## Pesticide PROHIBITIONS Intensify in U.S. States Under the PRETEXT of Protecting Children

December 6<sup>th</sup>, 2011

Total Landscape Care

Selected and adapted excerpts

# Anti-Pesticide Terrorism in **America**

## Proposed U.S. PROHIBITIONS

---

As of December 2011, three more U.S. states in the North-East are proposing new laws that would PROHIBIT the use of pest control products on grounds surrounding SCHOOLS and, in some cases, DAY-CARE CENTERS.

If adopted, New Jersey, Maine, and New Hampshire would join New York and Connecticut in IMPOSING BANS on EPA-registered lawn and ornamental pest control products for playgrounds and playing fields.

## Tom Delaney

---

For now, RESIDENTIAL LAWNS ARE EXCLUDED from state legislation calling for pest control product restrictions, but as each of these bills pass, IT OPENS THE DOOR TO THE POSSIBILITY OF THEIR GRADUAL EXPANSION, according to Tom Delaney, Director of Government Affairs, Professional Landcare Network ( PLANET ).

Delaney points to CANADA, where many provinces BAN cosmetic use of pest control products altogether, as an example of how quickly policy can pass from public to private property.

Delaney is also a member of the Pesticide Policy Dialogue Committee ( PPDC ), a federal advisory committee to the U.S. Environmental Protection Agency ( EPA ).

# Anti-Pesticide Terrorism in America

According to Tom Delaney of Professional Landcare Network ( PLANET ) —

*<< Those who would like to see pesticide use go away feel schools are easier targets for these laws, but it's just a STARTING POINT. >>*

*We all should be paying attention — even if you don't make applications at schools.*

*Don't sit on the side-lines thinking this doesn't affect you because eventually, it will.*

*We're not so far removed from it on residential lawns.*

*We may work on a different site, but we use the SAME PRODUCTS, so don't put your head in the sand.*

*Support those in the industry who are being affected now.*

Delaney says following best management practices along with IPM ( Integrated Pest Management ) are the best ways landscapers can support the industry.

According to Tom Delaney —

*<< All it takes is one person doing something wrong to provide the basis for a new law or regulation, and everyone in the industry will suffer from that person's poor practices. >>*

# Anti-Pesticide Terrorism in **America**

## U.S. Regulatory Affairs

---

In the United States, determining regulations for pest control product use is a responsibility **SHARED AT THE STATE AND NATIONAL LEVELS.**

The U.S. Environmental Protection Agency regulates pest control products nationally under the authority of the Federal Insecticide, Fungicide and Rodenticide Act ( FIFRA ) and other laws to register pest control products, educate applicators, monitor compliance, and investigate problems.

Under these guidelines, states are allowed to develop their own regulations that are more comprehensive and stringent than federal regulations.

State regulatory offices typically license Professional Lawn Care companies and other users of pest control products, certify individual applicators, investigate companies, and enforce laws in conjunction with the EPA and other agencies, according to the National Pesticide Information Center.

The **MAJORITY** of states have legislated **PRE-EMPTION LAWS.**

In general terms, **PRE-EMPTION** refers to the ability of one level of government to **OVER-RIDE** the laws of a lower level.

**PRE-EMPTION LAWS** have effectively **STOPPED** the possibility of **STATE** or **MUNICIPAL PROHIBITIONS** of pest control products, and even fertilizers, used in the Urban Landscape.

However, with the support of Anti-Pesticide Organizations, several states and municipalities are fighting to overturn **PRE-EMPTION LAWS** in order to **IMPOSE** the **NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION** of products that are, otherwise, **EPA-APPROVED, FEDERALLY-LEGAL, SCIENTIFICALLY-SAFE, and PRACTICALLY-NON-TOXIC.**

# Anti-Pesticide Terrorism in America

## State PRE-EMPTION Laws

---

Many states have PRE-EMPTION LAWS to prevent municipalities from crafting their own laws regarding the use of pest control products and fertilizers.

## PRE-EMPTION States

---

Alabama  
Arizona  
Arkansas  
California  
Colorado  
CONNECTICUT <sup>1</sup>  
Delaware  
Florida  
Georgia  
Idaho  
Illinois  
Indiana  
Iowa  
Kansas  
Kentucky  
Louisiana  
Massachusetts  
Michigan  
Minnesota  
Mississippi  
Missouri  
Montana  
Nebraska  
New Hampshire  
NEW JERSEY <sup>2</sup>  
New Mexico  
New York

North Carolina  
North Dakota  
Ohio  
Oklahoma  
Oregon  
Pennsylvania  
Rhode Island  
South Carolina  
South Dakota  
Tennessee  
Texas  
Virginia  
WASHINGTON <sup>3</sup>  
West Virginia  
Wisconsin

<sup>1</sup> A bill introduced in the CONNECTICUT legislature in 2011 seeks to overturn the state's pest control product pre-emption law.

