National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG)

Sharp Park Golfers Win In Court.

Lunatic-Enviro-Terrorists Seeking the Destruction of the Golf Industry Have Been STOPPED.

Enviro-Terrorists Attacked Sharp Park Golf Club on the Pretext of Alleged Ill-Effects on the Habitats of Obscure and Insignificant Species like Garter Snakes and Tadpoles.

In fact, the California Golf Facility is NOT Harming Animal Species.

### Sharp Park Golfers Win In Court

# Overview From An Independent Perspective

Sharp Park WILL REMAIN A GOLF COURSE after U.S. District Judge Susan Illston DISMISSED a legal challenge from Environmental Terrorist Organizations on December 6<sup>th</sup>, 2012.

According to United States Fish and Wildlife Service, Sharp Park would MOST LIKELY NOT POSE THREATS TO THE EXISTENCE OF FROGS AND SNAKES ON AND AROUND THE GOLF COURSE.

This Golf Facility has been under a SIEGE OF GOLF-HATING ENVIRONMENTAL TERRORISM under the PRETEXT of somehow protecting obscure and insignificant species.

In fact, Sharp Park Golf Course is NOT harming ANY animal species.

Not surprisingly, Enviro-Lunatics HATE AND DESPISE the Game of Golf.

Enviro-Lunatics want to SHUT DOWN Golf Facilities like Sharp Park.

Anti-Golf Organizations have TERRORIZED the City of San Francisco for years over the future of Sharp Park Golf Course.

Sharp Park MAY STILL BE CLOSED because of their RELENTLESS AND UNCEASING LIES AND MIS-INFORMATION.

The habitat that Enviro-Lunatics are trying to « *recover* » was originally created when the golf course was built along with a sea wall, isolating the Laguna Sal from ocean waves.

If the golf course had NEVER BEEN BUILT, there would be no habitat for the endangered species.

Anti-Golf Enviro-Lunatics seek the DESTRUCTION of Sharp Park, as well as the ENTIRE Golf Industry.

Golf-Hating Terrorism will NEVER END unless the Golf Industry STRIKES BACK !

The Golf Industry Should Tell Anti-Golf Activists to Get OFF Our grASS and Roast In Hell.

## Sharp Park Golfers Win In Court

December 7<sup>th</sup>, 2012

SFGate

City of San Francisco, California

Selected and Adapted Excerpts

Sharp Park WILL REMAIN A GOLF COURSE after U.S. District Judge Susan Illston DISMISSED a legal challenge from Environmental Terrorist Organizations.

On December 6<sup>th</sup>, 2012, a long legal battle broke toward the pin for Sharp Park golfers when U.S. District Judge Susan Illston DISMISSED A LAWSUIT by Environmental Terrorist Organizations that had threatened to close the 80-year-old Pacifica golf course in San Francisco, California.

The dismissal by U.S. District Judge Susan Illston caps FOUR YEARS OF LEGAL WRANGLING over habitat for protected San Francisco garter snakes and California red-legged frogs.

# Sharp Park Golfers Win In Court ( continued )

Sharp Park's signature soggyess is just one sign of its fragile perch along the seaside ecosystem.

Environmental-Terrorist-Organizations FALSELY ALLEGED that the pumping of water on and off the course damages egg pods and habitats of protected species.

In her DISMISSAL, Illston cited an October 2<sup>nd</sup>, 2012, report from the U.S. Fish and Wildlife Service which found golf at Sharp Park would MOST LIKELY NOT POSE THREATS TO THE EXISTENCE OF FROGS AND SNAKES ON AND AROUND THE GOLF COURSE.

According to the report from the United States Fish and Wildlife Service, it is expected just a single frog and snake would be killed over a 10-year period during normal golf course operations.

According to the same report, a MERE 130 frog egg masses, though, would be destroyed each year, the report estimated.

Bo Links, co-defendant in the suit and co-founder of the San Francisco Public Golf Alliance, described the DISMISSAL a TREMENDOUS VICTORY.

# Victory

## Golfers Triumph Over Snakes and Frogs In Sharp Park Dispute

December 9<sup>th</sup>, 2012

Golf Dispute Resolution

Tracking The Intersection Of Golf And Law

City of San Francisco, California

Selected and Adapted Excerpts

Finally, the golfers, snakes, and frogs at Sharp Park Golf Course can rest easy in co-existent bliss.

