BOGUS Organic Golf Course

Blackburn Meadows Golf Club

Successful and lucrative
organic golf course ?!?!

This is a nine-hole course that was established in 1992 at the remote Salt Spring Island in British Columbia.

Some of the rough at Blackburn is so long that the players' ball can be lost.

It claims that it is ...

Canada's #1 Organic Golf Course.

It also claims that —

[It is] *the first fully ORGANIC GOLF COURSE in Canada.*

Constructed over a two year period from 1990-92, our greens and fairways are lovingly maintained using only NATURAL ORGANIC-METHODS.

Blackburn Meadows is part of the Blackburn and Cusheon Lake watersheds which provide drinking water to our island homes. By keeping our course PESTICIDE- and CHEMICAL FERTILIZER-FREE, we are able to nurture these watersheds and provide golfers with the

BOGUS Organic Golf Course

unique experience of a golf course that features a salmon spawning creek, and natural wetlands that are nesting habitats for numerous bird species and a large beaver colony in our lake.

And, while ORGANIC MAINTENANCE means that occasionally the turf may be A BIT ROUGHER LOOKING than you may be used to, our many golfers assure us that the quality of play is always high and our greens are perfect just the way they are !

Opportunity

The property consists of two legal titles totalling approximately 70 acres. The properties include the golf course and a vacant lakeside property. The combination of lots lends itself well to an owner-operator scenario, and also provides considerable flexibility in the future where a purchaser could keep the golf course and sell off or develop the vacant lakeside property.

The course is improved with a small heritage clubhouse serving snacks and drinks, a pro shop, a 200-plus yard driving range, a putting green, and a chipping area. Blackburn also offers golf cart rentals. There exists a tremendous opportunity to expand on these improvements and increase revenues, for instance, by replacing the small clubhouse with a larger, fully functional clubhouse complete with a liquor license and food services. While an existing land use contract will not allow additional development on the golf course lot, development on the adjacent vacant parcel might be possible.

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed. Don't thank us. It's a public service. And we are glad to do it.

O

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force Of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

A

Mr. Gathercole and his colleagues have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
