

Lunatic-Terrorist-Prohibition in Ontario

LUNATIC-PROHIBITION in the Province of Ontario

mented legislation for the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION against pest control products used by the Modern Professional Lawn Care Industry.

An Exception Status was provided to industries like golf,

these industries employed THE VERY SAME pest control products otherwise PROHIBITED for the Modern Professional Lawn Care Industry.

The legislation was implemented despite the fact that the PROHIBITED pest control products were still FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE.

Moreover, there were serious issues with the Ontario Minister of the Environment, John Gerretsen, who was responsible for implementing PROHIBITION. Gerretsen was INDISCREET with his CLOSE PUBLIC ASSOCIATIONS with RADICAL and SUBVERSIVE LUNATIC-PROHIBITION-TERRORISTS.

HORRENDOUS CARNAGE Caused by LUNATIC-PROHIBITION in Ontario

The DEVASTATION of the Professional Lawn Care Industry was EXTENSIVE because there were NO valid economical alternatives to replace the prohibited products.

VIRTUALLY ALL Green Alternatives were almost TOTALLY INEFFECTIVE, except under very specific circumstances.

The Green Alternatives were BOGUS.

They were DISMAL FAILURES.

Consequently, Professional Lawn Care Companies were UNABLE to provide adequate weed and insect control, and were UNABLE to keep their customers satisfied.

BOGUS Green Alternatives have DRAMATICALLY INCREASED the PERSONAL WEALTH and REPUTATION of many of the lunatics operating in organizations related to the investment, sale, distribution, and research.

There is a conflict-of-interest having investors, salesmen, distributors, and researchers of BOGUS Green Alternatives, like Sarritor and Fiesta, serving as Directors who are responsible

The INSTRUMENTS of PROPAGANDA That Supported LUNATIC-PROHIBITION in Ontario

- □ Ontario Turfgrass Research Foundation
- □ Guelph Turfgrass Institute (University of Guelph)
- ☑ Ontario Horticultural Trades Association

These organizations TREACHEROUSLY SUPPORT SOLD-FOR-PROFIT BOGUS Green Alternatives when valid, effective, and safer alternatives to conventional products DO NOT EXIST!

Consequently, these organizations are the INSTRUMENTS of PROPAGANDA for Lunatic-Terrorist-Prohibition in the Province of Ontario.

are directly involved and PROFITING from BOGUS Green Alternatives.

They will say ANYTHING to advance the SALE-FOR-PROFIT of BOGUS Green Alternatives.

WORTHLESS in matters concerning BOGUS Green Alternatives.

Their DESPICABLE PARTICIPATION in the LUNATIC-PROHIBITION-CONSPIRACY has EX-TENSIVELY DAMAGED and DESTROYED the Professional Lawn Care Industry, ANNIHILATED most of its customers, thus ensuring that THOUSANDS of companies became WORTHLESS and on the verge of being OBLITERATED.

They BETRAYED the Modern Professional Lawn Care Industry, and DESTROYED it!

Because of these organizations, the owners, employees, and families dependent on Professional Lawn Care businesses have faced TERROR, DESPAIR, and DESTITUTION.

Their TREACHEROUS SUPPORT of Lunatic-Terrorist-Prohibition has also led to EXTENSIVE CARNAGE for Professional Lawn Care companies, in the form of HORRIFIC FINES and BUSI-NESS FAILURES.

It is IRONICAL that people employed by these organizations have retained SAFE, SECURE, WELL-PAYING ENVIRO-LUNATIC PROHIBITION-SUPPORTING JOBS ... AT THE EXPENSE OF THE JOBS THEY DESTROYED IN THE PROFESSIONAL LAWN CARE INDUSTRY.

Moreover, the TREACHERY of these organizations will allow Lunatic-Terrorist-Prohibition to finally SPREAD NATIONALLY for ALL pest control products.

Green Alternatives

Corrected and Truthful Version of Enviro-Lunatic Propaganda Brochure

Why Green Alternatives are DISMAL FAILURES

BOGUS Green Alternative

Corn gluten meal herbicide

FOR USE ON -Crabgrass and broad-leaved weeds, such as dandelion and white clover.

Fiesta herbicide (4.43% FeHEDTA)

FOR USE ON -Broad-leaved weeds such as black medick, broad-leaved plantain bull thistle, Canada thistle, common chickweed, dandelion, moss and algae, narrow-leaved plantain, white clover.

Sclerotinia minor (Sarritor) herbicide

FOR USE ON -Dandelions.

Reasons for DISMAL FAILURE as a Green Alternative

According to university research, corn gluten meal does not control ANY weeds in any trials under any circumstances. There is NO evidence of pre- or post-emergence weed control. Moreover, corn gluten meal causes a bad odour, attracts rodents, and DOES NOT WORK WELL.

