Overview from an Independent Perspective

The Province of Ontario is currently under a Liberal government headed by Premier Dalton McGuinty. The present Ontario government, first elected in 2003, was re-elected on October 10th, 2007.

It is affectionately called the McGuinty-Ontario-Environmental-Terror-Regime, which is the POLITICAL SHIELD for the Environmental-Terror-Movement, functioning as its LEGISLATIVE INSTRUMENT of PROHIBITION POLICY against pest control products. The actions of this government are viewed as a form of TERROR against the Green Space Industry.

The McGuinty-Enviro-Terror-Regime passed legislation implementing a « *cosmetic pesticides ban* » that took effect April 22nd, 2009. The requirements of the prohibition are detailed in Ontario Regulation 63/09 and the Pesticides Act, which was amended by the Cosmetic Pesticides Ban Act.

The RAPE, ASSAULT, and TERROR against the Green Space Industry by the McGuinty-Enviro-Terror-Regime DID NOT stop with pest control products.

In 2010, the government implemented a DESTRUCTIVE program of FEES and TAXES for ALL types of fertilizers — Municipal Hazardous or Special Waste Program Plan (MHSW) and Harmonized Sales Tax (HST).

Under the NEEDLESS, SENSELESS, and MALICIOUS policies of MHSW program, the Fertilizer Industry was COERCED into paying the entire cost of so-called FERTILIZER WASTE. This cost would then be PASSED ON to the end-users in the Green Space Industry. Consequently, the Green Space Industry is being forced to spend even more of its limited financial resources on Enviro-Maniac programs.

MHSW is NOT a program for protecting the environment.

MHSW is a PLOY that ensures money and employment for GREEDY and AVARICIOUS Enviro-Maniac-Government-Officials who have guaranteed themselves SAFE, SECURE, GUARANTEED, and WELL-PAYING ENVIRO-TERROR-JOBS at the expense of the Green Space Industry.

Environmental-Terror will NEVER End !

The Ontario Ministry of the Environment is the Enviro-Maniac-Basterd Ministry RESPONSIBLE for the Municipal Hazardous or Special Waste Program Plan (MHSW).

Stewardship Ontario (SO) is the ADMINISTRATOR for MHSW. Stewardship Ontario is a Basterd-Agency infested with Enviro-Maniacs !

The Coercive-Enviro-Maniacs at Stewardship Ontario who IMPOSED the Special Waste Program Plan (MHSW) are SCAMMING the public regarding the Fertilizer Industry, with FEAR-MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES.

Stewardship Ontario CONCOCTED the story that VAST QUANTITIES of fertilizer are being thrown away in landfill sites every year.

Here is the Basterd Stewardship Ontario description of its DESTRUCTIVE FEES by using WEASEL-WORDS like « *Eco-Fees* » —

<< *That's where the environmental fee — sometimes referred to as an « Eco-Fee » — comes in. In many cases, the costs of recycling products that are covered under Orange Drop have already been absorbed into the sticker price. In others, stewards pass the fee onto retailers who may make the cost transparent by itemizing it on your cash register receipt. You may already have noticed a separate « environmental » or « eco » fee added to the price of things like solvents, antifreeze, fluorescent bulbs or fertilizer at checkout. When you pay this fee, you're helping ensure that these products are collected, recycled or reused or, when that's not possible, disposed of in the most environmentally friendly way.* >>

Stewardship ONTARIO

Basterd-Agency infested with
Enviro-Maniac-Activists !

John Gerretsen is the Minister responsible for the MHSW.

Gerretsen is the Master-Basterd-Enviro-Maniac-Minister who IMPOSED the PROHIBITION of PEST CONTROL PRODUCTS in the Province of Ontario.

This was achieved with strategies of CONCOCTED FEAR-MONGERING, THREATS, MISCONCEPTIONS, TERROR, FRAUDULENT LIES, COERCION, DECEPTIONS, and PARANOID CONSPIRACIES.

The same concocted strategies were subsequently used AGAINST the Fertilizer Industry.

There are serious issues with Gerretsen, who has been INDISCREET with his close public ties with Enviro-Maniac-Activists, raising the question about the radical interests of the Enviro-Lobby taking precedence in the community.

In January 2010, the Green Space Industry outlined the LIST OF CHARGES against the McGuinty-Ontario-Enviro-Terror-Regime and the Ministry of the Environment. Additionally, individual Enviro-Maniac members of Environmental-Terror-Organizations are also facing FRAUD CHARGES under the Canadian Criminal Code. The legal challenge is being organized by Jeffrey Lowes and M-REP Communications.