<sup>2</sup> Local ordinances must be submitted for approval to the NEW JERSEY Department of Environment.

<sup>3</sup> Local ordinances must go to the WASHINGTON Office of the Attorney General for interpretation and approval. Generally, use restricted ordinances are not approved.

# Anti-Pesticide Terrorism in **America**

## Non-PRE-EMPTION States

---

In states that do not have PRE-EMPTION LAWS, municipalities can specify their unique ordinances for how pest control products are used and applicators are certified.

Alaska  
District of Columbia  
Hawaii  
Maine  
Maryland

Nevada  
South Dakota  
Utah  
Vermont  
Wyoming

What follows is an update of new and/or note-worthy state and municipal PROHIBITIONS, including proposed legislation that would impact usage on a NATIONAL level.

## Proposed NATIONAL PROHIBITION

---

Federal legislation, the SCHOOL ENVIRONMENTAL PROTECTION ACT ( SEPA ), was first introduced in November 1999 in both the U.S. Senate and House, and has been re-introduced every Congressional session since.

The legislation seeks to PROHIBIT NATION-WIDE the use of pest control products at SCHOOLS for both INDOOR and OUTDOOR ( grounds ) applications.

It also would ban the use of SYNTHETIC FERTILIZER at SCHOOLS.

The bill, if adopted, would establish a 12-member National School IPM Advisory Board to develop school IPM standards that would be a national standard.

# Anti-Pesticide Terrorism in **America**

## State Laws for Schools and/or Day-Care Centers

---

34 states have adopted laws that address the use of pest control products at SCHOOLS AND/OR DAY-CARE CENTERS.

21 states RECOMMEND OR REQUIRE that SCHOOLS the use of IPM ( Integrated Pest Management ) ... a 24 per cent increase since 1998.

16 states RESTRICT when or what pest control product may be applied in SCHOOLS.

17 states require SIGN-POSTING for SCHOOLS for INDOOR applications.

26 states require SIGN-POSTING for SCHOOLS for OUTDOOR ( grounds ) applications.

23 states require prior written PRE-NOTIFICATION to students, parents, and staff before an application is made to SCHOOLS.

## State of Connecticut — School PROHIBITION

---

A law passed in Connecticut PROHIBITS the use of pest control products on grounds surrounding SCHOOLS and DAY-CARE CENTERS.

The Connecticut law ( effective October 1<sup>st</sup>, 2009, for DAY-CARE CENTERS and on July 1<sup>st</sup>, 2010, for K-8 SCHOOLS ) PROHIBITS all EPA-registered pest control products labeled for use on lawn and/or ornamental sites, including fungicides, herbicides and insecticides.

# Anti-Pesticide Terrorism in **America**

## State of Illinois — Day-Care PROHIBITION

---

Illinois legislated a PESTICIDE AND LAWN CARE PRODUCT APPLICATION BILL that PROHIBITS the application of pest control products when children are present at licensed DAY-CARE CENTERS.

Additionally, the treated area of those centers must remain unoccupied for at least two hours following application.

Applicators must provide a four-day PRE-NOTIFICATION of application for parents and guardians of children at DAY-CARE CENTERS and SCHOOLS.

## State of Maine — Proposed PROHIBITION

---

Maine is PROPOSING a CHILD SAFE PLAYING FIELDS ACT similar to the State of New York.

## State of Massachusetts — School PROHIBITION

---

In Massachusetts, on grounds surrounding SCHOOLS, pest control products are PROHIBITED for purely « *cosmetic* » reasons.

# Anti-Pesticide Terrorism in **America**

## State of New Hampshire — Proposed PROHIBITION

---

New Hampshire is PROPOSING a CHILD SAFE PLAYING FIELDS ACT similar to the State of New York.

## State of New Jersey — Municipal PROHIBITIONS

---

40 towns in this state have already PROHIBITED pest control products in PARKS, and more than 30 municipalities have enacted PROHIBITIONS of conventional pest control products on PUBLIC PROPERTY.

The state is PROPOSING a CHILD SAFE PLAYING FIELDS ACT similar to the State of New York.

## State of New York — School PROHIBITION

---

A law passed in New York PROHIBITS the use of pest control products on grounds surrounding SCHOOLS and DAY-CARE CENTERS.

