## Introduction — Quebec Prohibition-Terror

*If there's some lunatic ban  
you want in your neighbourhood  
Who ya gonna call ?  
The Lunatics of Hudson*

*If there's some weird ban  
that no one else wants  
Who ya gonna call ?  
The Lunatics of Hudson*

*They ain't afraid of no lunatic bans  
They ain't afraid of no lunatic bans*

LUNATIC-TERRORIST-PROHIBITION has been particularly DEVASTATING to the Professional Lawn Care Industry in the Province of Quebec !

As a sad consequence of the LUNATIC-TERRORIST-PROHIBITION policies imposed in the Province of Quebec by Environmental-Terror, OVER-SIXTY-PER-CENT of the Professional Lawn Care Industry was ANNIHILATED !

LUNATIC-TERRORIST-PROHIBITION created the CARNAGE of the 9/11 Era of Environmental Terror !

PROHIBITION's LEGACY to Canadian society is DESTROYED ECONOMIES, LOST JOBS AND HARDSHIP FOR PEOPLE, and WEAKENED COMMUNITIES.

On the basis LUNATIC-CANCER-FEAR-MONGERING, municipalities in Quebec instituted NEEDLESS, SENSELESS, and MALICIOUS PROHIBITIONS of pest control products used in the Urban Landscape.

Eventually, Quebec was the first province to IMPOSE LUNATIC-TERRORIST-PROHIBITION of pest control products like 2,4-D.

According to Quebec's Enviro-Lunatic Government Officials, pest control products like 2,4-D were POSSIBLY carcinogenic, which was later DEEMED AS FALSE.

Other jurisdictions outside of Quebec also CONSPIRED to IMPOSE the LUNATIC-TERRORIST-PROHIBITIONS, also under the PRETEXT of protecting the public from so-called carcinogens.

In fact, pest control products DO NOT CAUSE CANCER since they are HEALTH-CANADA-APPROVED and SCIENTIFICALLY-SAFE.

More specifically, ABSOLUTELY NO regulatory body in the world classifies 2,4-D as a human carcinogen — 2,4-D is probably the MOST STUDIED and BEST UNDERSTOOD of ANY chemical — not just pesticide — in existence.

24/06/2011

## 1991

In 1991, the Town of Hudson, Quebec, governed by a SUBVERSIVE GROUP OF LUNATICS, enacted a by-law that PROHIBITED the use of pest control products that were otherwise HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, and SCIENTIFICALLY-SAFE.

Hudson officials easily capitulated under the pressure of a mere handful of Enviro-Lunatic-Activists.

The by-law was adopted based upon the Cities and Towns Act which stated — « *The council may make by-laws to secure peace, order, good government, health and general welfare in the territory of the municipality, provided such by-laws are not contrary to the laws of Canada, or of Quebec.* »

Clearly, the by-law CONTRADICTED provincial and federal law.

The Agriculture and Golf Industries were provided with an Exception Status — Mr. William H. Gathercole crafted the original Golf Industry Exception Status, which endures to this day for virtually all jurisdictions in North America.

## 1992

In 1992, two Professional Lawn Care companies, ChemLawn and Spraytech, were each fined three hundred dollars for accidentally spraying pest control products on lawns located in the Town of Hudson.

The fine was LEGALLY CHALLENGED by the Professional Lawn Care Industry on the basis that the by-law was invalid, since it was PROHIBITORY and DISCRIMINATORY, and LIMITED or NEUTRALIZED PROVINCIAL AND FEDERAL LAWS.

It is a little-known fact that the Enviro-Lunatic-Leader of New Democratic Party of Canada, JACK LAYTON, was born and raised in Hudson, Quebec.

24/06/2011

## 1994

In 1994, in a Quebec court, the Town of Hudson won the right to maintain its NEED-LESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products.

Although ill-fated, the case would continue to be LEGALLY CHALLENGED by the Professional Lawn Care Industry before The Supreme Court of Canada.

