# Overview from an Independent Perspective

CULLEN, Alex

---

Cullen is an Enviro-Maniac-Activist who SUPPORTS the PROHIBITION on the use of pest control products in the Urban Landscape.

Cullen has been an elected government official for the City of Ottawa, and has CONSPIRED in the Province of Ontario to PROHIBIT pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE.

Cullen has operated with Environmental-Terror-Organizations such as —

- Pesticide Free Canada
- The Coalition for a Healthy Ottawa ( CHO )

Cullen has NO recognized expertise, training or background in matters concerning pest control products.

Consequently, his opinions are TOTALLY VALUELESS and UTTERLY WORTHLESS in matters concerning pest control products.

Cullen is NOT competent to give advice.

Cullen has compensated for his lack of expertise by CONCOCTING MYTHS, DECEPTIONS, FEAR-MONGERING, FRAUDULENT LIES, MIS-CONCEPTIONS, COERCION, THREATS, TERROR, and PARANOID CONSPIRACIES about pest control products.

For example ...

In June 19<sup>th</sup>, 2002, Cullen said —

*It's the other way around. Acre per acre, more pesticides are used in the urban area for cosmetic use than are used in the agricultural industry.*

[ Wrong ! ]

In October 26<sup>th</sup>, 2005, it was reported that —

*Councillor Cullen pointed out it was not the City's intent to put lawn care companies out of business.*

Continued on next page ...

# Overview from an Independent Perspective

*In both Montreal and Halifax, which have similar by-laws in place, there has been NO IMPACT [?!?!] on the number of lawn care companies in operation and, in some cases, companies that offer organic programs have seen INCREASED BUSINESS.*

[ Wrong ! ]

In fact, Cullen knew full well about the CARNAGE INFLICTED BY PROHIBITION.

THERE WAS NEVER ANY INCREASE IN BUSINESS.

THE IMPACT OF PROHIBITION DEVASTATED THE PROFESSIONAL LAWN CARE INDUSTRY IN THE PROVINCE OF QUEBEC !

As a sad consequence of PROHIBITION imposed in the Province of Quebec by Environmental-Terror, OVER-SIXTY-PER-CENT of the Professional Lawn Care Industry was ANNIHILATED !

THE IMPACT OF PROHIBITION ALSO SEVERELY HARMED THE PROFESSIONAL LAWN CARE INDUSTRY IN THE CITY OF HALIFAX !

Because of PROHIBITION, REVENUES PLUMMETED BY FORTY-PER-CENT with most of the Professional Lawn Care companies, and it has taken them five years to RECOVER from the hardship and losses !

Because of the prohibition, Halifax CUSTOMERS DISINTEGRATED BY FIFTY-PER-CENT, even after a so-called RECOVERY period of several years !

In May 2008, Cullen said —

*The Ontario Government has recognized the increase in scientific evidence of the health threat posed by these chemicals [?!?!], and the move by many municipalities in Ontario to prohibition their use for cosmetic purposes. This legislation should provide protection for all Ontarians no matter where they live.*

Cullen also said —

*Pesticides are poisons meant kill, and they shouldn't be near people, and especially not near children who might be affected by them.*

[ Using children as Weapons of Ultimate Environmental-Terror. ]

GOVERNMENT OF ONTARIO  
BILL 64, COSMETIC PESTICIDES BAN ACT  
STANDING COMMITTEE ON SOCIAL POLICY  
COMMITTEE TRANSCRIPTS

June 9<sup>th</sup>, 2008

Presentation by Alex Cullen

Councillor for City of Ottawa

Selected and adapted excerpts

Cullen —

*Thank you, Mr. Chair and members of committee for allowing me the opportunity to speak. My name is Alex Cullen.*

*I am the councillor for Bay ward in the City of Ottawa, and I'm here to represent the City of Ottawa in supporting Bill 64.*

*I think you have before you a motion that was passed by our council on May 28 —*

*« That city council endorse the Ontario government's initiative to prohibit the use and sale of cosmetic pesticides in Ontario and urge speedy passage of*

*Bill 64, that Ottawa city council request that Bill 64 be amended to permit municipal by-laws governing the use and sale of cosmetic pesticides that are consistent with the intent and purpose of Bill 64, and that this motion be copied to the Premier, the leaders of the opposition parties, the Ministry of the Environment. »*

*I won't spend a lot of time providing you with EVIDENCE [?!?!] supporting banning the use and sale of cosmetic pesticides.*

## BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE —

It is abundantly evident, and not surprising, that NOT A SINGLE Environmental-Maniac-Activist, including CULLEN, has ANY recognized expertise, training or background in matters concerning pest control products !

