Poll Concerning Resident Attitudes About Prohibition

Enviro–Terrorists did NOT like the 2011 poll results that basically and effectively CONTRADICTED their own BOGUS–ENVIRO–POLLS.

According to a poll conducted by Canadian Consumer Specialty Products Association (CCSPA) in British Columbia ...

- The VAST MAJORITY of residents are OPPOSED to the PROHIBITION of conventional pest control products

- The VAST MAJORITY of residents FAVOUR THE CONTINUED USE OF PEST CONTROL PRODUCTS around their homes and in public green spaces

- The VAST MAJORITY of residents said « *yes* » to conventional pest control products

- Residents are CONFIDENT they can SAFELY USE pest control products

Hamir–Li–Moore–Reeves–Seely

- Residents see the BENEFITS of pest control products
- There is a MIS–PERCEPTION that most residents want the PROHIBITION of pest control products in the Urban Landscape
- 84 PER CENT of residents WANT INSECT CONTROL on their lawns if products are applied by a Professional Lawn Care company
- 70 PER CENT of residents WANT WEED CONTROL on their lawns if products are applied by a Professional Lawn Care company
- Only an INFINITELY SMALL number of residents say « *no* » to the use of pest control products
- 25 PER CENT of residents WANT PEST CONTROL PRODUCTS NO MATTER WHAT
- Residents want to continue to have the option to use pest control products
- Residents SUPPORT THE CONTINUED USE OF PEST CONTROL PRODUCTS in the Urban Landscape

KNUCKLE–HEADED SCREECHING MONKEY CAMPAIGN

Response to the poll conducted by Canadian Consumer Specialty Products Association (CCSPA) in British Columbia ...

... Enviro–Terrorists in British Columbia have initiated a KNUCKLE–HEADED SCREECHING MONKEY CAMPAIGN.

This campaign PEDDLES IN PROHIBITION CARNAGE AND EVEN DEATH.

Because of the LEGITIMATE CCSPA–Poll, SCREECHING Enviro–Terrorists Hamir–Li–Moore–Reeves–Seely have embarked on a KNUCKLE–HEADED MONKEY CAMPAIGN with their comments in newspaper articles and blogs ...

The Hamir–Li–Moore–Reeves–Seely comments in newspapers and blogs are CONTINUOUS LIES THAT ARE REPEATED AGAIN AND AGAIN.

According to these five NON–EXPERT women, LUNATIC–TERRORIST–PROHIBITION is somehow necessary under the PRETEXT that there is some UNDEFINED LINK between pest control products and certain types of cancer.

Who Are the Screeching Monkeys ?

Enviro–Terrorists like Patti Moore and Kathryn Seely are GOVERNMENT and GOLF–INDUSTRY–FINANCED with TAX–FREE MONEY.

Moore and Seely operate through TAX–EXEMPT Canadian–Cancer–Society.

Some, like Arzeena Hamir, have a VESTED INTEREST in PROMOTING PROHIBITION in order to SELL–FOR–PROFIT their lines of BOGUS Green Alternative products.

Hamir operates through TAX–EXEMPT Richmond Food Security Society.

Michelle Li is an UNEMPLOYED SINGLE MOTHER who also operates at the Food Bank.

And others, like horse–peddler April Reeves, use DEATH as a means to COERCE and INTIMIDATE the public about the IMAGINARY DANGER of pest control products.

Fighting Against Screeching Monkeys

Hamir–Li–Moore–Reeves–Seely

If these five KNUCKLE–HEADED SCREECHING MONKEYS were to devote the same level of energy to the primary causes of cancer, that being life–style, rather than fund–raising, LESS PEOPLE WOULD DIE.

Instead, all of these Enviro–Terrorists prefer to PEDDLE IN CARNAGE AND DEATH.

In 2011, Lunatic–Terrorist–Prohibition CLAIMED ITS FIRST DEATH !

Perhaps if these five KNUCKLE–HEADED SCREECHING MONKEYS were to prioritize their energy to the primary causes of cancer, such as life–style, PEOPLE WOULD NOT BE DYING.

These five KNUCKLE–HEADED SCREECHING MONKEYS are PEDDLERS IN CARNAGE AND DEATH !

In fact, PROHIBITION IS UNNECESSARY since pest control products are carefully regulated by Health Canada to PREVENT ADVERSE EFFECTS on Canadians' health or their environment.

Comments About This Article

« Health Canada already addressed every single one of your concerns in a lengthy response that is posted at : http://www.oag-bvg.gc.ca/inter... .

There is NO TRUTH to your claims.

Michelle Li should get her facts straight as cancer rates are not increasing and have remained steady and in some areas have actually decreased.

No, there is not a cancer epidemic out there !

Yes, our population is getting older, and as we get older there is a greater risk of getting cancer, that is a reality.

But pesticides are not the cause.

It can be attributed to our diets, lack of exercise, smoking, drinking and just plain old genetics.

Many of these products have been around for over 50 years.

They have been tested and re-tested many times over.

Not just by Canada's PMRA, but by health authorities all over the world. So what is it, a global conspiracy ?

I think not.

Thanks to modern day chemistry we have a much better quality of life and are living longer.

This attack against synthetic pesticides is unfounded.

Keep in mind the green alternatives must go through the same regulatory process as their conventional counterparts.

So we are to trust the PMRA that the « green » alternative products are safe but not the conventional or synthetics ones ?

That makes no sense what so ever.

And one or two epidemiology studies is not what good science is based on, it is a combination of all relevant studies including toxicology.

And where is this « growing body of evidence » that the C.C.S. keeps referring too ?

Easy to make claims if you don't have to back them up.

Statement Using Death

April Reeves USES DEATH AS THE ULTIMATE WEAPON OF ENVIRONMENTAL TERROR !

Reeves is a wealthy horse flesh peddler, and DESPICABLY DEALS WITH DEATH TO DEFEND LUNATIC–TERRORIST–PROHIBITION.

> « *I have had first-hand experiences with pesticides and horses.*
>
> *A few years back, six horses died very quickly from cancer.*

In the 9/11 Era of Environmental–Terror, at least ONE MALICIOUS ACT OF TERROR is Perpetrated EVERY SINGLE DAY by Enviro–Lunatics.

Enviro–Lunatics, devoid of any sound science, have been WRONG For Over 50 Years !

FORCE OF NATURE presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG).

HUJE are LAWN HATERS, and particularly DESPISE the Golf Industry. Many HUJE operate Environmental Terrorist Organizations that CONSPIRE to PROHIBIT pest control products, despite the fact that these products are GOVERNMENT APPROVED, FEDERALLY LEGAL, and SCIENTIFICALLY SAFE.

It is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and NON–PROFIT. Don't thank us. It's a public service. And we are glad to do it. FORCE OF NATURE provides NO guarantee regarding accuracy or completeness. All information, excerpts, and pictures contained in FORCE OF NATURE were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

FORCE OF NATURE, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and environmental terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e–newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver/Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take–All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South–Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to the prohibition of pest control products • creator of the signs that are now used for posting after application • co–founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness who intervened in the development of prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT e–newsletters

Notable award — man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach–head against activism in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues … designed and implemented strategies that reined environmental activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against activists in the town of Hudson, Quebec • launched the largest early professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT e–newsletters.
