Protection  
to Lie and  
Terrorize**

# Background Information from an Independent Perspective

Ontario is a province located in east-central Canada, the largest by population, and second largest, after Quebec, in total area. It is a HAVEN for radical Environmental-Maniac-Activists, and provides a climate of Enviro-Terror for the Green Space Industry.

Ontario is currently under a Liberal government headed by Premier **Dalton McGuinty**. The present government, first elected in 2003, was re-elected on October 10<sup>th</sup>, 2007. It is affectionately called the **McGuinty-Ontario-Enviro-Terror-Regime**.

There are serious issues with the Ontario Minister of the Environment, John Gerretsen, who has been indiscreet with his close public ties with Prohibition-Maniacs, raising the question about the radical interests of the Enviro-Lobby taking precedence. Gerretsen's ministry is directly responsible for Ontario's needless, senseless, and malicious PROHIBITION of federally legal, scientifically safe, totally irreplaceable, and absolutely indispensable pest control products.

The McGuinty-Ontario-Enviro-Terror-Regime passed legislation implementing a « *cosmetic pesticides ban* » that took effect April 22<sup>nd</sup>, 2009. The requirements of the prohibition are detailed in Ontario Regulation 63/09 and the Pesticides Act, which was amended by the Cosmetic Pesticides Ban Act, 2008.

The legislation generally prohibits the sale and use of pest control products for cosmetic ( i.e. « *non-essential* » ) purposes — excluding golf courses, some sports fields, specialty turf, forestry, and agriculture.

The legislation also establishes 11 classes of pest control products —

- One class of pest control product may not be sold or used.
- Another class may be sold and used according to label directions without any additional restrictions.
- Another class of products have both « *cosmetic and non-cosmetic* » uses, with specific rules provided for vendors to follow when dealing with potential purchasers, intended to ensure that purchasers do not use these products for cosmetic purposes.

The rape and assault of the Green Space Industry by the McGuinty-Ontario-Enviro-Terror-Regime continues to be endless. It started with pest control products, and it continues now with fertilizers.

**ENVIRONMENTAL-TERROR IN ONTARIO WILL NEVER END !**

In 2010, the McGuinty-Ontario-Enviro-Terror-Regime imposed the Municipal Hazardous or Special Waste Program Plan ( M.H.S.W. ) and Harmonized Sales Tax ( H.S.T. ). Consequently, the Green Space Industry is being forced to spend even more of its limited financial resources on fertilizers.

In January 2010, the Green Space Industry outlined the list of CHARGES against the McGuinty-Ontario-Enviro-Terror-Regime and the Ministry of the Environment. Additionally, individual Enviro-Maniac members of Environmental-Terror-Organizations are also facing FRAUD CHARGES under the Canadian Criminal Code. There are a total of 133 criminal charges against 29 Ontario Enviro-Maniac-Activists. The legal challenge is being organized by **Jeffrey Lowes** and **M-REP Communications**.

In court, Enviro-Maniac-Activist-Defendants will realize that NOT A SINGLE PERSON within the Environmental-Terror-Movement has ANY recognized expertise, training or background in matters concerning pest control products !

In court, Enviro-Maniac-Activist-Defendants will be unable to provide any scientific basis for their prohibition conspiracy. Additionally, these activists will be « *left out to dry* » by their former buddies ! They will be liable for damages worth millions of dollars. Several Enviro-Maniac-Activist have « *ratted out* » their former buddies, since there may be the prospect to plead to the lesser charge of « *mischief* ». Some have already come forward.

And now, the snivelling and crying Environmental-Terrorists are demanding protection from Dalton McGuinty himself. If McGuinty agrees, it will allow Enviro-Maniacs to be totally unrestrained with fraudulent lies, terror, fear-mongering, misconceptions, coercion, threats, deceptions, and paranoid conspiracies about pest control products.

*<< The environmental activists  
in Ontario still don't under-  
stand that they are facing cri-  
minal charges. >>*

# Snivelling Terrorists Demand Protection for Lies & Conspiracy

The Culprits of the 9/11 Era of the Green Space Industry

## ENVIRONMENTAL ACTIVISTS WANT PROTECTION IF CAUGHT LYING

---

March 2<sup>nd</sup>, 2010

Media Release

M-REP Communications

What started out on behalf of the lawn care industry by M-REP Communications as a short public relations campaign has evolved.

