The Looming Golf Industry Shipwreck !

Once the terrorists are done annihilating the Professional Lawn Care Industry, the Golf Industry is NEXT !

Force of Nature

The Whole Truth from an Independent Perspective

The Looming Golf Industry Shipwreck !

Part 7

Force of Nature

<< The Golf Industry must terminate all relationships with environmental groups like Canadian Cancer Society, World Wildlife Fund, and others, and suspend all related charitable tournaments that provide financial donations and support to these groups. >>

William H. Gathercole & Norah G. | force.of.de.nature@gmail.com | Force of Nature

The Looming Golf Industry Shipwreck !

Part 7

<< Position Statement :

The Canadian Cancer Society is very concerned about the use of potential carcinogens for the purposes of enhancing the appearance of lawns and gardens, as well as parks, recreational facilities, and golf courses.

We base this concern on the conclusions of the International Agency for Research on Cancer, which state that some substances used in pesticides are classified as known, probable, or possible carcinogens. >>

CANADIAN CANCER SOCIETY
2007

<< According to the International Agency for Research on Cancer (IARC), pesticides contain substances that are known, probable or possible carcinogens. But while scientific evidence linking exposure to pesticides with increased cancer risk is inconclusive, it is suggestive and growing. The Canadian Cancer Society believes that in light of the potential for harm and the lack of health benefit, pesticide bans should be implemented for residential lawns and gardens, as well as recreational spaces, such as parks and golf courses. >>

CANADIAN CANCER SOCIETY
2008

Canadian Cancer Society

Canadian Cancer Society is a national community–based organization of volunteers whose mission is the eradication of cancer and the enhancement of the quality of life of people living with cancer.

Canadian Cancer Society is also a RADICAL MILITANT ENVIRONMENTAL ADVOCACY ORGANIZATION that seeks to influence the public, government officials, and media, in matters of politicized science and environmental public policy.

Canadian Cancer Society has conspired to seek the NEEDLESS, SENSELESS, and MALICIOUS prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE pest control products. Both in the Professional Lawn Care Industry and the Agriculture Industry.

Canadian Cancer Society
has also set its sights on
the Golf Industry !

Canadian Cancer Society is operated by some of the same people that manage CANADIAN ASSOCIATION OF PHYSICIANS FOR THE ENVIRONMENT (C.A.P.E.), another like–minded MILITANT ADVOCACY ORGANIZATION.

Force of Nature

The Looming Golf Industry Shipwreck !

Part 7

The leading ENVIRONMENTAL TERROR ORGANIZATIONS, the ones that are already conspiring to impose prohibitionist policies on the PROFESSIONAL LAWN CARE INDUSTRY in every Province across Canada, have publicly stated, in one form or another, that they DO NOT WANT ANY PROHIBITION EXCEPTIONS pertaining to pest control products for the GOLF INDUSTRY.

The TEN following organizations have publicly stated, in one form or another, that they DO NOT WANT ANY PROHIBITION EXCEPTIONS pertaining to pest control products for the GOLF INDUSTRY. As we speak, they are aggressively lobbying government legislators, demanding that any exception status be rescinded or avoided.

- *CANADIAN ASSOCIATION OF PHYSICIANS FOR THE ENVIRONMENT* (C.A.P.E.).
- *CANADIAN CANCER SOCIETY* (C.C.S.).
- *CANADIAN COALITION FOR HEALTH AND ENVIRONMENT* (C.C.H.E.).
- *CANADIAN ENVIRONMENTAL LAW ASSOCIATION* (C.E.L.A.).
- *DAVID SUZUKI FOUNDATION*.
- *GREEN PARTY OF ONTARIO*.
- *NEW DEMOCRATIC PARTY OF ONTARIO* (N.D.P.).
- *PESTICIDE FREE ONTARIO* (P.F.O.).
- *REGISTERED NURSES' ASSOCIATION OF ONTARIO* (R.N.A.O.).
- *SIERRA CLUB OF CANADA*.

Canadian Cancer Society is a greedy 135,000,000 dollar per year business

Canadian Cancer Society needs to attract MORE MONEY by CONCOCTING NON–EXISTENT ISSUES, such as the so–called danger of pest control products.

Furthermore, as a publicly–funded organization, influencing public policy to prohibit pest control products is clearly and ethically beyond the mandate of Canadian Cancer Society.

Everybody must stop making donations to Canadian Cancer Society !

NOT A SINGLE PERSON within Canadian Cancer Society has ANY recognized expertise, training, or background, in matters concerning PEST CONTROL PRODUCTS !

But, Canadian Cancer Society has VAST EXPERTISE in accumulating MILLIONS of dollars by alarming the public about the so–called danger of pest control products.

Perhaps the health of the public may be better served if all the resources of Canadian Cancer Society and other environmental organizations, currently focused on the prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE pest control products, were redirected towards improving the lifestyle choices of the population, such as diet and exercise.

Instead, Canadian Cancer Society has preferred to conspire with other organizations to prohibit the use of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE pest control products.

Force of Nature

The Looming Golf Industry Shipwreck !

Part 7

Regardless of its exception status, the GOLF INDUSTRY faces some huge challenges because of its high degree of VULNERABILITY concerning several public affairs issues. *FORCE OF NATURE* has extensively reviewed these issues, and has concluded that, in order to successfully deter the malicious efforts of all ENVIRONMENTAL TERROR GROUPS, the GOLF INDUSTRY must IMMEDIATELY address the following FIFTEEN critical issues.

