Manual Weed Picking

EMBARRASINGLY STUPID Weed Management Practice Recommended by University of Guelph

<< You also don't want to miss the University of Guelph's DR. KATERINA JORDAN discuss ...</p>

« The Optimization of HAND-WEEDING as an Alternative to Herbicides ».

With relatively few options for weed management on home lawns, this talk will focus on non-chemical opportunities such as HAND-WEEDING and over-seeding.

There are currently very few options for weed management on home lawns.

This talk looks at research focused on NON-CHEMICAL OPTIONS, specifically HAND-WEEDING and over-seeding, and how these practices can be optimized to improve turfgrass health and reduce weed invasion.

Recommendations for both practices will be presented as well as how each can be incorporated into a current weed management plan to reduce costs and improve overall health of the turf. IPM 0.5 >>

February 22nd, 2012

Ontario Turfgrass Symposium

Dr. Katerina Jordan, University of Guelph

B(C) ET US) Manual Weed Picking

University of Guelph is DEVALORIZING the professional labour force of the Lawn Care Industry into a group of mere COTTON-PICKING NIGGARS!

Government Officials at the University of Guelph had assured the Professional Lawn Care Industry, and the public, that so-called safe and effective Green Alternative Pesticides were already available to replace conventional pest control products.

Green Alternative Pesticides are INEFFECTIVE, INADEQUATE, HIGH-RISK, INEFFECTIVE, MORE TOXIC, and STUNNINGLY EXPENSIVE!

There are NO valid alternatives to conventional pest control products!

Without the use of conventional pest control products, Guelph Government Officials are resorting to the EMBARASSINGLY-STUPID recommendation of the back-breaking and agonizing job of WEED PULLING BY HAND!

Professional Lawn Care companies CANNOT afford the high cost manual labour required for MANUAL WEED-PICKING.

It is now VERY EVIDENT that NOT A SINGLE Government Official at the University of Guelph has ANY expertise, credibility or common–sense in matters concerning the control of damaging pests or the management of Green Spaces!

The opinions of Guelph Government Officials are VALUELESS and WORTH-LESS.

Guelph Government Officials are DEVALORIZING the professional labour force of the Lawn Care Industry into a group of mere COTTON-PICKING NIGGARS!

University of Guelph is DEVALORIZING the professional labour force of the Lawn Care Industry into a group of mere COTTON-PICKING NIGGARS!

Graduates from University of Guelph

Ontario PROHIBITION

On April 22nd, 2009, the Government of Ontario IMPOSED the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION against pest control products used by the Modern Professional Lawn Care Industry.

The legislation was implemented despite the fact that the PROHIBITED pest control products were still HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, SCIENTIFICALLY-SAFE, and PRACTICALLY-NON-TOXIC.

Ontario PROHIBITION was 100% Politically-Based and 0% Science-Based.

TREACHEROUS Organizations

Anti-Pesticide PROHIBITION was READILY IMPLEMENTED in the Province of Ontario because of the TREACHEROUS SUPPORT of the following organizations —

- x Ontario Turfgrass Research Foundation
- x Guelph Turfgrass Institute (University of Guelph)
- x LandsCAPE Ontario (a.k.a. Ontario Horticultural Trades Association)

TREACHEROUS Organizations (continued)

These organizations CONSPIRED to IMPOSE the PROHIBITION of pest control products used in the Urban Landscape.

Since the IMPOSITION of PROHIBITION, these organizations are the IN-STRUMENTS of PROPAGANDA for Anti-Pesticide PROHIBITION in the Province of Ontario.

They are NOT to be trusted!

It is IRONICAL that officials employed by these organizations have retained SAFE, SECURE, WELL-PAYING ENVIRO-LUNATIC ANTI-PESTICIDE JOBS ... AT THE EXPENSE OF THE JOBS THEY DESTROYED IN THE PROFESSIONAL LAWN CARE INDUSTRY.

Moreover, the TREACHERY of these organizations will allow Anti-Pesticide PROHIBITION to finally SPREAD NATIONALLY, and even INTERNATIONALLY, for ALL pest control products.