At this stage of the process, the environmental activists in Ontario still don't understand that they are facing CRIMINAL CHARGES.

In commentary from Mr. Lowes today ...

*<< It is interesting that the activist think what we are doing constitutes a SLAPP. If what we are doing sounds like a slap, then what is going to start happening will sound like a standing ovation. >>*

## Background Information from an Independent Perspective

S.L.A.P.P. is an ACRONYM meaning Strategic Lawsuit Against Public Participation. This ACRONYM was coined in the 1980s.

According to Enviro–Maniac–Activists, S.L.A.P.P. is a lawsuit that intends to censor, intimidate, and silence them with the burden of the cost of a legal defence until they abandon their criticism or opposition. The self-serving Enviro–Maniac–Activists have CONVENIENTLY taken the position that S.L.A.P.P. is a form of CENSORSHIP. This position is preferable than admitting that there must be CONSEQUENCES when they concoct FEAR–MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES about pest control products.

One of the first cases in Canada to deal with S.L.A.P.P. was *Fraser v. Saanich*, where the British Columbia Supreme Court struck out the claim of a hospital director against the District of Saanich, holding that it was a meritless action designed to silence or intimidate the residents who were opposed to the plaintiff's plan to redevelop the hospital facilities.

Following the decision in *Fraser v. Saanich*, the Protection of Public Participation Act went into effect in British Columbia in April, 2001. It was REPEALED in August 2001.

In the Province of Quebec, an anti–S.L.A.P.P. bill was adopted by the National Assembly on June 3<sup>rd</sup>, 2009. As of now, Quebec's amended Code of Civil Procedure is the ONLY anti–S.L.A.P.P. mechanism in force in Canada. Quebec is a LEGAL HAVEN for radical Environmental–Maniac–Activists, allowing them to maintain an UNRESTRAINED climate of Enviro–Terror against the Green Space Industry.

# Background Information from an Independent Perspective

February 11, 2010.

Honourable Dalton McGuinty  
Premier of Ontario  
Legislative Building, Room 281  
Queen's Park  
Toronto, Ontario  
M7A 1A1

**Re:** Need for Ontario statute to combat Strategic Lawsuits Against Public Participation (SLAPPs)

Dear Premier McGuinty,

Strategic Lawsuits Against Public Participation (SLAPPs) remain a major impediment to free speech in Ontario. We collectively write to urge you to enact anti-SLAPP legislation to eradicate this legal form of bullying and intimidation. SLAPPs are an abuse of our judicial and quasi-judicial proceedings, stifling citizens and silencing public debate.

At the time that we write you, 64 municipalities, including Toronto, Mississauga and Hamilton, have passed resolutions calling on your government to protect the public and adopt anti-SLAPP legislation. This sentiment is echoed by the Association of Municipalities of Ontario, which passed its own resolution to meet with your government and find solutions to SLAPP intimidation in Ontario.

Perhaps the most threatening aspect of SLAPPs is that what occurs in one community can make those in another afraid of similar repercussions. We need you to know that this "chill" now runs rampant in Ontario, with numerous individuals and organizations silenced for fear of what sticking up for their communities and landscapes might cost them.

In his 2008/2009 Annual Report, Environmental Commissioner Gord Miller clearly outlined his recommendations on SLAPPs: "The public's right to participate in decision-making over matters of public interest is a cornerstone of our democratic system... The ECO sees a need for provincial legislation that would put both sides of development disputes on equal footing. Such legislation could serve to halt SLAPP suits in their tracks."

As a community of organizations, we feel our democratic rights are threatened by the existence of SLAPP suits and insist that the only way to protect our right to public participation is through the creation of effective legislation. Ontario would be joining Quebec, where similar legislation passed last year, and over half of the American states who currently have anti-SLAPP laws.