For a number of months, they have all been on the endangered list.

Environmental Terrorist Organizations had CONSPIRED together, bringing a lawsuit on behalf of the reptile / amphibian contingent, arguing that ongoing golf operations somehow threatened the limited numbers of the California red legged frog and San Francisco garter snake that called Sharp Park home.

# **Golfers Triumph Over Snakes and Frogs In Sharp Park Dispute ( continued )**

Golfers, FIGHTING BACK, viewed themselves as the species earmarked for extinction.

But now, the various powers-that-be have taken the necessary steps to ensure parallel play.

On December 6<sup>th</sup>, 2012, the United States District Court issued a decision dismissing the Environmental Terrorist Organizations' attempt to SHUT DOWN THE GOLF COURSE.

# Golfers Triumph Over Snakes and Frogs In Sharp Park Dispute ( continued )

The court explained the basis for the lawsuit —

*Plaintiffs [ a.k.a. Environmental-Terrorist-Organizations ] contend that defendants' water management at Sharp Park has exposed frog egg masses to the air, causing fatal desiccation of the egg masses, thereby reducing the frog population. [ ?!?! ]*

*Plaintiffs also claim that other golf course operation activities — lawn mowing and golf cart usage — harm the Snake and Frog by running them over. [ ?!?! ]*

What SWAYED THE COURT was a report issued on October 2<sup>nd</sup>, 2012, by the United States Fish and Wildlife Service.

The report from United States Fish and Wildlife Service, known as BIOLOGICAL OPINION AND INCIDENTAL TAKE STATEMENT, concluded that actions contemplated by the course are ...

*... NOT LIKELY TO JEOPARDIZE the continued existence of the California red-legged frog or San Francisco garter snake.*

The report from United States Fish and Wildlife Service ...

*... anticipates that, in total, ONE FROG will be killed or injured [ and ] that, due to golf course maintenance and operations, all Frogs and Snake swill be subject to ... HARASSMENT [ ???!!! ], and ONE FROG and ONE SNAKE will be killed or injured.*

The report from United States Fish and Wildlife Service also ...

*... anticipates that 130 Frog egg masses each year will be subject to ... harm, HARASSMENT [ ?!?! ], capture, injury, or death as a result of pumping activities for the next 10 years.*

# **Golfers Triumph Over Snakes and Frogs In Sharp Park Dispute ( continued )**

Incidental death and harassment ( you gotta love the image ) notwithstanding, the report found that, in a Darwinian ( or Gloria Gaynor ) sense, the frog and snake SPECIES WILL SURVIVE.

With the findings of United States Fish and Wildlife Service in place, the court made its decision —

The court concluded that deference was appropriate under the law, and held that the environmental groups could not proceed with their claims.

Accordingly, the court DISMISSED THE CASE, leaving the Sharp Park Golf Course habitat to the golfers, California red legged frog and San Francisco garter snake, as God and nature intended.

## **Environmental-Terrorist-Organizations Face Setback In Fight Over Future Of Sharp Park**

December 12<sup>th</sup>, 2012

Pacifica Tribune

City of San Francisco, California

Selected and Adapted Excerpts

Environmental-Terrorist-Organizations suffered another setback in their SUBVERSIVE CONSPIRACY TO CLOSE THE SHARP PARK GOLF COURSE when U.S. District Judge Susan Illston DISMISSED their Federal lawsuit on December 6<sup>th</sup>, 2012.

The lawsuit was originally filed in March 2011 by the following Environmental-Terrorist-Organizations —

- Center for Biological Diversity
- Sierra Club
- Wild Equity Institute

# Environmental-Terrorist-Organizations Face Setback In Fight Over Future Of Sharp Park ( continued )

According to Golf-Hating Anti-Pesticide Enviro-Lunatics at Sierra Club, Golf Facilities are ...

... as unnaturally pumped-up as a steroid-addled East-German shot-putter.

Environmental-Terrorists CONCOCTED VIOLATIONS of the Endangered Species Act by the City and County of San Francisco, which owns and operates Sharp Park.

