# Ontario Conspiracy to Prohibit Pest Control Products

## The 9/11 Era of Environmental Terror in Toronto

### ENVIRONMENTAL PROTECTION OFFICE

---

City of Toronto has been a NEST OF ACTIVITY for the Environmental-Terror-Movement since the 1980s.

In 1987, City of Toronto established Environmental Protection Office ( EPO ) of Toronto Public Health.

This was done to respond to growing community and political concerns about the impact of environmental contaminants on human health.

Toronto Public Health is the largest public health unit in Canada.

BOTH Toronto Public Health and Environmental Protection Office became MUNICIPAL GOVERNMENT SHIELD ORGANIZATIONS for the Environmental-Terror-Movement.

Toronto and its Environmental Protection Office can be held accountable for the CARNAGE caused by the PROHIBITION of pest control products, to the detriment of the Professional Lawn Care Industry.

In 2004, Elected Officials in City of Toronto voted in favour of PROHIBITING the use of conventional pest control products in the Urban Landscape.

### DISAGREEMENT WITHIN CITY OF TORONTO

---

Not everyone within City of Toronto was in agreement with the passage of PROHIBITION.

Here is an excerpt from a City Clerk report in May 2004 –

<< *Some Committee members DID NOT NECESSARILY AGREE that there is a health concern with the use of pesticides and noted that several presentations to the Committee found that only pesticide products with a wide margin of safety are currently available for use on home lawns.* >>

<< *This information was conveyed through several documents, including Health Canada's Pest Management Regulatory Agency of Health Canada ( PMRA ).* >>

<< *The Medical Officer of Health, in her report Implementation of the Pesticide By-Law, indicates that the Federal Commissioner of the Environment and Sustainable Development has identified weaknesses in the federal testing and registration process for products.* >>

<< *This raises concerns about the management of the risks to health and the environment with pesticides.* >>

<< *The Federal Government has passed new legislation, which will update the types of pesticides currently on the exempt and non-exempt list.* >>

# Ontario Conspiracy to Prohibit Pest Control Products

## The 9/11 Era of Environmental Terror in Toronto

### PROHIBITION CARNAGE IN THE PROFESSIONAL LAWN CARE INDUSTRY

---

DAMAGES to the Professional Lawn Care Industry were EXTENSIVE because there were NO valid economical alternatives to replace the prohibited products.

VIRTUALLY ALL Green Alternatives were almost TOTAL INEFFECTIVE except under very specific circumstances.

Consequently, Professional Lawn Care Companies were UNABLE to provide adequate weed and insect control, and were UNABLE to keep their customers satisfied.

### PROHIBITION CARNAGE IN TORONTO GREEN SPACES

---

The CARNAGE wrought on Public Green Spaces in City of Toronto quickly became evident after PROHIBITION.

For example, according to a report from City of Toronto in February 2004 ...

<< *A weed free turf area, in the absence of the use of herbicides and a plant health care program, will become infested with weeds such as dandelions to a 50% cover within 4–5 years.* >>

<< *Within 7–8 years the turf area will be 80–90% non-turf ground cover (weeds).* >>

### LEGISLATION AND COURT CHALLENGE

---

Once City of Toronto passed its PROHIBITION, it was LEGALLY CHALLENGED by the manufacturers of pest control products, through the CropLife Canada trade Association.

City of Toronto used the pretext that this PROHIBITION ...

<< [ ... ] *will promote the health of the inhabitants of City of Toronto.* >>

Basing itself upon the Municipal Act of 2001, CropLife Canada challenged in court whether City of Toronto had the authority to PROHIBIT the use of pest control products.

For some misguided reason, CropLife Canada never challenged the PROHIBITION for the sake of the Professional Lawn Care Industry, but rather on the basis that the Toronto PROHIBITION ...

<< [ ... ] *sets a troubling precedent for Canadian FARMERS, [ despite the fact that ] there may not be a lot of farms in City of Toronto.* >>

# Ontario Conspiracy to Prohibit Pest Control Products

## The 9/11 Era of Environmental Terror in Toronto

In 2004, the Court of Appeal for Ontario concluded that City of Toronto DID have the authority to PROHIBIT.

By 2005, CropLife Canada continued its legal challenge to The Supreme Court of Canada, where the case was dismissed with costs.

