Beaumont News

Selected and adapted excerpts

The Town Council of Beaumont has PUT AN END TO THE DEBATE over a proposed PROHIBITION of pest control products in the Urban Landscape.

The proposed PROHIBITION was VOTED-OFF the council table

The Town of Beaumont is located near the City of Edmonton, in the Province of Alberta, with a population of almost 14,000.

The Town's Official Motto of is « *Life is better in Beaumont !* » — life is certainly BETTER now that Anti-Pesticide Activists have been STOPPED in that Town.

Attempts to SUBVERT the Town Council were made by Anti-Pesticide HIRED-GUNS from Canadian Cancer Society, a Prohibition-Terrorist-Organization.

On October 25th, 2011, Alberta Environment and Water, Landscape Alberta and many members of the public SPOKE OUT AGAINST PROHIBITION at a meeting of the Town Council.

A motion to NOT MOVE FORWARD with PROHIBITION at this time was carried unanimously.

Victory

NO Prohibition in Beaumont

RESPONSE BY
TOWN COUNCILLORS

According to Councillor Louise White-Gibbs —

<< We've heard so much discussion on this, and I think IT'S TIME TO PUT AN END TO THIS FOR NOW.

This must be a PROVINCIAL INITIATIVE, if not federal.

Doing it at the municipal level, there is absolutely no way that we can enforce it.

This council has always shown that we are environmentally-friendly — that's why we hired an environmental coordinator.

We are looking at different things but (a pesticide ban is) one thing we cannot control. >>

Victory

NO Prohibition in Beaumont

RESPONSE BY
ANTI-PESTICIDE HIRED-GUNS

Sarah Hawkins and Evie Eshpeter (Rodway) operate in the Province of Alberta as PAID ANTI-PESTICIDE HIRED-GUNS with Canadian-Cancer-Society.

NEITHER HIRED-GUN has ANY recognized expertise, training or background in matters concerning pest control products.

As Anti-Pesticide HIRED-GUNS paid to make presentations to Government Officials, Hawkins and Eshpeter would have been given a BOUNTY OF 5,000 DOLLARS by Canadian-Cancer-Society upon SUCCESSFUL PROHIBITION LEGISLATION within Beaumont.

These Cancer-Lunatic HIRED-GUNS will say ANYTHING in order to get their AWARDS and PAY-OFFS.

They are PROFITEERING LYING SACKS OF CWAP !

According to Anti-Pesticide HIRED-GUN Hawkins —

<< *There is already a growing body of evidence linking pesticides to cancer.* >> [WRONG !]

Victory

NO Prohibition in Beaumont

RESPONSE BY
LANDSCAPE ALBERTA

Landscape Alberta Nursery Trades Association (LANTA) is a trade association for businesses in the Ornamental Horticultural Industry across the Province of Alberta.

Members of Landscape Alberta Nursery Trades Association represent Arborists, Garden Centres, Landscape Contractors (construction, design, and maintenance), Nursery Sod Producers, Professional Lawn Care Companies, and Tree Nursery Producers.

Nigel Bowles is Executive Director of Landscape Alberta.

According to Bowles, it does not matter where pest control products are used or for what purpose — ALL pest control products must meet the safety standards, and products are re-evaluated by Health Canada every 15 years.

According to Bowles in his presentation to the Beaumont Town Council —

<< *There is NO JUSTIFIABLE REASON to ban or restrict the use of any pest control products in the Town of Beaumont.* >>

Victory

NO Prohibition in Beaumont

RESPONSE BY
GOVERNMENT OF ALBERTA

The Government of Alberta stated on August 9th, 2011, that it intends to continue to STRONGLY SUPPORT USING SCIENCE-BASED EVIDENCE, and WILL NOT CREATE RESTRICTIONS OR LAWS that conflict with Health Canada, the federal agency relied upon for health and safety assessments.

The Government of Alberta STRONGLY SUPPORTS USING SCIENCE-BASED EVIDENCE when assessing pest control products.

Moreover, the Government of Alberta WILL NOT CREATE RESTRICTIONS OR LAWS THAT CONFLICT WITH THE FEDERAL GOVERNMENT, that is relied upon for health and safety assessments.

According the Government of Alberta, restricting access to products that are designed and approved to be used safely CONFLICTS with its assessment of the public's need for access to all tools available for controlling a variety of pests.