# Background Information from an Independent Perspective

Effective anti-SLAPP legislation should:

- Provide immunity from civil liability for persons engaging in public participation;
- Provide for early review and an expeditious process for resolving SLAPP suits;
- Reverse the onus on the initiator of the SLAPP suit to show that the action of the defendant was not public participation; and
- Provide strong and effective disincentives (financial and otherwise) to dissuade potential SLAPP plaintiffs from initiating a meritless claim.

Additionally, a key component of SLAPP legislation and protection must be the suspension of approval processes that mandate public participation (i.e. Environmental Assessment, Ontario Municipal Board proceedings, etc.) until outstanding lawsuits are resolved, so that speech is not chilled.

Ontario has an opportunity to be a leading force in Canada in putting a stop to SLAPPs. We look forward to working with your government, Mr. Premier, to ensure this opportunity is seized.

## More Than 60 Ontario Groups Call For Protection From Lawsuits Designed to Muzzle

### ***Demand grows for law to protect public participation in wake of recent suit against health advocates***

Toronto – More than 60 Ontario groups released a letter to Premier McGuinty today asking him to move forward with a new law to protect citizens from lawsuits designed to stifle legitimate public participation in the democratic process. Such suits are often called strategic lawsuits against public participation, or SLAPPs.

"Many of us in the environmental movement have suffered when public participation in the democratic process was threatened," said Gideon Forman, Executive Director of Canadian Association of Physicians for the Environment (CAPE). "So we support anti-SLAPP legislation based on our first-hand experience."

Environmental Defence initiated the letter and had experience with a SLAPP itself when a partner group it works with was sued for opposing a development at Big Bay Point on Lake Simcoe.

"It's courageous enough for citizens and small organizations to stand up for what they think is right," said Dr. Rick Smith, Executive Director of Environmental Defence, "But to be sued for participating in what is supposed to be a democracy? That's scary."

Many of the 60 signatories to the letter have experience with a SLAPP, which can put victims in the position of either backing down or losing everything. The letter to Premier McGuinty concludes that legislation is the best measure to protect Ontarians' rights: "As a community of organizations, we feel our democratic rights are threatened by the existence of SLAPP suits and insist that the only way to protect our right to public participation is through the creation of effective legislation."

Ontario would be joining Quebec, where similar legislation passed last year, and over half of American states that currently have anti-SLAPP laws.

Support for creating such laws has snowballed in recent months, notably with the release of the Environmental Commissioner of Ontario's Annual Report in October. Commissioner Gord Miller labeled SLAPPs a threat to public participation and called on the government to create effective laws to prevent them.

Shortly after, the Association of Municipalities of Ontario resolved to meet with the Ontario government to find solutions to prevent SLAPPs and to avoid undue costs placed on citizens in Ontario Municipal Board hearings. The Association acted after 62 municipalities, including Mississauga and Hamilton, passed resolutions calling for anti-SLAPP legislation, and requested the Association support them.

March 2<sup>nd</sup>, 2010

# Snivelling Terrorists Demand Protection for Lies & Conspiracy

## The Culprits of the 9/11 Era of the Green Space Industry

March 2<sup>nd</sup>, 2010

Media Release

M-REP Communications

( Continued )

Mr. Lowes reviewed the letter and files the following :

*<< What is interesting in the letter to McGuinty, two of the " more than 60 Ontario Groups " are individuals. The activists just can't resist making up information to support their cause. They might be experts in their own mind, maybe in their own world. The Organic Landscape Alliance is listed, but I don't see the Canadian Cancer Society. They are asking for protection from civil liability along the lines of absolute privilege. I wonder how many of the individuals that signed on to the letter realize that they have been co-opted by individuals that are facing criminal charges. Maybe the " chill " they are feeling could be the solution to the global warming issue. Our case will set a legal precedent that will affect or kill off most environmental movements across the country, and has drawn the interest of the mining industry. >>*

# Snivelling Terrorists Demand Protection for Lies & Conspiracy

## The Culprits of the 9/11 Era of the Green Space Industry

The fact the Governments FAILED IN THEIR DUE DILIGENCE can be attributed to a number of factors WITHOUT making the accusation of CORRUPTION, so we thought.

CORRUPTION is the « *granting of favours inconsistent with official duties* ». The failures in this case are the « *failure to act* », or in the case of a government office, to exercise the « *duty of care* », or the mandate of their respected offices.