BETRAYAL and DESTRUCTION

- x Ontario Turfgrass Research Foundation
- x Guelph Turfgrass Institute (University of Guelph)
- x LandsCAPE Ontario (a.k.a. Ontario Horticultural Trades Association)

These organizations BETRAYED the Ontario Professional Lawn Care Industry by SUPPORTING the PROHIBITION against pest control products used in the Urban Landscape.

Their DESPICABLE PARTICIPATION in the Anti-Pesticide PROHIBITION CONSPIRACY has EXTENSIVELY DAMAGED and DESTROYED the Professional Lawn Care Industry, ANNIHILATED most of its customers, thus ensuring that THOUSANDS of companies became WORTHLESS and on the verge of being OBLITERATED.

They BETRAYED the Modern Professional Lawn Care Industry.

They DESTROYED the Modern Professional Lawn Care Industry!

Green Alternative Pesticides

- x Ontario Turfgrass Research Foundation
- x Guelph Turfgrass Institute (University of Guelph)
- x LandsCAPE Ontario (a.k.a. Ontario Horticultural Trades Association)

These organizations are composed of investors, salesmen, distributors, and researchers who are directly involved and PROFITING from BOGUS Green Alternative Pesticides.

These organizations DECEPTIVELY SUPPORT SOLD-FOR-PROFIT BOGUS Green Alternative Pesticides when valid, effective, and safer alternatives to conventional products DO NOT EXIST!

Officials within these organizations will say ANYTHING to advance the SALE-FOR-PROFIT of BOGUS Green Alternative Pesticides.

Overall, the statements originating from people within these organizations are VALUELESS and WORTHLESS in matters concerning Green Alternative Pesticides.

PROHIBITION CARNAGE

Because of these organizations, the owners, employees, and families dependent on Professional Lawn Care businesses have faced TERROR, DESPAIR, and DESTITUTION.

Their TREACHEROUS SUPPORT of Anti-Pesticide PROHIBITION has also led to CATASTROPHIC CARNAGE for Professional Lawn Care companies, in the form of HORRIFIC FINES and BUSINESS FAILURES.

NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION led to the DE-STRUCTION of the Modern Professional Lawn Care Industry.

The DEVASTATION of the Professional Lawn Care Industry was EXTENSIVE because there were NO valid economical alternatives to replace the prohibited products.

Consequently, Professional Lawn Care Companies were UNABLE to provide adequate weed and insect control, and were UNABLE to keep their customers satisfied.

PROHIBITION CARNAGE (continued)

Government Officials in Ontario were OFFICIALLY WARNED about the SUN-SETTING CARNAGE that would result from PROHIBITION.

[« Sun-Setting » means « the decline and final phase » of the Professional Lawn Care Industry ».]

The Environmental Commissioner's Report to the Ontario Legislative Assembly on October 6th, 2009, OFFICIALLY WARNED Government Officials about the SUN-SETTING CARNAGE of that would result from PROHIBITION —

« In the short-term, however, the ban may have SIGNIFICANT EFFECTS on the economic health or continued viability of many lawn care businesses, effectively SUN-SETTING components of an industry. »

Because of PROHIBITION in Ontario, the Professional Lawn Care Industry LOST OVER 500,000,000 DOLLARS, with UP TO 12,500 UNEMPLOYED.

Because of PROHIBITION in Ontario, ONE-COMPANY-PER-WEEK DISAP-PEARS INTO TOTAL OBLIVION.

University of Guelph

University of Guelph and Guelph Turfgrass Institute are Anti-Pesticide Organizations that CONSPIRE to ANNIHILATE the entire Modern Professional Lawn Care Industry by SUPPORTING the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products.

Since the IMPLEMENTATION of PROHIBITION, officials at the University of Guelph have become the INSTRUMENTS of Anti-Pesticide PROPAGANGA for the Government of Ontario.

Anti-Pesticide Government Officials, who are PAID-FOR-PROFIT by the Ontario Government's Ministry of Agriculture, Food and Rural Affairs, at the University of Guelph, ARE NOT TO BE TRUSTED.

Officials at the University of Guelph are the INSTRUMENTS of Anti-Pesticide PROPAGANGA for the PROMOTION OF MIS-INFORMATION about BOGUS Green Alternatives like FIESTA HERBICIDE — they BETRAYED the Professional Lawn Care Industry.