1. The GOLF INDUSTRY must cease focusing on the ineffectual **I.P.M.** as the solution to its public affairs problems.

2. The GOLF INDUSTRY must clearly provide scientific facts that explain why its chemicals are definitely minimum–risk.

3. The GOLF INDUSTRY must denounce the green alternatives to pest control, the so–called biological–natural–organic methods, as almost ineffective and non–existent.

4. The GOLF INDUSTRY must develop a fully transparent and publicly accessible database for right–to–know information concerning its chemicals.

5. The GOLF INDUSTRY must directly and actively support litigation launched against the Ontario prohibition of pest control products, and cease being a mere casual observer.

6. The GOLF INDUSTRY must embark on a massive public relations campaign to stop the proposed scheme by environmental groups and National Democratic Party of Canada for a national prohibition of pest control products.

7. The GOLF INDUSTRY must explain why some of its chemicals are prohibited by other nations, but not in Canada, and cease the *WAG THE DOG* policies on irrelevant issues such as saving quintozene.

8. The GOLF INDUSTRY must review and justify its current and extensive array of chemicals.

9. The GOLF INDUSTRY must plan for the inevitable loss of its exception status in Ontario and Quebec in three to five years.

10. The GOLF INDUSTRY must provide the public with scientific information supporting the idea that its innovative management practices may reduce the use of pest control products.

11. The GOLF INDUSTRY must publish golf maintenance protocols and the performance standards expected by its playing customers.

12. The GOLF INDUSTRY must scientifically define and publically discredit the misleading term ORGANIC GOLF COURSE, and establish policies for expelling clubs using this term from its trade associations.

13. The GOLF INDUSTRY must strongly address and discredit the misconceptions concerning imidacloprid, chlorothalonil, 2,4–D, and other chemicals.

14. The GOLF INDUSTRY must terminate all relationships with environmental groups like Canadian Cancer Society, World Wildlife Fund, and others, and suspend all related charitable tournaments that provide financial donations and support to these groups.

15. The GOLF INDUSTRY must openly and financially support all political candidates that oppose any prohibition legislation.

The Looming Golf Industry Shipwreck !

Part 7

Force of Nature was launched for continuous transmission on the Internet on January 1st, 2009. It is a series of e–newsletters destined for the GREEN SPACE INDUSTRY, the ENVIRONMENTAL TERROR MOVEMENT, government officials, municipalities, and the media, nation–wide across Canada, and parts of the United States and overseas. FORCE OF NATURE is produced in two parts. First. The MEDIA REPORT itself that reports on the current events affecting the future of the GREEN SPACE INDUSTRY. Second. INDEPENDENT PERSPECTIVE, which is a running commentary, sometimes technical in nature. Force of Nature is the WHOLE TRUTH from an INDEPENDENT PERSPECTIVE !

FORCE OF NATURE is the brainchild of William H. Gathercole and his entourage. Norah G is actually an acronym for the stable of anonymous producers and writers that contribute to this e–newsletter and have now replaced Mr. Gathercole. They consist of people from the following industries : Distribution, Fertilizer, Golf, Lawn Care, Manufacturing, Municipal, Nursery, Orchard. Many of these people are leaders in their own industries. The opinions expressed in Force of Nature, even though from an INDEPENDENT PERSPECTIVE, may not reflect those of everyone in the GREEN SPACE INDUSTRY, or Mr. Gathercole's many associates. Be warned ! Mr. Gathercole and Norah G may sometimes be very irreverent and fearless with these e–newsletters. DON'T THANK US. IT'S A PUBLIC SERVICE. AND WE ARE GLAD TO DO IT.

William H. Gathercole holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the GREEN SPACE INDUSTRY, including public affairs, personal safety, and environmental issues. Mr. Gathercole has been a consultant and instructor for decades. He has also been an agricultural agronomist. Mr. Gathercole has followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter–century. His involvement in environmental issues reached a fevered pitch in the 1990s, when he orchestrated, with others, legal action against unethical and excessive municipal regulations restricting the use of pest control products. (i.e. the Town of Hudson.) Although he can be accused of being ANTI–ENVIRONMENT–MOVEMENT, he is, in fact, simply a strong advocate FOR the GREEN SPACE INDUSTRY, from an INDEPENDENT PERSPECTIVE. However, this position has not precluded him from criticizing the Green Space Industry itself. Nonetheless, his vast knowledge of our long journey with environmental issues is UNDENIABLE. (Hopefully !) For many years, Mr. Gathercole has been a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority. Mr. Gathercole is now retired from Force of Nature, although his name continues to appear as the founder.

All document excerpts and pictures contained in FORCE OF NATURE were found somewhere on the Internet. We believe that they are in the public domain, serving one of the following purposes : archive, education, promotion, publicity, or press release.

We believe that ENVIRONMENTAL TERRORISM can be BEATEN ! Information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader. The events, characters, companies, and organizations, depicted in this document are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. The mission of Force of Nature is as a National Organization Responding Against Huje that harm the Green Space Industry with statements and activities seeking to prohibit FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE conventional pest control products. Culprits are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each culprit is a mis–guided adversary, each still deserves our respect. The terms culprit or terrorist are not an accusation of any legal wrong–doing. Force of Nature is simply holding culprits accountable for conspiring to change public policies that TERRORIZE and THREATEN the Green Space Industry. Force of Nature believes that the prohibitionist policies of the ENVIRONMENTAL TERROR MOVEMENT will lead to UNEMPLOYMENT, BANKRUPTCY, BUSINESS FAILURE, DESPAIR, and DESTITUTION. The actions of culprits in the movement are viewed as a form of TERROR against the Green Space Industry.
