Anti-Pesticide Lunatics Are Using Children as WEAPONS

Anti-Pesticide Lunatics are DESPICABLE in their use of CHILDREN as WEAPONS OF COERCION AND ULTIMATE TERROR in order to promote Anti-Pesticide PROHIBITION.

Anti-Pesticide PROHIBITION that is imposed under the PRETEXT of protecting children's health is WRONG !

Pest control products are SCIENTIFICALLY-SAFE, CAUSE NO HARM, and are NO THREAT TO CHILDREN.

Anti-Pesticide CHILD ABUSE

In public forums, young Anti-Pesticide Lunatic-Mothers are easily identifiable because they like publicly dressing in SPANDEX, and are often PAID-FOR-PROFIT to attend public forums with their YOUNG CHILDREN or BABIES who are FORCED TO CRY AND BAWL IN ORDER TO DISRUPT THE PROCEEDINGS.

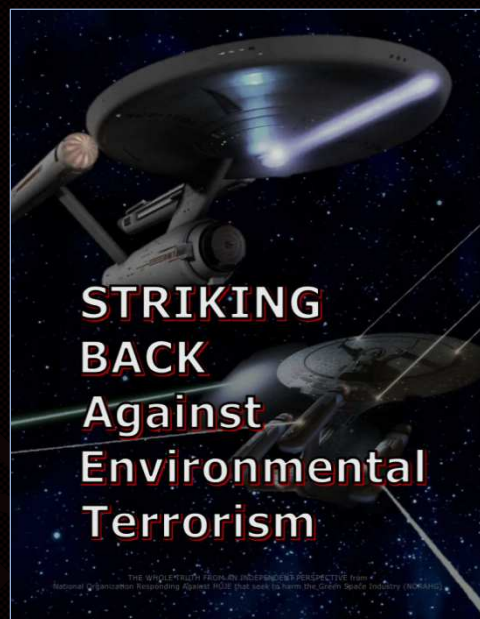

CRYING AND BAWLING is often not difficult since many of these CHILDREN or BABIES are often ABUSED BY STARVATION WITH INFERIOR ORGANIC FOOD.

Anti-Pesticide Lunatic-Parents ABUSE their children by making them FEARFUL and ANXIOUS children about modern technology.

Anti-Pesticide Lunatic-Parents ABUSE their children by leading them to believe that when a loved one or a family pet passes on, it is because of pest control products.

Further ABUSE is heaped upon their children by having them somehow diagnosed exotic and unlikely diseases and disorders, like ADHD.

The WORST ABUSE of Anti-Pesticide Lunatic-Parents is forcing their children to use pesticide-free playgrounds that are maintained like GARBAGE DUMPS, with WEED AND INSECT INFESTATIONS.

GREEN ALTERNATIVES Are A Danger To Children

The Green Alternative Pesticides and Practices used for controlling pests and fertilizing turf and ornamental plants are almost INEFFECTIVE and NON-EXISTENT.

Fortunately, CONVENTIONAL pest control products and fertilizers are SAFE, EFFECTIVE, and ECONOMICAL.

CONVENTIONAL pest control products and fertilizers DO NOT CONTAIN LIVING PATHOGENIC ORGANISMS, FERMENTED MATERIALS, OR METALS THAT MAY BE DEEMED UNSAFE FOR CHILDREN, ADULTS, AND THE ENVIRONMENT.

In many cases, so-called Organic Maintenance companies use Green Alternative Pesticides that are questionably HIGHER IN TOXICITY, and pose HIGHER ENVIRONMENTAL RISKS.

Many Organic Maintenance companies use Green Alternative Pesticides are NOT EVEN FEDERALLY-REGISTERED and TESTED FOR THE SAFETY OF HUMAN HEALTH AND THE ENVIRONMENT.

Many Organic Maintenance companies may use Green Alternative Pesticides that may be DEEMED UNSAFE FOR EXPOSURE TO CHILDREN.

Many Green Alternative Pesticides have NOT BEEN TESTED by Good Laboratory Practice (GLP) qualified laboratories, as is the case with CONVENTIONAL pest control products registered by the Federal Government.

Many Green Alternative Pesticides are NOT SCIENTIFICALLY SAFE !

Many Green Alternative Pesticides may be deemed NOT SAFE, especially for children !

In many cases, Organic Maintenance using Green Alternative Pesticides SHOULD NOT BE ALLOWED ANYWHERE NEAR CHILDREN !

In some cases, Organic Maintenance using Green Alternative Pesticides may be considered as UNSAFE as using Agent Orange, DDT, and other banned products.

Fortunately, CONVENTIONAL pest control products are SAFE, EFFECTIVE, ECONOMICAL, and LOW-RISK.

About Mosquito Squad

Mosquito Squad is America's leading company dedicated exclusively to controlling the annoying outdoor pests that transmit disease and ruin your backyard experience. We view our mission through the eyes of Dread Skeeter, mortal enemy of disease-infested blood suckers across America:

The Dread Skeeter Story By Dread Skeeter, himself

Hi. I'm Dread Skeeter. My life's mission is to kill mosquitoes and ticks. I don't kill because I hate. I kill because I love.

I love kids. I love pets. And I know that mosquitoes and ticks carry diseases that hurt kids and pets. (Adults, too, but I don't get all mushy over adults – well, maybe moms and grandmas, but that's where a manly man draws the line.)

Anyway, it's a crying shame, but most Americans don't know how dangerous mosquitoes and ticks can be. Fact is, every year scores of people are left with severe, permanent disabilities—all because of a simple bite.

And "new" diseases like West Nile and Lyme are springing up. Statistics will tell you that tens of thousands of Americans are getting sick. What statistics don't say is that a lot of those people never really feel well again. Ever.

