I am very frustrated with this company. We've been with weed man for the past 4 years now and our lawn is worse now than it has ever been. In fact I just cancelled our services for next season. Their weed control either does not work or is not applied properly. And when I call to complain I get excuse after excuse. And when I call to inquire when my lawn will be serviced they would tell me a specific day or two, weather permitting of course, and even if the weather conditions are favourable they still don't show. So of course I would have to call back to inquire again and find out that they have no documented notes that someone was to come out for service on the day I was told. Horrible company! They have single handed RUINED \$15000.00 of landscaping!! With the heat of the summer, in their infinite wisdom, applied fertilizer to my lawn 2 weeks in a row..result..completely burnt every blade of grass!! As we were away for the week, we did not know they were coming since they attended the week before so the grass wasnt watered, hence the burned grass, shrubs, flowers...EVERYTHING!! Never Ever Again. Will be contacting my lawyer!!

We started services with Weedman last year and nothing but a nightmare. Scheduled for 5 visit and was months in between each service. The last time they came in October I paid the bill that they left. Received a call in February from a collection agency saying I had an outstanding balance. Called Weedman was told that they performed 2 services the last time they came in October and that I had 2 bills and that I had only paid one. So I paid the outstanding one and told them that I was not... [read more](#)

Company response:

I would like to discuss your concerns in detail as I am not sure if I was able to find your account information just by searching your last name. We do not send any of our customers to collections without a minimum of 2--3 statement letters and multiple in house account receivable calls to remind our customer of an over due balance. If there is a concern with the service we are providing please call customer service so we can take care of this concern. Please contact my office so we can take care of you, as I have never had a customer suggest that they cancelled services and no one cared to ask why that is not how we take care of our customers. One of my senior customer service agents will want to discuss this with you immediately. Please call our office to check on the cancelation of your 2012 program and to resolve these concerns and get answers on why your lawn is not in good shape and what we can do to help fix it. The worst company you can hire. Our lawn actually looks worse now. They could not even spell my last name correctly. This is a company that is serious? Huh what a joke. They took my money!

In all the years we have owned our home, the lawn has never looked as bad as it has this year. Weed Man promises much but has delivered little. We have more weeds on our lawn than neighbours who have had nothing done!!! I would never recommend Weed Man to anyone.

Weedman Weed Control

[Frustrated Aurora Homeowner in Aurora](#)¹ | Aug 22, 2012

In short, a nightmare. I had for the last 2 years with many many phone calls, pictures and zero results. They even started again this year although I did not order - said I was on "continuous service". The absolute worst customer experience I have ever had. I manually weeded and fertilized this year with fantastic results. Never ever do business with them

Total grass area to maintain: 30'x 30' max False advertising with respect to results and fraudulent application (weeds not treated but was invoiced)...worst investment I have ever made, now have the worst lawn in the neighbourhood! Apparently you have to call repeatedly to have a reapplication done to ensure you get the results they boast about. Avoid Weed Man at all costs, you are better off doing it yourself.

Please contact my office as our guarantee is to reapply the weed control service at no charge within 5-7 days if the customer request it to be done. Our office schedules 4 weed control treatments during the course of the entire season, two of them at no charge. If you require more because of the original state of your lawn, rain soon after the service was applied or any other reason we will do so at no charge. I am unsure if you are in my service area but if there was every a service invoice left without a service being performed contact us immediately as this is something we take very seriously. Good regular service, keeps the weeds off my lawn (a noticeable improvement versus my neighbours). Grub control has helped. When I've needed a re-application a quick phone call and they return promptly.
