Media Release

November 16th, 2009

Joint statement marshals forces to greening health care

Ottawa — Twelve national organizations representing all areas of the health sector, joined by the **David Suzuki Foundation**, have produced a joint statement spelling out a new commitment to creating an environmentally responsible health sector. It is being released just prior to the Copenhagen Climate Summit in December to help raise environmental awareness and action.

" Obviously, there is a direct link between health and the environment and Canada's physicians are committed to following environmentally responsible practices as they care for patients, " said **Canadian Medical Association** President Dr. **Anne Doig**.

Suzuki National Alliances

Special Report

16/11/2009

In addition to setting out the vision and collaborative approach for achieving a greener health care system and processes, *Toward an Environmentally Responsible Canadian Health Sector*, also includes three calls to action :

- **THAT GOVERNMENT AT ALL LEVELS UNDERSTAND AND ADDRESS LINKS BETWEEN HEALTH AND THE ENVIRONMENT AND INCORPORATE THESE LINKS INTO POLICY DECISIONS THROUGH LEGISLATIVE AND BUDGETARY ACTIONS.**
- That health care organizations pledge to minimize the negative impact of their activity on the environment and to seek solutions to existing barriers.
- That individuals working in the health care sector both model and advocate for environmentally responsible approaches to delivering health care without compromising patient safety and care.

Suzuki National Alliances

Special Report

16/11/2009

" We congratulate Canada's health professionals for setting the agenda for an environmentally responsible health sector," said Peter Robinson, CEO of the David Suzuki Foundation. *" Leadership from this sector is needed to put Canada on the path of sustainability and protect the environment upon which all life depends. "*

" Canada's nurses feel that the health sector must be a leader in promoting environmentally responsible practices, " concluded Kaaren Neufeld, President of the Canadian Nurses Association. *" We want to make greening the health sector a priority for all organizations and individuals involved in delivering health care services to Canadians. "*

" As health leaders in today's world we have an obligation to demonstrate our commitment to environmental stewardship by reducing waste and our annual energy footprint. In doing so we improve the long term health of the communities we serve. "

Ray J. Racette, MHA, CHE
President & CEO,
Canadian College of Health Service Executives

" This Joint Position Statement is an unprecedented show of commitment and support for the adoption of sustainable health care practices from Canada's major health service organizations and the Canadian Coalition for Green Health Care. Our members are proud to have played an active role in its development. The Statement further reinforces our decade-long commitment to working with a broad range of stakeholders to positively influence the ecological impact of the Canadian health care system. "

Kent Waddington
Communications Director and Founding Member
Canadian Coalition for Green Health Care

" Environmental change threatens the health of human populations across our globe and thus behooves health organizations to be leaders in reducing our impact on the climate. Human health and environmental change will be major drivers of global decisions through this century, and Canada is positioned to model the necessary changes to our internationally acclaimed health care system to be global leaders in reducing our environmental impacts. "

Matthew Hodge, MDCM, PhD, FRCPC
President,
National Specialty Society for Community Medicine

" The health sector in Canada must do its part in protecting the health and well-being of all Canadians by taking responsibility for its environmental foot-print. Delivering environmentally responsible health care is everyone's business. "

Debra Lynkowski,
Chief Executive Officer,
Canadian Public Health Association

" The Canadian Dental Association is supportive of the call to action on the protection of the environment in the context of health care. We encourage change in consumption patterns and best practices of ecologic stewardship. After all, this stewardship is in the best interest of everyone's health. "

Don Friedlander, BSc, DDS,
President,
Canadian Dental Association

" CAPE is delighted that the Call to Action urges health workers to be environmental advocates. With the world now striving to build a new climate change agreement, this advocacy is more important than ever. "

Gideon Forman,
Executive Director
Canadian Association of Physicians for the Environment

" Pharmaceuticals can have a detrimental effect on the environment if not disposed of properly. We look forward to working collaboratively to achieve a greener health sector. "

Dwight Ball
President,
Canadian Pharmacists Association

Suzuki National Alliances

Special Report

16/11/2009

" A healthy economy is created, sustained and grown by healthy Canadians. The Call to Action presented in this position statement encourage all Canadians to strive for a sustainable environmental future. A green health system will become a reality through the innovative actions of policy-makers, health professionals, system leaders, and all those who use the system. CHA members are pleased to be a part of this positive and forward-thinking vision for Canada's health system. "

Pamela C. Fralick
President and CEO,
Canadian Healthcare Association

" Understanding the importance of environmental conservation and the benefits that can be achieved, ACAHO is very pleased to participate in the development of this joint position statement. In our view, one of the keys to advancing environmentally responsible practices is to continue to move forward with a combination of physical infrastructure renewal and best practices. "

Glenn Brimacombe
President and CEO
Association of Canadian Academic Healthcare Organizations

" Members of the Canadian Healthcare Engineering Society have worked tirelessly throughout the past decade to blend environmentally sustainable health service delivery practices with day-to-day operations at hundreds of health care facilities across Canada. We are succeeding in lowering health care's ecological footprint and are proud to work in partnership with the most influential health care organizations in Canada to achieve that goal. Together we commit to creating the sustainable health service environment needed to preserve our natural environment for future generations. "

