

Support a pesticide ban in Alberta

Dear Premier Stelmach and Environment Minister Rob Renner,

Please act quickly to ban the use and sale of lawn and garden pesticides in Alberta. The cosmetic use of pesticides poses needless risks to public health and the environment.

Hundreds of pesticide products for sale in Alberta have been banned in Quebec because of health concerns. In Ontario, the new Cosmetic Pesticide Ban Act will come into effect next summer. Alberta needs to catch up!

I don't use chemical pesticides on my lawn or garden, and I believe that Albertans are ready to switch to non-toxic gardening techniques to protect our health and the environment.

I urge your government to show leadership by introducing a province-wide ban.

Sincerely,

(your name and address automatically added here)
