

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG)

Despite its I.P.M. Law, the City of New York applied Roundup Herbicide to public spaces nearly 500 times in 2011.

Moreover, New York City Agencies also used a total of 7,324 gallons and 123,482 pounds of PESTICIDES in 2011.

Integrated Pest Management (I.P.M.) in New York City is a DISMAL FAILURE.

I.P.M. DOES NOT SIGNIFICANTLY REDUCE OR ELIMINATE the use of pest control products while effectively and consistently controlling pests.

I.P.M. DOES NOT CONTROL PESTS.

There is NOTHING WRONG with conventional pest control programs.

There is NO NEED to attempt to adjust them with I.P.M.

I.P.M. will NEVER APPEASE Anti-Pesticide Lunatics who CONSPIRE TO PROHIBIT ALL PEST CONTROL PRODUCTS.

Moreover, #@!!% I.P.M. NONSENSE will NOT improve the public and political LACK-OF-CONFIDENCE regarding the safety of pest control products.

I.P.M. is a FAILED PUBLIC AFFAIRS STRATEGY.

I P M **FAILURE** **City Of New York**

**Despite I.P.M. Law, New York City
Applied Roundup To Public Spaces
Nearly 500 Times In 2011**

According to a report from New York City's Department of Health and Mental Hygiene (DOHMH), **ROUNDUP IS THE MOST FREQUENTLY APPLIED HERBICIDE IN THE CITY.**

According to Anti-Pesticide Lunatics, this has occurred in violation of the spirit and intent of the 2005-passed the Pesticide Usage Law (Local Law 37), which supposedly put New York City on track to eliminate so-called dependency on hazardous pesticides, and submit a city **INTEGRATED PEST MANAGEMENT (I.P.M.)** plan to the mayor every January.

The DISMAL FAILURE of Integrated Pest Management

The report, Pesticide Use By New York City Agencies In 2011, indicates that over 500 gallons of Roundup in various formulations was applied to city ground in the year 2011.

City data confirms that 34.2 per cent of HERBICIDE applications included Roundup last year, a 40 per cent increase from 2010.

However, New York City's Department of Environmental Protection has supervised the use of Roundup around sensitive environmental areas such as the Pepacton Reservoir, which supplies 25 per cent of the city's water.

New York City's report states —

The active ingredient glyphosate POSES LITTLE RISK OF ACUTE POISONINGS OR CHRONIC HEALTH EFFECTS and HAS NOT BEEN SHOWN TO BE CARCINOGENIC.

With thousands of studies over several decades, NO replicated scientifically valid study has found any human harm from Glyphosate.

Anti-Pesticide Lunatics have been DISCREDITED, with their allegations being REFUTED by REAL Experts.

Glyphosate is SCIENTIFICALLY SAFE.

Using Integrated Pest Management as a means of ELIMINATING PESTICIDES is a DISMAL FAILURE AND A WASTE OF TIME AND MONEY.

September 24th, 2011

Mother Jones

Selected and Adapted Excerpts

**There Is
Nothing Wrong
With Your Pest
Control
Programs**

**Do Not Attempt
To Adjust Them
With IPM**

I.P.M. Failure

Considerations ... #@!!% BOGUS I.P.M. NONSENSE

In agriculture, Integrated Pest Management (I.P.M.) is a pest control strategy that uses a variety of complementary strategies including — mechanical devices, physical devices, genetic, biological, cultural management, and chemical management.

For several decades, Integrated Pest Management has been BASTERDIZED into many versions in order to suit the needs Enviro-Lunatics, Educators, and others.

The Enviro-Lunatic-Version of Integrated Pest Management DEMANDS the ELIMINATION of the use of conventional pest control products while at the same time managing pest populations at an acceptable level.

Unfortunately, Integrated Pest Management has been designed to be applicable to the Agriculture Industry, and NOT the Green Space Industry.

Overall, Integrated Pest Management is a DISMAL FAILURE AND A WASTE OF TIME AND MONEY for the Green Space Industry.

Overall, I.P.M. cultural practices DO NOT CONTROL PESTS of established turf and ornamentals.

Integrated Pest Management has been designed to be applicable to the Agriculture Industry, and NOT the Green Space Industry

Integrated Pest Management is a FAILURE and a WASTE OF TIME AND MONEY for the Green Space Industry.

Moreover, using Integrated Pest Management ACCOMPLISHES VIRTUALLY NOTHING in terms of resolving the PUBLIC AFFAIRS ISSUES concerning the PROHIBITION of conventional pest control products.

IPM DOES NOT CONTROL PESTS OF TURF

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUIE that seek to harm the Green Space Industry (NORAHG)

NORAHG

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the **N**ational **O**rganization **R**esponding **A**gainst **H**UJE that seek to harm the **G**reen space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « *saving* » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

FORCE OF NATURE was launched for CONTINUOUS transmission on the Internet on January 1st, 2009 — however, the VERY FIRST Stand-Alone FORCE OF NATURE Report was issued on September 19th, 2008.

By early 2009, the reports were released no more than five times per week, but by August 25th, 2009, FORCE OF NATURE was produced on a DAILY basis.

On March 15th, 2010, Uncle Adolph independently launched the Blog-Site called The Pesticide Truths, for the posting of information right-off-the-press.

By May 27th, 2010, Uncle Adolph expanded Pesticide Truths to a SECOND Blog-Site, and independently acquired the rights to archive the ENTIRE FORCE OF NATURE Library of Reports.

The Whole Truth from an Independent Perspective

NORAHG

By mid-December 2010, ENTIRE FORCE OF NATURE Library of Reports was FULLY SUMMARIZED and CROSS-REFERENCED, and by early 2012, the library was archived on The Pesticide Truths Web-Site, in the form of Web-Pages.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Demoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
