LUNATIC-LYING RANTS from Pam Charbonneau

PROHIBITION PROPAGANDA

Pamela Charbonneau is an Enviro-Lunatic Government Official, PAID-FOR-PROFIT by Ontario Ministry of Agriculture, Food and Rural Affairs, University of Guelph.

Charbonneau is ultimately ANSWERABLE to her PROHIBITION-LUNATIC-MASTERS in the Government of Ontario, and she is expected to SUPPORT ALL SOCIAL POLICIES THAT IT IMPOSES.

On April 22nd, 2009, the Government of Ontario IMPOSED the NEEDLESS, SENSELESS, and MALICIOUS PROHIBITION against pest control products used by the Modern Professional Lawn Care Industry.

An Exception Status was provided to industries like golf, sports fields, specialty turf, forestry, and agriculture — these industries employed THE VERY SAME pest control products otherwise PROHIBITED for the Modern Professional Lawn Care Industry.

Enviro-Lunatic Liar

Since PROHIBITION, Charbonneau and the University of Guelph have become the INSTRUMENTS of ENVIRO-LUNATIC-PROPAGANGA for the Government of Ontario

The legislation was implemented despite the fact that the PROHIBITED pest control products were still FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE.

Since PROHIBITION, the University of Guelph has become the INSTRUMENT of PROHIBITION-LUNATIC-PROPAGANGA for the Government of Ontario.

ALL Government-Officials employed at the University of Guelph have been told to « *toe the line* ».

ALL Government-Officials MUST SUPPORT LUNATIC-TERRORIST-PROHIBITION, or FACE TERMINATION from employment and SUFFER THE LOSS OF THE LUCRATIVE GOVERNMENT PENSION PLAN.

Consequently, Guelph Government-Officials, like Charbonneau, have been COERCED and TERRORIZED into PROMOTING MIS-INFORMATION about the effectiveness of Green Alternatives that are, in fact, BOGUS.

Sadly, University of Guelph and Charbonneau have BETRAYED the Professional Lawn Care Industry.

CHARBONNEAU'S CANADIAN PESTICIDE BAN UPDATE A.K.A. LUNATIC-TERRORIST-PROHIBITION PROPAGANDA

An example of Charbonneau BETRAYAL of the Professional Lawn Care Industry.

On June 13th, 2011, Pamela Charbonneau provided a CANADIAN PESTICIDE BAN UPDATE to Cornell University with content that could only MIS-INFORM Americans about LUNATIC-TERRORIST-PROHIBITION.

Charbonneau's MIS-INFORMATION was reported by Frank Rossi, a fellow Enviro-Lunatic Government-Official at Cornell University who, in the podcast, SOUNDS LIKE AN OVER-CAFFEINATED CHIPMUNK.

Both lunatics SUPPORT the PROHIBITION of pest control products.

The following is a TRANSCRIPT of the CHARBONNEAU CANADIAN PESTICIDE BAN UPDATE (a.k.a. LUNATIC-TERRORIST-PROHIBITION PROPAGANDA) —

Pam Charbonneau and PROHIBITION Propaganda

TRANSCRIPT OF PODCAST

An update on the Canadian pesticide ban from our friend Pam Charbonneau, the Ontario Ministry of Agriculture and Food, Turfgrass Specialist, from the Guelph Turfgrass Institute –

A pesticide ban was enacted in Ontario, Canada, and went into effect in the spring of 2009.

This ban effectively moved all traditional pesticides from being used on home lawns and municipal grounds.

Golf courses were exempt from the ban, but are currently following very stringent IPM plans that involve enormous amounts of paper-work and educational certification.

The biggest surprise, from my perspective, so far, is how people do not seem to be bothered by the ban any longer.

Wrong !

Home-owners have come to accept the weed issues in the early spring, and now that most of the dandelion flowers have been mown off, the lawn looks great from the curb.

Wrong !

The other interesting surprise, from the industry perspective, is that most companies have been able to remain successful through the ban by offering additional cultural practices, such as aeration, over-seeding, more regular fertilization.

Wrong !

Pam Charbonneau and PROHIBITION Propaganda

TRANSCRIPT OF PODCAST (CONTINUED)

There appears to be greater recognition that without pesticides, there is greater need for supplemental culture to enhance the health of the lawn and avoid the need of pesticides.