Specifically, the terrorists ALLEGED that course maintenance activities, including water pumping, were harming some egg masses of the threatened red-legged frog, and that the City of San Francisco did not have the required permit from the United States Fish and Wildlife Service that would allow these activities.

In May 2011, the City sought consultation with United States Fish and Wildlife Service, and submitted applications for the Sharp Park Pump House Safety and Infrastructure Improvement Project.

After a lengthy and extensive study, while the trial was put on hold, United States Fish and Wildlife Service issued its final report — BIOLOGICAL OPINION — on October 2<sup>nd</sup>, 2012.

Included in the report was an INCIDENTAL TAKE PERMIT covering those course operations that were the basis of the original lawsuit.

At that point, the San Francisco Public Golf Alliance, co-defendants in the lawsuit, ASKED THE COURT FOR A MOTION TO DISMISS, claiming the permit rendered the plaintiffs' [ a.k.a. Environmental-Terrorists' ] complaint was MOOT.

# Environmental-Terrorist-Organizations Face Setback In Fight Over Future Of Sharp Park ( continued )

U.S. District Judge Susan Illston AGREED, and on December 6<sup>th</sup>, 2012, DISMISSED the case.

But the BIOLOGICAL OPINION held even more bad news for the plaintiffs [ a.k.a. Environmental-Terrorists ].

United States Fish and Wildlife Service, with some restrictions, approved the course's plans for up-dated maintenance, infrastructure improvements and habitat restoration.

Contrary to the Environmental-Terrorists' long-standing contention, United States Fish and Wildlife Service believes that golf at Sharp Park ...

... *is NOT LIKELY TO JEOPARDIZE the continued existence of the California red-legged frog or the San Francisco garter snake.*

This is a sentiment heartily echoed by Sharp Park's many supporters.

This latest setback for the Environmental-Terrorists comes on the heels of their RECENT DEFEAT in the San Francisco Supervisors' Land Use Committee.