New York State's CHILD SAFE PLAYING FIELDS ACT was passed in May 2010, requiring all SCHOOLS, PRE-SCHOOLS, and DAY-CARE CENTERS, both public and private, PROHIBIT the use of pest control products on play-grounds or playing fields.

The law went into effect for DAY-CARE CENTERS on November 14<sup>th</sup>, 2010, and for SCHOOLS on May 18<sup>th</sup>, 2011.

**PROHIBITION Leads to  
DISMAL and DANGEROUS  
GARBAGE DUMP Playing Surfaces  
for CHILDREN ...**

**... and Anti-Pesticide Lunatics  
COULD NOT CARE LESS**

# CHILDREN

## Are NOT At Risk

### Children Are NOT At Risk

---

Pest control products are SCIENTIFICALLY-SAFE and CAUSE NO HARM.

ALLEGATIONS about the IMAGINARY DANGER of pest control products are TOTALLY FALSE, and are UNTRUE MIS-REPRESENTATIONS designed to ALARM AND ENRAGE the public for MONEY AND PROFIT given to Anti-Pesticide Organizations.

Enviro-Lunatics use CHILDREN and even BABIES as « *The Ultimate Weapons of Coercion and Environmental Terror* » in order to DELIBERATELY DISRUPT REASONABLE PUBLIC DEBATE.

Moreover, Anti-Pesticide Lunatics teach their CHILDREN to FEAR MODERN TECHNOLOGY and SCIENTIFICALLY SAFE products.

### What DANGER !?!?

---

MYTH — Anti-Pesticide PROHIBITION will somehow eliminate a danger to children.

This is WRONG !

Anti-Pesticide PROHIBITION imposed under the PRETEXT of protecting children's health is WRONG !

There are NO valid reports of pest control product problems with children.

Anti-Pesticide Activists ALLEGE that children are somehow MORE vulnerable to pest control products.

This is a MYTH !

Anti-Pesticide Activists are DESPICABLE in their use of CHILDREN as WEAPONS OF COERCION and ULTIMATE TERROR in order to promote Anti-Pesticide PROHIBITION.

Non-Expert Anti-Pesticide Activists are GREATLY MISTAKEN by ALLEGING that, as a result of the PROHIBITION of pest control products, fewer children will be exposed to some IMAGINARY DANGER.

### NO Concern To Children

---

There is NO problem with children playing on a dried treated surface after a pest control application.

Pest control products are applied at VERY LOW DOSES, and DO NOT PRESENT A CONCERN TO CHILDREN ... and even people.

After a pest control product DRIES ON THE LEAF, it is difficult, if not impossible, to dislodge residues off the leaf surface.

Anti-Pesticide Activists SCAM and DECEIVE the public by blurting out HOLLOW and DESPICABLY-ALARMIST TERROR-TALK expressions like « *children at risk* » and « *childhood cancer* » and « *exposure to toxins* » and « *illnesses caused by pesticides* » and « *serious illness* » !

# CHILDREN

## Are NOT At Risk

### TERROR-Talk About Children

---

It is apparent that NON-EXPERT Anti-Pesticide Activists who use TERROR-TALK about children have NO recognized expertise, training or background in matters concerning pest control products.

TERROR-TALK is designed to alarm and enrage the public into PROHIBITING pest control products.

Here are some examples of Anti-Pesticide TERROR-TALK —

« *Children are at risk* » — Wrong !

« *Children more highly exposed* » — Wrong !

« *Children more vulnerable* » — Wrong !

Anti-Pesticide Activists heard using the above HOLLOW and DESPICABLE expressions DO NOT KNOW WHAT THEY ARE TALKING ABOUT !

And they are WRONG ABOUT CHILDREN !

### Using Children as WEAPONS

---

Anti-Pesticide Activists OUTRAGEOUSLY USE CHILDREN as WEAPONS OF COERCION and TERROR in order to INTIMIDATE the public into believing the Anti-Pesticide PROHIBITION is somehow necessary.

ALLEGATIONS about the IMAGINARY DANGER TO CHILDREN are TOTALLY

FALSE, and are UNTRUE MIS-REPRESENTATIONS designed to ALARM AND ENRAGE the public for MONEY AND PROFIT given to Anti-Pesticide Organizations.

### Assessments PROTECT Children

---

Pest control products DO NOT HARM CHILDREN !

The ASSESSMENT of pest control products by Health Canada takes into consideration sensitive groups, such as CHILDREN, as well as INFANTS and PREGNANT WOMEN.

