Throughout this document, terms like « *culprit* » are used. This is NOT an accusation of any legal wrong-doing. All « *culprits* » are simply being held accountable for changes in public policy that have been detrimental to the GREEN SPACE INDUSTRY. Even though each of these people is a mis-guided adversary, each still deserves our respect.

Who is Dalton James Patrick McGuinty Junior ?

Let's get to the significant facts about this guy. **Dalton James Patrick McGuinty Junior, MPP** (born **July 19th, 1955** in Ottawa, Ontario) is a CANADIAN lawyer and politician and, since **October 23rd, 2003**, has been PREMIER of THE PROVINCE OF ONTARIO. He has been a MEMBER OF PROVINCIAL PARLIAMENT (**MPP**) for OTTAWA SOUTH since **1990**. **McGuinty** has been known to hold liberal views on many social issues, such as abortion rights, marriage for same-sex couples, and, obviously, extreme views regarding environmental protection. The bottom line is this – **McGuinty** has consistently pandered to minority groups and fringe lobbyists. And he sought to curry favour with the ENVIRONMENTAL TERROR MOVEMENT. Under the **McGuinty** regime, an agency called *The Ontario Trillium Foundation* has been used as a **financial** SHIELD by the *Government of Ontario* for supplying vast amounts of funds to the ENVIRONMENTAL TERROR MOVEMENT that have conspired to prohibit LEGAL, SAFE, and TOTALLY IRREPLACEABLE pest control products.

Because of the **McGuinty** financing of ENVIRONMENTAL TERROR ORGANIZATIONS, and because of his legislating the *Cosmetic Pesticides Ban Act* in **2008**, the PROFESSIONAL LAWN CARE INDUSTRY is systematically being TERRORIZED and ANNIHILATED, with the resulting LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCIES, UNEMPLOYMENT, leading to DESPAIR and DESTITUTION for THOUSANDS of people throughout the GREEN SPACE INDUSTRY. **McGuinty** may have also believed that the rampant municipal prohibitions regarding COSMETIC PESTICIDES were taking power away from his provincial regime. Perhaps the municipalities were flexing their political muscles. Any such large-scale legislation would be unacceptable to any provincial government. Nonetheless, the reasons given for legislating **McGuinty's** own *Cosmetic Pesticides Ban Act* in **2008** were more palatable when the safety of the public, and children in particular, was invoked ...

When there is such widespread concern, why would we take a chance with our health, and our children's health, just for the sake of a few dandelions, or a bit of crabgrass ?

The fact that **McGuinty**'s home riding is OTTAWA SOUTH speaks volumes, since this is the town that has spawned groups operated by ENVIROMANIACS such as the evasive *Coalition for a Healthy Ottawa*, the rabid student-operated *Sierra Club*, and others. Not surprisingly, **McGuinty**, THE BIOLOGY PREMIER, must feel right at home dealing with his allies from the ENVIRONMENTAL TERROR MOVEMENT, since he is, in fact, a BIOLOGIST. We kid you not ! He studied BIOLOGY and earned a **B.Sc.** from *McMaster University* prior to his completion of a second degree in law. (Biologists have traditionally NOT been well-informed about pest control products, but they think they know all there is to know.) In **1983**, **McGuinty** became a senior partner at the family law firm.

Commentary about McGuinty from an Independent Perspective.

Some people claim that they are not surprised that a lawyer with a biology degree would have conspired to prohibit LEGAL, SAFE, and TOTALLY IRREPLACEABLE pest control products. Moreover, **McGuinty** was obviously been influenced by his close friendship with **Jean Charest**, the Premier of Quebec who had legislated his own prohibition, which was finally implemented in **2006**.

Here is a sobering statement from **Tim Hudak**, Member of Provincial Parliament, Niagara West–Glanbrook, *Province of Ontario*. —

Dalton McGuinty's superficial approach is more about grabbing headlines than improving the environment. Substances applied to our lawns, food, parks etc should be subject to strict scientific scrutiny such as the tests done by Health Canada and the World Health Organization. If they don't pass the science, they shouldn't be applied anywhere.

