

A woman with dark, wavy hair is shown in profile, looking upwards towards a flaming skull. The skull is surrounded by intense orange and yellow flames, set against a background of swirling, textured patterns in shades of brown and orange. The overall mood is dramatic and intense.

Environmental Terrorists

UNMASKED

MORONIC and STUPID Enviro-Lunatic Concoction

July 7th, 2011

Shoshone News Press

Selected and adapted excerpts

ORANGE 2,4-D RESIDUE ?!?!

AGENT ORANGE EFFECT ?!?!

ABSOLUTELY NOT !

MORONIC and STUPID « *Agent Orange Effect* » alleged by Enviro–Lunatics as being caused by the application of 2,4-D herbicide

A group of bike riders passes a patch of the pesticide 2,4-D, on the Trail of the Coeur d'Alene, Idaho, population of over 44,000.

2,4-D leaves an ORANGE RESIDUE, as seen in the photo. [Wrong !]

Another Enviro–Lunatic Weapon of Ultimate Terror Against 2,4-D.

The bike trails were not being sprayed with Agent Orange.

Local residents and riders noticed an orange residue they believed were patches of the notorious defoliant along area bike routes, and voiced understandable alarm.

Fortunately for everyone, the substance is actually the third most commonly used herbicide in the country — 2,4-D.

And it is not toxic.

2,4-D is an artificial plant hormone that targets broad-leaf plants like dandelions but leaves the surrounding grasses un-harmed.

In the photo, 2,4-D seemingly has left the adjacent clover un-harmed, leading to the question — was there ANY herbicide EVER applied ?!?!

According to lunatics 2,4-D herbicide LEAVES AN ORANGE RESIDUE for a brief period after application, true Agent Orange does not. [Wrong !]

Agent Orange is clear or whitish in color, and earned its name from the colour of the stripes on its storage drums used during the Vietnam War.

Environmental Terrorists

UNMASKED

There is NO CREDIBLE EVIDENCE that the Agent Orange herbicide mix ever harmed anyone or any thing except the Viet Cong who had less jungle foliage to hide behind

The Vietnam War was a military conflict that occurred in Vietnam, Laos, and Cambodia from 1955 to 1975.

There is a connection between Agent Orange and 2,4-D, however.

2,4-D is half of the 50:50 mixture that comprised Agent Orange, although the EXTREME TOXICITY of the latter is due to dioxin contamination that occurred during production. [Wrong !]

In 2007 the United States Environmental Protection Agency and the Pest Management Regulatory agency of Health Canada issued a ruling that 2,4-D IS NOT CANCER-CAUSING IN HUMANS.

Moreover, there is NO CREDIBLE EVIDENCE that even the Agent Orange defoliant mixture (2,4-D and 2,4,5-T with by-product dioxins) ever harmed anyone or any thing except the Viet Cong who had less jungle foliage to hide behind.

It must be concluded that even Coeur d'Alene, Idaho, is INFESTED with MORONIC and STUPID Enviro-Lunatics who CONCOCT stories like an « *Agent Orange Effect* ».

**ORANGE 2,4-D RESIDUE ?!?!
AGENT ORANGE EFFECT ?!?!
ABSOLUTELY NOT !**

MORONIC and STUPID « *Agent Orange Effect* » alleged by Enviro-Lunatics as being caused by the use of 2,4-D herbicide, with adjacent clover somehow unaffected, and without consideration for the combined stress of wear, compaction, heat, and drought evident along the pathway during the summer.

The BOGUS Enviro-Lunatic Concoctions Using Herbicide Orange and Cancer as Weapons of Ultimate Terror Against 2,4-D

2,4-D Herbicide is the MOST HATED by Lunatic-Environmental-Terrorists

According to the rabid student-operated Sierra Club in 2004 ...

In Canada and elsewhere, herbicides are the most frequently used type of pesticide and the most common herbicide in Canada is 2,4-D.

Sierra Club is a PROHIBITION-TERRORIST-ORGANIZATION that CONSPIRES to PROHIBIT pest control products.

