Stick To The Facts On 2,4-D Spraying -- Letters To The Editor -- The Telegram

Stick to the facts on 2,4-D spraying Published on September 6, 2012 Dr. Ian Simpson's August 22 letter " Pesticide concerns not ' scaremongering ' " was ironically laced with more scaremongering. There's no reason to assume that a substance is bad simply because it's a pesticide. If there are peer-reviewed articles discussing a certain substance, then discuss [...]

Bogus Science And Fear Mongering -- Seralini
Glyphosate Rat Study Creates Fear In Africa

The recently published Seralini study into the severe health impacts on rats given water containing traces of glyphosate, is a damning indictment of the pesticide industry's assurances that glyphosate is safe. Until we have more independent scientific evidence on the safety of glyphosate, we should err on the side of caution, says Marianne Mayet, director [...]