Municipal Hazardous or Special Waste Program Plan (MHSW) specifically targets small businesses, as well as home-owners. MHSW is an extension of the consumer blue box/municipal hazardous waste collection programs. More importantly, MHSW imposes DESTRUCTIVE FEES.

MHSW IMPOSES DESTRUCTIVE FEES on products such as ...

- Aerosols
- Anti-Freeze
- Batteries
- Corrosives
- Domestic Class Pesticides
- Fertilizers
- Flammables or Toxic Materials
- Oils
- Paints
- Solvents.

MHSW IMPOSES DESTRUCTIVE FEES on ALL PACKAGED FERTILIZER PRODUCTS (including manure/compost), in 30-kilogram-packages and under, that make a PLANT NUTRIENT CLAIM, whether federally-registered or not.

MHSW program costs are funded by those industries that produce and use the materials.

The BLOATED budget of the Municipal Hazardous or Special Waste Program Plan (MHSW) is 1.7-MILLION-DOLLARS PER YEAR, which will be covered by an increase in the cost of fertilizer paid by the end-users.

The DESTRUCTIVE MHSW FEE increases the cost of fertilizer by at least FIFTY-EIGHT CENTS PER 25-KILOGRAM-BAG.

This DESTRUCTIVE FEE WILL BE INCREASED over time — Stewardship Ontario intends to « adjust » (i.e. increase) the DESTRUCTIVE MHSW FEE at a later date.

Overview from an Independent Perspective

Moreover, Stewardship Ontario wanted to SPECIFICALLY ENSURE that the HATED Golf Industry is NOT excepted from this program.

Since the prohibition of pest control products in Ontario, Enviro-Maniac-Government-Officials have understood full well that THERE IS NO UNITY within the Green Space Industry.

When the prohibition of « *cosmetic pesticides* » was imposed in Ontario, the leadership of the Golf Industry, because of its attitude of denial and protectionism, and mock-dismay at ANY form of suggestion or criticism, REFUSED TO UNITE with the Professional Lawn Care Industry to LITIGATE against the Vermin of Environmental-Terror.

With prohibition in Ontario, Enviro-Maniac-Government-Officials soon tasted victory with the ANNIHILATION of the Professional Lawn Care Industry. This validated their HATRED of the Golf Industry, which is now specifically targeted in the next round of attacks.

As a consequence of the INACTION of the Golf Industry, Enviro-Maniac-Government-Officials are ABSOLUTELY NOT intimidated by the WEAK, IMPOTENT, and SLOVENLY Golf Industry.

The Golf Industry has now begun to LOSE its TOTAL EXCEPTION STATUS in Ontario.

The Golf Industry is now totally alone, and devoid of ANY allies to help defend itself.

Additionally, the McGuinty-Environmental-Terror-Regime has UNFAIRLY DISCRIMINATED with EXCEPTIONS to the DESTRUCTIVE MHSW FEES —

- MHSW Exception granted for bulk fertilizer —
 - ☑ Agriculture — Exception
 - ☑ Forestry — Exception
- No MHSW Exception —
 - ☑ Exception Do-It-Yourself Homeowners
- No MHSW Exception other than for bulk fertilizer —
 - ☑ Golf Courses — No MHSW Exception
 - ☑ Greenhouse Production — No MHSW Exception
 - ☑ Lawn Bowling — No MHSW Exception
 - ☑ Nursery Production — No MHSW Exception
 - ☑ Professional Lawn Care — No MHSW Exception
 - ☑ Sod Growers — No MHSW Exception
 - ☑ Sports Fields — No MHSW Exception

PREDICTION — The Golf Industry EXCEPTION STATUS will be ENTIRELY REVOKED within two to four years — this will include pest control products.

Basterd STEWARDSHIP ONTARIO Agency Wants
Businesses to BURY the Cost of their
DESTRUCTIVE Eco-Fees in their Sticker Prices

July 14th, 2010

Antonella Artuso

(Queen's Park Bureau Chief)

Toronto Sun

Ontario businesses will not allow themselves to be turned into SCAPEGOATS for a poorly executed [the destructive] Eco-Fee program, says Satinder Chera of the Canadian Federation of Independent Business.

According to Chera —

<< Governments are great at passing laws and when things go right they're the first to take credit for it. But, whenever there is back-lash, they're the first to run for the door. And on this particular one, they're trying to hang businesses out to dry — and I don't think it's going to work. >>

The arrival of the 13 per cent Harmonized Sales Tax and a new Eco-Fee forced up the price of thousands of consumer goods on July 1 [2010]. It has left businesses and consumers scrambling to understand the complicated new rules, said Chera.