The Ontario Trillium Foundation (O.T.F.).

O.T.F. is a member of the *Ontario Environment Network*. It is also a **financial** SHIELD agency created by the *Government of Ontario* to provide direct funding to organizations in the ENVIRONMENTAL TERROR MOVEMENT. This situation represents one of the great deceptive practices of our society.

Government money acquired from honest and hard-working people in the GREEN SPACE INDUSTRY are re-funnelled through **O.T.F.** to ENVIRONMENTAL TERROR ORGANIZATIONS that conspired to prohibit LEGAL, SAFE, and TOTALLY IRREPLACEABLE pest control products.

For example, **since 1999**, *World Wildlife Fund of Canada (W.W.F.)* alone has been provided with almost **one-quarter of a million dollars** by **O.T.F.**. Thanks to the generosity of **O.T.F.**, **W.W.F.** had the means and/or the infra-structure to legally challenge the GREEN SPACE INDUSTRY in the Hudson-Supreme-Court affair. As we all know, on **June 28th, 2001**, *The Supreme Court of Canada* unfortunately upheld the by-law enacted by the *Town of Hudson* which prohibited the use of pest control products for the PROFESSIONAL LAWN CARE INDUSTRY and DO-IT-YOURSELF HOMEOWNERS. Agriculture and golf clubs were exempted.

The Ontario Trillium Foundation is the largest funder of the environmental not-for-profit sector in Ontario. Between **2001** and **2006**, **O.T.F.** funded over 600 environmental projects across Ontario worth more than **47 million dollars**. These grants supported a wide range of community-based and province-wide initiatives in areas as diverse as public education, the restoration of wildlife habitat, environmental health, and energy conservation. (OTF - BRIEF 104.)

Part 5.

The Ontario Trillium Foundation annual funding was boosted to **105 million from 100 million dollars** in **2007**, and will be further increased to **120 million dollars** in **2009–2010**. This enhanced fund-

ing has resulted in an increase to the maximum amount available for capital grants and the creation of a **two-million-dollar Future Fund**, which focused in **2007–2008** on strengthening the impact of organizations working on environmental issues. (i.e. the *Cosmetic Pesticides Ban Act*) While the *Government of Ontario* was seemingly listening to all interested parties regarding the fate of COSMETIC PESTICIDES, it was ostensibly conspiring to prohibit LEGAL, SAFE, and TOTALLY IRREPLACEABLE pest control products by financing several ENVIRONMENTAL TERROR ORGANIZATIONS.

In **2007–2008** alone, almost **one-half million dollars** was provided by *The Ontario Trillium Foundation* to groups in the ENVIRONMENTAL TERROR MOVEMENT dedicated to the annihilation of the GREEN SPACE INDUSTRY. During the period **1999–2009**, **over one-and-a-half million dollars**. As we all know, the *Province of Ontario* introduced legislation for the *Cosmetic Pesticides Ban Act* on **April 22nd, 2008**. Thanks to **O.T.F.** funding, public affairs lobbying, and advertising campaigns orchestrated by the ENVIRONMENTAL TERROR MOVEMENT were financially strong enough to guarantee the passage of the *Cosmetic Pesticides Ban Act*. **O.T.F.** will likely claim that the money was never given for this purpose. But hey! **O.T.F.** DID pay for some of the infrastructures of several ENVIRONMENTAL TERROR ORGANIZATIONS that conspired to prohibit LEGAL, SAFE, and TOTALLY IRREPLACEABLE pest control products. Evidently, most of these groups used **O.T.F.** money, directly or indirectly, to change public policy concerning COSMETIC PESTICIDES. This may be a clear conflict-of-interest – to use government money for the purpose of conspiring to prohibit LEGAL, SAFE, and TOTALLY IRREPLACEABLE pest control products. Coincidentally, large sums of money were provided by *The Ontario Trillium Foundation* during the period of time covering the public debates on the Toronto prohibition and the Ontario prohibition (**2001–2008**). As we all know, the *Court of Appeal for Ontario* concluded in **2004** that the *City of Toronto* DID have the authority to pass its by-law that prohibited the use of pest control products. Then, in **2008**, the *Cosmetic Pesticides Ban Act* was legislated by the *Government of Ontario*. The success of these prohibitions were clearly financed by **O.T.F.**, as well as other sources. O.T.F. funding of organizations advocating prohibition.

