Enviro-Terror SPREADS throughout the Golf Industry!

The Golf Industry Capitulation To Environmental-Terror

The JUNK greens were SPLOTCHY, MOTTLED, and BROWN, looking like LEOPARD SKIN

PEBBLE'S GREENS: AWESOME OR AWFUL?

Golfdom Media Release

Golf Course Superintendents are divided over how Pebble Beach Golf Links's GREENS appeared during the United States Open [Golf Championship].

The golf course putting greens that made headlines across the world last month were those from Pebble Beach Golf Links, site of last month's United States Open [Golf Championship].

Pebble's greens were in the golf news more than Tiger Woods, which might not be a good thing these days.

Many golfers and golf course superintendents wonder « what happened? » to the greens at Pebble Beach.

Enviro-Maniac JUNK Greens Unacceptable to Golf Course Superintendents and Golfers

They appeared « splotchy », « mottled », and even « brown » to television viewers of the United States Open [Golf Championship].

One superintendent [...] described the greens as looking like « leopard skin ».

Pat Gross, [Enviro-Maniac] Director of the Southwest Region for the United States Golf Association (USGA), wrote an article in a USGA newsletter to try and put out the fire.

[Enviro-Maniac] Gross admitted that the mostly *Poa annua* greens might have been « unacceptable to many superintendents and golfers ».

He also wrote « cosmetics and appearance were not high on the priority list ».

Tiger Woods publicly CONDEMNED the greens at Pebble Beach Golf Links

PERFECTLY IMPERFECT

Anyone looking for a dark-green, perfectly manicured golf course for this year's national championship came away disappointed.

The fairways and approaches held large brown areas in them, the Poa annua greens were STRIKINGLY DISCOLORED and ROLLED BUMPY in spots, and the course yielded an overall BROWN PATINA at Pebble Beach Golf Links for the United States Open [Golf Championship] earlier this month.

In short, anyone looking for a dark-green and perfectly-manicured golf course for this year's national championship became DISAPPOINTED.

Enviro-Maniac JUNK Greens discoloured, bumpy, and brown

But this year, [people] focused on criticizing the SPLOTCHY *Poa annua* greens at Pebble Beach, which GLIMMERED NEARLY EVERY SHADE OF GREEN AND KHAKI on the color wheel, possibly because they rarely ever see these conditions on nationally televised golf tournaments.

More likely, however, it was because Tiger Woods CONDEMNED them after playing his first round. And when Tiger speaks, the whole golf world listens.

According to Tiger Woods —

<< It was so bouncy out there. The greens are just awful. It is what it is. >>

United States Golf Association Executive Director [and Enviro-Maniac] David Fay told the press that Woods was wrong about his comments —

<< He's entitled to his opinion, but he's off on his facts. These putting surfaces have never been better. [?!?!] >>

At the press conference, prior to the beginning of the tournament, new USGA President [and Enviro-Maniac] Jim Hyler celebrated the Pebble Beach commitment to sustainable policies, ranging from its water reclamation project to its Audubon International certification status.

According to [Enviro-Maniac] Hyler -

<< They are an industry leader, and we support the efforts that Pebble Beach has made to incorporate environmentally sustainable practices on their property for many years. >>

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against Huje that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed.

Huje is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some NON-EXISTENT danger with conventional pest control products. Huje also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. Don't thank us. It's a public service. And we are glad to do it.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his entourage. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from McGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority. Mr. Gathercole is now retired from Force Of Nature, although his name continues to appear as the FOUNDER. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status, that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully! For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of Environmental Terror for the entire Modern Green Space Industry across Canada. Mr. Gathercole's involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec. Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair.

Mr. Gathercole and his entourage have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. Through Force Of Nature, Enviro Maniac Activist Huje are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry. Their pretentious prohibitionist rants have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd Huje is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.