These products are, otherwise, HEALTH-CANADA-APPROVED, FEDERAL-LEGAL, and SCIENTIFICALLY-SAFE.

Of all pest control products, 2,4-D HERBICIDE IS THE MOST HATED BY LUNATIC-ENVIRONMENTAL-TERRORISTS.

PROHIBITION-TERRORIST-ORGANIZATIONS claim to have some form of « *secret evidence* » proving that 2,4-D is not safe.

In fact, they have NOTHING but CONCOCTED STORIES, PUBLIC PARANOIA and ENVIRONMENTAL TERROR, which are the ONLY weapons that are being used against 2,4-D.

The BOGUS Enviro-Lunatic Concoctions Using Herbicide Orange and Cancer as Weapons of Ultimate Terror Against 2,4-D

Herbicide Orange

The most infamous herbicide defoliant combination used in the Vietnam War was Herbicide Orange, otherwise known as Agent Orange.

This product contained a 50:50 mixture of n-butyl esters of 2,4-D and 2,4,5-T.

Herbicide Orange was never a registered product in either the United States or Canada.

The controversy associated with the use of Herbicide Orange was associated with a contaminant in the 2,4,5-T component, and not 2,4-D.

At the time, 2,4,5-T was contaminated with a dioxin named TCDD.

Studies showed that this dioxin, and not necessarily Herbicide Orange, increased the risk of various types of cancer and birth defects.

Consequently, Herbicide Orange was suspended for use by the United States Department of Defense.

2,4,5-T was later entirely withdrawn from the market.

The BOGUS Enviro-Lunatic Concoctions Using Herbicide Orange and Cancer as Weapons of Ultimate Terror Against 2,4-D

Herbicide Orange (continued)

Nonetheless, there has NEVER BEEN ANY CREDIBLE EVIDENCE indicating that the Herbicide Orange herbicide mixture (2,4-D and 2,4,5-T with by-product dioxins) was harmful.

Since this time, 2,4-D has been often FALSELY and MALICIOUSLY associated with dioxins and cancer because of Herbicide Orange.

Nonetheless, SINCE 1983, 2,4-D CAN BE CONSIDERED FREE OF DIOXINS.

The Enviro-Lunatics have argued that the Herbicide-Orange-2,4-D affair has proven that the Professional Lawn Care Industry uses dangerous products like 2,4-D.

The Professional Lawn Care Industry can argue back that 2,4-D IS NOT HERBICIDE ORANGE.

2,4-D Is Safe

Moreover, 2,4-D DOES NOT CONTAIN HARMFUL DIOXINS.

Furthermore, it can be stated that 2,4-D DOES NOT CAUSE CANCER.

Here's why.

The BOGUS Enviro-Lunatic Concoctions Using Herbicide Orange and Cancer as Weapons of Ultimate Terror Against 2,4-D

2,4-D Evaluation by Health Canada

Furthermore, it can be stated that 2,4-D DOES NOT CAUSE CANCER, which was the conclusion of the Canadian federal Pest Management Regulatory Agency of Health Canada (PMRA) in 2005, indicating that ...

... the toxicological database DOES NOT SUGGEST A CARCINOGENIC RISK.

In 2008, the Health Canada also stated that ...

Products containing 2,4-D DO NOT POSE UNACCEPTABLE RISKS TO HUMAN HEALTH OR THE ENVIRONMENT.

Risks to HOMEOWNERS AND THEIR CHILDREN from contact with treated lawns and turf are NOT OF CONCERN.

(PMRA RV2008-11, May 2008.)

The BOGUS Enviro-Lunatic Concoctions Using Herbicide Orange and Cancer as Weapons of Ultimate Terror Against 2,4-D

2,4-D Evaluation by Ontario Pesticides Advisory Committee

On April 25th, 2007, according to the Ontario Pesticides Advisory Committee (OPAC), under the chairmanship of the renowned Dr. Clayton M. Switzer ...

OPAC has concluded after in-depth consideration of the scientific evidence, there is NO REASON FOR US TO RECOMMEND ADDITIONAL RESTRICTIONS ON THE USE OF 2,4-D.