These officials are ultimately ANSWERABLE to their MASTERS in the Government of Ontario, and they are expected to SUPPORT ALL SOCIAL POLICIES THAT IT IMPOSES.

University of Guelph (continued)

ALL Government-Officials employed at the University of Guelph have been told to « toe the line ... OR ELSE! ».

ALL Guelph Government-Officials MUST SUPPORT Anti-Pesticide PROHIBITION, or FACE TERMINATION from employment and SUFFER THE LOSS OF THE LUCRATIVE GOVERNMENT PENSION PLAN.

Consequently, Guelph Government-Officials have been COERCED and TER-RORIZED into PROMOTING MIS-INFORMATION about the effectiveness of Green Alternatives that are, in fact, BOGUS.

Guelph Government Officials are even recommending MANUAL WEED-PICKING AS AN ALTERNATIVE TO CONVENTIONAL HERBICIDES.

Sadly, University of Guelph has BETRAYED the Professional Lawn Care Industry, and is DEVALORIZING its professional labour force into a group of mere COTTON-PICKING NIGGARS!

Guelph's LEGACY to the Professional Lawn Care Industry is DESTROYED BUSINESSES, LOST JOBS AND HARDSHIP FOR PEOPLE, and WEAKENED COMMUNITIES.

FALSE Allegations

Since the IMPLEMENTATION of PROHIBITION in Ontario, officials at the University of Guelph have become the INSTRUMENTS of Anti-Pesticide PROPAGANGA for the Government of Ontario by PERPETUATING THE MYTH that there is NO CATASTROPHIC CARNAGE in the 9|11 Era of Anti-Pesticide TERROR!

Officials at the University of Guelph further ALLEGE that the Professional Lawn Care Industry has been able to remain successful DESPITE the CARNAGE of PROHIBITION.

They act as if they are either BLIND and DEAF, or JUST PLAIN STUPID.

Or both.

It is expected that, just as in the Province of Quebec several years earlier, OVER 60 PER CENT of the Ontario Lawn Care companies will be TOTALLY ANNIHILATED.

Because of Anti-Pesticide PROHIBITION, the owners, employees, and families dependent on Professional Lawn Care businesses FACE TERROR, DESPAIR, and DESTITUTION.

Critical Issues For The Professional Lawn Care Industry

- 1. The Professional Lawn Care Industry MUST STRONGLY ADOPT THE POSITION THAT CONVENTIONAL PEST CONTROL PRODUCTS ARE SCIENTIFICALLY-SAFE AND CAUSE NO HARM.
- 2. The Professional Lawn Care Industry MUST ALSO ADOPT THE POLICY that its use of ANY FERTILIZERS DOES NOT HARM THE ENVIRONMENT.
- 3. The Professional Lawn Care Industry MUST OPPOSE ALL FORMS OF PROHIBITION AGAINST PEST CONTROL PRODUCTS USED IN THE URBAN LANDSCAPE. It must OPPOSE even PROHIBITION on PUBLIC PROPERTY since this is a FIRST STEP towards TOTAL PROHIBITION.
- 4. The Professional Lawn Care Industry MUST ALSO OPPOSE ALL FORMS OF PROHIBITION AGAINST FERTILIZERS.
- 5. The Professional Lawn Care Industry MUST CEASE ATTEMPTING TO EDUCATE AND NEGOTIATE with Anti-Pesticide Enviro-Lunatic Government Officials and Activists. They are to be considered ENEMIES of the industry. Anti-Pesticide-Lunatics WILL NEVER reverse their attitudes AGAINST pest control products. NO ONE MUST NEGOTIATE WITH TERRORISTS, either environmental or political.
- 6. The Professional Lawn Care Industry MUST ADOPT THE POLICY that the ONLY COURSE OF ACTION AGAINST PROHIBITION IS THROUGH LITIGATION.
- 7. The Professional Lawn Care Industry MUST LAUNCH LITIGATION against those Anti-Pesticide Anti-Fertilizer Enviro-Lunatic Government Officials and Activists who have CONSPIRED TO PROHIBIT PEST CONTROL PRODUCTS. These products are, in fact HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, and PRACTICALLY-NON-TOXIC.

