FLUSHING MONEY DOWN THE TOILET with PROHIBITION PAY-OFFS

December 2010

Lands-CAPE Ontario Report

Province of Ontario

Selected and adapted excerpts

enviro

PROFIT

Lunatic-Beneficiaries of PROHIBITION

Following the LUNATIC-TERRORIST-PROHIBITION of conventional pest control products, the Government of Ontario, through the Ministry of Environment, provided an initial 480-THOUSAND-DOLLARS to the NON-EXPERT Agricultural Adaptation Council (AAC) to establish the Cosmetic Use Pesticide Research and Innovation (CUPRI) funding to investigate so-called new approaches.

Not surprisingly, LUNATIC-TERRORIST-PROHIBITION brought with it an urgent need to develop so-called Green Alternatives to the use of conventional pest control products.

Should this have not been done years before IMPOSING PROHIBITION, and BEFORE DESTROYING the Professional Lawn Care Industry ?!?!

According to the NON-EXPERT Agricultural Adaption Council —

<< The Agricultural Adaptation Council is pleased to help allocate funds to companies and organizations in the sod, turf grass, landscape, and lawn care sectors.

These projects will build on the already strong [HIGHLY INEFFECTIVE] Integrated Pest Management (IPM) system used extensively by landscapers, turf specialists and farmers in Ontario where pest damage is MINIMIZED [AND NOT CONTROLLED] by a number of economically and environmentally sound methods [?!?!] including soil cultivation, resistant crop varieties and natural enemies. >>

prohibition

Pay-Offs

Hundreds of Thousands of Dollars FLUSHED DOWN THE TOILET !

The IMPLIED OBJECTIVES of the projects, sometimes VAGUE and NON-SPECIFIC, will be for AAC to undertake « *research* » and « *innovation* » that are used as a PRETEXT to PAY-OFF those who SUPPORTED PROHIBITION —

- Encourage development of BOGUS bio-pesticides and ALLEGED lower-risk pesticides for managing lawn and garden pests, when, in fact, ALL Green Alternatives, so far, are DUBIOUS LOWER-RISK ALTERNATIVES to conventional products.
- Assess the feasibility of commercialization of BOGUS bio-pesticides and ALLEGED lower risk pesticides for maintaining lawns and gardens, despite the fact that they are NOT SAFER, NOT BETTER, and NOT MORE EFFECTIVE !
- Promote innovation of so-called Green Alternatives to the use of pesticides for lawn, garden, parks and turfgrass care, when, in fact, there are NO VIABLE, NO EFFICACIOUS, and NO ECONOMICAL GREEN ALTERNATIVES to replace conventional pest control products.
- Support growth of so-called « GREEN » industries, and BOGUS « GREENER » approaches to maintaining landscapes, and in the process, ENSURE THE DEATH of the Modern Professional Lawn Care Industry.

Agricultural Adaptation Council solicited project proposals from companies, commodity associations, trade organizations and research and academic institutions — EVERY SINGLE ONE IS BOGUS AND A DISMAL FAILURE.

Additionally, LANDS-CAPE ONTARIO TRADE ASSOCIATION is being REWARDED with PAY-OFFS of almost 110-THOUSAND-DOLLARS under the PRETEXT of TWO « *research funds* » to study MORE BOGUS GREEN ALTERNATIVES.

enviro

PROFIT

Lunatic-Beneficiaries of PROHIBITION

Lands-CAPE Ontario Horticultural Trades Association

Lands-CAPE Ontario SUPPORTED LUNATIC-TERRORIST-PROHIBITION and BOGUS Green Alternatives, and TREACHEROUSLY BETRAYED the Professional Lawn Care Industry ... and HERE IS THE PAY-OFF —

22,992-DOLLAR PAY-OFF UNDER THE GUISE OF « RESEARCH »

PRETEXT FOR PAY-OFF — This project will look at the effectiveness of WEED-BURNING DEVICES using steam and solarisation treatments for weed control in ornamental gardens and lawns.