The by-law was defended by fourteen Prohibition-Terrorist-Organizations, brimming with millions of dollars in budgets, donations, and grants.

The Prohibition-Terrorist-Organizations are listed below —

- Breast Cancer Prevention Coalition
- Canadian Environmental Law Association
- Ecojustice Canada
- Federation of Canadian Municipalities operated by JACK LAYTON
- Healthy Lawns — Healthy People
- Nature-Action Quebec Inc.
- Parents' Environmental Network
- Pesticide Action Group Kitchener
- Sierra Club of Canada
- Toronto Environmental Alliance
- Vaughan Environmental Action Committee
- Working Group on the Health Dangers of the Urban Use of Pesticides

24/06/2011

- Environmental Action Barrie
- World Wildlife Fund Canada.

## 2001

On June 28th, 2001, The Supreme Court of Canada, which was clearly infested with Enviro-Maniac-Activists, up-held the ACTS OF SUBVERSION by the Town of Hudson, despite the fact that its by-law CLEARLY CONTRADICTED provincial and federal law.

Enviro-Lunatic-Judge Claire L'Heureux-Dubé presided on The Supreme Court of Canada when it UPHELD the LUNATIC-TERRORIST-PROHIBITION of the Town of Hudson.

## 2002

Once the ACTS OF SUBVERSION of the Town of Hudson were VALIDATED by Enviro-Lunatic-Supreme-Court-Judges, the PROVINCE-WIDE CONSPIRACY BEGAN.

On June 10th, 2002, Enviro-Lunatic-Judge Claire L'Heureux-Dubé retired, and began an INDISCREET PUBLIC ASSOCIATION with those Enviro-Lunatic-Activists involved in contacting and defending the Hudson PROHIBITION.

This situation was INCOMPREHENSIBLE to many observers !

24/06/2011

## 2004

As a consequence of The Supreme Court decision, more municipalities in Quebec instituted NEEDLESS, SENSELESS, and MALICIOUS PROHIBITIONS of pest control products used in the Urban Landscape.

Eventually, Quebec became the first province to IMPOSE LUNATIC-TERRORIST-PROHIBITION of pest control products like 2,4-D.

The PROHIBITION would be implemented under the Pesticide Management Code, over a three-year period, instituted in 2004 and ending in 2006.

On April 3rd, 2004, the Government of the Province of Quebec proceeded with the FIRST STAGE of its NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of 20 active ingredients used by the Professional Lawn Care Industry and Do-It-Yourself Homeowners.

Quebec PROHIBITION included 2,4-D, Weed and Feed Products, and more.

However, it is a little-known fact that Quebec DID NOT PROHIBIT ALL PEST CONTROL PRODUCTS, and PERMITTED products such as Acclaim Herbicide, Betasan Herbicide, Deltagard Insecticide, Dicamba Herbicide, Dimension Herbicide, Imidacloprid Insecticide, and Spinosad Insecticide

Quebec was never truly Pesticide-Free !

## 2006

By 2006, the Province of Quebec implemented the FINAL STAGE of its NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION of pest control products.

24/06/2011

## 2009

In 2009, in the Province of Quebec, Dow AgroSciences initiated a LEGAL CHALLENGE against the Canadian federal government under the provisions of the North American Free Trade Agreement ( NAFTA ).

The North American Free Trade Agreement, or NAFTA, is an agreement signed by the governments of Canada, Mexico, and the United States, creating a tri-lateral trade block in North America.

Dow AgroSciences sought a REPEAL of Quebec's LUNATIC-TERRORIST-PROHIBITION of conventional pest control products containing the herbicide 2,4-D.

Dow AgroSciences also demanded at least 2,000,000 DOLLARS IN DAMAGES.

Consequently, an ENVIRONMENTAL-TERRORIST-ALLIANCE was created to prevent this LEGAL CHALLENGE by Dow.