The opinions of Enviro-Maniac-Activists in matters concerning pest control products are TOTALLY VALUELESS and UTTERLY WORTHLESS.

NO pest control product can be sold or used until Health Canada's scientists have evaluated ALL the existing evidence to determine whether the product meets stringent health and safety requirements.

Overall, when they are used properly, there are NO harmful irreversible effects to health and the environment !

Cullen has CONSPIRED towards NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

*Their health risks to humans, particularly children, are well documented and continue to grow, to the point where we have a number of [ ENVIRONMENTAL-TERROR ] health organizations across this nation taking up the campaign to eliminate this public health risk. [?!?!]*

*What I am here to do is speak to you about subsection 7.1(5), which would render municipal by-laws inoperative.*

*The irony is that it was the municipality of Hudson, over 20 years ago, that passed the first by-law in Canada dealing with cosmetic pesticides.*

*That was taken to the Supreme Court of Canada and the Supreme Court validated that municipality's position.*

## BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE —

There were also very clear indications that The Supreme Court of Canada was INFESTED with Enviro–Maniac–Activists when it rendered its decision about the Town of Hudson.

*Since then, as the evidence has mounted [?!?!], municipalities across Canada began to pass by-laws, particularly at the recommendation of their medical officers of health.*

*In Quebec, because there was such a municipal wave, the government of Quebec put in place the Pesticides Management Code, and obviously we're seeing Ontario take the same position.*

*However, it does not make sense to take away from the very level of government that is closest to the communities it serves the ability to protect those communities where provincial legislation falls short.*

*That is not the position that was taken in Quebec.*

*The Quebec Pesticides Management Code does permit municipal by-laws that deal with the same area, as long as they're not inconsistent with the purpose and intent of the act.*

## BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE —

Most Government Officials are clearly NOT knowledgeable enough to enact PROHIBITION legislation. This includes those serving in local municipalities.

A local government has an onus of responsibility to verify the JUNK SCIENCE information that has been concocted by Environmental–Terror–Organizations.

In several jurisdictions, government has failed to base PROHIBITION decisions on SOUND SCIENCE.

In the PROVINCE OF ONTARIO, municipalities have consequently been stripped of their PROHIBITION powers.

Moreover, the ONLY Government Officials that truly have ANY recognized expertise, training or background in matters concerning pest control products are the HUNDREDS of expert scientists at HEALTH CANADA ! Not local Government Officials.

HEALTH CANADA in Ottawa oversees the testing and approval of pest control products by using SOUND SCIENCE in order to ensure that they are SCIENTIFICALLY SAFE.

*I have to bring to your attention – I'm sure others have – this government's position with respect to SMOKE-FREE LEGISLATION. [?!?!]*

BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE –

Comparing CIGARETTES to pest control products is PITIFULLY RIDICULOUS.

Comparing CIGARETTES to pest control products is LAUGHABLE !

Using such a comparison shows how Enviro-Maniacs are out-of-touch with reality.

Enviro-Maniac-Activists use this comparison as a means of COERCING and INFLUENCING Government Officials and the public into believing that it is necessary to PROHIBIT pest control products, despite the fact that they are FEDERALLY REGISTERED, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE.

There is NO FEDERAL REGISTRATION of tobacco products.

There is NO agency that regulates tobacco, except perhaps for restricting access to young people.

Moreover, cigarettes are ABOVE THE LAW because our governments have chosen to shield them from the regulatory process.

This is NOT the case with pest control products – our governments have chosen to HEAVILY REGULATE them. STRINGENTLY !

Pest control products are STRINGENTLY TESTED and REGULATED in order to demonstrate that they are SCIENTIFICALLY SAFE.

*As you know, smoke-free by-laws began at the municipal level and took a long time to develop at the municipal level, but it came to the point where the Government of Ontario stepped in and passed such legislation.*

*Section 12 of the Smoke-Free Ontario Act states –*

*« If there is conflict between sections 9 and 10 of this act and a provision of another act, a regulation or a municipal by-law that deals with smoking, the provision that is more restrictive of smoking prevails. »*

*That is exactly what we want to see with respect to this particular legislation.*

In the 9/11 Era of Environmental Terror !

*Let's confuse everyone ...*

*... by laughably  
comparing unregulated cigarettes  
to regulated pest control products*

Alex Cullen ...  
Get off our

**grass**

Pest control products  
are **SCIENTIFICALLY SAFE**

# Force Of Nature is NOT Propaganda just The Whole Truth Independent Perspective

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed. Don't thank us. It's a public service. And we are glad to do it.

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some NON-EXISTENT danger with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force Of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully ! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