With Fiesta, weed RE-GROWTH will quickly occur. Adequate broad-leaved weed control with Fiesta is only achieved with an EXHORBITANT 6 to 8 applications per season. However, the label allows a maximum limit of two applications per season. Fiesta requires extremely-high-inputs of active ingredient (a.i.) when compared to conventional pest control products. The exceedingly high a.i. rate of Fiesta seems to fly in the face of the desired environmentalist objective of reducing the amount of active ingredient being applied in pest control product programs. Fiesta is stunningly more expensive than conventional pest control products.

Sarritor essentially acts like a very selective and post-emergent herbicide that MERELY SUPPRESSES a very limited number broad-leaved weed species, such as Dandelion. Unlike conventional herbicides, Sclerotinia minor will never control the entire plant, and RE-GROWTH will quickly occur. According to Health Canada, Sarritor caused significant health effects in laboratory animals when a large dose was applied to the respiratory tract. Consequently, the precautionary wording « DO NOT breathe dust » is required on the product labels. Furthermore, commercial as well as domestic applicators are required to wear respiratory protection suitable for preventing inhalation of biological products. This type of protection is not needed for applying conventional pest control products.

Corrected and Truthful Version of Enviro-Lunatic Propaganda Brochure

Why Green Alternatives are DISMAL FAILURES

BOGUS Green Alternative

Acetic acid herbicide

FOR USE ON -Broad-leaved and grassy weeds.

Ammonium salts of fatty acids herbicide

FOR USE ON -Moss, algae, broad-leaved weeds within vegetable and flower gardens, landscaped areas, lawns (spot treatment only), around small fruits and fruit trees, buildings and hard landscaped surfaces.

Fatty acid (herbicidal soap) herbicide

FOR USE ON -Moss, algae, broad-leaved weeds on driveways, and patios.

Entomo-pathogenic nematode insecticides

FOR USE ON -White grubs, caterpillars (cutworm and armyworm), leather-jackets.

Reasons for DISMAL FAILURE as a Green Alternative

For complete control of weeds, the product MAY NEED TO BE APPLIED SEVERAL TIMES. Primary use is as a non-selective burn to kill all vegetation.

To date, NO information on this product's effectiveness for these pests has been scientifically published.

To date, NO information on this product's effectiveness for these pests has been scientifically published.

Entomo-pathogenic nematode insecticides cannot be consistently considered as a true alternative to conventional insecticides, since the insect pests are often ONLY SUPPRESSED, and NOT controlled. Laboratory and field tests tend to indicate that the best nematode species are only MARGINALLY EFFECTIVE in controlling insect infestations. Moreover, entomo-pathogenic nematode insecticides are NOT registered as pest control products in Canada. Neither the federal nor the provincial governments have officially scheduled or classified entomo-pathogenic nematode insecticides as a pest control product, despite the fact that they contain INFECTIVE BACTERIA.

Background Information Concerning Green Alternatives

Virtually ALL Green Alternatives are BOGUS

In the Province of Ontario, so-called RESEARCH that supports BOGUS Green Alternatives is basically conducted by organizations are the INSTRUMENTS of PROPAGANDA for Lunatic-Prohibition-Terror in the Province of Ontario.

Their research CANNOT BE TRUSTED.

Despite claims to the contrary, overall, there are NO viable, efficacious, or economical Green Alternatives to replace conventional pest control products.

There will be NO viable, efficacious, or economical Green Alternatives within our collective lifetime.

Virtually all Green Alternatives are BOGUS, displaying negative characteristics such as the following $\,-\,$

- Green Alternatives may be ALMOST TOTALLY INEFFECTIVE except under very specific circumstances.
- Green Alternatives may be PROHIBITED in some jurisdictions.
- Green Alternatives may be questionably HIGHER IN TOXICITY.
- Green Alternatives may be STUNNINGLY MORE EXPENSIVE to use when com-pared to conventional pest control products.
- Green Alternatives may be SUPPLIED by the same Environmental–Terror–Organizations that sought the prohibition of conventional pest control products.
- Green Alternatives may have NEGATIVE SIDE-EFFECTS like phyto-toxicity (an effect that adversely affects plant growth) or metal corrosion or rodent-attractant.
- Green Alternatives may NOT be registered as pest control products, and therefore, are UNREGULATED.
- Green Alternatives may NOT fully control pests, and may only provide PARTIAL SUP-PRESSION.
- Green Alternatives may NOT have a full range of safety information such as HUMAN TOX-ICITY and ENVIRONMENTAL IMPACT, which is necessary for the registration of conventional pest control products.

Background Information Concerning Green Alternatives

- Green Alternatives may require EXTREMELY-HIGH-INPUTS OF ACTIVE INGREDIENT since they will otherwise be less effective the rates and the frequency of application may be exorbitantly high.
- Green Alternatives may require MORE PERSONAL PROTECTION for the user.
- Green Alternatives may NOT BE SAFER, NOT BETTER, and NOT MORE EFFECTIVE.