Critical Issues For The Professional Lawn Care Industry (continued)

- 8. The Professional Lawn Care Industry MUST DEMAND THAT ALL PROHIBITIONS pertaining to the use of pest control product in the Urban Landscape BE RESCINDED in ALL PROVINCIAL AND MUNICIPAL JURISDICTIONS.
- 9. In those jurisdictions that REFUSE TO RESCIND or IMPOSE PROHIBITION, the Professional Lawn Care Industry MUST DEMAND THAT ALL EXCEPTIONS TO PROHIBITION BE RESCINDED. ALL conventional pest control products MUST BE PROHIBITED from industries like agriculture, forestry, golf, mosquito control, nursery, sod production, and sports fields. These industries use the VERY SAME INGREDIENTS that are used to control damaging weed and insect pests by the Professional Lawn Care Industry.
- 10. In ALL jurisdictions where PROHIBITION has been IMPOSED, LEGAL ACTION MUST BE STARTED. Professional Lawn Care Companies SHOULD SEEK DAMAGES since they will be NO LONGER able to reproduce the business results obtained prior to PROHIBITION, and the VALUE of their businesses will have been DESTROYED.
- 11. In ALL jurisdictions where PROHIBITION has been IMPOSED, Professional Lawn Care companies MUST DEMAND COMPENSATION FROM GOVERNMENT since PROHIBITION will have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPT-CY, and UNEMPLOYMENT.
- 12. ALL Professional Lawn Care companies MUST RESIGN THEIR MEMBERSHIPS from ALL Trade Associations that have SUPPORTED the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products. If they are not WITH US, then they are AGAINST US!

Critical Issues For The Professional Lawn Care Industry (continued)

- 13. The Professional Lawn Care Industry MUST DENOUNCE the so-called GREEN ALTERNATIVES to conventional pest control products as BOGUS. Green Alternatives DO NOT WORK. There will likely be NO viable, efficacious, or economical Green Alternatives within our collective lifetime.
- 14. The Professional Lawn Care Industry MUST DEMAND that ALL USES OF NEMATODE INSECTICIDES BE PROHIBITED until they are registered under federal law. Even though they are Green Alternatives, they are pest control products that MUST BE REGULATED.
- 15. The Professional Lawn Care Industry MUST ALSO DENOUNCE CULTURAL PRACTICES as a so-called alternative to the use of pest control products. Cultural practices DO NOT WORK in controlling pests.
- 16. The Professional Lawn Care Industry MUST SCIENTIFICALLY DEFINE and PUBLICALLY DISCREDIT the mis-leading term « Organic Maintenance », and establish policies for EXPELLING companies using this inaccurate and misleading term from its trade associations. These companies are not WITH US, they are AGAINST US!
- 17. The Professional Lawn Care Industry MUST VIGOROUSLY EMBARK ON A MAS-SIVE PUBLIC RELATIONS CAMPAIGN to STOP the proposed scheme by Anti–Pesticide Activists and New Democratic Party of Canada (NDP) threatening a NATIONAL PROHIBITION of pest control products. NDP functions as a political shield for the Anti–Pesticide Terrorist–Movement.
- 18. The Professional Lawn Care Industry MUST VIGOROUSLY EMBARK ON A MAS-SIVE PUBLIC RELATIONS CAMPAIGN declaring that Pesticide–Free Urban Green Spaces are a DISMAL FAILURE!

Critical Issues For The Professional Lawn Care Industry (continued)