Wrong !

A note about pesticide alternatives – a lack of access to traditional materials has spurred interest in alternative products, such as high rates of ferrous sulphate for selective weed control, which is found in Fiesta Herbicide, sold by the Scotts Company, corn gluten meal, and nematodes for grubs.

Of these, the Fiesta seems to have achieved a MODERATE level of success.

From research at Guelph, it appears that 2 to 3 applications during the spring and the summer can provide significant selective control of broad-leaf weeds.

Wrong !

In fact, the data indicate complete control of narrow-leaf plantain is possible with the single application.

The challenges ahead – while there have been SOME successes with products such as Fiesta, others such as Sarritor biological weed control, and the use of nematodes for grub control, HAVE NOT BEEN AS SUCCESSFUL.

In fact, grubs still remain a MAJOR PROBLEM, and most are having to re-establish areas after severe damage.

The Instruments of

Propaganda

Background Information from an Independent Perspective

There is a conflict-of-interest having investors, salesmen, distributors, and researchers of BOGUS Green Alternatives, like Fiesta and Sarritor, serving as PROMINENT-PEOPLE-OF-INFLUENCE who are responsible for making critical decisions on behalf of the entire Professional Lawn Care Industry.

The following organizations TREACHEROUSLY SUPPORT BOGUS Green Alternatives when valid, effective, and safer alternatives to conventional products DO NOT EXIST !

- Ontario Turfgrass Research Foundation
- Guelph Turfgrass Institute (University of Guelph)
- Ontario Horticultural Trades Association
- LandsCAPE Ontario

Consequently, these organizations are the INSTRUMENTS of PROPAGANDA for LUNATIC-TERRORIST-PROHIBITION in the Province of Ontario.

These organizations are composed of investors, salesmen, distributors, and researchers who are DIRECTLY INVOLVED and PROFITING from BOGUS Green Alternatives.

They will say ANYTHING to advance the SALE-FOR-PROFIT of BOGUS Green Alternatives.

Overall, the opinions originating from people within these organizations are VALUELESS and WORTHLESS in matters concerning BOGUS Green Alternatives.

The Instruments of

Propaganda

Background Information from an Independent Perspective

Their DESPICABLE PARTICIPATION in the LUNATIC-PROHIBITION-CONSPIRACY has EXTENSIVELY DAMAGED and DESTROYED the Professional Lawn Care Industry, ANNIHILATED most of its customers, thus ensuring that THOUSANDS of companies became WORTHLESS and on the verge of being OBLITERATED.

They BETRAYED the Modern Professional Lawn Care Industry.

They DESTROYED the Modern Professional Lawn Care Industry !

Because of these organizations, the owners, employees, and families dependent on Professional Lawn Care businesses have faced TERROR, DESPAIR, and DESTITUTION.

Their TREACHEROUS SUPPORT of LUNATIC-TERRORIST-PROHIBITION has also led to EXTENSIVE CARNAGE for Professional Lawn Care companies, in the form of HORRIFIC FINES and BUSINESS FAILURES.

It is IRONICAL that people employed by these organizations, like Charbonneau, have retained SAFE, SECURE, WELL-PAYING ENVIRO-LUNATIC PROHIBITION-SUPPORTING JOBS ... AT THE EXPENSE OF THE JOBS THEY DESTROYED IN THE PROFESSIONAL LAWN CARE INDUSTRY.

Moreover, the TREACHERY of these organizations will allow LUNATIC-TERRORIST-PROHIBITION to finally SPREAD NATIONALLY, and even INTERNATIONALLY, for ALL pest control products.

Response by Observers from an Independent Perspective

CHARBONNEAU SHOULD TELL THE TRUTH OR STEP DOWN

Pamela Charbonneau is an Enviro-Lunatic Government Official, PAID-FOR-PROFIT by Ontario Ministry of Agriculture, Food and Rural Affairs, University of Guelph.

Charbonneau and the University of Guelph are the INSTRUMENTS of ENVIRO-LUNATIC-PROPAGANDA for the PROMOTION OF MIS-INFORMATION about BOGUS Green Alternatives like FIESTA HERBICIDE — they BETRAYED the Professional Lawn Care Industry.

