Our tribute to Jack Layton

Saddened by Jack Layton's death, we reflect on the time he spent with us during the PhotoSensitive Cancer Connections Exhibit in Ottawa last year.

No woman, no fight

Determined to fight cancer on her father's behalf, Barb Reddick, Executive Director of Women in Insurance Cancer Crusade, reveals the secret weapon to getting the job done.

Same drug, new tricks: inexpensive medication could help prevent prostate cancer
Sometimes, medications used to treat one disease can also be used for other ailments. A leading Toronto-based urologist and Canadian Cancer Society-funded researcher, Dr Neil Fleshner, is studying whether this is the case with a common and inexpensive medication for diabetes, which may play a role in preventing prostate cancer.

Guys, have you seen your family physician lately? September is Men's Cancer Health Awareness Month, yet, men are notorious for making excuses not to see the doctor for an annual check-up. This year alone, 34,500 men across Ontario will be diagnosed with cancer. Learn what two local men are doing to share their wisdoms after their brush with two cancers other men won't often talk about.

Giving up was not an option
On average, 1,310 Canadian children and youths aged 0-19 years are diagnosed with cancer each year. As our youngest cancer fighters, they are also our bravest. This September, we honour their determination to fight cancer during Childhood Cancer Awareness Month.

Cinnamon Applesauce
Before you buy another six-pack serving of flavoured applesauce snacks for your kids this fall, consider making this easy and tasty treat from scratch using fresh locally-grown apples. You'll save some money and the environment too! Start cooking.
