([http://twitter.com/Donovan\\_Cavers](http://twitter.com/Donovan_Cavers))

Donovan Cavers is the chef and owner of Conscientious Catering, a catering company which uses exclusively local, organic, and/or fair trade ingredients. In 2010 Donovan received the Kamloops Chamber of Commerce Greenest Business Award.

Throughout his life, Donovan has been active in a broad range of regional, provincial, and national environmental and social justice issues. An early member of the Kamloops Chapter of the British Columbia Sustainable Energy Association, Donovan helped initiate a sub-committee responsible for youth education focused around the one tonne challenge.

A recent effort that Donovan is proud to be a part of is the Thompson Shuswap Chef-Farmer Collaborative whose mandate is to bring together chefs and local food producers in a celebration of regional, sustainable fare.

Donovan grew up on a farm in the outskirts of Chase, BC. When not in the kitchen, Donovan enjoys getting his hands dirty by planting, weeding, and picking fruit and vegetables in his backyard and at his family's farm.

Donovan prefers to "walk the walk" rather than "talk and talk" in both earning a living and in all other aspects of his life. His enthusiasm, vigour, and progressive outlook are his greatest assets. He hopes to further the impact of the Green Party of Canada because it is the only party that truly concerns itself with long term sustainability.

Donovan is the nominated Green Party of Canada candidate in the riding of Kamloops Thompson Cariboo.
