JULY 17th, 2012

LETTER TO THE EDITOR — MEDIA RELEASE
RESPONSE TO NANCY FALCONER — SHORT VERSION
BCLOCALNEWS.COM
BRITISH COLUMBIA

Nancy Falconer is a non-expert anti-pesticide lobbyist who is paid to concoct imaginary dangers for Canadian Cancer Society.

Both Falconer and her organization would like to IMPOSE PROHIBITION against pest control products used in the Urban Landscape.

Not surprisingly, neither Falconer, nor any of her co-conspirators, has ANY recognized background, training, or experience in matters concerning pest control products.

Are we to believe that an assessment on pest control products from Falconer is somehow worth more than Health Canada ?!?!

Falconer's opinions are FLAWED, DISTORTED, VALUELESS and WORTHLESS.

Falconer Is Wrong About Cancer !

It is COMMON KNOWLEDGE that there are NO pest control products that are known or probable carcinogens.

Environmental Protection Agency's (EPA) and Health Canada's EXTENSIVE TOXICOLOGY DATABASES INDISPUTABLY PROVE that pest control products are SCIENTIFICALLY SAFE and DO NOT CAUSE CANCER !

There is NOT ONE KNOWN CANCER DEATH from the proper use of pest control products used in the Urban Landscape.

Health Canada, and NOT Canadian Cancer Society, has THE ESSENTIAL EXPERTISE on the subject of pest control products.

NORAHG

Even Canadian Cancer Society's own web-site states that scientific research does NOT provide a conclusive link between pesticides and human cancer.

CANADIAN CANCER SOCIETY - NO DIRECT PROOF PESTICIDES CAUSE CANCER
(Web-Page)

<http://wp.me/P1jq40-4qC>

Pest control products are SCIENTIFICALLY SAFE, and NO HARM WILL OCCUR when they are used according to label directions.

THE MYTH OF CANCER (Web-Page)

<http://wp.me/P1jq40-2nl>

Falconer Is Wrong About Green Alternatives !

It is IMPOSSIBLE for home-owners or professionals to keep their properties beautiful by using so-called GREEN ALTERNATIVE PESTICIDES.

In many cases, Green Alternative Pesticides are questionably HIGHER IN TOXICITY, and pose HIGHER ENVIRONMENTAL RISKS.

GREEN ALTERNATIVES ... BOGUS & DISMAL FAILURES (Web-Page)

<http://wp.me/P1jq40-24g>

Falconer Is Wrong About Public Support !

The public DOES NOT WANT PESTICIDE BANS.

A recent POLL conducted by Canadian Consumer Specialty Products Association (CCSPA) showed that the VAST MAJORITY of residents in British Columbia are OPPOSED to the PROHIBITION of conventional pest control products, and they actually FAVOUR the continued use of these products around their homes and in public green spaces.

NORAHG

According to another recent Ontario poll, MORE THAN HALF of Ontario residents believe that the provincial government DID NOT DO THE RIGHT THING by implementing Anti-Pesticide PROHIBITION.

Ontario residents WOULD RATHER HAVE THE BAN SCRAPPED OR MODIFIED.

THE PUBLIC DOES NOT WANT PESTICIDE BANS (Web-Page)

<http://wp.me/P1jq40-2bo>

Falconer Is Wrong About Other Jurisdictions !

In order to somehow validate their position, Anti-Pesticide Activists like Falconer PROCLAIM that other jurisdictions, especially in Eastern Canada, have imposed some form of PROHIBITION against the use of pest control products in the Urban Landscape.

What they DO NOT TELL THE PUBLIC is ...

- The Anti-Pesticide PROHIBITIONS in Eastern Canada are CONTRIBUTING TO GREAT CONFUSION, and are leading to MAJOR PROBLEMS with compliance and enforcement.
- The BASIS FOR ACTION taken in Eastern Canada was CONFUSING and INCONSISTENT.
- PESTICIDE BANS ARE A FARCE. Residents are obtaining products either from other provinces, or mostly from across the border in the United States. It is NOT illegal to own or possess these products, only to apply them. The mis-use of products remains — thanks to PROHIBITION. No jurisdiction in Eastern Canada has EVER enforced PROHIBITION by going after residents.

KILLEX FOR SALE TO EVERYONE (Report)

<http://wp.me/p1jq40-4mS>

- Recently, the Government of Quebec was UNABLE TO VALIDATE its Anti-Pesticide PROHIBITION, and was HUMILIATED into making a

NORAHG

STATEMENT saying that pest control products like 2,4-D DO NOT POSE AN UNACCEPTABLE RISK to human health or the environment.
