Overview from an Independent Perspective

Cancer-Maniacs Sell-For-Profit Pesticide-Treated-Formaldehyde-Drenched-Toxic-Cancer-Daffodils

Since Daffodils are an IMMENSE source of PROFIT for Contemptible Canadian-Cancer-Society, of course Cancer-Maniacs have ABSOLUTELY NO SCRUPLES regarding the use of pest control products ... when it suits THEM !

Pesticide-Treated-Formaldehyde-Drenched-Toxic-Cancer-Daffodils are SOLD-FOR-PROFIT in local stores and transported throughout North America, with many going to the Canadian-Cancer-Society's annual spring awareness campaign.

Contract-Daffodil-Growers working for Cancer-Maniacs use conventional pest control products on a regular and continuous basis, and have done so for decades.

Every year, Van Treight Nursery on Vancouver Island PRODUCES-FOR-PROFIT a staggering 18 million Pesticide-Treated-Toxic-Cancer-Daffodils.

18 MILLION Pesticide-Treated-Formaldehyde-Drenched-Toxic-Cancer-Daffodils !

It is common knowledge that ALL the Daffodils grown at Van Treight Nursery for the Canadian-Cancer-Society require the use of pest control products like 2,4-D and Roundup.

This is an example of Canadian-Cancer-Society GREED and HYPOCRISY.

Since the flowers are a HUGE source of FOR-PROFIT-INCOME, of course Cancer-Maniacs have NO OBJECTION to the use of pest control products.

*IF IT IS SAFE TOUCH AND HOLD A PESTICIDE-TREATED-CANCER-DAFFODIL,
IT IS ALSO SAFE TO WALK ON A PESTICIDE-TREATED LAWN*

Cancer-Maniac Ironies

IRONICALLY ... Pesticide-Treated-Toxic-Cancer-Daffodils Sold-For-Profit by Cancer-Maniacs are not toxic.

IRONICALLY ... conventional pest control products used to produce Pesticide-Treated-Toxic-Cancer-Daffodils are SCIENTIFICALLY SAFE since they have been scrutinized and approved by the hundreds of expert scientists at Health Canada !

IRONICALLY ... Cancer-Maniacs consider the hundreds of qualified scientists of Health Canada's respected Pest Management Regulatory Agency to be incompetent and/or incapable of arriving at correct scientific conclusions regarding pest control products.

IRONICALLY ... Cancer-Maniacs constantly discredit the work of Health Canada, and yet, this federal agency has determined that the pest control products used for PRODUCING-FOR-PROFIT the Toxic-Cancer-Daffodils are SCIENTIFICALLY SAFE.

IRONICALLY ... Both Cancer-Daffodil-Production for Canadian-Cancer-Society and the Professional Lawn Care Industry use the SAME ingredients that are needed to control insect and weed pests.

IRONICALLY ... Professional Lawn Care maintenance requires LESS PESTICIDE-INPUTS than Daffodil Production.

Overview from an Independent Perspective

Cancer-Maniacs have set their sights on the Golf Industry !

In 2007, Contemptible-Canadian-Cancer-Society issued a statement that brought it very close to DEMANDING PROHIBITION of pest control products used in the Golf Industry -

<< *Position Statement of Canadian Cancer Society* -

The Canadian-Cancer-Society is very concerned about the use of potential carcinogens for the purposes of enhancing the appearance of lawns and gardens, as well as parks, recreational facilities, and GOLF COURSES.