VEXATIOUS LITIGATION, ABUSE OF POWER, and the ABUSE OF DISCRETION, are legal terms, in hindsight, that would describe the process and subsequent municipal and provincial pesticide bans.

[ Vexatious action is initiated, regardless of its merits, to harass or subdue an adversary. ]

The industry has been playing a game of « *Whac-A-Mole* » with the activists, sticking their heads up in different jurisdictions in a « *futile task* » of countering their claims.

What we have created is a different venue, and enough freedom and flexibility by using the activists' own words. « *They may have enough rope to hang themselves.* »

There was a misconception — created by activists, politicians, and the media — that the industry will be COMPLIANT and allow accusations and public statements to go unchallenged. The industry is now in the process of providing the venue ( a court room ) for individuals and organizations to try to prove their beliefs outweigh science.

# Snivelling Terrorists Demand Protection for Lies & Conspiracy

## The Culprits of the 9/11 Era of the Green Space Industry

M-REP has stated ...

*<< Our mission is to ensure that proper science, and not the court of public opinion, governs good environmental stewardship and policy development that may affect many types of industry.*

*M-REP supports the development of sound environmental policy and provides assistance to ensure that the majority has a clear, unified voice.*

*Gathering and understanding different perspectives creates different reference points. Cross-referencing information allows different perspectives to interact and through this interaction, determine common ground. Building on these points is crucial to developing acceptable policies that create support for a project or industry throughout a community. We have provided an outside perspective on pesticide bans, based on our current findings.*

*As a direct result of misinformation, Ontario's turf grass industry has faced a total ban based on false and misleading medical reports. As a direct result, the industry has mounted a litigation track to resolve the issue.*

[ ... ]

# Snivelling Terrorists Demand Protection for Lies & Conspiracy

## The Culprits of the 9/11 Era of the Green Space Industry

*It was the responsibility of policy makers to vet as much information to all sides of the issue as possible. They failed.*

*It is the responsibility of the industry to try and mitigate any damages cause by false and misleading information. >>*

The Attorney General originally LACKED THE FORTITUDE to charge any of the activist groups with FRAUD ... so we gave them a helping hand to get the process moving.

FRAUD is made up of TWO very crucial fundamentals that need to be proven. The first is « *dishonesty* », and the second is « *deprivation* ».

We have been able to show at public meetings and in written submissions to the Ontario Government that information presented as fact was in reality FABRICATED by well funded activist groups, with the intent of affecting and depriving the economic interest of the lawn care industry.

Given the fact this issue has been based on a FRAUD may extend the statutory limits on recovering damages created by some of the older bylaws. We may be able to RECOVER LOSSES, for example, in Toronto, where the municipality had the authority to enact a bylaw, but acted based on FALSE INFORMATION.

# Snivelling Terrorists Demand Protection for Lies & Conspiracy

## The Culprits of the 9/11 Era of the Green Space Industry

*<< Fraud is false representation of fact, made with a knowledge of its falsehood, or recklessly, without belief in its truth, with the intention that it should be acted upon by the complaining party, and actually inducing him to act upon it. >>*

*Parna v. G. & S. Properties Ltd.*

We are not in a rush to start civil proceedings for damages at this point. Our focus is making a submission for an INJUNCTION so the industry can get back to work before mid April.

Companies interested in getting back to business should forward their contact information to [info@mrepcommunications.com](mailto:info@mrepcommunications.com)

# Our Hero!

# Commentary from an Independent Perspective

## LET THE ENVIRO-BASTERDS FEEL THE TERROR OF THE COURTS !

---

It is ironical that Enviro-Maniacs are feigning mock-outrage and mock-terror over 133 CRIMINAL CHARGES against 29 activists, who must now face the consequences for their actions.

These snivelling and crying Environmental-Basterds have themselves created HARM and TERROR against the Green Space Industry through their conspiracy to NEEDLESSLY, SENSELESSLY, and MALICIOUSLY prohibit FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE pest control products.

The DEPRAVED INDIFFERENCE of these Environmental-Basterds is itself a form of TERROR against the Green Space Industry.

