Professional Lawn Care Industry Under TERRORIST ATTACK

April 7th, 2011

WLBZ 2 News [State of Maine]

Selected and adapted excerpts

Some people in the Professional Lawn Care Industry are UNDER FIRE.

The Maine Legislature, which clearly INFESTED with Enviro-Lunatics, is hearing FIVE DIFFERENT BILLS THAT THREATEN THE USE OF PEST CONTROL PRODUCTS.

And many lawn care professionals are taking issue with the latest instalment in the « *Rubber Ducky* » Enviro-Lunatic SUBVERSIVE-VIDEO from the Government-Financed Environmental-Terrorist-Organization called « *Think Blue Maine* ».

IT IS GOVERNMENT-SPONSORED-ENVIRONMENTAL-TERRORISM.

Enviro-Terrorism in America

The 30-second « *Rubber Ducky* » SUBVERSIVE-VIDEO shows the signature rubber ducks used by Enviro-Lunatics.

Because of pest control products, CUTE LITTLE YELLOW DUCKS BECOME RED HORNED DEVIL DUCKS.

The Maine Department of Environmental Protection, which FINANCES the PAID-FOR-PROFIT-TERRORISTS, alleges that the SUBVERSIVE-VIDEO is aimed at « *educating* » people, reminding them that what you put on your lawn goes into our oceans, lakes, and rivers. [Wrong !]

The Professional Lawn Care Industry is being NEEDLESSLY, SENSELESSLY, and MALICIOUSLY DEMONIZED.

Deven Morrill of Lucas Tree Experts says « *pesticide* » is NOT A DIRTY WORD.

This is not the only attack Morrill is fighting — he and many others in his industry were before the Maine Legislature for hearings on FIVE DIFFERENT BILLS THAT THREATEN THE USE OF PEST CONTROL PRODUCTS.

Enviro-Terrorism in America

The biggest threat being LD 837.

It would do what three other states have already done — PROHIBIT PEST CONTROL PRODUCTS AT SCHOOLS AND DAY CARE CENTERS.

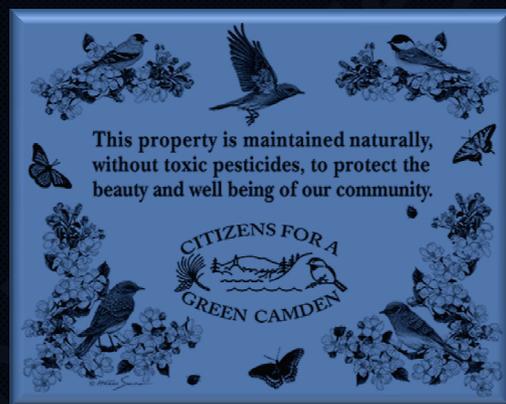

Many in the industry worry that if that ban at schools and day cares passes, MORE EXPANSIVE BANS WILL FOLLOW.

Enviro-Lunatic Marsha Smith, and her group Citizens For A Green Camden, CONSPIRED to PROHIBIT pest control products in Camden, Maine, and now, predictably, wants to see it go state-wide.

Citizens For A Green Camden is a small gardening club that operates as an Environmental-Terrorist-Organization.

Enviro-Lunatic Smith has CONCOCTED and MISINTERPRETED links childhood leukemia, brain tumours, and attention defi-cit hyperactivity disorder to exposure to pest control products.

[Wrong !]