Consequently, the Government of Alberta has indicated that is has NO INTENT TO PROHIBIT THE SALE OF ANY PEST in Alberta beyond the previous action prohibiting the sale of « *weed and feed* » combination herbicide/fertilizer products.

Victory

NO Prohibition in Beaumont

The government has monitored Anti-Pesticide PROHIBITIONS over the past few years and the approaches taken by other jurisdictions, and has found THE BASIS FOR ACTION CONFUSING AND INCONSISTENT.

It has also monitored the sale and use of pest control products in the Major Urban Landscapes in Alberta, and has concluded that there is a CONTINUED NEED AND SUPPORT for such products, whether it be for weed, insect, or disease control.

Restricting access to products that are designed and approved to be used safely CONFLICTS WITH ALBERTA'S ASSESSMENT of the public's need for access to all tools available for controlling a variety of pests.

ALBERTA ENVIRONMENT AND WATER is the agency of the Government of Alberta that is responsible for the provincial regulation of pest control products.

Josh McIntosh is Pesticide Policy Advisor for Alberta Environment and Water.

According to McIntosh in his presentation to the Beaumont Town Council —

<< All pesticides for use in Canada have to be approved by the pest management regulatory agency of Heath Canada. >>

McIntosh said Alberta Environment and Water's objective is to realize the benefits of pest control products while minimizing risks.

Letter to the Editor

from an Independent Perspective

SEPTEMBER 8th, 2011
LETTER TO THE EDITOR
RESPONSE TO EVIE ESHPETER (RODWAY)
BEAUMONT NEWS
BEAUMONT, ALBERTA

ARBITRARY DEMAND

Evie Eshpeter operates as a PAID ANTI-PESTICIDE LOBBYIST with Canadian-Cancer-Society.

Eshpeter ALLEGES that there are so-called DANGERS with the use of pest control products that she ARBITRARILY deems as « *non-essential* » and « *potentially lethal* ».

Incredibly, Eshpeter is ARBITRARILY DEMANDING PROHIBITION of pest control products that are, in fact, HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, SCIENTIFICALLY-SAFE, and PRACTICALLY-NON-TOXIC.

Eshpeter also ALLEGES that leading health authorities are asking municipalities throughout the Province of Alberta to adopt policies PROHIBITING the use of pest control products in the Urban Landscape.

Which authorities ?!?!

Which EXPERTS are DEMANDING PROHIBITION ?!?!

NO EXPERTS

Eshpeter is NO CREDIBLE expert on pest control products, and neither are any of her so-called health authorities.

The problem with Eshpeter reflects the overall larger problem with ALL Anti-Pesticide Activists.

Letter to the Editor

from an Independent Perspective

NO EXPERTS (CONTINUED)

There are NO Anti-Pesticide Activists who are scientists or researchers with credentials in the field of pest control products.

NONE !

They are NOT COMPETENT to talk about pest control products.

Moreover, Canadian-Cancer-Society is a FUND-RAISING organization and NOT a scientific or research organization.

THE TRUE LEADING AUTHORITIES

The leading scientific and regulatory agencies have publicly stated, in one form or another, that pest control products are SCIENTIFICALLY-SAFE —

- American Chemical Society
- American Council for Science and Health
- American Cancer Society
- CropLife Canada
- Health Canada
- The Fraser Institute
- U.S. Environmental Protection Agency
- World Health Organization

Letter to the Editor

from an Independent Perspective

THE FRASER INSTITUTE

The Fraser Institute is the HIGHLY-RATED independent non-profit research and educational organization (THINK-TANK) based in Canada that espouses free market principles.

According to a 2011 report from The Fraser Institute ...

- PROHIBITIONS on the use of pest control product are ILL-CONCEIVED and DO NOT accurately reflect the current state of scientific knowledge.
- Also according to The Fraser Institute, HASTY PROHIBITIONS of pest control products SHOULD NOT BE IMPLEMENTED until the underlying science is conclusive and until a comprehensive analysis of the potential side-effects resulting from the PROHIBITION has been undertaken.

ENVIRO-POLL

It is not surprising that Eshpeter reports that her organization's ENVIRO-POLL indicates that many residents support measures to PROHIBIT pest control products.

A poll BOUGHT and PAID FOR by Canadian-Cancer-Society CANNOT possibly be considered as legitimate since this organization has INCESSANTLY CONSPIRED to PROHIBIT pest control products.

A MORE LEGITIMATE POLL, conducted by Canadian Consumer Specialty Products Association in British Columbia, indicated that ...