CHILDREN's physiology, behaviours and habits WHILE PLAYING ON TREATED GRASS are CONSIDERED when determining the safety of pest control products.

EXTRA SAFETY FACTORS are applied by Health Canada to protect CHILDREN, as well as INFANTS and PREGNANT WOMEN.

Pest control products cause NO HARM TO CHILDREN.

Pest control products cause NO HARM, including chronic effects such as CANCER.

# CHILDREN

## Are NOT At Risk

### Pest Control

---

Why do we need pest control in turf ?

Broad-leaved weed pests are common in turf and include plants, such as ...

- Black Medick
- Buckhorn
- Common Chickweed
- Creeping Buttercup
- Dandelion
- English Daisy
- Heal-All
- Knotweed Oxalis
- Pineappleweed
- Plantain
- Veronica
- White Clover
- Yarrow, and more.

Many of these weeds, once established, have to be killed or removed ... they DO NOT go away on their own.

Damaging insects are also common in turf, such as ...

- Annual bluegrass weevil larvae ( white grubs )
- Black turfgrass ataenius larvae ( white grubs )

- Bluegrass billbug larvae ( white grubs )
- Clover mites
- Crane fly larvae ( leather jackets )
- European chafer larvae ( white grubs )
- Hairy chinch bug nymphs and adults
- Kentucky bluegrass scale crawlers and adults
- Japanese beetle larvae ( white grubs )
- May or June beetle larvae ( white grubs ), and more

Many of these insects, once established in a region, have to be killed or removed ... they DO NOT go away on their own.

Turfgrass pests DISRUPT THE UNIFORMITY OF THE TURF and MAY AFFECT THE SAFETY and PLAYABILITY of the playing surface.

# CHILDREN

## Are NOT At Risk

### Safe Conditions WITH Pest Control Products

---

Pest control products PREVENT slipping injuries on sports turf.

Pesticide-Free Maintenance creates HAZARDOUS SLIPPING CONDITIONS in sports turf.

On sports turf, safety considerations also influence decisions to use pest control products because bare areas, or large weedy patches, can increase the SLIPPING HAZARD.

The Precautionary Principle dictates that pest control products SHOULD NOT BE PROHIBITED.

With the choice between treating and not treating, the decision for proper weed control must be made.

Proper weed control on turf helps PREVENT SLIPPING INJURIES by eliminating broad-leaved weeds.

Appealing, well-maintained, and pest-free neighbourhood green spaces increase the public's sense of safety, and increase the desire for outdoor activities.

### PROHIBITION Actually HARMS Children

---

In fact, PROHIBITING pest control products under the PRETEXT of protecting children's health is actually HARMFUL TO CHILDREN.

In fact, children are AT RISK WITH PROHIBITION.

Pesticide-Free Maintenance creates GARBAGE DUMPS and DANGEROUS PLAYING SURFACES — ESPECIALLY FOR CHILDREN !

However, Anti-Pesticide Activists are willing to COMPROMISE ON THE SAFETY OF CHILDREN who need a CUSHION OF HIGH-QUALITY TURFGRASS when playing and running and falling.

# CHILDREN

## Are NOT At Risk

Without conventional pest control products, playing surfaces become thin, and yellow, and OVER-RUN WITH WEEDS, INFESTED WITH INSECTS, and DISMALLY DESTROYED.

Turfgrass pests DISRUPT THE UNIFORMITY OF THE TURF and MAY AFFECT THE SAFETY and PLAYABILITY of the playing surface for footing, ball bounce, etc ...

Without pest control products, playing surfaces become GARBAGE DUMPS, and are a DANGER for children to play on.

Anti-Pesticide Activists COULD NOT CARE LESS ABOUT CHILDREN who use these DANGEROUS PLAYING SURFACES.

WELL-MAINTAINED, THICKER, GREENER, and PEST-FREE outdoor playing surfaces, like home lawns, public green spaces, and sports fields, have MANY PRACTICAL BENEFITS.

WELL-MAINTAINED turfgrass playing surfaces act as a NATURAL CUSHION.

WELL-MAINTAINED turfgrass is also an EFFECTIVE SPONGE for rain water.

A playing surface OVER-RUN WITH WEEDS and INFESTED WITH INSECTS provides NONE of these benefits.

They are OVER-RUN by Dandelions and other weed pests, and are DESTROYED by INFESTING insect pests like European Chafer.

Pesticide-Free Maintenance represents a HAZARD TO ANYONE USING PLAYING SURFACES, ESPECIALLY CHILDREN.