Pam Charbonneau has now gone too far.

She has indicated to fellow lunatic Frank Rossi (Cornell University) that 2 to 3 applications of Fiesta is required for the control of some weeds in Ontario lawns.

At first, in 2009, Charbonneau said ONLY ONE application was required.

In 2010, Charbonneau said TWO applications were required.

Now, in 2011, Charbonneau is saying THREE applications are required.

In fact, adequate broad-leaved weed control with Fiesta is only achieved with an EXHORBITANT 6 to 8 applications per season.

Unfortunately, the Fiesta label allows a MAXIMUM LIMIT OF TWO APPLICATIONS PER SEASON.

Charbonneau has also indicated to fellow lunatic Frank Rossi (Cornell University) that Nematodes and Sarritor are DISMAL FAILURES.

Response by Observers from an Independent Perspective

Charbonneau is also a Director of the Lawncare (sic) Commodity Group of LandsCAPE Ontario, which SUPPOSEDLY represents the interests of the ENTIRE Professional Lawn Care Industry.

LandsCAPE Ontario is a Trade Association that, with Charbonneau as Director, CONSPIRED to IMPOSE the PROHIBITION of pest control products, which included conventional herbicides with the active ingredient 2,4-D.

LandsCAPE Ontario is a Trade Association, with Charbonneau as Director, that also BETRAYED the Professional Lawn Care Industry.

At the very least, we should expect THE TRUTH from Charbonneau and the University of Guelph ... especially about the use of Fiesta Herbicide.

The Fiesta label says MAXIMUM TWO APPLICATIONS per season.

We know Pam, just spot-spraying, right ?

Spot-spraying with Fiesta does not count as an additional application.

That is how Charbonneau JUSTIFIES her constant MIS-INFORMATION.

And, there is NO FINE PRINT about spot-spraying on the Fiesta label.

Moreover, there IS a spot-treatment recommendation on the Killex label, the BANNED three-way herbicide with 2,4-D ... spot-spraying counts THERE.

Even with her the weekly Turf Agriphone, Charbonneau provides MIS-INFORMATION that has become a JOKE for the Lawn Care Industry.

Charbonneau has BETRAYED the industry and GIVEN UP ON ALL OF THEM.

Charbonneau should STAND UP, and provide the TRUTH, not only about Fiesta, but about Ontario's PROHIBITION and its effects, or STEP DOWN.

Response by Observers from an Independent Perspective

Otherwise, Charbonneau is VALIDATING PROHIBITION, and contributing to the EXTENSIVE CARNAGE for Professional Lawn Care companies, in the form of HORRIFIC FINES and BUSINESS FAILURES.

Because of LUNATIC-TERRORIST-PROHIBITION, the DEVASTATION of the Professional Lawn Care Industry was EXTENSIVE because there ARE NO VALID ECONOMICAL ALTERNATIVES TO REPLACE THE PROHIBITED PRODUCTS ... including Charbonneau's Fiesta.

When compared to conventional products like 2,4-D, VIRTUALLY ALL Green Alternatives are almost TOTALLY INEFFECTIVE, except under very specific circumstances.

The Green Alternatives, like Fiesta, are BOGUS.

They are DISMAL FAILURES.

Charbonneau is grabbing Ontario tax-payer money and spending it on BOGUS UNIVERSITY STUDIES that result in ZERO BENEFITS for the Professional Lawn Care Industry.

2,4-D IS SAFE and EFFECTIVE !

2,4-D is SAFER and MORE EFFECTIVE than Fiesta.

Why doesn't Charbonneau point that out to the Ministry of the Environment and the Ontario Liberal Party.

Dr. Len Ritter, the Guelph INDEPENDENT EXPERT on pesticide safety, is physically mere metres away from Charbonneau's office, and yet, she CHOOSES TO IGNORE his expert advice on 2,4-D.

WHY ?

The Government of Ontario is even using Dr. Ritter to disprove the dangers of 2,4,5-T, a constituent of, believe or not, Herbicide (Agent) Orange.

Response by Observers from an Independent Perspective

Charbonneau — give us back 2,4-D, and you play all you want with Fiesta.