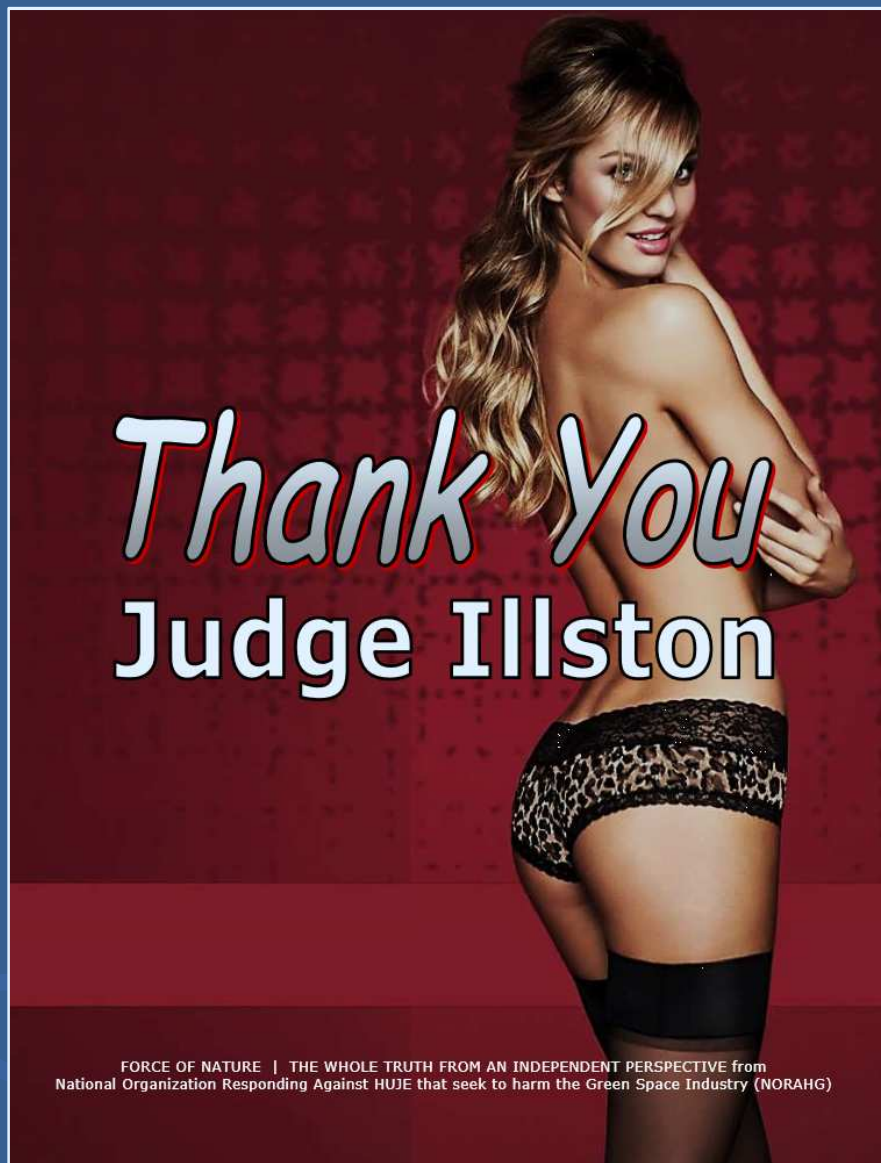

A resolution proposed by lame duck Enviro-Lunatic Supervisor Christina Olague, and championed by Wild Equity Institute's Enviro-Lunatic Brent Plater, would have SEVERED Sharp Park from an ongoing Natural Areas Environmental Impact Report process and required San Francisco to start from scratch with a new plan for Sharp Park.

Critics contended this would have wasted years of effort and expense.

The resolution was INDEFINITELY TABLED.

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from  
National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG)

# N O R A H G

We are living in the 9|11 Era of Anti Pesticide and Environmental Terrorism where at least ONE SUICIDAL ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, LIES, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green space under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry; they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grass, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Suicidal version.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of event CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The Force Of Nature Series of Reports — Agriculture • ALBERTA Conspiracy • Bee Colony Collapse Disorder • Bee Colony Collapse Disorder • Benefits of the Turfgrass Industry • Beyond Pesticides • Books That Screwed Up the World • BRITISH COLUMBIA Conspiracy • Canadian Cancer Society • Canadian Association of Physicians for the Environment • CARNAGE and Consequences of Lunatic Terrorist Prohibition • Controversial Prohibitions • Culprits of the Prohibition Conspiracy • Daffodils, Toxic Pesticide Treated Flowers Soaked Formaldehyde • Dating Services for Enviro Maniacs • David Suzuki Foundation • DDT and Our World of Politicized Science • Death and Illness (Alleged) • Departure Letters • Ecojustice Canada • Energy Sector • Environmental Terrorism UNMASKED • Environmental Terrorist Organizations • Enviro PROFIT • Environmental Defense • FAILURE of IPM, Pesticide Manufacturers, Prohibition, Trade Associations • Famous Quotations About Enviro Lunatics • Fertilizer TERROR • Food and Farming • Get Off Our grass • Global Warming, The Scam of Our Lifetime • Glyphosate Herbicide • Golf Industry • Green Alternatives • Green Party • Halloween Terror • Happy Holidays • Health Canada • Health Concerns with Pest Control Products • Heroes Speaking Out Against Environmental Terror • History of Environmental Terror in Canada • History of the Turfgrass Industry • Letters to the Editor • LIARS A Lying Sacks of (Enviro Maniac) Cwaps • Mock Advertisements • Mock Speeches • Myth BUSTED • NATIONAL Prohibition • NEW BRUNSWICK Conspiracy • NO Prohibition Exception for AGRICULTURE Industry • NO Prohibition Exception for GOLF Industry • NOVA SCOTIA Conspiracy • No America Free Trade Agreement (NAFTA) • ONTARIO Conspiracy, Haven For Environmental Terrorism • Ontario College of Family Physicians • Organic Golf Courses • Organic Maintenance • Organizations of the Prohibition Conspiracy • Pesticide Q & A (Questions and Answers) • Positive Way

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemical fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, a workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Demoen, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shejar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting of application • co-founder of annual winter convention for Quebec golf course superintendents • a major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated dog food • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reinvented anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec, which launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