When it rains, pest-infested playing surfaces become SLIPPERY MUD BOGS.

When dry, pest-infested playing surfaces become AS HARD AS CONCRETE.

Pesticide-Free Maintenance actually HURTS kids.

Falling on SLIPPERY MUD or BAKED SOIL is the direct cause of BROKEN BONES, TWISTED ANKLES, and SKINNED KNEES.

Any trend favouring Pesticide-Free Maintenance will lead to GARBAGE DUMPS, DANGEROUS PLAYING SURFACES, and HURT CHILDREN.

# CHILDREN

## Are NOT At Risk

TURFGRASS QUALITY and SAFETY are generally IMPROVED when pest control products are used judiciously to control pests that cannot be controlled in other ways.

Pest control products ENHANCE the Urban Landscape, and make playing surfaces SAFE FOR CHILDREN.

### Anti-Pesticide Activist-Parents

---

Anti-Pesticide Activist are Hypochondriac Parents who somehow hold pest control products accountable for the poor health of their children.

This is RIDICULOUS !

Instead of facing adversity with courage, these Anti-Pesticide Activist | Hypochondriac Parents prefer using their sick children as DRAMATIC WEAPONS OF COERCION and ULTIMATE TERROR against the Professional Lawn Industry.

Anti-Pesticide Activist | Hypochondriac Parents appear to prefer using their children's poor health TO MERELY INFLUENCE PUBLIC OPINION ABOUT LIFE-STYLE CHOICES.

It can be concluded that they could not care less about the health of their child.

Anti-Pesticide Activist | Hypochondriac Parents are using their sick children to validate UNPROVEN and NON-EXISTENT danger with conventional pest control products.

Anti-Pesticide Activist | Hypochondriac Parents are using their sick children to SCAM and DECEIVE the public.

These activists know NOTHING about pest control products ( and raising children ), but knows lots about MINDLESS, SENSELESS, and FRAUDULENT FEAR-MONGERING !

# CHILDREN

## Are NOT At Risk

### Facts About ADHD

---

NON-EXPERT Anti-Pesticide Activists FALSELY ALLEGE that children exposed to a high level of pest control products somehow have higher rates of ADHD.

Attention-Deficit Hyperactivity Disorder ( ADHD or AD/HD or ADD ) is a neuro-behavioural developmental disorder.

There is NO SINGLE KNOWN CAUSE for all of the different types of Attention-Deficit Hyperactivity Disorder.

Even if a child's behaviour seems like Attention-Deficit Hyperactivity Disorder, it may actually be a behaviour that RESEMBLES it.

For example, a child might show Attention-Deficit Hyperactivity Disorder symptoms when experiencing —

- Anxiety
- Child abuse
- Death or divorce in the family
- Depression
- Ear infection causing temporary hearing problems
- Exposure to Anti-Pesticide Activist | Hypochondriac parents
- Insufficient or poor quality sleep

- Parent's job loss
- Problems with schoolwork caused by a learning disability
- Sudden change
- Undetected seizures

### THE BOTTOM LINE About ADHD

---

Children exposed to a high level of pest control products DO NOT have higher rates of ADHD.

Children DO NOT develop Attention-Deficit Hyperactivity Disorder because of pest control products.

NON-EXPERT Anti-Pesticide Activists making these claims basically IGNORE SOUND SCIENCE because it is CONVENIENT for them to do so !

These poor children are being raised by Anti-Pesticide Activist | Hypochondriac Parents who teach them to FEAR MODERN TECHNOLOGY and SCIENTIFICALLY SAFE products.

# CHILDREN

## Are NOT At Risk

### Activist CHILD ABUSE

---

How can anyone allow Anti-Pesticide Activists near children ?

Anti-Pesticide Activists are Hypochondriac Parents who NEEDLESSLY FRIGHTEN their children by CONCOCTING stories about pest control products and Attention-Deficit Hyperactivity Disorder ( ADHD ).

Moreover, Anti-Pesticide Lunatics teach their CHILDREN to FEAR MODERN TECHNOLOGY and SCIENTIFICALLY SAFE products.

Anti-Pesticide Activists attend public forums with their ill-bred young Enviro-Children who are encouraged to cry and bawl in order to disrupt the proceedings.

This is not difficult since many Enviro-Children are often ABUSED by starvation with inferior organic food.

Anti-Pesticide Activists are Hypochondriac Parents who further ABUSE their children by leading them to believe that when a loved one or a family pet passes on, it is because of pest control products.

