October 19th, 2011

Selected and adapted excerpts

Gideon Forman CONTINUES TO DEMAND **NO** Golf Industry Exception Status.

Forman is a Non-Expert Anti-Pesticide Fund-Raiser for Canadian Association of Physicians for the Environment (CAPE).

CAPE is a MONEY-GRABBING FUND-RAISING FOR-PROFIT Anti-Pesticide Organization.

CAPE is NOT a science or research organization.

It is LUDICROUS to believe that CAPE somehow represents the views of health care workers, such as PHYSICIANS.

The VAST MAJORITY of CAPE members ARE NOT EVEN PHYSICIANS.

In fact, CAPE represents an INFINITESIMALLY SMALL number of doctors.

CAPE merely represents LESS THAN 4 PER CENT of all doctors in Canada.

Moreover, CAPE was created for concealing the EXTREMIST VIEWS of supposedly moderate professionals, such as Enviro-Lunatic-Health-Care-Workers (i.e. Doctors and Nurses).

Such views are evident within CAPE since one of its co-founders later became the first leader of the EXTREMIST Green Party of Canada, which acts as the POLITICAL SHIELD organization for the Environmental-Terrorist-Movement.

Canadian Association of Physicians for the Environment (CAPE) is a VAST FUND-RAISING MILLIONAIRE MULTI-MILLION DOLLAR PROFIT-MAKING MACHINE.

CAPE is operated by a handful of Non-Expert Fund-Raisers, like Gideon Forman, who are PAID-FOR-PROFIT as SUBVERSIVE ILLEGAL LOBBYISTS.

CAPE has a HUGE VESTED INTEREST IN PERPETUATING IMAGINARY DANGERS about coal and pest control products.

Doing this attracts HUGE SUMS OF PROFIT.

The primary reason for the existence of CAPE has NOTHING TO DO with health and the environment.

The primary reason for the existence of CAPE is BUSINESS, CASH-FLOW, PROFIT, MEMBERSHIP, DONATIONS, and GOVERNMENT GRANTS.

The Telegram

Province of Newfoundland

<< *There are some inaccuracies [that] need to be cleared up
so we can have a rational and useful debate on pesticides.*

[Some people claim that] *there is no direct link between pes-
ticides and cancer.* [True !]

*Yet doctors writing in the scientific journal Paediatrics and
Child Health (April, 2006) had this to say about the common
pesticide 2,4-D — 2,4-D can be persuasively linked to can-
cers, neurological impairment and reproductive problems.*
[Wrong !]

Lunatic Anti-Pesticide

TERRORTalk

Non-Expert Gideon Forman DEMANDS NO Golf Industry Exception Status

June 7th, 2010

(continued)

As an organization representing over 4,700 doctors and concerned citizens, we urge everyone involved in the pesticide debate to stick to the facts and the science.

Based on this, we urge Newfoundland and Labrador to PROHIBIT ALL NON-ESSENTIAL PESTICIDE USE, including on public and private lawns, gardens, sports fields and GOLF COURSES. >>

NOTE — The April 2006 article was published in the Journal Paediatrics & Child Health which is the journal of the Canadian Paediatric Society. Canadian Paediatric Society REFUTED the April 2006 article. It was NOT written by Canadian Paediatric Society, and does not reflect the opinion of Canadian Paediatric Society. Canadian Paediatric Society does not have ANY position statements on the use of pest control products. Canadian Paediatric Society has stated that it SHOULD NOT BE CITED with this article. Canadian Paediatric Society has communicated this position to Anti-Pesticide Activists. Moreover, NONE of the authors have ABSOLUTELY NO competent expertise, recognized training, or background, in matters concerning pest control products. Their opinions were TOTALLY VALUELESS and UTTERLY WORTHLESS in matters concerning pest control products. Moreover, the authors have NO affiliation with Canadian Paediatric Society. Furthermore, the April 2006 article was an ASSESSMENT (i.e. a judgement based upon Anti-Pesticide motivation). It was NOT the result of ANY scientific research. Not surprisingly, the two primary authors of the April 2006 article were/are PERSONALLY ALIENATED with Anti-Pesticide Organizations. What Anti-Pesticide Activists do not say is ... the April 2006 article was far from being independent and unbiased. It was the result of Anti-Pesticide JUNK SCIENCE. Finally, the April 2006 article focused ONLY on the herbicide 2,4-D. It DID NOT focus on ALL pest control products used by the Professional Lawn Care Industry in the Urban Landscape.