In essence, Lands-CAPE Ontario is DIRECTLY INVOLVED and PROFITING from PROHIBITION and BOGUS Green Alternatives, such as WEED-BURNING DEVICES.

This is one of TWO projects for LANDS-CAPE ONTARIO TRADE ASSOCIATION, which is essentially being REWARDED with PAY-OFFS TOTALLING almost 110-THOUSAND-DOLLARS under the PRETEXT of « *research funds* » to study MORE BOGUS GREEN ALTERNATIVES.

prohibition

Pay-Offs

Hundreds of Thousands of Dollars
FLUSHED DOWN THE TOILET !

Lands-CAPE Ontario (continued)

WEED-BURNING DEVICES are supposedly more ORGANIC and ECO-FRIENDLY Green Alternatives to conventional pest control products.

Nonetheless, WEED-BURNING DEVICES are being DISCOURAGED for both residents and trained professionals in several jurisdictions across Canada, and their PROHIBITION MAY BE IMMINENT.

WEED-BURNING DEVICES are supposed to replace conventional products that are otherwise HEALTH-CANADA-APPROVED and SCIENTIFICALLY SAFE.

Overall, when conventional products are used properly, there are NO harmful irreversible effects to health and the environment !

And ... conventional pest control products DO NOT BURN DOWN BUILDINGS !

In June 2011, a HERITAGE HOUSE in Victoria, British Columbia, was BURNED AND DESTROYED in a FIRE SPARKED BY A WEED-BURNING DEVICE.

Do the terms « *green* » and « *lower-risk* » mean « *BURNING DOWN BUILDINGS* » ?!?! — WEED-BURNING DEVICES ARE A DISMAL FAILURE.

Hundreds of Thousands of Dollars
FLUSHED DOWN THE TOILET !

University of Guelph

University of Guelph also SUPPORTED LUNATIC-TERRORIST-PROHIBITION and BOGUS Green Alternatives, and TREACHEROUSLY BETRAYED the Professional Lawn Care Industry ... and HERE IS THE PAY-OFF —

112,968-DOLLAR PAY-OFF UNDER THE GUISE OF « RESEARCH »

PRETEXT FOR PAY-OFF — VAGUE and NON-SPECIFIC research projects will evaluate BOGUS Green Alternatives to manage weeds in lawns, and fruit and vegetable gardens.

University of Guelph, through Guelph Turfgrass Institute, is the INSTRUMENT of PROPAGANDA for LUNATIC-TERRORIST-PROHIBITION in the Province of Ontario.

Guelph's DESPICABLE PARTICIPATION in the LUNATIC-PROHIBITION-CONSPIRACY has EXTENSIVELY DAMAGED and DESTROYED the Professional Lawn Care Industry, ANNIHILATED most of its customers, thus ensuring that THOUSANDS of companies became WORTHLESS and on the verge of being OBLITERATED.

In the past decade, Guelph's BOGUS UNIVERSITY STUDIES have resulted in ZERO BENEFITS for the Professional Lawn Care Industry.

enviro

PROFIT

Lunatic-Beneficiaries of PROHIBITION

University of Guelph (continued)

Guelph studies are DISMAL FAILURES.

Examples —

Irrigation Protocols and Overseeding Rates and Methods For Pesticide-Free Soccer Fields — DISMAL FAILURE.

Studies on the Effectiveness of Fiesta Herbicide — DISMAL FAILURE.

Studies on the Effectiveness of Organo-Sol Herbicide — DISMAL FAILURE.

Guelph researchers and administrators are merely PROTECTING THEIR PROFITABLE SALARIES and LUCRATIVE PENSION PLANS.

It is IRONICAL that some Guelph people benefit from SAFE, SECURE, WELL-PAYING JOBS AND PENSIONS ...

... AT THE EXPENSE OF THE JOBS DESTROYED IN THE PROFESSIONAL LAWN CARE INDUSTRY.

