

**The Culprits of
the 9/11 Era of
Environmental Terror
in Ontario**

FON

force of nature

Overview from an Independent Perspective

KASPERSKI, Janet « Jan »

Kasperski is an Enviro-Maniac-Activist who SUPPORTS the PROHIBITION on the use of pest control products in the Urban Landscape.

Kasperski has operated as Leader / Member for the following Environmental-Terror-Organizations that CONSPIRED in the Province of Ontario to PROHIBIT pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE —

- Canadian Partnership for Children's Health and the Environment (CPCHE)
- Ontario College of Family Physicians (OCFP)

Kasperski is a mere Registered Nurse.

Neither Kasperski, nor any of her Enviro-Maniac co-conspirators in OCFP and CPCHE, have ANY recognized expertise, training or background in matters concerning pest control products.

Consequently, their opinions are TOTALLY VALUELESS and UTTERLY WORTHLESS in matters concerning pest control products.

They are NOT competent to give advice.

Kasperski has compensated for her lack of expertise by CONCOCTING MYTHS, DECEPTIONS, FEAR-MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, TERROR, and PARANOID CONSPIRACIES about pest control products.

For example ...

As an Enviro-Maniac-Activist-Hypochondriac, Kasperski has used the ILLNESS OF HER GRANDSON as THE WEAPON OF ULTIMATE TERROR against the use of pest control products.

Kasperski CONCOCTED the unconfirmed story of her grandson running on a lawn that had just been sprayed with an unspecified pest control product.

Allegedly, Kasperski's grandson became gravely ill with some undisclosed problem.

Kasperski has never provided ANY medical evidence supporting her allegation.

Kasperski appeared to be using her grandson's poor health to PRETENTIOUSLY INFLUENCE PUBLIC OPINION ABOUT LIFE-STYLE CHOICES.

Overview from an Independent Perspective

It can be concluded that Kasperski could not care less about the health of her grandson.

Kasperski used her sick grandson to validate UNPROVEN and NON-EXISTENT danger with conventional pest control products.

Kasperski used her sick grandson to SCAM and DECEIVE the public.

Kasperski knows NOTHING about pest control products, but knows lots about MINDLESS, SENSELESS, and FRAUDULENT FEAR-MONGERING !

On November 8th, 2002, Kasperski said —

Pesticides are known to be endocrine disrupters, neuro-toxicants, and carcinogens. [?!?!] Children are particularly vulnerable to the health impact of pesticides which have been associated with developmental delays and increased motor dysfunction in children. [?!?!]

On January 15th, 2008, Kasperski said —

We found links [?!?!] between pesticides and cancer, birth defects, and neurological illness. Children are at greatest risk. Banning lawn pesticides will be a major contribution to children's health.

On April 22nd, 2008, Kasperski said —

Ontario College of Family Physicians solidly supports a province-wide ban on the use of cosmetic pesticides. Our research [?!?!] demonstrates the many health effects associated with pesticides. On behalf of our most vulnerable patients, the children of this province, we are pleased to hear that government has moved so quickly to develop this important legislation.

In 2004, Kasperski, as Chief Executive Officer of OCFP, released a report called PESTICIDES LITERATURE REVIEW.

The radical Ontario College of Family Physicians (OCFP) produced this DISGRACEFULLY UNSCIENTIFIC, UNBELIEVABLY INACCURATE, and BOGUS report as part of its claim of a « *growing body of evidence* » against pest control products.

The BOGUS OCFP PESTICIDES LITERATURE REVIEW has absolutely NO CREDIBILITY in the legitimate scientific community.

The BOGUS OCFP PESTICIDES LITERATURE REVIEW has been INTERNATIONALLY DISCREDITED.

Presentation by Janet Kasperski

Ontario College of Family Physicians

Selected and adapted excerpts

Kasperski —

I am from the Ontario College of Family Physicians, and I want you to know that we're a chapter of the College of Family Physicians of Canada.

Where exposures to contaminants like pesticides are concerned, we work in our offices, in emergency departments and in hospitals, and we see first-hand the health problems that can occur when we don't protect people, especially our children, from exposures to environmental hazards. [?!?! UNSUBSTANTIATED ALLEGATIONS CONCERNING UNVERIFIABLE PROBLEMS REGARDING PEST CONTROL PRODUCTS.]

ONTARIO COLLEGE OF FAMILY PHYSICIANS
FOUND EVIDENCE OF HARM WITH PESTICIDES.
[?!?!]

In 1999, the Ontario college undertook a review of the literature, to develop a series of educational modules on the impact on the environment and health.

We're a cautious group, and we rarely speak out without a foundation of evidence to back up what we're saying.

The evidence that was available to us was in the literature.

We found evidence of harm from exposures to pesticides. [?!?!]

We were particularly worried about pregnant women and their fetuses being exposed to pesticides, as well as infants and children.

[?!?! USING CHILDREN AS WEAPONS OF ULTIMATE TERROR TO PRETENTIOUSLY INFLUENCE PUBLIC OPINION ABOUT LIFE-STYLE CHOICES.]