2,4-D will continue to be classified according to the current classification guidelines.

Dr. Switzer is a Professor at the University of Guelph, and former Dean of the Ontario Agricultural College.

Dr. Switzer was Deputy Minister of the Ministry of Agriculture and Food from 1984 to 1989.

Dr. Switzer is past president of the Ontario Institute of Agrologists, member of the Agricultural Institute of Canada, member of the International Turf-grass Society, and a recipient of the Queen's Golden Jubilee Medal.

The BOGUS Enviro-Lunatic Concoctions Using Herbicide Orange and Cancer as Weapons of Ultimate Terror Against 2,4-D

Pesticide Evaluation by CropLife Canada

In 2007, CropLife Canada, the trade association that represents the manufacturers of pest control products, took an even stronger position regarding cancer —

Do pesticides cause cancer ?

There are NO STUDIES WHICH LINK PESTICIDE EXPOSURE TO CANCER.

In fact, health experts — from the Dieticians of Canada to the Canadian Cancer Society — consistently advocate a diet rich in fruits, vegetables and grains as one of the best ways to prevent cancer and heart disease.

Pesticides are an important tool that allows us to grow an affordable, abundant food supply of fruit and vegetables.

Enviro-Lunatics have NEVER ACCEPTED any of these conclusions.

In fact, they became mock-infuriated, and, as of 2005, began DEMANDING PROVINCE-WIDE LUNATIC-TERRORIST-PROHIBITIONS in earnest.

The BOGUS Enviro-Lunatic Concoctions Using Herbicide Orange and Cancer as Weapons of Ultimate Terror Against 2,4-D

Environmental Terror from Ontario New Democratic Party

In September 2008, the Ontario New Democratic Party (NDP) has expressed its own mis-informed Enviro-Lunatic dissatisfaction with 2,4-D —

There is a significant body of research showing links between use of certain pesticides on golf courses, such as 2,4-D, and CANCER in humans and wildlife.

[Wrong !]

Ontario New Democratic Party is a POLITICAL SHIELD for PROHIBITION-TERRORIST-ORGANIZATIONS that CONSPIRE to PROHIBIT pest control products.

These products are, otherwise, HEALTH-CANADA-APPROVED, FEDERAL-
LY-LEGAL, and SCIENTIFICALLY-SAFE.

In fact, they have NOTHING but CONCOCTED STORIES, PUBLIC PARANOIA and ENVIRONMENTAL TERROR, which are the ONLY weapons that are being used against 2,4-D.

The ULTIMATE WEAPON OF TERROR used is the FEAR OF CANCER.

The BOGUS Enviro-Lunatic Concoctions Using Herbicide Orange and Cancer as Weapons of Ultimate Terror Against 2,4-D

Environmental Terror from André Boisclair

In Quebec, the minister who was responsible for the LUNATIC-TERRORIST-PROHIBITION of pest control products USED THE FEAR OF CANCER AS ULTIMATE TERROR TO COERCE THE PUBLIC INTO ACCEPTING EXTREME LEGISLATION.

Here is what was said by André Boisclair, Non-Expert Enviro-Lunatic Minister of the Environment, Government of Quebec, circa 2003 —

There's more to fear from CANCER than from dandelions.
[Wrong !]

Boisclair was not only NON-EXPERT, he was NOT CREDIBLE — he was the first openly-gay politician in Canada to win the leadership of a party.

Incredibly, Boisclair appeared in a television comedy sketch featuring a homo-sexual depiction of Stephen Harper and George W. Bush, and garnered a reputation as a gay party animal in Quebec City's night-life scene.

The BOGUS Enviro-Lunatic Concoctions Using Herbicide Orange and Cancer as Weapons of Ultimate Terror Against 2,4-D

Environmental Terror from Jack Layton

Here is what was said by Jack Layton, Non-Expert Enviro-Lunatic Federal Leader, New Democratic Party of Canada, on May 16th, 2006 —

Mr. Speaker, in back yards and school yards, parks, gardens and green spaces across Canada A TOXIC COCKTAIL OF CANCER CAUSING CHEMICALS are being used to kill weeds, and pests. [Wrong !]