6310907 Canada Inc.
a.k.a. Alan Watson, McGill University

McGill University NEVER supported prohibition, nor did it betray the Professional Lawn Care Industry ... but it has received a huge sum of research money for yet another DISMAL FAILURE !?! —

60-THOUSAND-DOLLARS

RESEARCH PROJECT — The purpose of this project is to develop the fungus *Curvularia* into an effective and selective bio-herbicide for crabgrass.

According to a January 2011 report —

<< Crabgrass is a major problem in turf in Canada and infestations can be as high as 30 per cent in residential lawns.

Due to bans and restrictions on the use of chemical herbicides there are currently no effective solutions for controlling crabgrass.

In this research project we are collecting naturally occurring plant pathogens on crabgrass and developing a biological control for crabgrass.

*The Chinese isolate (*Curvularia eragrostidis* QZ-2000) caused 75 per cent mortality to crabgrass, but did cause some damage to Colonial bentgrass, although all remaining grass species tested were immune to *C. eragrostidis*.*

Curvularia, Bipolaris, and Ulocladium fungal isolates have been isolated from local populations of crabgrass and their virulence determined.

enviro

PROFIT

Lunatic–Beneficiaries of PROHIBITION

Pathogenicity to crabgrass of one Canadian isolate is comparable to QZ-2000.

The project is on target and the project goals set out will be completed by the end the second year. >>

It must be noted that McGill University also provided the research for *Sclerotinia minor*, the active ingredient for the Green Alternative SARRITOR.

SARRITOR was developed under the bio-herbicide research of Alan Watson of the Department of Plant Science at McGill University, Sainte-Anne-de-Bellevue Campus, in Quebec.

Canadian Turfgrass Research Foundation (CTRF) supported the research with its funds in order to address the issue of so-called alternatives to conventional pest control products.

Sarritor is now considered a DISMAL FAILURE — will Curvularia also become a DISMAL FAILURE ?!?!

Should Watson and McGill be entrusted with even more money ?!?!?

In the media release from Agricultural Adaption Council, neither Watson nor McGill were identified, only 6310907 Canada Inc.

Ontario Turfgrass Research Foundation NEVER supported prohibition, nor did it betray the Professional Lawn Care Industry ... but it has received a huge sum of research money for yet another DISMAL FAILURE ?!?! —

21-THOUSAND-DOLLARS

RESEARCH PROJECT — The efficacy of the MUSTARD Bio-product CA-1 will be evaluated for use as a bio-herbicide.

According to a 2009 report from Ontario Research Foundation —

<< *Determining the Efficacy of the mustard bio-product CA-1 as a bio-herbicide*

Background :

The testing of CA-1 has been slower than anticipated. During discussions between the researcher (Dr. Tardif) and the inventor (Dr. Chiba), it became quickly apparent that THE AVAILABILITY OF THE PRODUCT WAS IN QUESTION.

enviro

PROFIT

Lunatic–Beneficiaries of PROHIBITION

The actual reasons for this LACK OF AVAILABILITY were never divulged, but seemed to be related to production issues.

The researcher was planning to take the product to the field in the summer of 2009 but product availability prevented this.

As of November 2009, a small amount of product was made available to the researcher.

Dr Chiba supplied five different formulations.

The difference in the make-up of these formulations has not been revealed to the researcher.

Part of the challenge was to find the proper system for the tests (i.e. soil type, pot size, watering, etc.).

After the first run it appears that there MIGHT be activity on seedling dandelions, but it is clearly dose dependent.

While there might be differences among the five formulations, they appear to be minimal.

Further testing conducted in 2010 showed the different products to have variable efficacy.

NO CONSISTENT CONTROL OF DANDELION WAS EVER ATTAINED.

Different soil type were tested, but the high level of variability in the results make clear conclusions as to the real potential of CA-1 as a herbicide almost impossible to make.

prohibition

Pay-Offs

Hundreds of Thousands of Dollars
FLUSHED DOWN THE TOILET !

FINAL SUMMARY :

Earlier results suggested that this product had an effect on SUPPRESSION of dandelion weed.

However, FURTHER TESTS WITH FIVE DIFFERENT FORMULATIONS DID NOT SHOW ANY ACCEPTABLE LEVEL OF CONTROL.