Michael Hickey
Canadian Healthcare Engineering Society

**Suzuki National Alliances
are THE GREATEST THREAT
to the future of the Modern
Green Space Industry!**

Suzuki National Alliances

Special Report

16/11/2009

Force of Nature was launched for continuous transmission on the Internet on January 1st, 2009. It is a series of e-newsletters destined for the GREEN SPACE INDUSTRY, the Environmental Terror Movement, government officials, municipalities, and the media, nation-wide across Canada, and parts of the United States and overseas. FORCE OF NATURE is produced in two parts. First. The MEDIA REPORT itself that reports on the current events affecting the future of the GREEN SPACE INDUSTRY. Second. INDEPENDENT PERSPECTIVE, which is a running commentary, sometimes technical in nature. Force of Nature is the WHOLE TRUTH from an INDEPENDENT PERSPECTIVE ! Force of Nature is TOTALLY INDEPENDENT of any trade association or business operating within the Green Space Industry.

FORCE OF NATURE is the brainchild of William H. Gathercole and his entourage. Norah G is actually an acronym for the stable of anonymous producers and writers that contribute to this e-newsletter and have now replaced Mr. Gathercole. They consist of people from the following industries : Distribution, Fertilizer, Golf, Lawn Care, Manufacturing, Municipal, Nursery, Orchard. Many of these people are leaders in their own industries. The opinions expressed in Force of Nature, even though from an INDEPENDENT PERSPECTIVE, may not reflect those of everyone in the GREEN SPACE INDUSTRY, or Mr. Gathercole's many associates. Be warned ! Force of Nature may sometimes be very irreverent and fearless with these e-newsletters. DON'T THANK US, IT'S A PUBLIC SERVICE. AND WE ARE GLAD TO DO IT. Mr. Gathercole is now retired from Force of Nature, although his name continues to appear as the founder.

William H. Gathercole is a FOUNDER of the Modern Professional Lawn Care Industry in BOTH Ontario and Quebec. He holds a degree in Horticulture from the UNIVERSITY OF GUELPH, and another pure and applied science degree from MCGILL UNIVERSITY. He has worked in virtually all aspects of the GREEN SPACE INDUSTRY, including GOLF and PROFESSIONAL LAWN CARE, and has served in public affairs, workplace safety, and environmental compliance. Mr. Gathercole has supervised-consulted-programmed-overseen the execution of HUNDREDS OF THOUSANDS of pest control applications in the urban landscape. He has trained, instructed, and consulted with, THOUSANDS of turf managers and technicians. Mr. Gathercole has also been an agricultural agronomist. For many years, Mr. Gathercole was a contributing columnist for TURF & Recreation Magazine, Canada's Turf and Grounds Maintenance Authority.

Mr. Gathercole has followed the evolution of ENVIRONMENTAL TERRORISM for over a quarter-century. His involvement in environmental issues reached a fevered pitch in the 1990s, when he orchestrated, with others, legal action against unethical and excessive municipal regulations restricting the use of pest control products. (i.e. the Town of Hudson, Quebec.) For FIFTEEN YEARS, the strategies designed and implemented by Mr. Gathercole and his colleagues guaran-

teed the control of Enviro-Terror for the Entire Green Space Industry across Canada. Although he can be accused of being ANTI-ENVIRONMENT-MOVEMENT, he is, in fact, simply a strong advocate FOR the GREEN SPACE INDUSTRY, from an INDEPENDENT PERSPECTIVE. However, this position has not precluded him from criticizing the Green Space Industry itself. Nonetheless, his vast knowledge of our long journey with environmental issues is UNDENIABLE. (Hopefully !)

All document excerpts and pictures contained in FORCE OF NATURE were found somewhere on the Internet. We believe that they are in the public domain, serving one of the following purposes : archive, education, promotion, publicity, or press release.

We believe that ENVIRONMENTAL TERRORISM can be STOPPED ! Information presented in FORCE OF NATURE has been developed for the education and entertainment of the reader. The events, characters, companies, and organizations, depicted in this document are not always fictitious. Any similarity to actual persons, living or dead, may not be coincidental. The mission of Force of Nature is as a National Organization Responding Against Huje that harm the Green Space Industry with statements and activities seeking to prohibit FEDERALLY LEGAL, SCIENTIFICALLY SAFE, and TOTALLY IRREPLACEABLE conventional pest control products. Culprits are identified on the basis of their statements, activities, affiliations, and whereabouts. Even though each culprit is a mis-guided adversary, each still deserves our respect. The terms culprit or terrorist are not an accusation of any legal wrong-doing. Force of Nature is simply holding culprits accountable for conspiring to change public policies that TERRORIZE and THREATEN the Green Space Industry. Force of Nature believes that the prohibitionist policies of the Environmental Terror Movement will lead to LOSS OF REVENUES, BUSINESS FAILURES, BANKRUPTCY, UNEMPLOYMENT, leading to DESPAIR and DESTITUTION for THOUSANDS of people throughout the Green Space Industry. The actions of culprits in the movement are viewed as a form of TERROR against the Green Space Industry.