Overall, Green Alternatives are a DISMAL FAILURE

Overall, Green Alternatives are a DISMAL FAILURE since they merely SUPPRESS or INHIBIT pests of turf, and require an excessive number of repeat applications, often with EXTREMELY-HIGH-INPUTS OF ACTIVE INGREDIENT.

On the other hand, conventional pest control products FULLY and EFFECTIVELY CONTROL pests, without the need for excessively repeating applications, or without using exorbitant quantities of active ingredient.

It is IMPOSSIBLE to « fit » a Green Alternatives within the CORNER-STONES FOR EFFECTIVE LAWN MAINTENANCE AND ADEQUATE PEST CONTROL.

The Beginning of the End for Green Alternatives

In 2010, the Province of Nova Scotia PROHIBITED Fiesta Herbicide, and the Province of New Brunswick PROHIBITED Corn Gluten Meal Herbicide.

CARNAGE Inflicted by Lunatic-Prohibition-Conspiracies

In those jurisdictions where Lunatic-Terrorist-Prohibition was implemented, the CARNAGE INFLICTED on the Professional Lawn Care Industry has been HORRENDOUS.

PROHIBITION-CARNAGE occurred because there were NO valid economical alternatives to replace the prohibited products.

Green Alternatives were DISMAL FAILURES.

Background Information Concerning Green Alternatives

The LUNATIC-CONSPIRACIES leading to the PROHIBITION of conventional pest control products EXTENSIVELY DAMAGED and DESTROYED the Professional Lawn Care Industry, ANNIHILATED most of its customers, thus ensuring that THOUSANDS of companies became WORTHLESS and on the verge of being OBLITERATED.

Lunatic-Terrorist-Prohibition led to LOSS OF REVENUES, BUSINESS FAILURES, BANK-RUPTCY, and UNEMPLOYMENT.

Prohibition—Terrorist—Organizations have continued to BASELESSLY SMEAR, FALSELY ACCUSE, GROTESQUELY PUNISH, INNOCENTLY CONVICT, SHAMELESSLY PERSECUTE, and WRONGFULLY DEPRIVE those people working in the Professional Lawn Care Industry who used pest control products that were, in fact, FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE.

The owners, employees, and families dependent on Professional Lawn Care businesses have faced TERROR, DESPAIR, and DESTITUTION because of Lunatic-Terrorist-Prohibition leading to NEEDLESS and SENSELESS PROHIBITION of pest control products.

Because of Lunatic-Terrorist-Prohibition, Professional Lawn Care businesses, which at one time provided a good living and some equity for eventual sale for retirement, became WORTHLESS!

Because of Lunatic-Terrorist-Prohibition, DAMAGES to the Professional Lawn Care Industry were EXTENSIVE because there were NO valid economical alternatives to replace the prohibited products.

Consequently, Professional Lawn Care Companies were UNABLE to provide adequate weed and insect control, and were UNABLE to keep their customers satisfied.

In 2010, EXTENSIVE DAMAGES in the Province of Ontario alone reached 500,000,000 DOL-LARS, with up to almost 800 BUSINESS FAILURES and BANKRUPTCIES.

40 to 70 per cent of Professional Lawn Care customers were ANNIHILATED.

Because of Lunatic-Terrorist-Prohibition, Professional Lawn Care businesses were forced to TERMINATE many or most of their employees — up to 12,500 became UNEMPLOYED.

It was IRONICAL that people employed by Prohibition–Terrorist–Organizations retained SAFE, SECURE, WELL-PAYING LUNATIC-TERRORIST JOBS ... AT THE EXPENSE OF THE JOBS THEY DESTROYED IN THE PROFESSIONAL LAWN CARE INDUSTRY.

Consequently, a consensus is building among members of lawn care franchise companies to seek damages with a class-action lawsuit against any parent-company that DID NOT adequately oppose or prepare for PROHIBITION — these parent-companies FAILED to provide their franchise members with RELIABLE, EFFICACEOUS, and ECONOMICAL Alternative Green Products.

NORAHG

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against HUJE that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed. Don't thank us. It's a public service. And we are glad to do it.

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Lunatic Culprit is a misguided adversary, each still deserves our respect. The use of the terms Lunatic, Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Lunatic Activists accountable for conspiring to change public policies that TERROR-IZE. HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Lunatic Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, CO-ERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are FEDERALLY LEGAL, SCIEN-TIFICALLY SAFE. TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Lunatic Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

This Report provides NO guarantee regarding accuracy or completeness. In no event shall Force Of Nature be liable for any incidental or consequential damages, lost profits, or any indirect damages. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUN-DER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from McGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of LUNATIC ENVIRONMENTAL TERRORISM for over a quarter century. For FIF-TEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVI-RONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson. Ouebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