The TERRORIST-ALLIANCE organizations are listed below —

- Canadian Environmental Law Association ( CELA )
- David Suzuki Foundation
- Ecojustice Canada
- Équiterre ( Suzuki's ambassador in the Province of Quebec )
- New Democratic Party of Canada
- Sierra Club of Canada
- University of Ottawa-Ecojustice Environmental Law Clinic ( UOEELC ).

By 2011, LUNATIC-TERRORIST-PROHIBITION led to HORRENDOUS CARNAGE.

24/06/2011

## The CARNAGE of LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT

TERRORIST-PROHIBITION-CONSPIRACIES have led to NEEDLESS and SENSELESS PROHIBITION of pest control products used in the Urban Landscape.

Enviro-Lunatics purport having UNDISCLOSED, NON-EXISTENT and UNVERIFIABLE SECRET EVIDENCE about the safety of pest control products that are, in fact, HEALTH-CANADA-APPROVED, FEDERALLY-LEGAL, and SCIENTIFICALLY-SAFE.

Because of SUBVERSIVE-TERRORISM and ANTI-PESTICIDE CONSPIRACIES, DAMAGES to the Professional Lawn Care Industry have been EXTENSIVE because there are NO valid economical alternatives to replace the prohibited products.

The DEVASTATION of the Professional Lawn Care Industry was EXTENSIVE because there were NO valid economical alternatives to replace the prohibited products.

The industry's customers were ANNIHILATED and THOUSANDS of companies became WORTHLESS.

Many companies have been TOTALLY DESTROYED.

In the Province of Quebec, OVER 60 PER CENT of the Professional Lawn Care companies was ANNIHILATED.

Because of LUNATIC-TERRORIST-PROHIBITION, the owners, employees, and families dependent on Professional Lawn Care businesses face TERROR, DESPAIR, and DESTITUTION.

LUNATIC-TERRORIST-PROHIBITIONS have led to LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT.

24/06/2011

In the Province of Ontario, the PROFESSIONAL LAWN CARE INDUSTRY LOST OVER 500,000,000 DOLLARS, with 8,300 TO 12,500 UNEMPLOYED.

In Ontario, ONE-COMPANY-PER-WEEK DISAPPEARS INTO TOTAL OBLIVION, thanks to SUBVERSIVE-TERRORISM and ANTI-PESTICIDE CONSPIRACIES.

Enviro-Lunatics created the CARNAGE of the 9/11 Era of Environmental Terror !

The Enviro-Lunatic LEGACY to Canadian society is DESTROYED ECONOMIES, LOST JOBS AND HARDSHIP FOR PEOPLE, and WEAKENED COMMUNITIES.

## 2011

Pest control products are SCIENTIFICALLY SAFE and prohibitions are now IRREFUTABLY INVALIDATED.

On May 25th, 2011, Dow AgroSciences, the manufacturer of the pest control product 2,4-D, SETTLED THE NAFTA CHALLENGE CASE with the Canadian government.

The North American Free Trade Agreement, or NAFTA, is an agreement signed by the governments of Canada, Mexico, and the United States, creating a tri-lateral trade block in North America.

As part of the agreement, a VICTORY for the company, the GOVERNMENT OF QUEBEC was HUMILIATED into making a STATEMENT saying that ...

*« 2,4-D DOES NOT POSE AN UNACCEPTABLE RISK  
to human health or the environment. »*

Quebec was the first province to declare weed control products containing 2,4-D as POSSIBLY carcinogenic, which has now been DEEMED AS FALSE.

24/06/2011

On that basis, municipalities in Quebec instituted NEEDLESS, SENSELESS, and MALICIOUS PROHIBITIONS of 2,4-D use as a lawn pest control product.

Other jurisdictions outside of Quebec also CONSPIRED to IMPOSE the LUNATIC-TERRORIST-PROHIBITIONS of 2,4-D under the PRETEXT that it was a so-called carcinogen.

In fact, ABSOLUTELY NO regulatory body in the world classifies 2,4-D as a human carcinogen — 2,4-D is probably the MOST STUDIED and BEST UNDERSTOOD of ANY chemical — not just pesticide — in existence.