That's why I've dedicated my life to educating and protecting people from mosquito- and tick-borne diseases.

The things you can do to help protect your family are simple and easy.

As a professional, I can help with some of them. As a professional, I understand how to do the job in the most effective way with the least possible impact on the environment.

I could blab on about how dedicated I am to good service (which I am). I could tell you about my 100% satisfaction guarantee. But, what I really want you to know is how important it is to do everything you can to protect your family. So, if you do nothing else, read about those prevention measures on the pages about mosquitoes and ticks.

I know a lot of people think I'm an alarmist. All they really care about is a yard free from annoying, biting pests. I'm cool with that. I'll still help you enjoy your yard. I'll just secretly feel good about protecting your family while I'm at it.

Sincerely,

Dread

Dread Skeeter

Environment and Human Health, Inc., a U.S. Environmental-Terrorist-Organization, is displaying MOCK-CONCERN over the increase in pesticide advertisements geared toward youths.

This NON-EXPERT ORGANIZATION MASQUERADES as some kind of research organization, on issues such as —

- Reducing carcinogenic exposures
- Reducing exposures at work
- Reducing exposures from well water
- Reducing exposures in home-use products
- Reducing exposures to arsenic
- Reducing exposures to diesel and automobile emissions
- Reducing exposures to formaldehyde
- Reducing exposures to pesticides
- Reducing exposures to radon
- Reducing exposures to sun
- Reducing exposures to tobacco smoke
- Reducing obesity
- Reducing harmful exposures in general.

According to Environment and Human Health, Inc. —

Advertising pesticide uses to children is now growing. This is really quite serious [?!?!] as pesticides are a controlled substance — as are CIGARETTES and alcohol. [WRONG !] Pesticides are toxic — which is why they are regulated — so advertising them with cartoon characters is serious. [?!?!] We do not allow it for cigarettes or alcohol.

STRIKING BACK

Cigarettes are NOT pesticides.

Cigarettes have nothing in common with them.

Using cigarettes is just another way to intimidate people into believing that a pesticide ban is somehow necessary.

Pesticides are regulated by federal regulatory agencies, and NOT cigarettes.

Pesticides are heavily regulated in order to prove that they are SAFE AND DO NOT CAUSE ANY HARM.

Such is not the case with cigarettes.

Moreover, Environment and Human Health, Inc. uses CHILDREN AS WEAPONS OF COERCION AND ULTIMATE ENVIRONMENTAL-TERROR IN ORDER TO INCREASE ITS PROFITS AND TAX-FREE DONATIONS.

IT DOES NOT DESERVE A CHARITABLE TAX-EXEMPT STATUS.

I tawt I taw a pedistide
creepin' up on me !
I did ! I taw a pedistide
as plain as could be !
Come on now, let's ban it !
Just like CIGARETTES.
And let's LIE and LIE
and LIE and LIE !

Environment and Human Health, Inc.'s HYPOCRITICAL AND SUBVERSIVE USE OF CHILDREN AS WEAPONS OF COERCION AND ULTIMATE ENVIRONMENTAL-TERROR IN ORDER TO INCREASE ITS PROFITS AND TAX-FREE DONATIONS (continued) —

Children are exposed to a variety of pesticides as a result of homeowners and condominium managers routinely using herbicides and insecticides.

80 million pounds of conventional active ingredients are used on lawns and gardens in the United States. Herbicides/plant growth regulators are the most common type of pesticide used by homeowners.

Wrong !

STRIKING BACK

When the Huffington Post highlighted strategies used by MOSQUITO SQUAD, however, the company DENIED CLAIMS THAT IT WAS TARGETING CHILDREN —

In the post-9|11 era, after sales had declined dramatically, advertisers were advised to create an emotional connection with their consumers.

Our consumers are moms and dads.

That was where our head was, NOT CHILDREN.

And yet, it has recently come to light that other companies, like PEST WORLD, have engaged in similar strategy with entire web-sites dedicated toward your little ones, such as PEST WORLD FOR KIDS.

PEST WORLD FOR KIDS includes lessons on house pests for grades K-4.

Kids can even creep around a virtual picnic called ARCHIBALD'S ADVENTURE, scavenging for food with ARCHIBALD, an ant with a British accent.

We should teach CHILDREN the following ...

Pest control products ENHANCE the Urban Landscape, and makes playing surfaces SAFE FOR CHILDREN.

It is Anti-Pesticide PROHIBITION that places children AT RISK !

Anti-Pesticide Activists are DESPICABLE in their use of CHILDREN as WEAPONS OF COERCION and ULTIMATE TERROR in order to promote Anti-Pesticide PROHIBITION.

In many jurisdictions, Anti-Pesticide PROHIBITION is IMPOSED under the PRETEXT of protecting children's health — this is WRONG !

Pest control products are SCIENTIFICALLY-SAFE, CAUSE NO HARM, and are NO THREAT TO CHILDREN.

In fact, with Anti-Pesticide PROHIBITION, children are actually AT HIGH RISK OF TRIPPING and becoming SERIOUSLY HURT.

Pest control products PREVENT slipping injuries on outdoor playing surfaces.

Anti-Pesticide PROHIBITION creates HAZARDOUS SLIPPING CONDITIONS on outdoor playing surfaces.

Anti-Pesticide PROHIBITION results in CATASTROPHIC CARNAGE caused by BAN FAILURES, BUSINESS FAILURES, GARBAGE DUMP GREEN SPACES, and STUNNINGLY EXORBITANT COSTS.

We must defend the industry,
whatever the cost may be

FORCE OF NATURE | THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from
National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG)

NORAHG

We are living in the 9/11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library of Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFERENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
