

Enviro-Terror-Organizations

Operating in the 9/11 Era of Environmental Terror

In the list below, every single organization is infested with Environmental-Maniac-Activists who have CONSPIRED TO PROHIBIT PEST CONTROL PRODUCTS.

These organizations are NOT to be trusted.

These Environmental-Terror-Organizations have been identified based upon Enviro-Maniac activities, affiliations, statements, and whereabouts within the Environmental-Terror-Movement as of September 11th, 2010.

Not a single Enviro-Maniac within these organizations has ANY recognized expertise, training or background in matters concerning pest control products or turf management. The opinions of every single one of the Enviro-Maniacs are TOTALLY VALUELESS and UTTERLY WORTHLESS in matters concerning pest control products.

Historically, Enviro-Maniacs have compensated for their lack of expertise by CONCOCTING MYTHS, DECEPTIONS, FEAR-MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, TERROR, and PARANOID CONSPIRACIES about pest control products.

Many of the following Environmental-Terror-Organizations are mere garden clubs with cutesy titles. Many are operated by unemployed or unemployable housewives. Many have disappeared into obscurity once prohibition was legislated in the local community, or once grant and tax-payer money was no longer available.