In fact, terminally-ill children, or children in general, tend to be used as DRAMATIC WEAPON OF COERCION and ULTIMATE TERROR against the Professional Lawn Care Industry.

Anti-Pesticide Activists should not be allowed anywhere near children !

### The MYTH of Vulnerable Children

---

Anti-Pesticide Activists ALLEGE that children are somehow MORE vulnerable to pest control products.

This is a MYTH !

CHILDREN are merely being used as WEAPONS OF COERCION and ULTIMATE TERROR in order to promote Anti-Pesticide PROHIBITION.

Did it ever occur to anyone that Anti-Pesticide Activists DO NOT KNOW WHAT THEY ARE TALKING ABOUT ?!?!

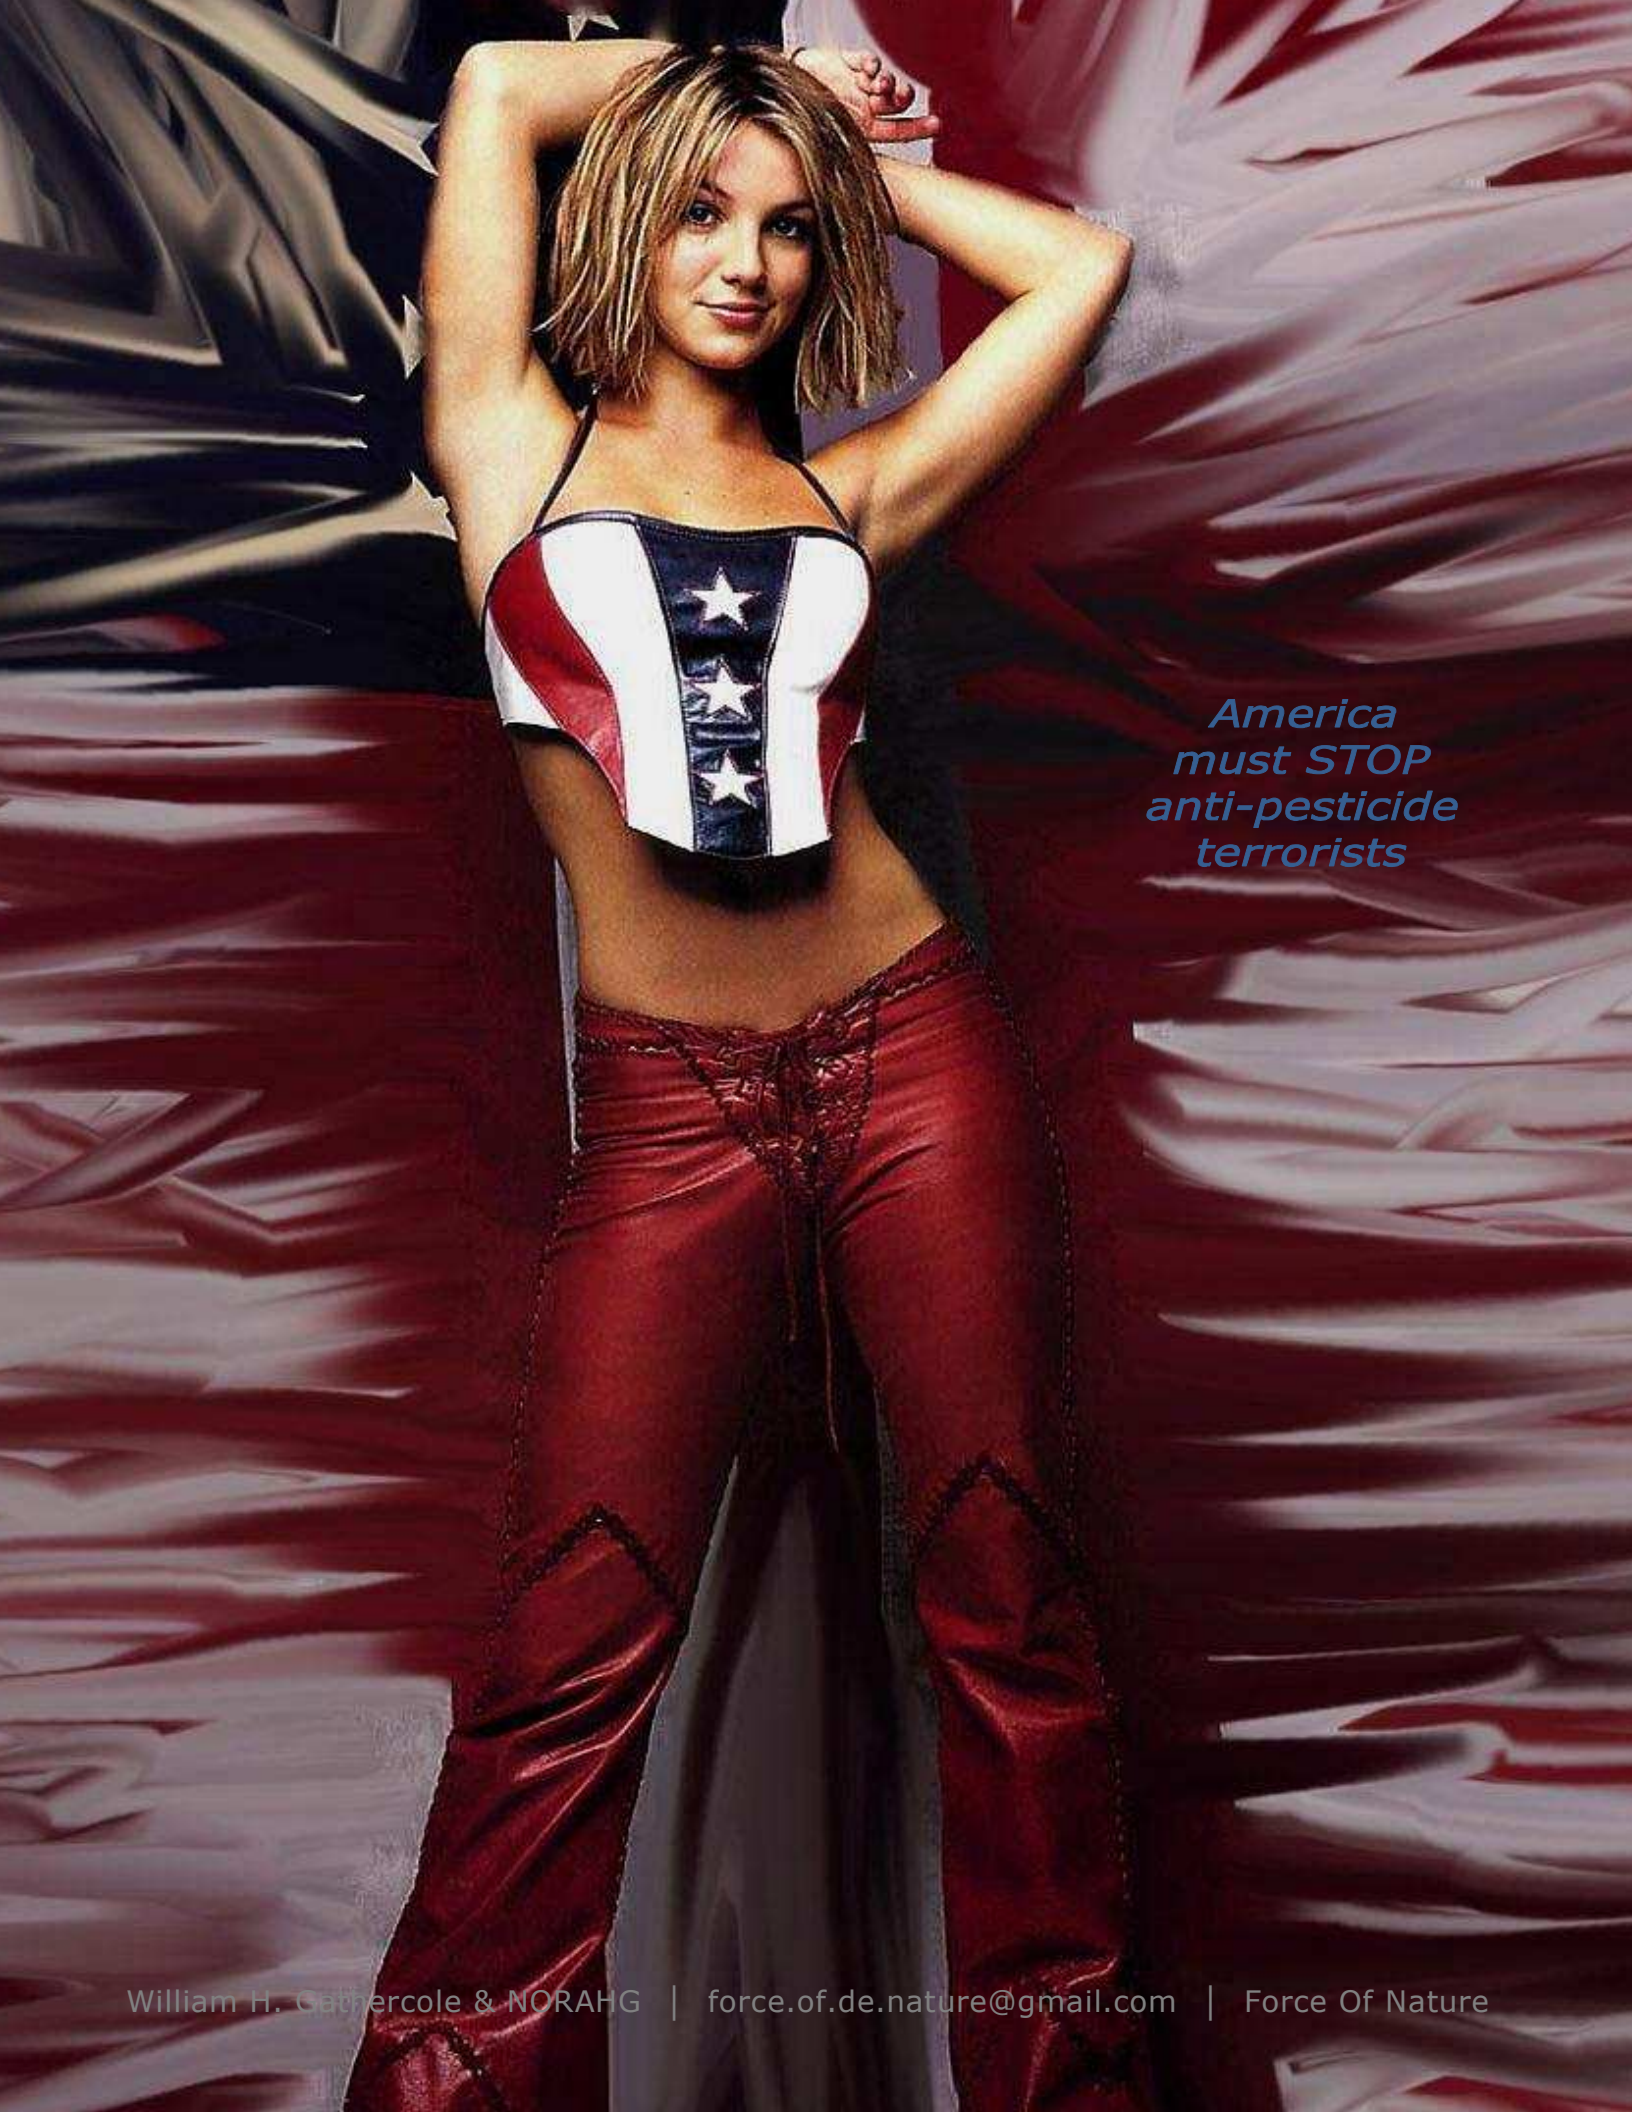

Anti-Pesticide Activists CAN ONLY GUESS since they have NO TRAINING AND NO BACKGROUND in matters concerning issues like pest control products.