- 19. The Professional Lawn Care Industry MUST VERY STRONGLY ADDRESS AND DISCREDIT ALL MISCONCEPTIONS concerning imidacloprid, 2,4–D, and other ingredients.
- 20. The Professional Lawn Care Industry MUST TERMINATE ALL RELATIONSHIPS with ALL TEACHING and RESEARCH INSTITUTIONS that SUPPORT the PROHIBITION of pest control products. Including UNIVERSITY OF GUELPH and GUELPH TURFGRASS INSTITUTE. ALL joint activities and educational seminars MUST BE ENDED FOR AN INDEFINITE PERIOD OF TIME. If they are not WITH US, then they are AGAINST US!
- 21. The Professional Lawn Care Industry MUST OPENLY AND FINANCIALLY SUP-PORT ALL POLITICAL CANDIDATES WHO OPPOSE ANY PROHIBITION of pest control products.
- 22. The Professional Lawn Care Industry MUST CEASE focusing on the INEFFECTIVE Integrated Pest Management (IPM) strategies as the solution to its public affairs problems. Besides, IPM DOES NOT WORK.
- 23. The Professional Lawn Care Industry MUST ADVOCATE that using its services is SAFER than Do-It-Yourself-Home-Owners.
- 24. The Professional Lawn Care Industry MUST STRIKE BACK with LITIGATION against its ENEMIES who are Anti-Pesticide Anti-Fertilizer Environmental—Terrorists. These lunatics COULD NOT CARE LESS about SCIENCE-BASED EVI-DENCE. THEY HATE AND DESPISE THE PROFESSIONAL LAWN CARE INDUSTRY, and WILL DESTROY IT AT ANY COST.

Green Alternative Pesticides are BOGUS

Despite claims to the contrary, overall, there are NO viable, efficacious, economical, or low-risk alternatives to replace conventional pest control products.

So-called alternatives, such as Corn Gluten Meal, Fiesta, Flame-Throwers, Nematodes, and Sarritor, are DISMAL FAILLIRES

Green Alternative Pesticides are INEFFECTIVE, INADEQUATE, HIGH-RISK, INEFFECTIVE, MORE TOXIC, and STUNNINGLY EXPENSIVE!

Green Alternative Pesticides are NOT viable, NOT efficacious, NOT economical, NOT low-risk ...

... most are NOT even legal.

Green Alternative Pesticides are BOGUS and DISMAL FAILURES — they DO NOT WORK.

Green Alternative Pesticides are products that are supposed to REPLACE conventional pest control products.

Green Alternative Pesticides are NOT superior to conventional pest control products.

Unfortunately, there are NO viable, efficacious, economical, or lower-risk alternatives to replace the PROHIBITED products, and there will likely be NONE within our collective lifetime.

There are NO Green Alternative Herbicides that selectively and effectively control weeds in turf.

There are NO Green Alternative Insecticides for Chinch Bugs, a major damaging pest in home lawns.

There are NO Green Alternative Insecticides that effectively control White Grubs, another major turfgrass pest.

Fortunately, CONVENTIONAL pest control products are SAFE, EFFECTIVE, ECONOMICAL, and LOW-RISK.

Virtually all Green Alternative Pesticides are BOGUS, displaying NEGATIVE CHARACTERISTICS such as the following —

 Green Alternative Pesticides are ALMOST TOTALLY INEFFECTIVE except under very specific circumstances.

Green Alternatives Are BOGUS & DISMAL FAILURES

- Green Alternative Pesticides, such as Acetic Acid and Corn Gluten Meal, are PROHIBITED in some municipal jurisdictions.
- Green Alternative Pesticides are questionably HIGHER IN TOXICITY when compared to conventional products.
- Green Alternative Pesticides are STUNNINGLY MORE EXPENSIVE to use when compared to conventional pest control products.
- Green Alternative Pesticides are SUPPLIED by the same Anti– Pesticide Organizations that actively sought the prohibition of conventional pest control products.
- Green Alternative Pesticides may have NEGATIVE SIDE– EFFECTS like phyto–toxicity (an effect that adversely affects plant growth) or metal corrosion or rodent–attractant
- Green Alternatives, like Nematode Insecticides, are NOT legally registered as pest control products, and therefore, are UNREGULATED.
- Green Alternative Pesticides will NOT fully control pests, and will

only provide PARTIAL SUPPRES-SION.