We crafted [I.E. CONCOCTED] our findings into a brochure that family doctors could distribute to their patients, to warn them to avoid pesticides unless it was absolutely necessary. [?!?!]

In 2002, Dr. Sheela Basrur, then the medical officer of health in Toronto, conducted a study looking at the effects of house and garden pesticides on human health.

[BASUR HAD NO RECOGNIZED EXPERTISE, TRAINING OR BACKGROUND IN MATTERS CONCERNING PEST CONTROL PRODUCTS. CONSEQUENTLY, HER OPINIONS WERE TOTALLY VALUELESS AND UTTERLY WORTHLESS IN MATTERS CONCERNING PEST CONTROL PRODUCTS.]

Dr. Basrur found similar effects and began the process of developing a by-law banning the use of pesticides for cosmetic purposes in Toronto.

*COSMETIC BY-LAWS NEED TO BE PASSED
AND THEY NEED TO BE STRONG*

*THE MANUFACTURER OF AGENT ORANGE
THREATENED LEGAL ACTION AGAINST
ONTARIO COLLEGE OF FAMILY PHYSICIANS*

As that bylaw moved forward, DuPont, the manufacturer of AGENT ORANGE, threatened to sue the family doctors of this province if we did not remove all references to the pesticide study from our web-site.

[IT IS TRULY AMAZING HOW ENVIRO-MANIAC-ACTIVISTS CONCOCT THEIR UNPROVEN AND NON-EXISTENT DANGER WITH CONVENTIONAL PEST CONTROL PRODUCTS, AND SCAM AND DECEIVE THE PUBLIC BY BLURTING OUT HOLLOW AND DESPICABLY-ALARMIST EXPRESSIONS LIKE « AGENT ORANGE » AND « PREGNANT WOMEN » AND « FETUSES » !]

We found that the newer studies provided even stronger evidence that pesticides are harmful to human health. [?!?!]

That's our report. It's a tome, it's big, it's very well done. [?!?!]

[THE OCFP REPORT HAS ABSOLUTELY NO CREDIBILITY IN THE LEGITIMATE SCIENTIFIC COMMUNITY. THE OCFP REPORT HAS BEEN INTERNATIONALLY DISCREDITED.]

Our findings show associations between solid cancer tumours and pesticide exposure – brain cancer, prostate cancer, kidney cancer and pancreatic cancer, among others. [?!?!]

[ONLY PEST CONTROL PRODUCTS WHICH DO NOT POSE AN UNACCEPTABLE RISK OF CANCER IN HUMANS ARE REGISTERED FOR USE IN CANADA. DETAILED RISK ASSESSMENTS AND VERY LARGE MARGINS OF SAFETY ARE BUILT INTO THE HUMAN HEALTH EVALUATIONS THAT HEALTH CANADA CARRIES OUT ON PROPOSED PEST CONTROL PRODUCTS SO THAT CANADIANS WILL BE PROTECTED FROM RISKS SUCH AS CANCER. OCFP-ENVIRO-MANIACS CONSIDER THE HUNDREDS OF QUALIFIED SCIENTISTS OF HEALTH CANADA'S RESPECTED PEST MANAGEMENT REGULATORY AGENCY TO BE INCOMPETENT AND/OR INCAPABLE OF ARRIVING AT CORRECT SCIENTIFIC CONCLUSIONS REGARDING PEST CONTROL PRODUCTS.]

*ONTARIO COLLEGE OF FAMILY PHYSICIANS
WANTS THE GOLF COURSE EXEMPTION STATUS
REMOVED*

We found non-Hodgkin's lymphoma; leukemia; nervous system effects like depression, suicide and learning difficulties; chronic disorders like Parkinson; and birth defects, fetal death and uterine growth retardation. [?!?!]

We are very concerned about pesticides and their effects on adults, but their effects on children really worry us – kidney cancer, brain cancer, haematological tumours such as non-Hodgkin's lymphoma and leukemia, and increased risk of leukemia if the child is exposed in utero. [?!?!]

In closing, the OCFP would request that the reference to municipalities be dropped so that our citizens and cities can pass more health-protective pesticide by-laws if they so choose.

We would like to see the GOLF COURSE EXEMPTION REMOVED AS WELL.

There are many examples across Canada of very successful golf courses that are pesticide free. [WRONG!]

And we would like to see the « other prescribed uses » exemption removed as well.

We are concerned, like our nursing colleagues, that this exemption will undermine everything that the legislation hopes to achieve.

Our closing message to you is the same as the one we give to our patients – pesticides should be avoided whenever and wherever possible.

Cosmetic by-laws need to be passed, and they need to be strong.

In the 9/11 Era of Environmental Terror !

*Let's concoct a growing
body of evidence ...*

*... and deceive everyone with
poorly conducted studies
and fraudulent information.
No one will notice !*

Pest control products
are **SCIENTIFICALLY SAFE**

Jan Kasperski ...

grass

Force Of Nature is NOT propaganda just The Whole Truth Independent Perspective

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed. Don't thank us. It's a public service. And we are glad to do it.

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some NON-EXISTENT danger with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force Of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully ! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
