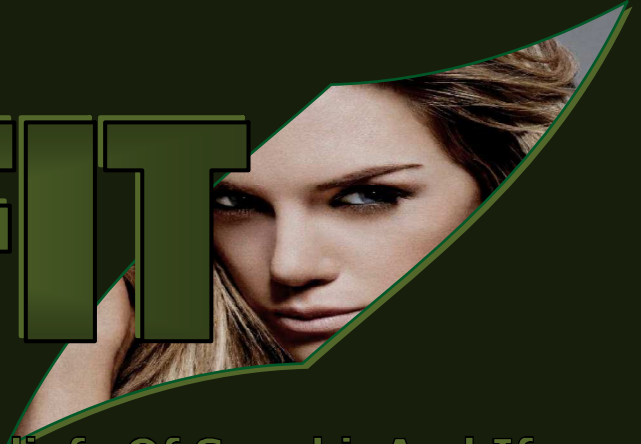

The report notes that the government — is unprepared for tanker accidents and oil spills in coastal waters — lacks regulations for toxic chemicals used by oil companies — and has no real plan to reduce greenhouse gas emissions.

Let's ask Prime Minister Harper to heed these warnings.

Suzuki's Propaganda Package Sent To Schools And Children

The Post Card — Side 2

On the address side of the POST CARD, it states —

Dear Prime Minister Harper.

Like most Canadians, I believe that NATURE IS ESSENTIAL FOR OUR SURVIVAL.

Canada's Commissioner Of The Environment And Sustainable Development made it clear in his recent report — the federal government is NOT DOING ENOUGH TO PROTECT OUR ENVIRONMENT.

Please listen to our concerns and implement the Commissioner's recommendations.

Sign this card and return it to the Foundation in the enclosed envelope by April 22nd, Earth Day.

Add a personal message — your voice is your most powerful tool.

We'll hand-deliver your card to the Prime Minister's Office.

The 4-Page Letter

The LETTER is ADDRESSED SPECIFICALLY TO
THE SCHOOL.

Here are some excerpts —

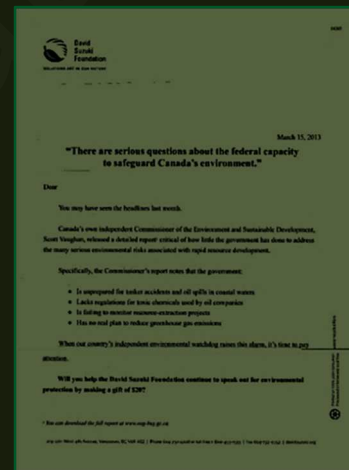

TITLE.

*There are serious questions about the
federal capacity to safeguard Canada's
environment.*

EXCERPT (A).

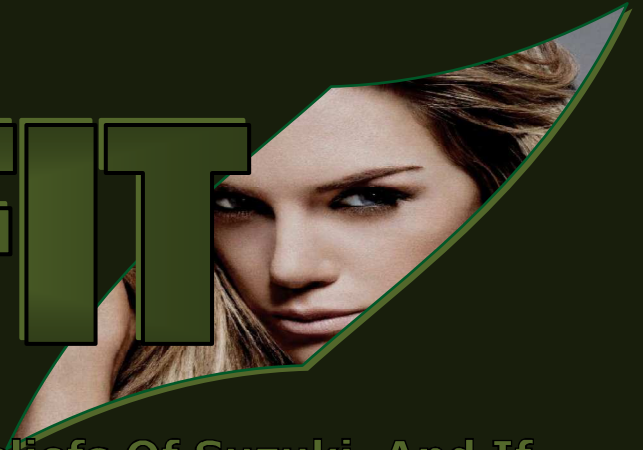

*You may have seen the headlines last
month.*

*Canada's own independent Commissioner Of The Environment
And Sustainable Development, Scott Vaughan, released a de-
tailed report critical of HOW LITTLE THE GOVERNMENT HAS
DONE TO ADDRESS THE MANY SERIOUS ENVIRONMENTAL RISKS
associated with rapid resource development.*

Suzuki's Propaganda Package Sent To Schools And Children

The 4-Page Letter (continued)

EXCERPT (B).