As a reward for implementing Enviro-Terror, these Basterds have acquired some INFAMY, CELEBRITY, and POWER, and have attracted MILLIONS OF DOLLARS to their coffers.

The DEPRAVED INDIFFERENCE of these Environmental-Basterds has led to LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting TERROR, DESPAIR, and DESTITUTION ON THOUSANDS of hapless victims throughout the Green Space Industry.

These Environmental-Basterds are experts in AVOIDING the consequences of their FEAR-MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES regarding pest control products.

These Environmental-Basterds have gone to great lengths to create SHIELD ORGANIZATIONS in order to ensure that NO actions could be attributed to them personally.

# Commentary from an Independent Perspective

When faced with the consequence of CRIMINAL CHARGES, these snivelling and crying Environmental-Basterds run to the Government of Ontario for help. They are dismayed that the Government of Ontario has concluded that THEY HAVE BEEN HELPED ENOUGH, through The Ontario Trillium Foundation ( O.T.F. ). Trillium is a FINANCIAL AGENCY created by the Government of Ontario and the McGuinty-Ontario-Enviro-Terror-Regime to provide virtually limitless funds to organizations in the Environmental-Terror-Movement. But now ... NO MORE SUPPORT !

It is ironical that Enviro-Maniac-Activists will defend themselves in court with the millions of dollars acquired from The Ontario Trillium Foundation.

It is ironical that Enviro-Maniac-Activists, who themselves have terrorized countless numbers of victims, now feel terrorized themselves.

Still unrepentant, Enviro-Maniac-Activists are SCORNFULLY DEROGATORY and MALICIOUSLY RETALIATORY towards anyone who does not agreed with their dogma. They are Master-Terrorists !

Enviro-Maniac-Activists have gone so far as to have people terminated from their employment. They are Master-Terrorists !

Enviro-Maniac-Activists have gone so far as to practice CIVIL DISOBEDIENCE and HARASSMENT against Professional Lawn Care Companies.

Enviro-Maniac-Activists ARE Master-Terrorists !

Enviro-Maniac-Activists have repeatedly claimed that they are the SOLE DISPENSER OF THE WHOLE TRUTH regarding pest control products. And ... they RETALIATE against any of their detractors.

Enviro-Maniac-Activists are also Intellectual-Terrorists !

# Commentary from an Independent Perspective

By challenging the dogma of Enviro–Maniac–Activists, it does not mean that you are endangering the future of our planet.

What we are dealing with here is not the intellectual superiority of Enviro–Maniac–Activists, but rather, INTELLECTUAL TERRORISM !

## Intellectual AND Environmental Terrorism !

Enviro–Maniac–Terrorist–Basterds are MASTERS in the art of TERRORIZING the Green Space Industry, as well as the public at large.

Here are some examples :

- If you use pest control products, people will get cancer.
- If you apply fertilizers, you are polluting the lakes.
- If you say that the environmental movement is too alarmist, you don't give a damn about our planet.
- If you water your lawn, there will be no water left for us to drink.
- If you use any insecticide, the birds and bees will die.
- If you use a herbicide, our children will become mutants.
- If you use a fungicide, golfers will die.
- If you use an organic fertilizer, people will die.
- If you don't support global warming, you condemn us to a horrible death.
- If you do support the return of DDT, you are stupid.
- If you are a professional turf manager simply trying to grow grass, you are an enemy of Enviro–Maniac–Activists, and they will hurt and harm your livelihood.

Enviro–Maniac–Terrorist–Basterds have made an enemy of the Green Space Industry. They must now face the consequences for their actions. Let them feel the Terror of the Courts !

# The Voice of the Lawn and Tree Care Industries in Government Circles

*My children will benefit from the work I do today.*

**Jeffrey Lowes** is Director of Government and Industrial Relations for M-REP Communications.

M-REP Communications is part of an international coalition of companies that provide consulting services through a network of technical and research based companies and agencies in North America and the European Union. M-REP Communications focuses on sound environmental policy and communications.

