“The David Suzuki Foundation and First Nations have a lot of common principles when it comes to respecting the environment and living in harmony with the natural balance of nature,” said Vice Chief Kimberly Jonathan.

In moving forward with economic development in Saskatchewan, FSIN says everyone must be aware of the potential impacts that such development has on the environment.

David Suzuki Foundation board member Miles Richardson emphasized that “First Nations are the best hope for Canada to achieve true sustainability.”

Suzuki is using hapless Indian Nations to help him interfere in partisan politics. David Suzuki Foundation is just one of many environmental and anti-pesticide organizations dedicated to spreading doubt and confusion about sound science through the use of junk science.

<http://wp.me/P1jq40-4aU> <http://wp.me/P1jq40-21m> David Suzuki himself is the non-expert enviro-activist fund-raiser, anti-pesticide alliance-puppet-master, psychedelic-hippie, and entertainer who founded and operated David Suzuki Foundation. As a broadcaster for public television, Suzuki has perpetually been in an enormous conflict-of-interest between being a supposedly neutral television personality working for a government-owned public broadcasting corporation, and operating a partisan militant environmental-activist-organization. David Suzuki Foundation is supposed to be a benevolent non-partisan, nationwide, tax-exempt, registered-charity, non-profit, environmental organization. Among its many subversive activities, David Suzuki Foundation conspires to impose arbitrary prohibition against pest control products. Moreover, Suzuki seeks to impose a national prohibition against all pest control products. In the past decade, Suzuki's anti-pesticide conspiracies destroyed the professional lawn care industry in several jurisdictions across Canada. <http://wp.me/P1jq40-26P> David Suzuki Foundation has an agenda for fund-raising, profit-making, and lobbying, leaving a legacy of partisan political interference, frightened children, destroyed economies, lost jobs and hardship for people, and weakened communities. There is no recourse but official complaints and litigation against Suzuki.

<http://wp.me/p1jq40-33F> <http://wp.me/p1jq40-4nj> Suzuki does NOT deserve the support of Indian Nations. Suzuki does not deserve donations or support of any kind. Nor does Suzuki deserve a tax-exempt charity status. Suzuki DOES deserve to face the spotlight of scrutiny and the terror of the courts ! Suzuki himself must also step down as host of television programs produced by Canadian Broadcasting Corporation, including The Nature Of Things. The reader must complain, complain, complain about Suzuki through the appropriate complaint channels. <http://wp.me/P1jq40-1PE> Suzuki must be stopped !