Here is a review of where **O.T.F.** dollars were spent with those organizations that conspired to prohibit LEGAL, SAFE, and TOTALLY IRREPLACEABLE pest control products. —

- *Canadian Association of Physicians for the Environment (C.A.P.E.). — 255,000 dollars (2002–2007).*
- *Canadian Environmental Law Association (C.E.L.A.). — 202,200 dollars (2007–2008).*
- *Canadian Institute for Environmental Law and Policy (C.I.E.L.A.P.). — 25,000 dollars (1999–2000).*
- *Canadian Partnership for Children's Health and the Environment (C.P.C.H.E.). — 264,500 dollars (2006–2007).*
- *Environmental Defence Canada. — 674,100 dollars (2004–2009).*
- *Sierra Club of Canada. —*
Trillium financing is definitive, but the amounts are unknown at this time.
- *World Wildlife Fund of Canada (W.W.F.). — 224,000 dollars (1999–2007).*

Agency rules. This would include advocacy efforts which are politically motivated or supportive of a specific political party or viewpoint. Further to this we have an internal policy that reiterates this position. This policy was last reviewed in 2008. Therefore, to be clear, the OTF did not fund activities by the organizations listed below as you have implied in your article.

The O.T.F. culprits.

The following people associated with **O.T.F.** are the CULPRITS that can be held accountable for financing ENVIRONMENTAL TERROR ORGANIZATIONS that have conspired to prohibit LEGAL, SAFE, and TOTALLY IRREPLACEABLE pest control products. They are FINANCIALLY responsible for the *Cosmetic Pesticides Ban Act* being legislated by the *Government of Ontario*.

FORCE OF NATURE was launched for continuous transmission on the Internet on January 1st, 2009. It is a series of e-newsletters destined for the GREEN SPACE INDUSTRY, the ENVIRONMENTAL MOVEMENT, politicians, municipalities, and the media, nation-wide across Canada, and parts of the United States. FORCE OF NATURE is produced in two parts. First, The MEDIA REPORT itself that reports on the current events affecting the future of the GREEN SPACE INDUSTRY. Second, INDEPENDENT PERSPECTIVE, which is a running commentary, sometimes also of a more technical in nature.

FORCE OF NATURE is the brainchild of William H. Gathercole and his entourage. The opinions expressed in these e-newsletters, even though from an INDEPENDENT PERSPECTIVE, may not reflect those of everyone in the GREEN SPACE INDUSTRY, or Mr. Gathercole's many associates. Be warned! Mr. Gathercole and his team may sometimes be very irreverent and fearless with these e-newsletters.

William H. Gathercole holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the GREEN SPACE INDUSTRY, including public affairs, personal safety, and environmental issues. Mr. Gathercole has been a consultant and instructor for decades. Mr. Gathercole has been following the evolution of ENVIRONMENTAL TERRORISM for over a quarter-century. His involvement in environmental issues reached a fevered pitch in the 1990s, when he orchestrated, with others, legal action against unethical and excessive municipal regulations restricting the use of pest control products. (i.e. the Town of Hudson.) Although he can be accused of being ANTI-ENVIRONMENT-MOVEMENT, he is, in fact, simply a strong advocate FOR the GREEN SPACE INDUSTRY. However, this position has not precluded him from criticizing the industry itself. Nonetheless, his vast knowledge of our long journey with environmental issues is UNDENIABLE. (Hopefully!) For many years, Mr. Gathercole has been a contributing columnist for TURF & RECREATION Magazine, Canada's Turf and Grounds Maintenance Authority.

All pictures contained in FORCE OF NATURE were found somewhere on the Internet. We believe that they are in the public domain, as either educational tools, industry archives, promotional stills, publicity photos, or press media stock.

Information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader. The events, characters, companies, and organizations, depicted in this document are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental.