- Green Alternative Pesticides will NOT have a full range of safety information such as HUMAN TOXICI-TY and ENVIRONMENTAL IMPACT, which is necessary for the registration of conventional pest control products.
- Green Alternative Pesticides will require EXTREMELY-HIGH-INPUTS OF ACTIVE INGREDIENT since they will otherwise be less effective the rates and the frequency of application may be exorbitantly high.
- Green Alternative Pesticides will require MORE PERSONAL PROTEC-TION for the user.
- Green Alternatives like WEED-BURNING FLAME-THROWERS may BURN DOWN BUILDINGS AND HOMES ... just like NAPALM!
- Green Alternative Pesticides are NOT SAFER, NOT BETTER, NOT MORE EFFECTIVE, and NOT LOW-ER-RISK when compared to conventional pest control products.

LIES Concerning Green Alternative Pesticides

NON-EXPERT Anti-Pesticide Activists AL-LEGE, with NO SCIENTIFIC PROOF, that pest control products are somehow the cause of health and environmental issues.

Anti-Pesticide Activists are NOT CREDIBLE experts on pest control products.

This PROBLEM WITH LACK-OF-ACTIVIST-CREDIBILITY reflects the overall larger problem with ALL Anti-Pesticide Activists.

There are NO Anti-Pesticide Activists who are scientists or researchers with credentials in the field of pest control products.

NONE!

They are NOT COMPETENT to talk about pest control products.

NON-EXPERT Anti-Pesticide Activists COMPENSATE for their INCOMPETENCE by becoming COMPULSIVE LIARS, especially about Green Alternatives.

Anti-Pesticide Activists LIE to Government Officials and the public that viable, efficacious, economical, or lower-risk Green Alternatives are already available to replace conventional pest control products.

Anti-Pesticide Activists LIE and DECEIVE!

Activists who promote Green Alternative Pesticides DO NOT KNOW WHAT THEY ARE TALKING ABOUT!

Moreover, instead of increasing the public's awareness of the largest known preventable causes of health issues, such as smoking and diet, Anti-Pesticide Activists prefer SCAMMING, DECEIVING, and ALARMING the public into believing there is some IMAGINARY DANGER with conventional pest control products.

Rather than providing information for improving the lifestyle choices of the public that could, without a doubt, actually save lives, Anti-Pesticide Activists prefer CONCOCTING MYTHS, DECEPTIONS, FEAR-MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, TERROR, and PARANOID CONSPIRACIES about conventional pest control products.

Green Alternatives Are BOGUS & DISMAL FAILURES

Green Alternative Pesticides and CHILDREN

Green Alternative Pesticides are NOT SCI-ENTIFICALLY SAFE!

Green Alternative Pesticides may be considered as UNSAFE as using Agent Orange, DDT, and other controversial products.

Green Alternative Pesticides are questionably HIGHER IN TOXICITY, and pose HIGHER ENVIRONMENTAL RISKS.

Green Alternative Pesticides should not be allowed anywhere near CHILDREN!

Green Alternative Pesticides and EVEN organic fertilizers may contain ...

- Fermented Materials
- Heavy Metals
- Living Pathogenic Organisms

Green Alternative Pesticides MAY BE DEEMED UNSAFE FOR CHILDREN, ADULTS, AND THE ENVIRONMENT.

Green Alternatives, like Nematode Insecticides, are NOT legally registered as pest

control products, and therefore, are UN-REGULATED.

Green Alternatives, like Fiesta Herbicide, are associated HEALTH PROBLEMS like Hemochromatosis, the most common form of iron overload disease.

Many Green Alternative Pesticides have NOT BEEN TESTED by Good Laboratory Practice (GLP) qualified laboratories, as is the case with CONVENTIONAL pest control products registered by the Federal Government.

Many Green Alternative Pesticides may be deemed NOT SAFE, especially for children!

Fortunately, there are VIABLE ALTERNA-TIVES to Green Alternative Pesticides.

CONVENTIONAL pest control products are SCIENTIFICALLY SAFE!

CONVENTIONAL pest control products are applied at VERY LOW DOSES, and DO NOT PRESENT A CONCERN TO CHILDREN ... and even people.

CONVENTIONAL pest control products CAUSE NO HARM, and when they are used properly, there are NO harmful irreversible effects to health and the environment!

We are living in the 9|11 Era of Anti Pesticide Terrorism where at least ONE SUBVERSIVE ACT OF TERROR is Perpetrated EVERY SINGLE DAY by enviro lunatics.