With this failure, the floodgates were opened for NEEDLESS, SENSELESS, and MALICIOUS PROHIBITIONS across the Province of Ontario, and across Canada.

Here's a twist of fate that further led to the failure of the challenge.

CropLife Canada was DOOMED even before it presented its case to The Supreme Court of Canada.

One of the judges was Michel Bastarache.

Bastarache was one of the judges who had also ruled against the Professional Lawn Care Industry in the case of PROHIBITION in the Town of Hudson, Quebec.

CropLife Canada was dead in the water with Bastarache.

During the proceedings in 2001, Bastarache had asked the question —

<< *If we allow the right to sell cigarettes, does this mean we cannot prevent its sale in schools ?* >>

The CropLife-Toronto Affair was not only BOTCHED, but also CURSED WITH BAD LUCK.

There were also very clear indications that The Supreme Court of Canada was INFESTED with Enviro-Maniac-Activists.

### ELECTED OFFICIALS

---

On May 20<sup>th</sup>, 2004, City of Toronto IMPLEMENTED its residential PROHIBITION of pest control products, with enforcement on homes starting in September 2007, and in September 2005 for Professional Lawn Care Companies.

Not every Elected Official within City of Toronto was in agreement with the passage of PROHIBITION.

26 Voted FOR PROHIBITION.

17 Voted AGAINST PROHIBITION.

Many of these Elected Officials presented themselves as CANDIDATES in the 2010 City of Toronto election campaign.

If there had been no Toronto PROHIBITION, if Toronto Politicians and staff had not supported PROHIBITION, there would not have been an Ontario PROHIBITION.

Several Elected Officials and employees of City of Toronto utilized time and energy, at the tax-payers' expense, to forge public policy that was essentially a NEEDLESS, SENSELESS, and MALICIOUS LIFE-STYLE CHOICE.

And they EXTENSIVELY DAMAGED hundreds of businesses, and HARMED thousands of employees.

# Toronto Politicians

## Operating in the 9/11 Era of Environmental Terror

The following Elected Officials in the City of Toronto are candidates who are seeking re-election in the 2010 Campaign.

On the issue of PROHIBITING pest control products, the following is a list of their final or only VOTING RECORDS in either May 2003 or May 2004.

### Toronto 2010 Candidates

#### FORD, Rob

Candidate for mayor  
Formerly councillor  
Ward 2 – Etobicoke North

Reliable & intelligent  
councillor who  
voted AGAINST  
prohibition

VOTE FOR  
THIS CANDIDATE

#### PANTALONE, Joe

Candidate for mayor  
Formerly councillor  
Ward 19 – Trinity – Spadina

Enviro-Maniac  
councillor who  
voted YES for  
prohibition

DO NOT VOTE FOR  
THIS CANDIDATE

#### HALL, Suzan

Candidate for councillor  
Ward 1 – Etobicoke North

Enviro-Maniac  
councillor who  
voted YES for  
prohibition

DO NOT VOTE FOR  
THIS CANDIDATE

#### HOLYDAY, Doug

Candidate for councillor  
Ward 3 – Etobicoke Centre

Reliable & intelligent  
councillor who  
voted AGAINST  
prohibition

VOTE FOR  
THIS CANDIDATE

# Toronto Politicians

Operating in the 9/11 Era of Environmental Terror

# Ontario Conspiracy to Prohibit Pest Control Products

## The 9/11 Era of Environmental Terror in Ontario

### THE MALICIOUS PROHIBITION IN THE PROVINCE OF ONTARIO

---

Prohibition legislation DESTROYED the Modern Professional Lawn Care Industry.

On April 22<sup>nd</sup>, 2009, the Government of Ontario implemented legislation for the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products

An Exception Status was provided to golf courses, some sports fields, specialty turf, forestry, and agriculture — industries that have employed the very same pest control products otherwise prohibited for the Professional Lawn Care Industry.

The legislation was implemented despite the fact that the prohibited pest control products were still FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE.

Moreover, there were serious issues with the Ontario Minister of the Environment, John Gerretsen, who was responsible for implementing PROHIBITION.

Gerretsen was INDISCREET with his CLOSE PUBLIC ASSOCIATIONS with RADICAL and SUBVERSIVE Enviro-Maniac-Activists.