The main problem was that the PRODUCT APPEARED TO BE VERY INCONSISTENT.

While it seemed to SUPPRESS growth in some pots, there was NO IMPACT in other subjected to the same formulation.

This resulted in very high coefficient of variation making statistical analysis impossible. >>

« NO CONSISTENT CONTROL OF DANDELION WAS EVER ATTAINED — FURTHER TESTS WITH FIVE DIFFERENT FORMULATIONS DID NOT SHOW ANY ACCEPTABLE LEVEL OF CONTROL. »

Why are we providing more money for this DISMAL FAILURE !?!

The Environmental Factor Supply Company

The Environmental Factor SUPPORTED LUNATIC-TERRORIST-PROHIBITION and BOGUS Green Alternatives, and TREACHEROUSLY BETRAYED the Modern Professional Lawn Care Industry ... and HERE IS THE PAY-OFF —

30-THOUSAND-DOLLAR PAY-OFF UNDER THE GUISE OF « RESEARCH »

PRETEXT FOR PAY-OFF — HYDROLYZED LIQUID CORN GLUTEN will be evaluated for efficacy in controlling weeds, compared to the granular formulation.

In essence, The Environmental Factor is DIRECTLY INVOLVED and PROFITING from PROHIBITION and BOGUS Green Alternatives, such CORN GLUTEN MEAL — A KNOWN DISMAL FAILURE.

In fact, COMPETENT and LEGITIMATE university research has proven that CORN GLUTEN MEAL DOES NOT CONTROL ANY WEEDS, in ANY trials, under ANY circumstances.

Moreover, MONEY IS BEING FLUSHED DOWN THE TOILET, and provided to a company KNOWN AS A PROHIBITION-TERRORIST-ORGANIZATION.

prohibition

Pay-Offs

**Hundreds of Thousands of Dollars
FLUSHED DOWN THE TOILET !**

The Environmental Factor (continued)

Why provide money to an ENEMY OF THE GREEN SPACE INDUSTRY ?!?!

In 2004, Enviro-Lunatic Lorelei Hepburn of The Environmental Factor JOINED FORCES WITH Canadian Association of Physicians for the Environment (CAPE), and CONSPIRED IN THE CREATION OF LUNATIC-TERRORIST PROPAGANDA TO PROHIBIT PEST CONTROL PRODUCTS in the Province of Ontario.

In a CAPE-LUNATIC PROPAGANDA 10-MINUTE VIDEO, Hepburn UNVERIFIABLY ALLEGED a 400 per cent increase in sales, despite the fact that several of her franchises are DISMAL FAILURES AND HAVE FALLEN INTO BANKRUPTCY.

Cute LUNATIC-DECEPTION !

The Environmental Factor is an example of a supply company CONSPIRING TO IMPOSE PROHIBITION of conventional pest control products, and then, it moves in with its own line of STUNNINGLY EXPENSIVE and HIGHLY PROFITABLE, but BOGUS, INEFFECTIVE, and often HIGH-RISK Green Alternative products ?!?!

Why should anyone even think of giving these guys ANY money ?!?! —

Force Of Nature is NOT Propaganda, just The Whole Truth from an Independent Perspective

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed. This is what we do. Don't thank us. It's a public service. And we are glad to do it.

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Lunatic Culprit is a misguided adversary, each still deserves our respect. The use of the terms Lunatic, Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Lunatic Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Lunatic Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are HEALTH CANADA APPROVED, FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Lunatic Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force Of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. Mr. Gathercole was the FIRST PERSON EVER to obtain University degrees and contribute to BOTH the Professional Lawn Care and Golf Maintenance Industries. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban Lands-CAPE. He has advised, certified, instructed, and trained thousands of turf and ornamental managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of LUNATIC ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. He and his colleagues are recognized as THE MAJOR INFLUENCE for the decision by Canadian Cancer Society to STOP selling for profit PESTICIDE TREATED DAFFODILS. Mr. Gathercole's vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully ! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
