Collision Course !

with the Anti-Pesticide Anti-Golf Grim Reapers

On January 6th, 2011, the Government of Ontario issued its 2012 Public Meeting Requirements For Golf Facilities, with Questions and Answers.

Requirements from the Government of Ontario

What are the new requirements for golf courses in 2012 ?

Golf courses are EXCEPTED from Ontario's Cosmetic Pesticides Ban if they comply with the conditions in Ontario Regulation 63/09.

Starting in 2012, the owner, operator, or his/her representative, MUST HOLD A PUBLIC MEETING before December 1st in each calendar year to present the previous year's annual report.

For example, in 2012, the 2011 annual report would be presented.

Requirements from the Government of Ontario

What is the purpose of presenting the annual report ?

To give the public the opportunity to get the context and practical meaning to an otherwise TECHNICAL REPORT ON THE TYPES AND AMOUNTS of Class 9 pesticides that are being used and WHY THEY ARE NECESSARY.

Requirements from the Government of Ontario

Why are golf courses required to present the annual report at a public meeting ?

The intent of the public meeting is to VERBALLY PRESENT the information in the previous year's annual report.

Since the annual report will CONTAIN TECHNICAL DETAILS ON THE TYPES AND AMOUNTS OF CLASS 9 PESTICIDES USED ON THE GOLF COURSE, this provides an opportunity to give context and practical meaning to interested parties [a.k.a. Enviro-Lunatic Terrorists].

Requirements from the Government of Ontario

What should be considered in planning the public meeting ?

This requirement provides flexibility in hosting the meeting and potentially responding to public concerns, although THERE IS NO REGULATORY OBLIGATION TO ACCOMMODATE PUBLIC COMMENTS.

Requirements from the Government of Ontario

Can two sequential annual reports be presented at one meeting ?

No.

Ontario Regulation 63/09 requires that each year the previous year's annual report must be presented.

Requirements from the Government of Ontario

Can multiple golf courses hold one public meeting ?

Multiple golf courses may collectively present their annual reports at one meeting venue.

Golf courses should choose a meeting location which would be easily accessible to all affected property owners of each golf course (i.e. is not a long distance away from any of the golf courses).

The notice of the public meeting should include the required information for each golf course and provide the times each golf course is presenting its annual report.

Also, notice must be given to abutting or nearby property owners of each golf course by the owner or operator of the golf course.

An owner or operator or a representative of the owner or operator for each golf course must attend the presentation of the annual report at the meeting.

Requirements from the Government of Ontario

Who can act as the representative of the owner/operator of a golf course to present the annual report at the public meeting ?

Anyone can act as a REPRESENTATIVE of the golf course owner/operator.

It is up to the owner/operator to decide who will present the annual report.

For example, the representative can be the owner/operator, golf course integrated pest management agent, superintendent or other golf course staff, or a hired consultant.

If a consultant is presenting the annual report, the owner/operator should ensure that the representative is sufficiently knowledgeable to provide the information on his/her behalf.

The golf course owner/operator and other staff may wish to attend the public meeting to support the presenter and to answer questions.

Requirements from the Government of Ontario

When must notice of a public meeting be published in the newspaper ?

The notice must be published no more than 15 days before the date of the presentation of the annual report at a public meeting, in a newspaper with a general circulation in the area where golf course is located.

The size of the newspaper notice should be at least 10 cm (4-inches) in width or the nearest equivalent in column layout.

Requirements from the Government of Ontario

Who must be provided with written notice of the public meeting ?

A copy of the notice must be given to the occupants of each property that ...

- abuts the golf course, or
- is within 100 meters of the golf course.

The size of the notice provided to occupants should be at least 216 mm X 279 mm (8.5 X 11-inches).

Collision Course !

Requirements from the Government of Ontario

What information is required to be provided in the notice ?

The notice must include the following information —

- the name and address of the golf course
- the name and telephone number of the owner or a representative of the owner of the golf course
- the date, time, and place the annual report will be presented.

Requirements from the Government of Ontario

Can additional information be provided in the notice ?

Yes.

For example, golf courses may want to REQUEST CONFIRMATION of attendance/number attending to allow for planning room and seating arrangements.

Also, if multiple golf courses are holding a meeting at the same location, this should be included in the notice, as well as the scheduled times for each golf course's presentation.

The DEMISE of the Golf Industry Is IMMINENT

In the 9|11 Era of Anti-Golf Terrorism ...

The Golf Industry is on a COLLISION COURSE with the BLACK DEATH of Environmental Terror !

Golf facilities WILL become ABANDONED WASTE DUMPS !

The Environmental-Terrorists Will ANNIHILATE the Golf Industry !

We Are Now Living in the 9|11 Era of Environmental-Terrorism Against the Green Space Industry — which includes the IMMINENT DEMISE of the Golf Industry.

The PROHIBITION conspiracy against pest control products has now attained NATIONAL proportions, and the provinces are falling like dominoes.

The Professional Lawn Care Industry is systematically being ANNIHILATED by Environmental Terrorists across Canada.

In many Canadian jurisdictions, the Professional Lawn Care has already SUFFERED IMMENSE LOSSES because of Anti-Pesticide PROHIBITION.

In these same jurisdictions, the Golf Industry has been provided with an EXCEPTION STATUS, and its use of pest control products HAS NOT BEEN PROHIBITED.

Anti-Pesticide PROHIBITION INFLICTED HORRENDOUS CARNAGE on the Professional Lawn Care Industry.

Anti-Pesticide PROHIBITION led to LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT — and the Golf Industry can eventually expect the same CARNAGE.

The Golf Industry, because of the attitude of its trade association leaders — an attitude of denial, protectionism, and mock-dismay at any form of criticism — ignored the supreme historic opportunity to join forces with the Professional Lawn Care Industry, and LITIGATE against the forces of Anti-Pesticide Terrorist-Evil.

A failure to do so was LETHAL, and future generations will someday ask the question — WHY DID YOU NOT ACT ?

The Golf Industry is on a COLLISION COURSE

The SUBVERSIVE CONSPIRACIES of Anti-Pesticide PROHIBITION will NEVER END — and it has SPREAD to the Golf Industry.

The Golf Industry is on a COLLISION COURSE with the LOOMING SHIP-WRECK of Anti-Pesticide and even Anti-Fertilizer TERRORISM !

For the first time within collective history, it can honestly be said that there is NO LONGER A HOPEFUL FUTURE for anyone in the Green Space industry, young or old.

In the year 2020 ...

- The game of golf is NO LONGER a flourishing Billion-Dollar-Industry
- Canadian Cancer Society has ANNIHILATED the Golf Industry
- The Golf Industry is SEVERELY WEAKENED by aging and declining membership, falling revenues, over-saturated market, unstable economy, and volatile weather
- Golf facilities are ANNIHILATED by Enviro-Lunatic LAWSUITS with FALSE ALLEGATIONS of pollution
- Enviro-Lunatics SHUT-DOWN golf facilities to save tadpoles and snakes
- ORGANIC PESTICIDE-FREE golf course maintenance DOES NOT WORK
- Bethpage and Vineyard, once used as U.S. examples, are DISMAL FAILURES
- Pest control products are PROHIBITED NATIONALLY, despite being SAFE to use
- Anti-Pesticide PROHIBITION in countries like Denmark DESTROYS most of golf facilities
- Integrated Pest Management and Green Alternatives are DISMAL FAILURES

We are living in the 9|11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.