M-REP Communications represents lawn and tree-care companies in Ontario, Manitoba, Saskatchewan, Alberta, and British Columbia. This has made M-REP Communications one of the largest organizations in Canada as THE VOICE OF THE LAWN AND TREE CARE INDUSTRIES IN GOVERNMENT CIRCLES. M-REP Communications has embarked on engaging the Federal levels of government that regulate or use the services of the lawn and tree-care industries and working with their provincial counter parts.

# N

**FORCE OF NATURE** was launched for continuous transmission on the Internet on January 1st, 2009. It is a series of e-newsletters destined for the Green Space Industry, the Environmental-Terror-Movement, Government Officials, and the Media, nation-wide across Canada, the United States, and overseas.

# O

Force Of Nature is the brainchild of William H. Gathercole and his entourage. **NORAH G** is actually an acronym for the stable of anonymous producers and writers that contribute to this e-newsletter and have now replaced Mr. Gathercole. They consist of people from the following industries : Distribution, Fertilizer, Golf, Lawn Care, Manufacturing, Municipal, Nursery, and Orchard. Many of these people are leaders in their own industries. The opinions expressed in Force Of Nature, even though from an **INDEPENDENT PERSPECTIVE**, may not reflect those of everyone in the **GREEN SPACE INDUSTRY**, or Mr. Gathercole's many associates. Be warned ! Force Of Nature may sometimes be very irreverent and fearless with these e-newsletters. Mr. Gathercole is now retired from Force Of Nature, although his name continues to appear as the founder.

# R

William H. Gathercole is a principal **FOUNDER** of the Modern Professional Lawn Care Industry in **BOTH** Ontario and Quebec. He holds a degree in Horticulture from the **UNIVERSITY OF GUELPH**, and another pure and applied science degree from **McGILL UNIVERSITY**. He has worked in virtually all aspects of the **GREEN SPACE INDUSTRY**, including **GOLF** and **PROFESSIONAL LAWN CARE**, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the execution of **HUNDREDS OF THOUSANDS** of pest control applications in the urban landscape. He has trained, instructed, and consulted with **THOUSANDS** of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for **TURF & Recreation Magazine**, Canada's Turf and Grounds Maintenance Authority.

# A

Mr. Gathercole has followed the evolution of **ENVIRONMENTAL-TERRORISM** for over a quarter-century. His involvement in Environmental issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the prohibition of pest control products in the Town of Hudson, Quebec. For **FIFTEEN YEARS**, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of **Enviro-Terror** for the entire Modern Green Space Industry across Canada. Mr. Gathercole is personally credited for crafting the **Golf Industry Exception Status**, that endures to this day. He is also the creator of the signs that are now used for posting after application. Although he can be accused of being **Anti-Environment-Movement**, he is, in fact, simply a strong advocate **FOR** the Modern Green Space Industry. However, this position has not precluded him from criticizing the Green Space Industry itself. Nonetheless, his vast knowledge of our long journey with Environmental issues is **UNDENIABLE**. ( Hopefully ! )

# H

Force Of Nature is the instrument of **National Organization Responding Against Huje** that harm the **Green Space Industry ( NORAHG )** by concocting statements and activities seeking to prohibit **FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE** conventional pest control products. **Enviro-Maniacs** are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each **Enviro-Maniac-Culprit** is a mis-guided adversary, each still deserves our respect. The terms **Maniac, Culprit, Terrorist, or Basterd** are not accusations of any legal wrong-doing. Force Of Nature is simply holding **Alleged culprits accountable** for conspiring to change public policies that **TERRORIZE** and **THREATEN** the Green Space Industry. Their pretentious prohibitionist rants has created **LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT**, inflicting **DESPAIR** and **DESTITUTION** for **THOUSANDS** of hapless victims throughout the Green Space Industry. The actions of **Maniac-Culprit-Terrorist-Basterds** are viewed as a form of **TERROR** against the Green Space Industry. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events with commentary. Additionally, Force Of Nature inspires people to believe that **ENVIRONMENTAL-TERRORISM** can be **STOPPED !** The events, characters, companies, and organizations, depicted in this document are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All document excerpts and pictures contained in Force Of Nature were found somewhere on the Internet. We believe that they are in the public domain, serving one of the following purposes : archive, education, promotion, publicity, or press release.