While these CARCINOGENS are very effective at keeping our yards and public spaces looking green, they are far from being green. [Wrong !]

Pesticides that in many cases may have life altering implications not just in the near term, but decades down the road, such as immune system damage, reproductive damage, skeletal abnormalities, skin damage, and cancer. [Wrong !]

The Federal New Democratic Party is a POLITICAL SHIELD for PROHIBITION-TERRORIST-ORGANIZATIONS that CONSPIRE to PROHIBIT pest control products.

These products are, otherwise, HEALTH-CANADA-APPROVED, FEDERAL-LEGAL, and SCIENTIFICALLY-SAFE.

The BOGUS Enviro-Lunatic Concoctions Using Herbicide Orange and Cancer as Weapons of Ultimate Terror Against 2,4-D

Environmental Terror from Jack Layton (continued)

In the 1990s and 2000s, Layton CONSPIRED to IMPOSE LUNATIC-TERRORIST-PROHIBITION in the Town of Hudson, Quebec.

Layton has operated as Leader and Spokesperson for the following ENVI-
RONMENTAL-TERRORIST-ORGANIZATIONS that also CONSPIRE to PRO-
HIBIT pest control products that are HEALTH-CANADA-APPROVED, FED-
ERALLY-LEGAL, and SCIENTIFICALLY-SAFE —

- New Democratic Party of Canada (NDP)
- Federation of Canadian Municipalities (FCM)

New Democratic Party of Canada is one of two opposition parties in Canada, and functions as the POLITICAL SHIELD for other PROHIBITION-TERROR-IST-ORGANIZATIONS like Canadian-Cancer-Society.

Federation of Canadian Municipalities (FCM) is the ADVOCACY SHIELD that also CONSPIRED to IMPOSE LUNATIC-TERRORIST-PROHIBITION.

As President of Federation of Canadian Municipalities, Layton was a PROMI-
NENT ARCHITECT IN DEFENCE OF LUNATIC-TERRORIST-PROHIBITION in-
volving the Town of Hudson and The Supreme Court of Canada.

The BOGUS Enviro-Lunatic Concoctions Using Herbicide Orange and Cancer as Weapons of Ultimate Terror Against 2,4-D

Environmental Terror from David Suzuki

David Suzuki Foundation is a PROHIBITION-TERRORIST-ORGANIZATION that CONSPIRES TO IMPOSE the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products.

Suzuki also seeks to IMPOSE A NATIONAL PROHIBITION ON ALL PEST CONTROL PRODUCTS.

According to the DANGEROUS, HYPOCRITICAL, and INSATIABLE David Suzuki Foundation and its coalition friends who supported LUNATIC-TERRORIST-PROHIBITION in the Province of Ontario in 2008 —

A systematic review of the epidemiological literature by the ONTARIO COLLEGE OF FAMILY PHYSICIANS found consistent links to serious illnesses, such as CANCER, reproductive problems and neurological diseases associated with pesticide exposure. [Wrong !]

Other independent research actively supports the OCFP findings, notably the 2002 review by Toronto Public Health. [?!?!]

(Coalition supporting the Ontario ban, April 26th, 2008.)

The BOGUS Enviro-Lunatic Concoctions Using Herbicide Orange and Cancer as Weapons of Ultimate Terror Against 2,4-D

Environmental Terror from Ontario College of Family Physicians

Non-Expert Enviro-Lunatic-Health-Care-Workers routinely SCAM the public with the CONCOCTION of FRAUDULENT LIES and IMAGINARY DANGER concerning conventional pest control products.

They SCAM and DECEIVE the public blurting out HOLLOW and DESPICABLY-ALARMIST expressions like « *cancer* » and « *serious illness* » and « *reproductive problems* » and « *neurological diseases* » !

This is clearly evident in a literature review that is a DISGRACEFULLY FALSE AND MISLEADING REPORT concocted by Ontario College Of Family Physicians (OCFP).