We base this concern on the conclusions of the International Agency for Research on Cancer, which state that some substances used in pesticides are classified as known, probable, or possible carcinogens. >>

On April 20th, 2009, the British Columbia Suzuki Enviro-Terror Alliances of health and environmental organizations, that includes Canadian-Cancer-Society, David Suzuki Foundation, Canadian Association of Physicians for the Environment, and Toxic Free Canada, recommended provincial legislation that -

- <<
- 1. Bans the use and sale of pesticides used to improve the appearance of lawns and gardens, including a requirement for GOLF COURSES to PHASE OUT pesticides.*
 - 2. Allows exemptions only when necessary to protect public health and safety.*
 - 3. Allows municipalities to enact and enforce bylaws that are more restrictive of pesticide use than the provincial law.*
 - 4. Includes a 'white list' of low-risk pesticides that are permitted on lawns and gardens to promote public awareness. >>*

Since the Golf Industry is an IMMENSE source of PROFIT for Contemptible-Canadian-Cancer-Society, Cancer-Maniacs have ABSOLUTELY NO SCRUPLES regarding the use of pest control products in the Golf Industry ... since it suits THEM to say nothing and continue receiving MILLIONS of dollars in golf donations !

Cancer-Terror is supported by Golf Canada (R.C.G.A.)

On an annual basis, Golf Canada (formerly Royal Canadian Golf Association, R.C.G.A.) raises over 800,000 dollars for the Contemptible and Radical Canadian-Cancer-Society.

Moreover, Canadian-Cancer-Society is the Official charity of Golf Canada (R.C.G.A.) **Golf Fore the Cure.**

The LOATHSOME and RIDICULOUS Golf Canada is supplying MILLIONS OF DOLLARS to an Environmental-Terror-Organization that CONSPIRES to ANNIHILATE the entire Modern Green Space Industry with the NEEDLESS, SENSELESS, and MALICIOUS prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE pest control products ... and Cancer-Maniacs plan to TERRORIZE the Golf Industry NEXT !

Golf Canada must immediately STOP its financial support of Environmental-Terror, and consequently terminate ALL relationships with Environmental-Terror-Organizations like the Contemptible and Radical Canadian-Cancer-Society, World Wildlife Fund, and others

The ENTIRE Golf INDUSTRY must SUSPEND all charitable tournaments and programs that provide financial donations and support to Environmental-Terror-Organizations like the Contemptible and Radical Canadian-Cancer-Society, World Wildlife Fund, and others.

As long as Golf Canada, and the Golf Industry, continue to finance Environmental-Terror, Cancer-Maniacs will benefit from SAFE, SECURE, GUARANTEED, and WELL- PAYING ENVIRO-TERROR-JOBS that will allow them to COERCE, INTIMIDATE, and ALARM Government Officials into prohibiting pest control products on a NATIONAL basis. Cancer-Maniacs will TERRORIZE the Golf Industry NEXT !

Enviro Terror NEVER Ends !

The Continuing Conspiracy to Harm the Green Space Industry

Enviro–Maniac–Groups coerce
British Columbia government to ban
cosmetic pesticides over alleged health risks

June 4th, 2010 Selected and adapted excerpts
Tamara Baluja The Province British Columbia

Several British Columbia [Enviro–Terror] health organizations are pushing [i.e. coercing and terrorizing] the government to bring in province–wide legislation banning the sale and use of cosmetic pesticides.

Pesticides used to get rid of weeds in lawns and gardens are purely cosmetic, but pose a significant health risk, says [Enviro–Maniac] Barbara Kaminsky, CEO of the [Contemptible and Radical] Canadian–Cancer–Society for British Columbia and Yukon.

[Wrong !]

According to [Enviro–Maniac] Kaminski —

<< It is time that the government did the right thing and protected its residents from an unnecessary cancer risk. [?!?!] At some point, enough is enough. >>

She added that the Liberal government has been deliberating on the issue for over two years.

According to [Enviro–Maniac] Kaminski —

<< This ban has nothing do with pesticides used for agriculture or forestry — so why the delay ? >>

[NOT TRUE ! Cancer–Maniacs are Lying, Cheating, and Deceiving Basterds !
The Agriculture, Forestry, and Golf Industries are targeted NEXT !]

Enviro Terror NEVER Ends !

The Continuing Conspiracy to Harm the Green Space Industry

BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE —

The delay in prohibiting pest control products in British Columbia is easily explained. Government Officials know that Cancer-Maniacs eventually plan to demand prohibition for the Agriculture, Forestry, and Golf Industries.

