## GOVERNMENT OF SOUTH DAKOTA DOES NOT SUPPORT THEORY

February 2010

State of South Dakota, U.S.A.

Eighty-Fifth Session

Legislative Assembly, 2010

House Concurrent Resolution

No. 1009

A CONCURRENT RESOLUTION, CALLING FOR BALANCED TEACHING OF GLOBAL WARMING IN THE PUBLIC SCHOOLS OF South Dakota.

WHEREAS, the earth has been cooling for the last eight years despite small increases in anthropogenic carbon dioxide; and ...

WHEREAS, THERE IS NO EVIDENCE OF ATMOSPHERIC WARMING in the troposphere where the majority of warming would be taking place; and ...

WHEREAS, historical climatological data shows, without question, the earth has gone through trends where THE CLIMATE WAS MUCH WARMER THAN IN OUR PRESENT AGE.

The Climatic Optimum and Little Climatic Optimum are two examples.

During the Little Climatic Optimum, Erik the Red settled Greenland, where they farmed and raised dairy cattle.

Today, ninety per cent of Greenland is covered by MASSIVE ICE SHEETS, in many places more than two miles thick; and ...

# Global Warming Victory

WHEREAS, the polar ice cap is subject to SHIFTING WARM WATER CURRENTS and the BREAK-UP OF ICE BY HIGH WIND EVENTS.

Many oceanographers believe this to be the major cause of melting polar ice, NOT atmospheric warming; and ...

WHEREAS, carbon dioxide is NOT a pollutant but rather A HIGHLY BENEFICIAL INGREDIENT FOR ALL PLANT LIFE ON EARTH.

Many scientists refer to carbon dioxide as « *the gas of life* »; and ...

WHEREAS, more than 31,000 American scientists collectively signed a PETITION to President Obama stating —

*<< There is NO convincing scientific evidence that human release of carbon dioxide, or methane, or other greenhouse gasses is causing or will, in the foreseeable future, cause catastrophic heating of the earth's atmosphere and disruption of the earth's climate. Moreover, there is substantial scientific evidence that increases in atmospheric carbon dioxide will produce many beneficial effects on the natural plant and animal environments of the earth. >>*

NOW, THEREFORE, BE IT RESOLVED, by the House of Representatives of the Eighty-Fifth Legislature of the State of South Dakota, the Senate concurring therein, that the South Dakota Legislature urges that instruction in the PUBLIC SCHOOLS relating to global warming include the following —

( 1 ) That global warming is a scientific theory rather than a proven fact;

( 2 ) That there are a variety of climatological, meteorological, astrological, thermological, cosmological, and ecological dynamics that can effect world weather phenomena and that the significance and inter-relativity of these factors is largely speculative; and ...

( 3 ) That the debate on global warming has subsumed political and philosophical viewpoints which have COMPLICATED and PREJUDICED the scientific investigation of global warming phenomena; and ...

BE IT FURTHER RESOLVED, that the Legislature urges that all instruction on the THEORY OF GLOBAL WARMING be appropriate to the age and academic development of the student and to the prevailing classroom circumstances.

FRIENDS OF SCIENCE —  
PROVIDING INSIGHT INTO  
GLOBAL WARMING

---

<http://www.friendsofscience.org/>

Our goal is to educate the public about climate science, and through them, bring pressure to bear on governments to engage in public debates on the scientific merits of the hypothesis of human induced global warming, and the various policies that intend to address the issue.

While Friends of Science does not do any original scientific research, it draws on the worldwide body of work by scientists in all fields relating to global climate change.

It is our opinion that the Sun is the main direct and indirect driver of climate change.

Variations in solar activity and cosmic rays correlate to temperature much better than CO<sub>2</sub>. This may be because an electromagnetically active sun diverts cosmic rays from hitting the atmosphere. Cosmic rays have been shown experimentally to assist in cloud formation.

Fewer cosmic rays result in reduced low cloud cover, which allows more sunlight to warm the Earth's surface.

The United Nations–IPCC reports have been misrepresented by the non–scientific IPCC bureaucrats in preparing the Summary–for–Policy–Makers.

Recent research casts doubt on historical data used by the IPCC. Urban effects have contaminated surface temperature data. Some measured CO<sub>2</sub> levels of the past 180 years appear to be in excess of present levels. Current climate computer models are unsuitable for making reliable climate forecasts mainly because they assume without justification that CO<sub>2</sub> is the major driver of climate. The cosmic ray effects on clouds are ignored. The input assumptions are adjusted to make the temperature projections match recent temperature trends, thereby grossly exaggerating the effects of CO<sub>2</sub> on the climate. The models, in response to CO<sub>2</sub>, predict a distinctive temperature profile in the atmosphere, which is totally absent from the observational record.

Watts Up With That ? —

News and commentary on puzzling things in life, nature, science, weather, climate change, technology, and recent news by Anthony Watts.

About Anthony —

I'm a former television meteorologist who spent 25 years on the air, and who also operates a weather technology and content business, as well as continues daily forecasting on radio, just for fun.

Weather measurement and weather presentation technology is my specialty. CO<sub>2</sub> SCIENCE —  
CENTER FOR THE STUDY OF CARBON  
DIOXIDE AND GLOBAL CHANGE

---

<http://www.co2science.org/>

The Center for the Study of Carbon Dioxide and Global Change was created to disseminate factual reports and sound commentary on new developments in the world-wide scientific quest to determine the climatic and biological consequences of the ongoing rise in the air's CO<sub>2</sub> content.

It meets this objective through weekly online publication of its CO<sub>2</sub> Science magazine, which contains editorials on topics of current concern and mini-reviews of recently published peer-reviewed scientific journal articles, books, and other educational materials.

In this endeavour, the Center attempts to separate reality from rhetoric in the emotionally-charged debate that swirls around the subject of carbon dioxide and global change.

In addition, to help students and teachers gain greater insight into the biological aspects of this phenomenon, the Center main-

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against Huje that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed.

Huje is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some NON-EXISTENT danger with conventional pest control products. Huje also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. Don't thank us. It's a public service. And we are glad to do it.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his entourage. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority. Mr. Gathercole is now retired from Force Of Nature, although his name continues to appear as the FOUNDER. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status, that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully! For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of Environmental Terror for the entire Modern Green Space Industry across Canada. Mr. Gathercole's involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec. Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair.

Mr. Gathercole and his entourage have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. Through Force Of Nature, Enviro Maniac Activist Huje are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry. Their pretentious prohibitionist rants have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd Huje is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.