An e-alert from Stewardship Ontario encouraging businesses TO BURY THE COST of the Eco-Fees IN THEIR STICKER PRICES is NOT going over well, Chera said.

Businesses want transparency and accountability around [the destructive] Eco-Fees, and that means letting customers know at the cash register that the government and Stewardship Ontario are responsible for the added costs, he said.

Enviro Terror NEVER Ends !

The Continuing Conspiracy EVEN SPREADS to fertilizers

According to Satinder Chera —

<< They're [Stewardship Ontario] trying to cover their own butts on this one. This is a fee that obviously businesses have to either eat themselves or obviously pass on to their customers. And at a time when businesses are being hit with so many different costs, the money's got to come from somewhere. >>

Environment Minister [and Enviro-Maniac] John Gerretsen said the goal of the program is to divert hazardous household waste from landfill and water supplies, and the fees charged by Stewardship Ontario are needed to finance the effort.

However, some retailers are passing on inflated Eco-Fees to consumers, something the minister wants stopped right now.

According to [Enviro-Maniac] John Gerretsen —

<< My main concern is that the consumer doesn't get overcharged. We've all learned from this experience, obviously, and I want to see improvements in it ... If it can't be resolved, then we may have to take the ultimate action and not allow Eco-Fees to be charged at all at the consumer level. >>

Chera said that while a few companies are likely taking advantage of the confusion to overcharge some customers on Eco-Fees, most businesses are honestly trying to meet the uncertain demands of the HST and the Eco-Fees, he said.

Chera said businesses are still struggling to get straight answers on the HST, let alone the new Eco-Fees.

According to Satinder Chera —

<< It's little wonder that I think businesses are feeling a bit under siege right now because so there's so much that's hitting them all at once. >>

Ontario getting easy ride on HST
compared to British Columbia

June 18th, 2010

Lee Greenberg

Ottawa Citizen

Selected and adapted excerpts

Despite championing a WILDLY UNPOPULAR NEW TAX, Ontario's government remains relatively popular among voters, according to results of the latest POLL for Canwest News Service.

Roughly three-quarters of the population is AGAINST THE TAX, according to numerous polls.

In British Columbia, the introduction of [the destructive] Harmonized Sales Tax (HST) has caused a 20-point drop in support for Premier Gordon Campbell, who now sits at 26 per cent support.

Opposition to the HST is so strong in [British Columbia] that Campbell was deserted by his energy minister, Blair Lekstrom, who resigned from caucus to protest the move.

Observers say Ontarians, by temperament, are more likely to TOLERATE political initiatives they do not necessarily like. Ontario Premier Dalton McGuinty was re-elected after breaking a 2003 campaign pledge not to raise taxes.

Last month, McGuinty admitted the [destructive] HST amounted to a TAX INCREASE for families.

McGuinty has earned a reputation as The Easily Forgiven Teflon Premier.

Background Information from an Independent Perspective

FERTILIZER SOLD IN ONTARIO MAY BE SUBJECTED TO AN INCREASE OF AT LEAST 50 TO 75 DOLLARS PER METRIC TON

Observers are particularly disappointed with Canadian Golf Superintendents Association (CGSA). This trade association has yet again failed its members.

Instead of confronting the issues of the DESTRUCTIVE program of FEES and TAXES, it preferred to *Wag The Dog* by generating pointless policy papers, and by addressing irrelevant issues such as « *saving* » quintozene.

The official CGSA reaction to HST is this —

<< HST is now in effect !!! Pay your membership dues prior to receiving your second notice. Second notices will be mailed out by August 15th, 2010 ! >>

Furthermore, the leadership of Canadian Golf Superintendents Association (CGSA) endorses Prohibition and Environmental Terror.

This disgusting and unacceptable decision was never ratified by the 1,500 professional members of CGSA.

Observers are also disappointed with Landscape Ontario (LO). This trade association has also failed its members.

Instead, it prefers to organize pointless conferences on Integrated Pest Management, and to support the policies of the Environmental-Terror-Movement.

The official LO reaction to HST is this —

<< As we continue to live with the new regulations, we have new challenges on the horizon. These include the HST, Stewardship Ontario and fertilizer bans. Landscape Ontario and the sector group are working to create seminars and meetings to find out more information on these topics. >> — February 5th, 2010

Warning and Prediction

Now that Enviro-Maniac-Government-Officials have been successful in imposing the DESTRUCTIVE program of FEES and TAXES for ALL types of fertilizers used by the Green Space Industry ...