Specifically, the Commissioner's report notes that the government — is unprepared for tanker accidents and oil spills in coastal waters — lacks regulations for toxic chemicals used by oil companies — is failing to monitor resource-extraction projects — and has no real plan to reduce greenhouse gas emissions ... [?!?!]

EXCERPT (C).

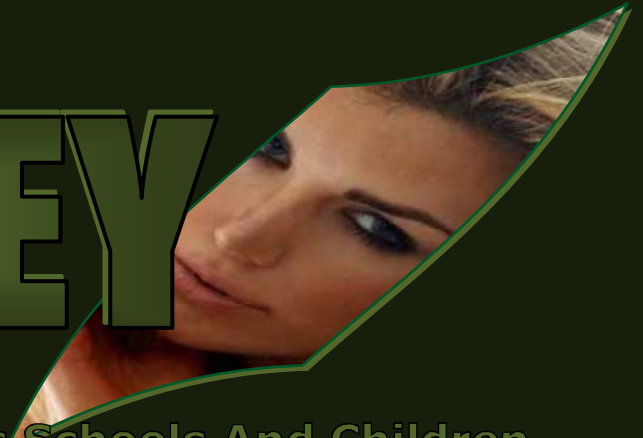

Will you help the David Suzuki Foundation continue to speak out for environmental protection by MAKING A GIFT [I.E. FINANCING SUZUKI WITH DONATION] OF \$20.00.

EXCERPT (D).

The only way to cut Canada's greenhouse gas emissions and combat climate change is to do all we can to wean ourselves — and our economy — off fossil fuels ...

enviro

MONEY

Suzuki Despicably Exploits Schools And Children As Weapons Of Coercion And Ultimate Terror In Order To Obtain Financing Through Donations

Suzuki's Propaganda Packages Sent To Schools And Children

The 4-Page Letter (continued)

EXCERPT (E).

Canada can reduce its energy-related greenhouse gas emissions by 80 per cent by 2050. [?!?!]

It won't be easy. But we must start now ...

Most Canadians believe governments should be doing more to combat climate change. [?!?!]

They support strategies to curb greenhouse gas emissions, like British Columbia's carbon tax, and view nature as essential to human survival ...

EXCERPT (F).

Your DONATION OF \$20.00 today will help us continue to demand real action be taken to protect Canada's environment.

EXCERPT (G).

Thank you for your support. Sincerely Peter Robinson, CEO, David Suzuki Foundation.

Commentary By Crux Of The Matter

Talk about an OVER-REACTION.

Canada already has dozens, if not more, existing pipe-lines and has had for decades.

Moreover, according to Marita Noon her Heartland column, oil will get to the United States one way or the other ... and if it is by rail, it is far less environmentally safe than via pipelines.

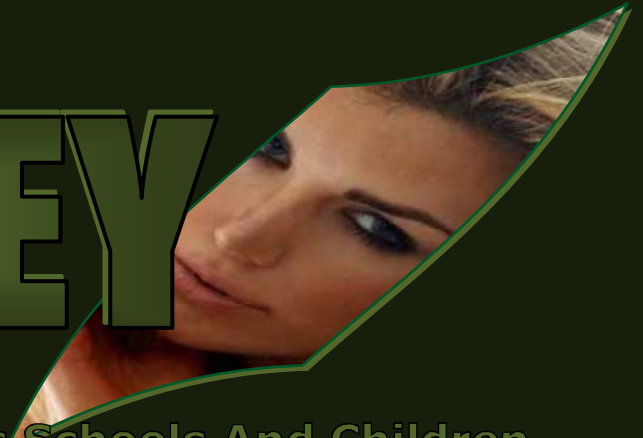

In any event, throughout the Suzuki PROPAGANDA PACKAGE, there are HUGE EXAGGERATIONS, such as suggesting that the Government of Canada, led by the Conservative Party, is doing nothing or very little for the environment, and the Prime Minister, Stephen Harper, doesn't care about the environment or what was written by Canada's Commissioner Of The Environment And Sustainable Development.