Furthermore, Anti-Pesticide Activists have NO recognized expertise, training, or background in matters concerning pest control products.

Overall, the opinions of Anti-Pesticide Activists are TOTALLY VALUELESS AND UTTERLY WORTHLESS in matters concerning pest control products.

Anti-Pesticide Activists have compensated for their lack of expertise by frequently resorting to MYTHS, DECEPTIONS, FEAR-MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, TERROR, and PARANOID CONSPIRACIES about pest control products.

*America  
must STOP  
anti-pesticide  
terrorists*

# NORAHG

We are living in the 9|11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against these HUJE, as well as CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of their organizations. HUJE should Get OFF Our grASS, and they should Roast In Hell.

Anti Pesticide HUJE are advised that all names, statements, activities, and affiliations have been ARCHIVED for eventual CRIMINAL CHARGES.

NORAHG manages The Library of Force Of Nature Reports and References for all Anti Pesticide Terrorist Acts of Subversion.

The NORAHG of Library Force Of Nature Reports and References is a VAST ARCHIVE of DOCUMENTS, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Activities has been made AVAILABLE through NORAHG to anyone interested in LITIGATION.

These ARCHIVES contain names, statements, activities, and affiliations of ALL anti pesticide vermin, including government officials, as well as charitable prohibition terrorist organizations that DO NOT DESERVE ANY tax exempt status.

Interested parties need only to send NORAHG their REQUESTS for ANY INFORMATION needed in the War Against Lunatic Terrorist PROHIBITION.

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.