Ontario College Of Family Physicians (OCFP) is a DISCREDITED RADICAL PROHIBITION-TERRORIST-ORGANIZATION that concocts LIES, TERROR, FEAR-MONGERING, MISCONCEPTIONS, COERCION, DECEPTIONS, and PARANOID CONSPIRACIES about conventional pest control products.

Ontario College Of Family Physicians (OCFP) produced a DISGRACEFUL, FALSE, MISLEADING, BIASED, and SUBVERSIVE report as part of its claim of a « *growing body of evidence* » against pest control products.

The Non-Expert authors and reviewers of the OCFP report were PAID-FOR-PROFIT by Laidlaw Foundation, an organization that also FINANCIALLY SUPPORTS other ENVIRONMENTAL-TERRORIST ACTIVITIES.

The BOGUS Enviro-Lunatic Concoctions Using Herbicide Orange and Cancer as Weapons of Ultimate Terror Against 2,4-D

Environmental Terror from Ontario College of Family Physicians (continued)

What is not explained in the OCFP report is that the « *evidence* » against pest control products consists of some epidemiological studies showing a WEAK (in most cases, a VERY WEAK) link between some pest control products and cancer.

One doctor, who was listed as having peer-reviewed the report, was not aware that her name was on the report until it was published, and then DENIED SHE HAD REVIEWED THE REPORT.

Another doctor, a peer-reviewed of the report and a nine-year chairman of OCFP, was found guilty of professional mis-conduct over SEXUAL ACTIVITY with a female patient during psychotherapy sessions — his LICENSE WAS SUSPENDED FOR TWELVE MONTHS.

There is a « *growing body of evidence* » that some of the authors and reviewers of the OCFP report may be UNETHICAL and UNPROFESSIONAL.

The OCFP report HAS ABSOLUTELY NO CREDIBILITY IN THE LEGITIMATE SCIENTIFIC COMMUNITY.

Moreover, the OCFP report has been REFUTED BY HEALTH CANADA, and has been INTERNATIONALLY DISCREDITED.

NORAHG

FORCE OF NATURE presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG).

It is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY.

FORCE OF NATURE is TOTALLY INDEPENDENT and NON-PROFIT. Don't thank us. It's a public service. And we are glad to do it. FORCE OF NATURE provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

All information, excerpts, and pictures contained in FORCE OF NATURE were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

FORCE OF NATURE, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University — University of Guelph — the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and environmental terrorism — turf and ornamental maintenance and troubleshooting — history of the industry — sales and distribution of seeds, chemicals, fertilizers, and equipment — fertilizer manufacturing

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety — supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications — advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians — pesticide certification instructor for thousands of industry workers — founder of modern professional lawn care industry — prolific writer for industry publications and e-newsletters — first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver/Fraser Valley region — with Dr. Peter Dernoeden, confirmed the presence of Take-All Patch as a disease of turf in Eastern Canada — with Dr. David Shetlar, confirmed the invasion of the Kentucky Bluegrass Scale in South-Western Ontario, and later, in the Montreal and Vancouver regions — the only true reliable witness who intervened in the development of prohibition in the town of Hudson, Quebec

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to the prohibition of pest control products — creator of the signs that are now used for posting after application — co-founder of annual convention for Quebec golf course superintendents — the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils — retired founder of FORCE OF NATURE and A LOOK AT e-newsletters

Notable award — man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against activism in the 1980s and 1990s

Legacy — for fifteen years, the strategies designed and implemented by Mr. Gathercole and his colleagues ensured the control of environmental activists, providing peace for the entire modern green space industry across Canada — orchestrated, with his colleagues, legal action against activists in the town of Hudson, Quebec

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT e-newsletters.

The Force Of Nature Library of Reports contains all FON Reports, as well as PESTICIDE TRUTHS and OTHER FACTS with Library, History, Links, News, and Videos.

It is a LINK DATABASE created to support efforts to fight and exterminate the Environmental-Lunatic-Vermin with reports developed for the education and entertainment of the reader.