Decide for yourself how true that is.

The following segment contains excerpts from the Conservative Party website on the environment.

Canada's Economic Action Plan 2012

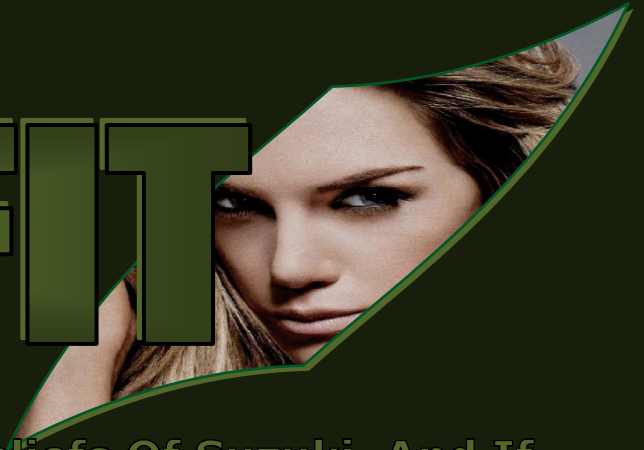

Canadian families deserve the cleanest air, water, and environment possible.

That's why, since 2006, the Conservative Government has made major investments to preserve our environment and protect the health and well-being of Canadian families for today and tomorrow, such as:

- \$1.1 billion for the ecoEnergy for Homes Retrofit program to support Canadians in making their homes more energy efficient
- \$1 billion for priorities such as green energy generation and transmission infrastructure, carbon transmission and storage infrastructure
- \$1 billion to support pulp and paper mills to reduce greenhouse gas emissions, and become leaders in the production of renewable energy from biomass
- \$1 billion in support of clean energy research, development and demonstration projects, including carbon capture and storage
- \$252 million to support regulatory activities to address climate change and air quality

enviro

PROFIT

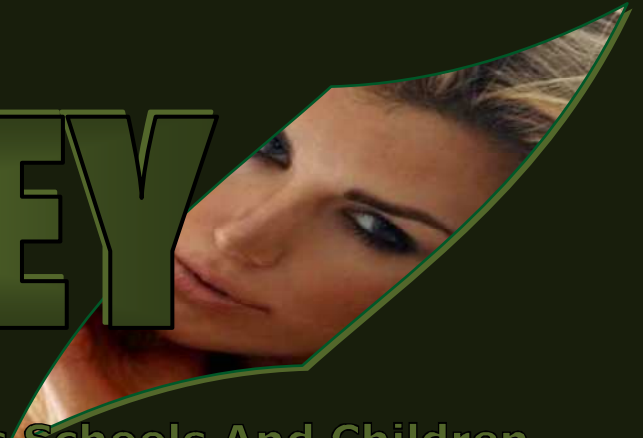

**If You Don't Accept The Beliefs Of Suzuki, And If
You Don't Send Money To Finance His Organization,
Then You Don't Care About The Environment**

Canada's Economic Action Plan 2012 (continued)

- nearly \$200 million to help address the health and environmental risks posed by dangerous chemicals through the Chemicals Management Plan
- \$100 million to support clean energy generation in Canada's forestry sector through the new Next Generation Renewable Power initiative
- \$97 million to develop and promote clean energy technologies
- \$86 million to support clean energy regulatory actions
- \$68 million to clean federal contaminated sites
- \$48 million to develop transportation sector regulations and next-generation clean transportation initiatives
- \$40 million to support new climate change and clean air projects under Sustainable Development Technology Canada
- \$38 million to reduce the risk of invasive animal and plant species in Canada

