Pesticide Residues on Food Are Safe

*Pesticide technologies have evolved
to the point where they POSE LITTLE RISK
to human health while protecting
the world's food supply*

The Agriculture Industry took to Capitol Hill to tout a new report that seeks to dispel « *myths* » about the dangers of pesticides.

The report, « *Pesticides and Health : Myths and Realities* », was written by Dr. Allan S. Felsot, an Environmental Toxicologist at Washington State University, and published by American Council on Science and Health (ACSH).

It argues that PESTICIDE TECHNOLOGIES HAVE EVOLVED TO THE POINT WHERE THEY POSE LITTLE RISK TO HUMAN HEALTH WHILE PROTECTING THE WORLD'S FOOD SUPPLY.

The report also seeks to strongly push back against public health advocates who sound the alarm about protecting the country's food from pesticides.

Pesticide Residues on Food Are Safe

According to Dr. Allan S. Felsot —

<< Despite the headlines of hazard, modern chemical technology provides hope for continued improvement of human health, whether helping to make vegetables and fruits of high quality more abundant and cheaper, or to preserve (or indeed, enhance) the health of individuals and society at large.

When you pick up food, you are eating thousands of chemicals at a time. >>

Bearded, bespectacled and with a long pony-tail, Dr. Felsot — who spent time briefing law-makers on Capitol Hill — might not look like the typical industry spokes-man.

But he took issue with several public health advocacy reports, most notably the Environmental Working Group's (EWG) shopper's guide to pesticides in produce, which ranks fruits and vegetables based on pesticide residues.

The report, he said, FAILED TO TAKE INTO ACCOUNT WHETHER THE PESTICIDE RESIDUES POSE A HEALTH RISK.

<< Foods have pesticides residues on them. Period. That's completely why what they did is WRONG. >>

Pesticide Residues on Food Are Safe

Dr. Allan S. Felsot is Professor and Extension Specialist, Department of Entomology, Washington State University.

Dr. Felsot received his Ph.D. Iowa State University Entomology (1978), M.S. University of Florida Entomology (1974), and B.S. Tulane University Biology (1972).

Dr. Felsot's research and extension interests include — analytical chemistry of pesticide residues in soil, best management practices for controlling agrochemical movement to surface and ground water, enhanced bio-degradation of pesticides, hazard assessments of transgenic crops, pesticide drift and buffer zone design, reduction of insecticide application rates using new sprayer technologies, regulations, risk communication, remediation of pesticide waste in soil, water, and food, and pesticide toxicology.

Dr. Felsot teaches a graduate course entitled « *Applied Environmental Toxicology* ».

He also team teaches the course « *Pesticides : Toxicology and Modes of Action* ».

Agriculture Industry Targeted by Anti-Pesticide Lunatics

Anti-Pesticide PROHIBITION is SPREADING.

The Agriculture Industry is now being targeted.

The Agriculture Industry is in a VULNERABLE position regarding pest control products.

Both the Agriculture Industry and the Modern Professional Lawn Care Industry use the SAME ingredients that are needed to control insect, disease, and weed pests.

In fact, Professional Lawn Care maintenance requires LESS PESTICIDE-INPUTS than Agriculture.

The Agriculture Industry enjoys the benefits from a Prohibition Exception Status despite the fact that it uses the VERY SAME INGREDIENTS employed in Professional Lawn Care maintenance.

The Agriculture Industry is now an easy target.

Anti-Pesticide Activists are already alleging that the so-called threat to health and environment posed by Professional Lawn Care is EQUAL OR HIGHER with AGRICULTURAL FOOD CROPS.

Of course, this alleged threat is a MYTH !

If it is safe to eat pesticide-treated food, it is also safe to walk on a pesticide-treated lawn.

Anti-Pesticide CONSPIRACIES are being organized AGAINST the Agriculture Industry, which includes Farms and Nurseries.

Agriculture Industry Targeted by Anti-Pesticide Lunatics

In particular, Canadian Cancer Society is planning to ANNIHILATE the Agriculture Industry, which includes the Nursery Production Industry.

Anti-Pesticide CONSPIRACIES are being organized by Cancer-Lunatics.

Consequently ...