Media Release

Canadian Association of Physicians
for the Environment (CAPE)

Province of Ontario

<< As the government prepares to release regulations under its new pesticide act, a poll has discovered most Ontarians want to END THE USE OF PESTICIDES ON GOLF COURSES.

The poll — the first to survey citizens on this issue since the government passed legislation in June — found 68 per cent of respondents SUPPORT A GOLF PESTICIDE PHASE-OUT while just 26 per cent believe the spraying should be allowed.

Among women, support for a PHASE-OUT rises to 76 per cent.

Among young people (18 - 34) support is at 80 per cent.

Presentation to Standing
Committee on Social Policy

Province of Ontario

<< *The second point is that the EXEMPTION FOR GOLF COURSES SHOULD BE WITHDRAWN.*

Run-off from GOLF pesticides ultimately ends up in our water, threatening drinking water supplies, to be sure, but also aquatic wildlife and fish. [Wrong !]

More worrisome still, scientific studies — and the [DISGRACED and DEBUNKED] College of Family Physicians has been excellent at these — on GOLF COURSE SUPERINTENDENTS, who, as we know, spend a lot of time around pesticides, show that these workers have ELEVATED LEVELS OF MORTALITY FROM CANCER. [Wrong !]

Lunatic Anti-Pesticide

TERRORTalk

Non-Expert Gideon Forman DEMANDS NO Golf Industry Exception Status

June 9th, 2008

(continued)

While we recognize that GOLF COURSES face some special challenges in eliminating pesticides, A PERMANENT LEGISLATED EXEMPTION, which is what the government's proposing, we believe is NOT WARRANTED, and frankly is inconsistent with the intention of the bill.

After all, GOLF pesticides, strictly speaking, are a « cosmetic use » as defined in the legislation — i.e., non-essential.

There are at least two PESTICIDE-FREE GOLF COURSES in Canada, as you know —

There's one in Nova Scotia, Fiddler's Green; and there's another in British Columbia, Blackburn. [?!?!]

NOTE — Blackburn Meadows Golf Club is a nine-hole course that was established in 1992 at the remote Salt Spring Island in British Columbia. It fell into BANKRUPTCY, and went into RECEIVERSHIP.

TERRORTalk

Non-Expert Gideon Forman DEMANDS NO Golf Industry Exception Status

June 9th, 2008

(continued)

We see no reason why Ontario operators could not follow in the foot-steps of these industry leaders. [Wrong !]

We also believe, frankly, that there's an economic argument to be made here, that going pesticide-free could increase GOLF CLUB revenues and profit, leading to some economic stimulation and some job growth. [Wrong !]

Would today's health-conscious GOLFER be willing to pay just a little more to play on a safer, more environmentally friendly surface ?

We think the answer is yes.

In sum, the Canadian Association of Physicians for the Environment is very supportive of the proposed ban.

We only ask that you drop the clause referring to municipal powers, and that you REMOVE THE EXEMPTION FOR GOLF COURSES and the so-called « other prescribed uses ».

TERRORTalk

Non-Expert Gideon Forman DEMANDS NO Golf Industry Exception Status

June 9th, 2008

(continued)

*There's been a fair bit of research done in this area.
[Wrong !]*

One of the studies that I'm looking at, from the [DIS-GRACED and DEBUNKED] Ontario College of Family Physicians' Pesticide Literature Review — they did what's called a cohort study.

They looked at 680 deceased male members of what they call the GOLF COURSE SUPERINTENDENTS ASSOCIATION OF AMERICA.

They compared them to cancer mortality in the general US male population and they found that on a whole range of cancers, this cohort of GOLF SUPERINTENDENTS had higher mortality from cancers. [Wrong !]

I'm talking about lung cancer, brain cancer, non-Hodgkin's lymphoma and prostate cancer. [Wrong !]

So there is a fair bit of evidence that these people [Golf Superintendents] who spend a lot of their time around pesticides are at increased risk for mortality from cancer. >> [Wrong !]

The Golf Industry is on a COLLISION COURSE with the BLACK DEATH of Environmental Terrorism !

We are now living in the 9|11 Era of Anti-Pesticide TERRORISM ...

The SUBVERSIVE CONSPIRACIES of Anti-Pesticide PROHIBITION will NEVER END — and it WILL SPREAD to the Golf Industry.

The Golf Industry is on a Collision Course with the LOOMING SHIPWRECK of Anti-Pesticide and even Anti-Fertilizer TERRORISM !