2,4-D DOES NOT POSE AN UNACCEPTABLE RISK

*The actions of the Government of Quebec are tantamount to a blanket ban based on non-scientific criteria*

**Summary** —

*Dow Chemicals has filed a claim under the North American Free Trade Agreement seeking compensation for a Quebec ban on lawn pesticides*

*Dow says that the ban amounts to an unfair « expropriation » of the company's Quebec pesticide business*

*While the federal government would defend Quebec, it is in an awkward position because the federal Health Canada pest management regulatory agency declared 2,4-D safe, if used as directed*

*Dow says Quebec's ban is not driven by science but by « political, social or cultural considerations » and the province has broken a promise to review the « precautionary » ban after the federal pest agency review was complete*

*So the issue is not about compensation*

*The issue is not about commercial interests*

*The issue is about due process.*

The production organization of Force Of Nature, and its various fore-runners, have followed the history of LUNATIC-ENVIRONMENTAL-TERRORISM for over a quarter century, as early as 1982.

Force Of Nature Reports present THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry ( NORAHG ).

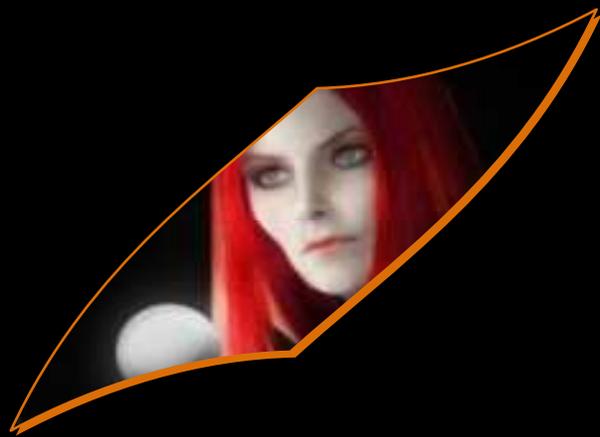

Force Of Nature Reports are destined for the Green Space Industry, the Environmental-Terrorist-Movement, Governments, and the Media, nation-wide across Canada, the United States, and overseas.

Many FON Reports provide a sequence of historical events WITH COMMENTARY, the neutrality of which might be disputed.

The Force Of Nature Library of Reports contains all FON Reports, as well as PESTICIDE TRUTHS and OTHER FACTS with Library, History, Links, News, and Videos.

It is a LINK DATABASE created to support efforts to fight and exterminate the Environmental-Lunatic-Vermin with reports developed for the education and entertainment of the reader.

Force Of Nature Reports focus on Environmental-Lunatic-Vermin, or HUJE, who are Lying Sacs of Cwap, and who rely of Junk Science, Fear-Mongering, and Terrorism to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with the use of conventional pest control products that are otherwise SCIENTIFICALLY-SAFE for health and environment.

Force Of Nature Reports were launched for CONTINUOUS transmission on the Internet on January 1<sup>st</sup>, 2009 — however, the VERY FIRST Stand-Alone Force Of Nature Report was issued on September 19<sup>th</sup>, 2008.

By early 2009, the reports were released no more than five times per week, but by August 25<sup>th</sup>, 2009, Force Of Nature was produced on a DAILY basis.

On March 15<sup>th</sup>, 2010, Uncle Adolph independently launched the Blog-Site called Pesticide Truths, for the posting of information right-off-the-press. <http://uncleadolph.blogspot.com/>

Uncle Adolph is an organization that operates INDEPENDENTLY from NORAHG and Force Of Nature, and its activities are restricted to posting and archiving.

By May 27<sup>th</sup>, 2010, Uncle Adolph expanded Pesticide Truths to a SECOND Blog-Site, and independently acquired the rights to archive the ENTIRE Force Of Nature Library of Reports through a Link Database called Scribd. <http://pesticidetruths.com/>

By mid-December 2010, The Force Of Nature Library of Reports was FULLY SUMMARIZED and CROSS-REFERENCED. <http://pesticidetruths.com/toc/>