Or, better yet, STEP DOWN.

Charbonneau ALLEGES that people in Ontario do not seem to be bothered by the ban any longer.

Well, Pam, WE ARE BOTHERED BY BOTH THE BAN AND YOU !

Charbonneau further ALLEGES that the Professional Lawn Care Industry has been able to remain successful DESPITE the CARNAGE of PROHIBITION.

Charbonneau acts as if she is either BLIND and DEAF, or JUST PLAIN STUPID.

Or both.

In essence, Charbonneau LIES and LIES and LIES and LIES.

She just NEVER STOPS !

Because of LUNATIC-TERRORIST-PROHIBITION in Ontario, the Professional Lawn Care Industry's customers were ANNIHILATED and HUNDREDS of companies became WORTHLESS.

Many companies have been TOTALLY DESTROYED.

It is expected that, just as in the Province of Quebec three years earlier, OVER 60 PER CENT of the Ontario Lawn Care companies will be TOTALLY ANNIHILATED.

Because of LUNATIC-TERRORIST-PROHIBITION, the owners, employees, and families dependent on Professional Lawn Care businesses FACE TERROR, DESPAIR, and DESTITUTION.

Response by Observers from an Independent Perspective

LUNATIC-TERRORIST-PROHIBITION has led to LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT.

In the Province of Ontario, the PROFESSIONAL LAWN CARE INDUSTRY HAS LOST OVER 500,000,000 DOLLARS, with 8,300 TO 12,500 UNEMPLOYED.

In Ontario, ONE-COMPANY-PER-WEEK DISAPPEARS INTO TOTAL OBLIVION, thanks to lunatics like Pam Charbonneau.

Pam Charbonneau and other lunatics are PERPETUATING THE MYTH that there is NO CARNAGE in the 9/11 Era of PROHIBITION TERROR !

Charbonneau can STEP DOWN, and during her RETIREMENT, she call tell her children and grand-children about her LEGACY to the Professional Lawn Care Industry.

Charbonneau BETRAYED her friends, her colleagues, and the TAX-PAYING businesses who contributed to her PROFITABLE SALARY and LUCRATIVE PENSION PLAN.

Charbonneau's LEGACY to the Professional Lawn Care Industry is DESTROYED BUSINESSES, LOST JOBS AND HARDSHIP FOR PEOPLE, and WEAKENED COMMUNITIES.

It is IRONICAL that Charbonneau is STILL EMPLOYED-FOR-PROFIT as an Enviro-Lunatic Government-Official, retaining her SAFE, SECURE, WELL-PAYING LUNATIC JOB and PENSION ... AT THE EXPENSE OF THE JOBS DESTROYED IN THE PROFESSIONAL LAWN CARE INDUSTRY.

Pam ... just STEP DOWN and GET OUT !

HUJE are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Lunatic Culprit is a misguided adversary, each still deserves our respect. The use of the terms Lunatic, Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Lunatic Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry.

HUJE is a term used to describe Enviro Lunatic Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing there is some IMAGINARY DANGER with conventional pest control products. HUJE also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS CONSPIRACY to PROHIBIT conventional pest control products that are HEALTH CANADA APPROVED, FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE.

HUJE have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Lunatic Culprit Terrorist Basterd HUJE is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his colleagues. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. Mr. Gathercole was the FIRST PERSON EVER to obtain University degrees and contribute to BOTH the Professional Lawn Care and Golf Maintenance Industries. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in environmental compliance, government negotiations, public affairs, and workplace safety. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has advised, certified, instructed, and trained thousands of turf and ornamental managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole and his colleagues have followed the evolution of LUNATIC ENVIRONMENTAL TERRORISM for over a quarter century. For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of the VERMIN OF ENVIRONMENTAL TERROR for the entire Modern Green Space Industry across Canada. Their involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec.

Today, Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status that endures to this day. He is also the creator of the signs that are now used for posting after application. He and his colleagues are recognized as THE MAJOR INFLUENCE for the decision by Canadian Cancer Society to STOP selling for profit PESTICIDE TREATED DAF-FODILS. Mr. Gathercole's vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully ! Mr. Gathercole is now retired, although his name continues to appear as FOUNDER of Force Of Nature.
