Take A LOOK AT Career Management, Golf Course Maintenance, Green Alternatives, Lawn Care Maintenance, Summer Stress, Tree & Shrub Maintenance, Turfgrass Pests, and Turfgrass Species

To take A LOOK AT these issues, you need facts !

Read ... PESTICIDE TRUTHS

Watch ... UNCLE ADOLPH

Listen To ... NORAHG

Learn From ... FORCE OF NATURE

NORAHG is National Organization Responding Against HUJE that seek to harm the Green space and other industries.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote PESTICIDE REALISM and PESTICIDE TRUTHS.

NORAHG produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Lawn Care Maintenance, Summer Stress, Tree & Shrub Maintenance, Turfgrass Pests, and Turfgrass Species.

A LOOK AT is destined for the green space industry, nation wide across Canada, the United States, and overseas.

A LOOK AT is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

All information, excerpts, and pictures contained in A LOOK AT were retrieved from the Internet, and may be considered in the public domain.

The information presented in A LOOK AT is for preliminary planning only.

Before making a final decision, the turf manager is expected to obtain trusted expert advice from extension specialists, local distributors and/or agronomists.

All decisions must take into account the prevailing growing conditions, the time of year, and the established management practices.

All products mentioned in A LOOK AT should be used in accordance with the manufacturer's directions, and according to provincial, state, or federal law.

For the official advantages, benefits, features, precautions, and restrictions concerning any product, the turf manager must rely only on the information furnished by the manufacturer.

The mention of trade names does not constitute a guarantee or a warranty.

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

A LOOK AT, FORCE OF NATURE, and their various incarnations, was the brainchild of William H Gathercole (now retired) and his colleagues.

Here is a brief summary of Mr Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — turf and ornamental maintenance and troubleshooting • history of the industry
• sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution • environmental issues and anti pesticide terrorism

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, tree & shrub care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of A LOOK AT and FORCE OF NATURE reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr Gathercole is now retired, although his name continues to appear as founder of A LOOK AT and FORCE OF NATURE reports.