We are living in the DARK AGE OF ANTI PESTICIDE TERRORISM where sound science is trumped by FAKE SCIENTISTS, JUNK SCIENCE and UNVERIFIABLE SECRET EVIDENCE through FABRICATION, INNUENDO, and INTERNET RUMOUR — scientific research PROVES that pest control products CAUSE NO HARM and can be USED SAFELY.

NORAHG is the National Organization Responding Against HUJE that seek to harm the Green space industry.

NORAHG morally represents the VAST SILENT MAJORITY of people associated with turf and ornamental plant maintenance who are OPPOSED to Anti Pesticide PROHIBITION and the CLOSURE of green spaces under the RIDICULOUS PRETEXT of somehow « saving » the environment.

NORAHG is a NATIONAL NON PROFIT NON PARTISAN organization that does not accept money from corporations or governments or trade associations, and represents NO VESTED INTERESTS WHATSOEVER.

NORAHG is dedicated to reporting the work of RESPECTED and HIGHLY RATED EXPERTS who promote ENVIRONMENTAL REALISM and PESTICIDE TRUTHS.

Anti Pesticide HUJE are enviro lunatics and lawn haters who particularly DESPISE the golf industry — they are Hateful Underhanded Jokes as Environmentalists who have been WRONG FOR OVER 50 YEARS.

There is NO RECOURSE but LITIGATION against Anti Pesticide HUJE

Another RECOURSE is to SEEK the CANCELLATION of GOVERNMENT GRANTS and REVOCATION of the TAX EXEMPT STATUS of Anti Pesticide Organizations.

HUJE should Get OFF Our grASS, and they should Roast In Hell.

NORAHG manages the Library Force Of Nature Reports and References, which is a VAST ARCHIVE of REPORTS, MEDIA REFER-ENCES, AUDIO CLIPS, and VIDEOS on ALL Anti Pesticide Terrorist Acts of Subversion.

The purpose of this ARCHIVE is to provide information that will lead to a SUCCESSFUL LITIGATION AGAINST Anti–Pesticide Organizations

All names, statements, activities, and affiliations have been ARCHIVED for the intention of eventual CRIMINAL CHARGES.

When CRIMINAL CHARGES for FRAUD and CONSPIRACY are laid, legal experts say that the ARCHIVE is sufficient to lead to a SUC-CESSEUL PROSECUTION!

NORAHG also produces FORCE OF NATURE, reports that present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE about environmental issues, including anti pesticide terrorism.

FORCE OF NATURE is a series of reports destined for the green space industry, the environmental terrorist movement, governments, and the media, nationwide across Canada, the United States, and overseas.

FORCE OF NATURE is committed to SOUND SCIENCE, as well as ground breaking original reporting that informs, entertains, and creates real change.

The Force Of Nature Series of Reports — Agriculture • ALBERTA Conspiracy • Bee Colony Collapse Disorder • Bee Colony Collapse Disorder • Benefits of the Turfgrass Industry • Beyond Pesticides • Books That Screwed Up the World • BRITISH COLUMBIA Conspiracy • Canadian Cancer Society • Canadian Association of Physicians for the Environment • CARNAGE and Consequences of Lunatic Terrorist Prohibition • Controversial Prohibitions • Culprits of the Prohibition Conspiracy • Daffodils, Toxic Pesticide Treated Flowers Soaked Formaldehyde • Dating Services for Enviro Maniacs • David Suzuki Foundation • DDT and Our World of Politicized Science • Death and Illness (Alleged) • Departure Letters • Ecojustice Canada • Energy Sector • Environmental Terrorists UNMASKED • Environmental Terrorist Organizations • Enviro PROFIT • Environmental Defence • FAILURE of IPM, Pesticide Manufacturers, Prohibition, Trade Associations • Famous Quotations About Enviro Lunatics • Fertilizer TERROR • Food and Farming • Get Off Our grASS • Global Warming, The Scam of Our Lifetime • Glyphosate Herbicide • Golf Industry • Green Alternatives • Green Party • Halloween Terror • Happy Holidays • Health Canada • Health Concerns with Pest Control Products • Heroes Speaking Out Against Environmental Terror • History of Environmental Terror in Canada • History of the Turfgrass Industry • Letters to the Editor • LIARS and Lying Sacks of (Enviro Maniac) Cwap • Mock Advertisements • Mock Speeches • Myth BUSTING • NATIONAL Prohibition • NEW BRUNSWICK Conspiracy • NO Prohibition Exception for AGRICULTURE Industry • NO Prohibition Exception for GOLF Industry • NOVA SCOTIA Conspiracy • North America Free Trade Agreement (NAFTA) • ONTARIO Conspiracy, Haven For Environmental Terrorists • Ontario College of Family Physicians • Organic Golf Courses • Organic Maintenance • Organizations of