- Farms and Nurseries will be BASELESSLY SMEARED
- Farms and Nurseries will be FALSELY ACCUSED
- Farms and Nurseries will be GROTESQUELY PUNISHED
- Farms and Nurseries will be INNOCENTLY CONVICTED
- Farms and Nurseries will be MERCILESSLY TERRORIZED
- Farms and Nurseries will be SHAMELESSLY PERSECUTED, and
- Farms and Nurseries will be WRONGFULLY DEPRIVED.

Here is a 2008 statement from Canadian Cancer Society —

« For years, the Canadian Cancer Society has argued in favour of bans on the cosmetic use of pesticides around homes and gardens.

But it has remained silent on the country's biggest use of bug and weed killers — ON FARMS.

Agriculture Industry Targeted by Anti-Pesticide Lunatics

Now, the society is considering weighing in on whether THESE SPRAYS POSE A CANCER RISK TO FARMERS, other rural residents near them, and to the wider public from eating foods carrying pesticide residues.

To that end, the society is holding a conference starting today [August 13th, 2008] at which it has assembled experts to advise it on whether cosmetic pesticide restrictions, which now exist in Ontario, Quebec and many municipalities, should be followed by TOUGHER ACTION AGAINST THE USE OF SPRAYS IN AGRICULTURE.

The society doesn't have a view on the related issue of whether organically grown foods are a better option, a topic that will also be discussed. »

The conference mentioned in the above excerpt was organized and held by Canadian Cancer Society on August 13th, 2008 in Toronto.

It was called EXPLORING THE CONNECTION — A STATE OF THE SCIENCE CONFERENCE ON PESTICIDES AND CANCER.

According to Canadian Cancer Society ...

« Experts from around the world will lead discussions on the CANCER RISKS OF PESTICIDES USED ON AGRICULTURAL CROPS, at a groundbreaking conference organized and hosted by the Canadian Cancer Society. »

Canadian Cancer Society is planning to ANNIHILATE the Agriculture Industry, which includes the Nursery Production Industry.

We are living in the 9|11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE.

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library Force Of Nature Reports and References, which is a VAST ARCHIVE of DOCUMENTS, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti-Pesticide Organizations.

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that there is sufficient information to lead to a SUCCESSFUL PROSECUTION !

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The Force Of Nature Series of Reports — Agriculture • ALBERTA Conspiracy • Bee Colony Collapse Disorder • Bee Colony Collapse Disorder • Benefits of the Turfgrass Industry • Beyond Pesticides • Books That Screwed Up the World • BRITISH COLUMBIA Conspiracy • Canadian Cancer Society • Canadian Association of Physicians for the Environment • CARNAGE and Consequences of Lunatic Terrorist Prohibition • Controversial Prohibitions • Culprits of the Prohibition Conspiracy • Daffodils, Toxic Pesticide Treated Flowers Soaked Formaldehyde • Dating Services for Enviro Maniacs • David Suzuki Foundation • DDT and Our World of Politicized Science • Death and Illness (Alleged) • Departure Letters • Ecojustice Canada • Energy Sector • Environmental Terrorists UNMASKED • Environmental Terrorist Organizations • Enviro PROFIT • Environmental Defence • FAILURE of IPM, Pesticide Manufacturers, Prohibition, Trade Associations • Famous Quotations About Enviro Lunatics • Fertilizer TERROR • Food and Farming • Get Off Our grASS • Global Warming, The Scam of Our Lifetime • Glyphosate Herbicide • Golf Industry • Green Alternatives • Green Party • Halloween Terror • Happy Holidays • Health Canada • Health Concerns with Pest Control Products • Heroes Speaking Out Against Environmental Terror • History of Environmental Terror in Canada • History of the Turfgrass Industry • Letters to the Editor • LIARS and Lying Sacks of (Enviro Maniac) Cwap • Mock Advertisements • Mock Speeches • Myth BUSTING • NATIONAL Prohibition • NEW BRUNSWICK Conspiracy • NO Prohibition Exception for AGRICULTURE Industry • NO Prohibition Exception for GOLF Industry • NOVA SCOTIA Conspiracy • North America Free Trade Agreement (NAFTA) • ONTARIO Conspiracy, Haven For Environmental Terrorists • Ontario College of Family Physicians • Organic Golf Courses • Organic Maintenance • Organizations of the Prohibition Conspiracy • Pesticide Q & A (Questions and Answers) • Positive Waves (Interesting and Innovative Thinking) • PRINCE EDWARD ISLAND (PEI) Conspira-

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.