### THE HORRENDOUS CARNAGE IN THE PROVINCE OF ONTARIO

---

DAMAGES to the Professional Lawn Care Industry were EXTENSIVE because there were NO valid economical alternatives to replace the prohibited products.

VIRTUALLY ALL Green Alternatives were almost TOTAL INEFFECTIVE except under very specific circumstances. The Green Alternatives were BOGUS.

There were also questions about their TOXICITY.

Consequently, Professional Lawn Care Companies were UNABLE to provide adequate weed and insect control, and were UNABLE to keep their customers satisfied.

# Ontario Conspiracy to Prohibit Pest Control Products

## The 9/11 Era of Environmental Terror in Ontario

In 2009, the Ontario Professional Lawn Care Industry lost over 300,000,000 DOLLARS.

In 2010, observers expected losses to reach 500,000,000 DOLLARS.

By late 2009, 40 to 70 % of Professional Lawn Care customers were ANNIHILATED.

Because of the PROHIBITION CONSPIRACY, Professional Lawn Care Companies were forced to TERMINATE many or most of their employees.

By late 2009, OVER 5,000 HAPLESS VICTIMS were UNEMPLOYED ( full time employees and summer students ).

In 2010, observers expected 8,300 to 12,500 UNEMPLOYED.

Because of the PROHIBITION CONSPIRACY, Professional Lawn Care Companies, which at one time provided a good living and some equity for eventual sale for retirement, became WORTHLESS !

Because of PROHIBITION, many multi-vehicle Professional Lawn Care Companies were forced to DOWN-SIZE their operations to a single truck.

By late 2009, several dozen companies were forced to exit from the market.

By 2010, there was a GLUT OF USED-EQUIPMENT-FOR-SALE because of the DOWN-SIZING and EXODUS of Professional Lawn Care Companies.

## BUSINESS FAILURES, BANKRUPTCIES, AND ABANDONMENT

---

Within 36 months after the implementation of PROHIBITION in the Province of Ontario, observers expected 780 BUSINESS FAILURES or BANKRUPTCIES.

Unfortunately, the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products guaranteed that no one would be able to buy or sell a Professional Lawn Care business !

Because of the PROHIBITION CONSPIRACY, observers expected that many Professional Lawn Care Companies would simply be ABANDONED.

PROHIBITION legislation DESTROYED the Modern Professional Lawn Care Industry.

# Ontario Conspiracy to Prohibit Pest Control Products

## The 9/11 Era of Environmental Terror in Ontario

### STOPPING THE CARNAGE CAUSED BY MALICIOUS ENVIRO-MANIACS

---

In January 2010, the Green Space Industry outlined the list of CHARGES against the Government of Ontario and the Ministry of the Environment.

The legal proceedings were organized by Jeffrey P. Lowes and M-REP Communications.

Additionally, individual members of Environmental-Terror-Organizations also faced CHARGES under the Canadian Criminal Code.

By August 2010, M-REP Communications commenced CIVIL ACTION to recover the HORRENDOUS LOSSES caused by the PROHIBITION CONSPIRACY.

### SUMMARY OF ALLEGED OFFENCES BY PROHIBITIONIST ENVIRO-MANIACS

---

• 133 charges and 29 culprits • Conspiring to prevent the supply of approved pest control products • Defrauding access to products • Impeding access to approved pest control products • Misleading with peer-reviewed assessments, reports, and studies • Presenting false and misleading information • Undermining the people and companies in Green Space Industry.

### ENVIRONMENTAL-TERROR-ORGANIZATIONS RESPONSIBLE FOR PROHIBITION

---

There are fifteen principal Environmental-Terror-Organizations that operate in the Province of Ontario • Canadian Association of Physicians for the Environment ( CAPE ) • Canadian Cancer Society ( CCS ) • Canadian Environmental Law Association ( CELA ) • Children's Hospital of Eastern Ontario ( CHEO ) • David Suzuki Foundation • Ecojustice Canada • Environmental Defence • Ontario College of Family Physicians ( OCFP ) • Ontario Medical Association ( OMA ) — Pediatrics Section • Ontario Public Health Association ( OPHA ) • Organic Landscape Alliance ( OLA ) • Coalition For Pesticide Reform Ontario • Prevent Cancer Now • Registered Nurses' Association of Ontario ( RNAO ) • The Learning Disabilities Association of Canada ( LDAC ).