- The VAST MAJORITY of residents FAVOUR THE CONTINUED USE OF PEST CONTROL PRODUCTS around their homes and in public green spaces

Letter to the Editor

from an Independent Perspective

- Residents are CONFIDENT they can SAFELY USE pest control products, and SUPPORT THE CONTINUED USE OF PEST CONTROL PRODUCTS in the Urban Landscape

THERE IS NO GROWING BODY OF EVIDENCE

Eshpeter further ALLEGES that there is a so-called GROWING BODY OF EVIDENCE supporting a link between pest control products and certain types of cancers.

Eshpeter is TOTALLY WRONG !

Pest control products cause NO HARM, including chronic effects such as CANCER.

Pest control products DO NOT CAUSE CANCER.

Only pest control products that DO NOT POSE AN UNACCEPTABLE RISK OF CANCER in humans are registered for use in Canada.

IRONICALLY ... both Daffodil Production for Canadian-Cancer-Society and the Professional Lawn Care Industry use the SAME ingredients that are needed to control insect and weed pests.

IRONICALLY ... both the Agriculture Industry and the Modern Professional Lawn Care Industry use the SAME ingredients that are needed to control insect and weed pests.

In fact, NO cause-and-effect relationship between pest control products and cancer has been established scientifically.

Consequently, Eshpeter invokes the so-called PRECAUTIONARY PRINCIPLE.

Letter to the Editor

from an Independent Perspective

PRECAUTIONARY PRINCIPLE IS DISCREDITED

Eshpeter's version of the Precautionary Principle has been DISCREDITED by TRUE EXPERTS like Dr. Keith Solomon.

Solomon is Professor at the Centre for Toxicology and Department of Environmental Biology, University of Guelph, and Director, Canadian Network of Toxicology Centres.

According to Solomon —

« Landscape and garden use of pest control products DOES NOT QUALIFY FOR CONSIDERATION under the precautionary principle.

They are not serious, they are selective to pests, have low toxicity to non-target organisms, and are well understood.

The effects of these pest control products are NOT IRREVERSIBLE.

There is rapid recovery through reinvasion and weed seeds and most need to be used at least once per year. »

PROHIBITION NOT JUSTIFIED

Non-Expert Anti-Pesticide Activists like Eshpeter are THE LEAST QUALIFIED TO PROVIDE ANY ADVICE concerning pest control products.

Any PROHIBITION of pest control products is NOT JUSTIFIED because STRICT REGULATIONS BASED ON SCIENTIFIC RESEARCH ALREADY PROTECT OUR HEALTH and OUR ENVIRONMENT.

William H. Gathercole and Norah G
National Organization Responding Against HUIE
that seek to harm the Green Space Industry (NORAHG)
NORAHG is an INDEPENDENT NON-PROFIT organization.

NORAHG

In the 9|11 Era of Environmental Terrorism, at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI-PESTICIDE TERRORISM where sound science is trumped by JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is National Organization Responding Against HUJE that seek to harm the Green Space Industry.

NORAHG represents the VAST SILENT MAJORITY of people in the Green Space Industry who are OPPOSED to PROHIBITION.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization dedicated to representing the work of RESPECTED and HIGHLY RATED EXPERTS who promote PESTICIDE REALISM and PESTICIDE TRUTHS.

HUJE are enviro lunatics, anti pesticide activists, and lawn haters, who particularly DESPISE the golf industry. They are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS. There is NO RECOURSE but LITIGATION against these HUJE, as well as CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX-EXEMPT STATUS of their organizations. HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library Computer Access and Retrieval System for all anti pesticide terrorist acts of subversion.

The NORAHG Library Computer Access and Retrieval System is a VAST ARCHIVE of DOCUMENTS, AUDIO CLIPS, and VIDEOS on ALL anti pesticide activities has been made AVAILABLE through NORAHG to anyone interested in litigation.

These ARCHIVES contain names, statements, activities, and affiliations of ALL anti pesticide vermin, including government officials, as well as charitable prohibition terrorist organizations that DO NOT DESERVE ANY tax exempt status.

Interested parties need only to send NORAHG their REQUESTS for ANY INFORMATION needed in the War Against Lunatic Terrorist PROHIBITION.

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is committed to sound science, and ground-breaking original journalism that informs, entertains, and creates real change.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, is a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole (now retired) and his colleagues.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver/Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT e-newsletters

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT e-newsletters.

The Whole Truth from an Independent Perspective

*Thank you,
Beaumont*