... other North American jurisdictions will realize that they can easily inflict Environmental-Terror on the Green Space Industry with little or no resistance. They will proceed to RAPE, ASSAULT, and TERRORIZE the industry on a larger scale. Environmental-Terror will NEVER End !

Summary of the repercussions of MHSW and HST

The Ontario Municipal Hazardous and Special Waste Program Fee (MHSW) INCREASES the cost of fertilizer by at least FIFTY-EIGHT CENTS PER 25-KILOGRAM-BAG.

The Ontario Harmonized Sales Tax (HST) INCREASES the cost of fertilizer by at least ONE-DOLLAR-AND-TWENTY-FIVE-CENTS PER BAG WEIGHING 25-KILOGRAMS.

Fertilizer sold in Ontario to the Green Space Industry is subjected to an INCREASE of at least 50 TO 75 DOLLARS PER METRIC TON.

In the Golf Industry, an 18-hole-golf course requiring 30 metric tons per year will need to increase its fertilizer budget by over TWO-THOUSAND DOLLARS.

Enviro-Terror NEVER Ends — and it has EVEN SPREAD to fertilizers.

Force Of Nature presents THE WHOLE TRUTH FROM AN INDEPENDENT PERSPECTIVE from National Organization Responding Against Huje that seek to harm the Green Space Industry (NORAHG). It is a series of Reports destined for the Green Space Industry, the Environmental Terror Movement, Governments, and the Media, nationwide across Canada, the United States, and overseas. The information presented in Force Of Nature has been developed for the education and entertainment of the reader by providing a sequence of historical events WITH COMMENTARY. The neutrality of these Reports might be disputed.

Huje is a term used to describe Enviro Maniac Activists that routinely concoct FEAR MONGERING, FRAUDULENT LIES, MISCONCEPTIONS, COERCION, THREATS, DECEPTIONS, TERROR, and PARANOID CONSPIRACIES that are DESIGNED to SCAM and DECEIVE the public into believing that families are in some NON-EXISTENT danger with conventional pest control products. Huje also SCAM and DECEIVE Government Officials into the NEEDLESS, SENSELESS, and MALICIOUS prohibition of FEDERALLY LEGAL, SCIENTIFICALLY SAFE, TOTALLY IRREPLACEABLE, and ABSOLUTELY INDISPENSABLE conventional pest control products.

All information, excerpts, and pictures contained in this Report were found somewhere on the Internet, and may be considered in the public domain, serving one of the following purposes — archive, education, promotion, publicity, or press release. The events, characters, companies, and organizations, depicted in this Report are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. Force Of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry. Don't thank us. It's a public service. And we are glad to do it.

Force Of Nature, and its various incarnations, is the brainchild of William H. Gathercole and his entourage. Mr. Gathercole is a principal FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the Green Space Industry, including GOLF, PROFESSIONAL LAWN CARE, and CHEMICAL INDUSTRY, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised, consulted, programmed, and/or overseen the successful and safe execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For MANY years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority. Mr. Gathercole is now retired from Force Of Nature, although his name continues to appear as the FOUNDER. Mr. Gathercole is personally credited for crafting the Golf Industry Exception Status, that endures to this day. He is also the creator of the signs that are now used for posting after application. His vast knowledge of our long journey with Environmental Issues is UNDENIABLE — hopefully! For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaranteed the control of Environmental Terror for the entire Modern Green Space Industry across Canada. Mr. Gathercole's involvement in Environmental Issues reached a fevered pitch in the 1990s, when he orchestrated, with his colleagues, legal action against the Forces of Environmental Evil in the Town of Hudson, Quebec. Mr. Gathercole is the ONLY TRUE RELIABLE WITNESS of the Hudson Affair.

Mr. Gathercole and his entourage have followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter century. Through Force Of Nature, Enviro Maniac Activist Huje are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each Enviro Maniac Culprit is a misguided adversary, each still deserves our respect. The use of the terms Maniac, Culprit, Terrorist, or Basterd are not accusations of any legal wrong doing. Force Of Nature is simply holding Enviro Maniac Activists accountable for conspiring to change public policies that TERRORIZE, HARM, and THREATEN the Green Space Industry. Their pretentious prohibitionist rants have created LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, and UNEMPLOYMENT, inflicting DESPAIR and DESTITUTION for THOUSANDS of hapless victims throughout the Green Space Industry. The DEPRAVED INDIFFERENCE of Maniac Culprit Terrorist Basterd Huje is viewed as a form of TERROR, HARM, and THREAT against the Green Space Industry.