The information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader by providing a sequence of events WITH COMMENTARY, striving for accuracy in history, politics, and science.

FORCE OF NATURE is TOTALLY INDEPENDENT and provides NO guarantee regarding accuracy or completeness. In no event shall FORCE OF NATURE be liable for any incidental or consequential damages, lost profits, or any indirect damages.

NORAHG also produces A LOOK AT, a series of reports providing TECHNICAL INFORMATION on issues such as Career Management, Golf Course Maintenance, Green Alternatives, Summer Stress, Turfgrass Pests, and Turfgrass Species.

Finally, NORAHG frequently responds to anti pesticide activists in LETTERS TO THE EDITOR in newspapers across Canada and around the world.

All information, excerpts, and pictures contained in FORCE OF NATURE, A LOOK AT, and LETTERS TO THE EDITOR were retrieved from the Internet, and may be considered in the public domain.

FORCE OF NATURE, A LOOK AT, and their various incamations, was the brainchild of William H. Gathercole and his colleagues in 1991. Mr. Gathercole is now retired, although his name continues to appear as founder.

Here is a brief summary of Mr. Gathercole's career —

Fields of study — Horticulture/Agriculture, Mathematics, Physics

Alma mater — McGill University • University of Guelph • the first person ever to obtain university degrees and contribute to both the professional lawn care and golf maintenance industries

Expertise in — environmental issues and anti pesticide terrorism • turf and ornamental maintenance and troubleshooting • history of the industry • sales and distribution of seeds, chemicals, fertilizers, and equipment • fertilizer manufacturing and distribution

Notable activities — worked in virtually all aspects of the green space industry, including golf, professional lawn care, distribution, environmental compliance, government negotiations, public affairs, and workplace safety • supervisor, consultant, and, programmer for the successful execution of hundreds of thousands of management operations in the golf and urban landscape, as well as millions of pest control applications • advisor, instructor, and trainer for thousands of turf and ornamental managers and technicians • pesticide certification instructor for thousands of industry workers • founder of the modern professional lawn care industry • prolific writer for industry publications and e-newsletters • first to confirm the invasion of European Chafer insect in both the Montreal region and the Vancouver / Fraser Valley region • with Dr. Peter Demoeden, confirmed the presence of Take All Patch as a disease of turf in Eastern Canada • with Dr. David Shetlar, confirmed the presence of Kentucky Bluegrass Scale as an insect pest in South Western Ontario, and later, in the Montreal and Vancouver regions

Special contributions — creator of the exception status that has allowed the golf industry to avoid being subjected to anti pesticide prohibition • creator of the signs that are now used for posting after application • co-founder of annual winter convention for Quebec golf course superintendents • the major influence in the decision by Canadian Cancer Society to stop selling for profit pesticide treated daffodils • the only true reliable witness of the events of anti pesticide prohibition in the town of Hudson, Quebec • retired founder of FORCE OF NATURE and A LOOK AT reports

Notable award — the very first man of the year for contributions leading to the successful founding of Quebec professional lawn care industry, which served as a beach-head against anti pesticide activists in the 1980s and 1990s

Legacy — Mr. Gathercole and his colleagues ... designed and implemented strategies that reined anti pesticide activists to provide peace and prosperity for the entire modern green space industry across Canada • orchestrated legal action against anti pesticide activists in the town of Hudson, Quebec • launched the largest founding professional lawn care business in Canada • quadrupled the business revenues of one of the largest suppliers in Canada

Mr. Gathercole is now retired, although his name continues to appear as founder of FORCE OF NATURE and A LOOK AT reports..