enviro

MONEY

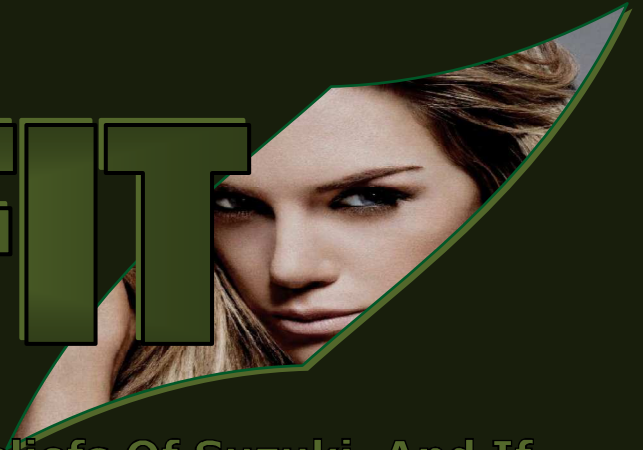

**Suzuki Despicably Exploits Schools And Children
As Weapons Of Coercion And Ultimate Terror
In Order To Obtain Financing Through Donations**

Canada's Economic Action Plan 2012 (continued)

- \$35 million to support climate and atmospheric sciences research
- \$27 million to improve Canada's weather services
- over \$18 million to support reporting on key environmental indicators such as clean air, clean water and greenhouse gas emissions
- \$16 million to protect and clean the Great Lakes
- \$8 million to support community-based environmental monitoring, reporting and baseline data collection in the North
- over \$5 million to establish a new national park in Labrador
- \$5 million to help protect environmental diversity in the Great Lakes region.
- eliminating fossil fuel tax subsidies in support of the G-20 leaders' commitment
- expanding tax relief for clean energy generation equipment to those involving heat recovery and district energy

enviro

PROFIT

**If You Don't Accept The Beliefs Of Suzuki, And If
You Don't Send Money To Finance His Organization,
Then You Don't Care About The Environment**

Canada's Economic Action Plan 2012 (continued)

- proposing regulations to reduce greenhouse gas emissions from new on road heavy-duty vehicles, including large pick-up trucks, short/long-haul tractors, cement and garbage trucks, buses, and more for 2014 and beyond
- investing \$17.5 million to help protect the Great Lakes from the threat of the invasive species known as Asian Carp

Economic Action Plan 2012 builds on the Conservative Government's impressive record of supporting a cleaner and more sustainable environment.

Included is action such as :

- \$50 million for the protection of Canada's species at risk
- committing to the creation of a new near-urban national park in Rouge Valley (Ontario)
- committing to the continued support of Canada's lakes — including Lake Winnipeg and Lake Simcoe
- providing expanded tax relief for clean energy generation equipment to those involving waste-fuelled thermal energy and residues of plants

Suzuki's Propaganda Packages Sent To Schools And Children

**Commentary By Crux Of The Matter
(continued)**

Well, the accomplishments of the Conservative Party may not be worded exactly as the Suzuki Foundation alleges, but the items on the list in the previous segment hardly look like an uncaring government.

For example : \$1 billion dollars to support pulp and paper mills to reduce greenhouse gas emissions and to become leaders in the production of renewable energy from biomass hardly sounds like Prime Minister Harper is not listening to the concerns of Canadians.

In my opinion, the crux of the matter is that the David Suzuki Foundation has LOST ITS CHARITABLE WAY WITH ITS ALL OR NOTHING ENVIRONMENT AND POLITICAL ADVOCACY ABOUT WHAT IS OR IS NOT EVIDENCE OF CARING FOR THE ENVIRONMENT.

A woman with long blonde hair, wearing a white feathered bikini top and white lace underwear, is sitting on an ornate, gold-colored chair. She is holding a large fan of Canadian 100 dollar bills. The background is a highly ornate, classical-style interior with intricate carvings and a chandelier. The floor is covered with white feathers.