The Anti-Pesticide PROHIBITION CONSPIRACY against pest control products has now attained NATIONAL proportions.

The provinces are TOPPLING LIKE DOMINOES.

The Professional Lawn Care Industry is being systematically ANNIHILATED across Canada.

Anti-Pesticide Activists have VIRTUALLY LIMITLESS GOVERNMENT AND PRIVATE FUNDS to wreak their havoc, and they understand full well that THERE IS NO UNITY within the Green Space Industry.

The Golf Industry is on a COLLISION COURSE with the BLACK DEATH of Environmental Terrorism !

First municipal, then provincial, and finally national in scope, their FIRST DESTRUCTIVE ROUND OF ANTI-PESTICIDE ATTACKS will be complete within one or two years.

And then ... soon after the Anti-Pesticide Activists has tasted victory by OBLITERATING the Professional Lawn Care Industry, the HATED GOLF INDUSTRY will be targeted in the NEXT DESTRUCTIVE ROUNDS OF ANTI-PESTICIDE ATTACKS.

This time, the Golf Industry will be TOTALLY ALONE, and devoid of any allies to help defend itself.

The Golf Industry, because of its attitude of denial and protectionism and mock-dismay at any form of criticism, is ignoring the supreme historic opportunity to join forces with the Professional Lawn Care Industry, and LITIGATE against the Anti-Pesticide Activists.

A failure to do so will be lethal and final, and future generations will ask the question — *WHY DID YOU NOT ACT ?*

For the first time in all of our collective history, it can honestly be said that there is NO LONGER A HOPEFUL FUTURE for anyone employed in the Green Space Industry (or the Golf Industry), young or old.

In many jurisdictions, the Professional Lawn Care has been INFLICTED with Anti-Pesticide PROHIBITION.

In these same jurisdictions, the Golf Industry has been provided with an Anti-Pesticide PROHIBITION EXCEPTION STATUS, and its use of pest control products HAS NOT PROHIBITED.

The Golf Industry has 6 MILLION GOLFERS ACROSS CANADA, including 2.3 MILLION GOLFERS IN ONTARIO.

The Golf Industry is on a COLLISION COURSE with the BLACK DEATH of Environmental Terrorism !

Interestingly, golfers are EXPOSED to the VERY SAME PROHIBITED INGREDIENTS used in Professional Lawn Care maintenance.

Interestingly, the Golf Industry enjoys the benefits from an Anti-Pesticide PROHIBITION EXCEPTION STATUS despite the fact that it uses the VERY SAME INGREDIENTS used in Professional Lawn Care maintenance.

If it is safe to walk and play on a pesticide-treated golf course putting green, it is also safe to walk on a pesticide-treated lawn.

Moreover, Professional Lawn Care maintenance requires LESS PESTICIDE-INPUTS than Golf Course turf.

**6 MILLION GOLFERS Across Canada
are EXPOSED to the VERY SAME INGREDIENTS
PROHIBITED in Professional Lawn Care maintenance**

The Golf Industry is on a COLLISION COURSE with the BLACK DEATH of Environmental Terrorism !

The Golf Industry Anti-Pesticide PROHIBITION EXCEPTION STATUS will be first rescinded in the Provinces of Prince Edward Island and British Columbia.

Even in the Province of Prince Edward Island (PEI), the Golf Industry was provided with an Anti-Pesticide PROHIBITION EXCEPTION STATUS, and its use of pest control products WAS NOT PROHIBITED.

The Golf Industry must plan for the INEVITABLE and TOTAL REVOCATION of its EXCEPTION STATUS in most jurisdictions across Canada, in two to four years.

In fact, the BEGINNING OF THE END of the Golf Industry EXCEPTION STATUS on December 2nd, 2009, when a Prince Edward Island (PEI) Government Official the issued the following WARNING —

<< We're allowing (2,4-D) on GOLF COURSES because it's a major industry for PEI and we're working towards getting off it.

What we're basically saying is you [THE GOLF INDUSTRY] better find a way to get off it over the next couple of years. >>

The SUBVERSIVE CONSPIRACIES of Anti-Pesticide PROHIBITION will NEVER END — and it WILL SPREAD to the Golf Industry.

The Golf Industry is on a COLLISION COURSE with the BLACK DEATH of Environmental Terrorism !

