

# HAPPY NEW YEAR

## Best Wishes from the Master–Basterd –Enviro–Maniac–Premier of Ontario

For 2010, we are announcing the Master Plan of the Government of Ontario and the McGuinty–Ontario–Enviro–Terror–Regime. Until now, our policies have been successful in ANNIHILATING the Professional Lawn Care Industry. Now that « *cosmetic* » pest control products have been prohibited, our next round of Environmental–Terror policies will target FERTILIZERS ! And this time, we will not forget the hated Golf Industry. Rest assured, the unfair Golf Exception Status regarding our Enviro–Terror policies will be revoked with increasing frequency !

For 2010, the Plan Of Attack against FERTILIZERS by the Government of Ontario and the McGuinty–Regime will include UNSUBSTANTIATED and UNNECESSARY FEES and GLUTONOUS TAXES. Consequently, the Green Space Industry will forfeit more MILLIONS OF ITS HARD–EARNED DOLLARS to support our new pretentious FERTILIZER policies that will inevitably lead to LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, creating DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry.

We are particularly proud of the Enviro–Maniac–Officials at our Stewardship Ontario agency. They have successfully concocted LIES, FEAR–MONGERING, MISCONCEPTIONS, COERCION, THREATS, and TERROR about fertilizers. These Maniacs will be rewarded with SAFE, SECURE, GUARANTEED, and WELL–PAYING ENVIRO–TERROR–JOBS, at the expense of the Green Space Industry. Mission Accomplished.