To prepare for this situation, Contemptible and Radical Canadian-Cancer-Society hosted a meeting called « *Exploring the Connection — A State of the Science Conference on Pesticides and Cancer* » on November 12 and 13, 2008, in Toronto, Ontario.

Enviro-Maniacs, posing as experts, from the United States, Europe, and Canada, discussed the so-called cancer risks of pest control products used on AGRICULTURAL CROPS.

According to Cancer-Maniac Heather Logan —

<< This conference will be an important first step in setting the agenda for future research and action in this area. >>

CANCER-MANIACS ARE LYING, CHEATING, AND DECEIVING BASTERDS !

THEY CANNOT BE TRUSTED !

The Agriculture, Forestry, and Golf Industries are targeted NEXT !

In 2007, Contemptible-Canadian-Cancer-Society issued a Position Statement that defined its attitude towards the Golf Industry —

<< The Canadian-Cancer-Society is very concerned about the use of potential carcinogens for the purposes of enhancing the appearance of lawns and gardens, as well as parks, recreational facilities, and GOLF COURSES. >>

On April 20th, 2009, the British Columbia Suzuki Enviro-Terror Alliances of health and environmental organizations, that includes Canadian-Cancer-Society, David Suzuki Foundation, Canadian Association of Physicians for the Environment, and Toxic Free Canada, recommended provincial legislation that —

<< Bans the use and sale of pesticides used to improve the appearance of lawns and gardens, including a requirement for GOLF COURSES to PHASE OUT pesticides. >>

Enviro Terror NEVER Ends !

The Continuing Conspiracy to Harm the Green Space Industry

*EITHER YOU HAND PICK THOSE DANDELIONS
OR YOU JUST ACCEPT THE FACT THAT YOU HAVE
A FEW WEEDS IN YOUR LAWN*

According to [Enviro–Maniac] Kaminski —

*<< Either you hand pick those dandelions or you just accept the
fact that you have a few weeds in your lawn. >>*

COMMENTARY FROM AN INDEPENDENT PERSPECTIVE —

Hand-picking is the ONLY option, since there are NO viable, efficacious, or economical Green Alternatives to replace conventional pest control products.

Virtually all Green Alternatives are BOGUS, which is confirmed by Kaminski.

According to [Enviro–Maniac] Bruce Lanphear at the Department of Pediatrics of the University of British Columbia —

*<< The decision [to prohibit pest control products] makes great
sense, particularly for protecting children. [!?!] >>*

He said repeated exposure to pesticides can cause behavioural problems in children, such as ADHD. [Wrong !] Kaminsky also said several studies have linked cosmetic pesticides and cancer, such as non-Hodgkin's lymphoma, childhood leukemia and cancers of brain, lung and prostate. [Wrong !]

BACKGROUND INFORMATION FROM AN INDEPENDENT PERSPECTIVE —

It is truly amazing how Enviro–Maniac–Activists concoct their UNPROVEN and NON–EXISTENT danger with conventional pest control products and SCAM and DECEIVE the public by blurting out HOLLOW and DESPICABLY–ALARMIST expressions like « *protecting children* » and « *cancer* » and « *childhood leukemia* » and « *lymphoma* » ! [Wrong !]

N

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against Huje that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed.

O

Huje is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing that families are in some NON-EXISTENT danger with conventional pest control products. Huje also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE conventional pest control products.

All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. Don't thank us. It's a public service. And we are glad to do it.

R

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his entourage. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority. Mr. Gathercole is now retired from Force Of Nature, although his name continues to appear as the FOUNDER. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status, that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully ! For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of Environmental Terror for the entire Modern Green Space Industry across Canada. Mr. Gathercole's involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec. Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair.

A

Mr. Gathercole and his entourage have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. Through Force Of Nature, Enviro Maniac Activist Huje are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry. Their pretentious prohibitionist rants have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd Huje is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.