In the year 2020 ... (continued)

- Over seventy per cent of golfers ABANDON the sport
- All golf facilities are considered as WORTHLESS investments
- No one can buy or sell a golf facility, and owners are FRANTIC
- Golf facilities can NO LONGER AFFORD to pay the property taxes
- In North America, over sixty per cent of all golf clubs CLOSE DOWN or go BANKRUPT
- Superintendents are NO LONGER NECESSARY or NEEDED
- The Multi-Billion-Dollar-Golf-Industry is ANNIHILATED
- Large numbers of golf facilities are ABANDONED WASTE DUMPS
- The Golf Industry succumbs to BLACK DEATH

The Golf Industry Must Immediately Address Several Critical Issues

TO AVOID THE IMPENDING BLACK ANTI-PESTICIDE DEATH, the Golf Industry Must Immediately Address Several CRITICAL ISSUES.

Regardless of its Exception Status in many jurisdictions, the Golf Industry faces some huge challenges because of its high degree of vulnerability concerning several public affairs issues.

In order to successfully deter the malicious efforts of all Lunatic Golf-Hating Anti-Pesticide Terrorists, the Golf Industry must immediately address the following CRITICAL ISSUES.

1. The Golf Industry MUST ADOPT THE POSITION THAT CONVENTIONAL PEST CONTROL PRODUCTS ARE SCIENTIFICALLY-SAFE AND CAUSE NO HARM.
2. The Golf Industry MUST ALSO ADOPT THE POLICY that its use of ANY FERTILIZERS DOES NOT HARM THE ENVIRONMENT.
3. The Golf Industry MUST OPPOSE ALL FORMS OF PROHIBITION AGAINST PEST CONTROL PRODUCTS. It must OPPOSE even PROHIBITION on PUBLIC PROPERTY since this is a FIRST STEP towards TOTAL PROHIBITION.
4. The Golf Industry MUST DEMAND that ALL PROHIBITIONS pertaining to the use of pest control product in the Urban Landscape BE RESCINDED in ALL PROVINCIAL AND MUNICIPAL JURISDICTIONS.
5. The Golf Industry MUST ALSO OPPOSE ALL FORMS OF PROHIBITION AGAINST FERTILIZERS.
6. The Golf Industry must TERMINATE ALL RELATIONSHIPS with all Anti-Pesticide Organizations that conspire to prohibit pest control products, like Canadian Cancer Society, World Wildlife Fund, and others. All related charitable tournaments that provide financial donations and support to these Anti-Pesticide Organizations must be SUSPENDED.
7. More specifically, the Golf Industry MUST DEMAND that Golf Canada (a.k.a. RCGA) TERMINATE ALL RELATIONSHIPS with all Anti-Pesticide Organizations that conspire to prohibit pest control products, like Canadian Cancer. The fund-raising program Golf Fore The Cure MUST BE TERMINATED. Golf Canada MUST CEASE SUPPLYING MILLIONS OF DOLLARS to organizations that have publicly THREATENED, REPEATEDLY, the Golf Industry with Anti-Pesticide PROHIBITION.

N

We are living in the 9|11 Era of Anti-Pesticide Terrorism where Science is Trumped by Internet Rumor, Innuendo, and Fabrication.

At least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is National Organization Responding Against HUJE that seek to harm the Green Space Industry.

NORAHG represents the VAST SILENT MAJORITY of people in the Green Space Industry who are OPPOSED to PROHIBITION.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against these HUJE, as well as CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX-EXEMPT STATUS of their organizations. HUJE should Get OFF Our grASS, and they should Roast In Hell.

Anti Pesticide HUJE are advised that all names, statements, activities, and affiliations have been ARCHIVED for eventual CRIMINAL CHARGES.

NORAHG manages the Library Computer Access and Retrieval System for all anti pesticide terrorist acts of subversion.

The NORAHG Library Computer Access and Retrieval System is a VAST ARCHIVE of DOCUMENTS, AUDIO CLIPS, and VIDEOS on ALL anti pesticide ACTS OF SUBVERSION — this archive has been made AVAILABLE to anyone interested in LITIGATION.

These ARCHIVES contain names, statements, activities, and affiliations of ALL anti pesticide vermin, including government officials, as well as charitable prohibition terrorist organizations that DO NOT DESERVE ANY tax exempt status.

Interested parties need only to send NORAHG their REQUESTS for ANY INFORMATION needed in the War Against Lunatic Terrorist PROHIBITION.

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorism movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

R

FORCE OF NATURE, A LOOK AT, and their various incarnations, was the brainchild of William H. Gathercole (now retired) and his colleagues.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

A

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Dernoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

H

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daf-fodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

G

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports.

***We must defend the industry,
whatever the cost may be !***
